Evidence that the war in Ukraine and Russia was scripted, and Drama to cover up a premeditated epidemic. Evidence of this is that the wars in Russia and Ukraine have covered up the suffering of innoc civilians, the victims of the planned coronavirus pandemic, and the deaths of civilians from the side effects of genocidal vaccines.

Report of the Preplanned Pandemic and Preplanned War to Divert the Peoples and Cover-up the Truth about the vaccines that causing Deaths and Incurable Diseases

INDEPENDENT REPORT AND RESEARCH OF THE CRIMES AGAINST HUMANITY and GENOCIDE

Independence of Court, Justice Independent, and Justice in Equal.

COURT

JUDGES

Independence of Court and Judges distinct from the Government is Very Important.

Every Judges Need to Pledge to Protect the Justice. No Corrupt Politicians or Political Person Interfere or Influence the Independent Court or Independent Judges.

An independent court and judges should avoid association with a politically connected NGO for any reason.

Because this type of judicial partnership with Politically Influenced Corrupt NGOs leads to a loss of public confidence in the judiciary.

Every public has an independent right to criticize the court or judges.Every Court and Judges needs to Follow Independent and Universal Human Rights.

Courts or judges should not threaten anyone, especially the public.

No court or judge should be intimidated by anyone or corrupt politicians or rich people to change the verdict or course of the cases. If they Threaten the Court or Judges It's Unacceptable and Against the Nature of Law and an Unforgivable crime by Corrupt Politicians, Rich Persons, or Anyone.

Note: In The Basics of Nature, the Poor People never Threaten anyone. Only Corrupt Politicians and Corrupt Rich Peoples are doing these types of Heinous acts.

Court or Judges must need to protect innocent victims of Evidence from being threatened or bribed by the accused or convicted criminal.

Court or Judges must need to accept the request of the victims.

Courts or Judges need to provide free help to the victims or poor people without any partiality or discrimination. That Help is like Providing an Advocate. That Advocate should be protected and argue only for that poor people until justice provides equality without any discrimination or partiality.

Because in today's era corrupt rich people are politically intimidating courts and judges with money and political power. Those corrupt people change judgment by those corrupt power and money. Judges are being Threatened, Spied on, and Blackmailed.

Rakhesh Jaghadish L

03/Septemper/2022

Judges need to create their own Defense or force, that defense needs to be politically independent, and need to protect Humanity.

Because when it comes to genocide or Bioterrorisim Conpiracy Plots or Anything against public peoples. If any corrupt politicians or rich people try to conspire against the public or indulge in terrorist activities, the security forces under the control of an independent court should be used to monitor and foil the conspiracy. Those who conspire against the common people should be punished.

Genocide or crimes against humanity must be prevented before they occur.

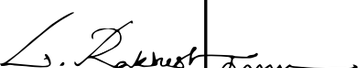

If genocide or crimes against humanity take place by the politically corrupted rich, or anyone in this world, if the courts perceive the grounds or possibilities of occurring.

In order to protect innocent civilians or citizens or common peoples or public peoples from genocide or crimes against humanity, an independent court should voluntarily come forward and prosecute such crimes against humanity or Genocide Crimes.

Nature of Human Rights

HUMAN RIGHTS

Rakhesh Jaghadish L

03/Septemper/2022

HUMAN RIGHTS VIOLATION

Human rights are part of every human being. Those human rights are inalienable natural rights and human rights are fundamental pillars for dignity, peace, and equality. And Human Rights are Fundamental Elements of being human. Everyone should protect human rights and respect others equally. Being with Humane is the first step to being human. Violating Human Rights is an Inhumane act.

1. Everyone is Born Free in Nature and Everyone has the Right to Equality, Everyone has Equal Rights.

2. Everyone has all rights and freedoms without any discrimination.

3. No one has Rights to Snatch Human Rights for any Reason. Because Human Rights are Natural, Not Snatchable, and Inalienable.

4. Everyone has all Rights and Freedom without hurting any others, without any distinction or discrimination in the name of race, birth, property, status, language, religion, caste, color, gender, or nationality, and all rights should protect without any distinction.

5. Politically, no one should be treated harshly, cruelly, or brutally. Every brutal act is Inhumane.

6. No one Should be treated as a slave. Enslavement is Crime Against Human Rights.

7. Every claim, request, or Belief should be considered and respected under Human Rights.

8.Everyone has the Right to Life, liberty, and Security. Everyone Should be Treated Equally..

9. Everyone has the Right to Freedom of Speech, Freedom to Independent Research, Freedom of Opinion, and Expression, Freedom to Report, Freedom to Share Knowledge, Freedom to Protest, Freedom to Question, and Freedom to Criticise.

10. Everyone should be considered equal before the law. No one Should be treated above the law or Below the Law. Everyone Should be Treated equally by the Law. Everyone Should be Protected by the Law.

11. Everyone has Rights to a fair and public hearing by the Independent Judiciary.

12. Everyone has the Rigth to Freedom of thought, conscience, and religion.

13. Everyone has the Right to choose their Religion, and Nationality.

14. Everyone has the right to decide on a peaceful resolution.

15. Everyone has the right to Speak the Truth. Nobody should be Politically Threatened for Speaking Truth.

16. Everyone is a Human Being on this Earth. No one Should be Treated Inhumanely.

17. No one Should be Tortured Psychologically or Physically.

18. Everyone has the right to equal access to public service in his country.

19. No one should be forced for Anything for Any Reason.

20. Everyone has the right to education. During the academic term, Everyone Should be taught human rights and humaneness.

Created: Thursday, August 25, 2022, 1:12:51 AM

The potential for global genocide and the person or organization involving in the genocide.

COURT

Rakhesh Jaghadish L

03/Septemper/2022

JUDGES

The potential for global genocide and the person or organization involving in the genocide.

1. The Common People were never involved in the Genocide.

2. Global genocide only happens because of global corrupt regimes There is a context where it only happens because of corrupt dictatorships, corrupt people's representatives, or corrupt institutions like the World Health Organization, the NIH, or something.

3. Global Genocide happens with the ties of every country's corrupt representatives like Corrupt presidents, prime ministers, kings, queens, militaries, bureaucrats, hospitals, pharmaceutical companies, media's, and Corrupt Rich people. In now a days every country has corrupt leaders.

4. If we take the Pre Planned Coroanvirus, The Genocide Occurs by the corrupt representatives above mentioned in this article No. 3 and No. 2.

5. Whenever there is a global genocide, they will use the media to brainwash the public peoples.

6. They will use something that didn't exist or didn't happen in the first place and makes people feel or create the appearance that there is something that does not exist.

GOVERMENT

POLICE

7. In this case, they used the word called COVID or Coronavirus to convince the peoples, to make people believe, and create the appearance that something exists that does not really exist.

8. The above article No. 7, In here they used the Media to create the appearance that virus is emerged or occured. They used the COVID or Coronavirus as word to Maipulate and Brainwash Peoples. But Really the Virus Dose not Exist Naturally. Read Below Article No. 9.

9. The COVID 19 Coronavirus is Real and Also It is Transmissible. But here first they made the appearance and made people believe that COVID 19 exists and has emerged. Then How the Virus spread to the Worldwide? Read Below Article or Paragraph No. 10

10. After they Created the Appearance that the COVID 19 is Virus, and That Virus will kill Humans and is Transmissible. After Creating the Appearance or Illusion about virus. They Increased the Deaths Counts and created Panic among the Public Peoples that the Virus is very Dangerous through the media. In Reality, After Creating the Belif Among the Public Peoples.

11. They created the Guidelines to stop spreading the Virus like implementing sanitizer, Social Distance and Mask and also they mandated the Guidelines. And Imposed the Same Guideline Worldwide among the Public Peoples.

12. After, They Spread the Information about Vaccine through Media, that the vaccine is Safe and Effective and they urge peoples to get vaccination.

13. They also forced the people to get vaccines, They used celebrities like actors, through songs, Doctors Dances, and Familiar Persons to get Public Peoples Vaccination. Those Celebrities have Promoted Ineffective Vaccines, Brainwashed the people, and Urge People to Get Poisonous Vaccine. Those Vaccines are causing Incurable Side Effects.

14. Claim is that the Vaccine causing diseases and vaccine is the virus.

15. After the Vaccination more Peoples Got Suffered from the Side Effects. Many Peoples Died from the Vaccination.

16. Those Who all are Speak Against the Vaccination, Side Effects, and Government Tyranny. Those People got Politically Retaliated and Attacked by the Inhumane Government Representatives.

15. Those Who Speak against the Vaccines, Those Who Speak against the Government, and Those Who Speak against the Corrupt Politicians are all have been continuously 24/7 monitored by Corrupt Government Politicians.

16. There Many Protest erected all over the world. Those Protest were not shown in main stream media and Big Tech Media hide those Protest. Those Who Protest for their Rights are labeled as Anti-Nationalist, Terrorist and Extremist.

17. They Created the Planned War to divert the Public Peoples. They Created the Many Problems to Cover UP the Vaccine Side Effects and Vaccine Deaths.

Rakhesh Jaghadish L

03/Septemper/2022

Solution:

1. First, they need to Resign from the Position or Their position should be taken away that killed the innocent Public Peoples.
2. The all Military Heads need to Be Resign or position should be taken away that killed the innocent Public Peoples.
3. The Group of Public Peoples Soldiers or Army need to Take over them.
4. The Army should conduct independent investigations in public and Every trial and investigation should be broadcasted live to the people of the world.
5. We need to Change the Election System.
6. There is no need for anyone to rule the country for 4 to 5 years anymore.
7. If we allow these types of Psychopaths and Murderers to Rule the Country. There is no More Humankind will Exist in Future. They Will Destroy the Humanity totally from this Earth.
8. 8 months is enough to lead the country. In the 7th month the humanities exam is conducted and the people to lead the country can be selected.
9. No educational qualification is required for this exam. It is enough to be a human being, it is enough to have a conscience, it is enough to have an uncorrupted mind and heart to take the country on a good path.
10. We need to Change the Politics and Political System.
11. We Need to Remove the Politics. We need to Create the Public Service to Serve the Public Peoples.
12. We need to Change the Law. Law need to be Equal, Simple, and Efficient. Law Should be Understandable to Every Human Beings in this Earth. Law should be Protect Everyone. Law need to Protect Victims.
13. Judiciary and law should never intimidate the public.

14. Everyone Have Rights to Speak the Law. If any judge violates human rights and conscience. Those corrupt judges should be severely punished.
15. Judges don't have Rights to Snatch the Public Peoples Rights or No one have Rights to Snatch the Individual Rights for Any Reason.
16. World Economic Forum and United Nations Linked Persons or Organization Should be Banned and Labeled as Terrorists and Terrorist Organization for the Large-Scale Genocide of the World Innocent Public Peoples.

Accusation:

On Behalf of Peoples my Accusation, I Accuse, Everyone Who Permitted this Pre-Preplanned Pandemic.

1. I Accuse the Politically Influenced and Corrupt Judges, those who allowed this Pre Planned Pandemic.
2. I Accuse the Corrupt Army of an Each Country for Allowing the Corrupt Leaders to Implement Their Genocide Agenda and Also, I Accuse that for Allowing the Bioterrorism.
3. I Accuse the Corrupt Police of the Each Country. In this Pre Planned Pandemic they Threatened the Public Peoples and Beaten the Public Peoples.
4. I Accuse the Corrupt Rich Persons Who Created and Plotted this Planned Pandemic.
5. I Accuse the Corrupt Big Pharma, Health Institutions, Health Officials, Doctors, Physicians, and Everyone Complicit to this Pandemic.
6. I Accuse the Corrupt Justice System.
7. I Accuse the Vaccination, and Drugs that Causing Diseases and Deaths.

8. 8. I Accuse Each and Every Corrupt and Heartless Media for the Complicit to this Pre-Planned Pandemic and Vaccine Genocide. And Also, I Accuse the Big Tech Media for Censoring the Public Peoples those Who Speaking Truth of the Vaccines Side Effects, and Government Tyranny.
9. I Accuse Everyone Earned Profit from the Public Donations and Public Peoples Tax Money.
10. I Accuse that they earned Millions of Profit over Pain of the Innocent Public Peoples and their Deaths.
11. I Accuse the Corrupt Government and Judiciary System.
12. Those Above Accused are Complicit to the Genocide, and Murderers of the World Population and Innocent Public Peoples.
13. I Accuse the Conscience Heartless Person those who Complicit in this Genocide.
14. I Accuse Monarchy of the Britain.

Past Request to International Criminal Court

1. **On July 25, 2022,** I Emailed the International Criminal Court and CID Army of the United States Via Mail to Take Independent Investigation. But no Reply from the International Criminal Court. Because in Past International Criminal Court is Only Supporting the Corrupt United Nations.

Behavior of International Criminal Court

2. It seems to me that the International Criminal Court is just an eyewash and Puppet of the United Nations.
3. If the International Criminal Court is Distinct from the United Nations or Independence Court then Why does the International Criminal Court behave as if it were a member of the United Nations?
4. Those Who All are Involved in this Genocide need to be Get Death Penalty as per their Nations Law.

5. **The United Nations and the International Criminal Court**, **partners of shared values**, commemorate the Day of International Criminal Justice at an event hosted by Italy, 2014

There is no Till Peace

1. Since the founding of the United Nations, there has been much war, and Pre Planned Pandemic were Occurred.
2. The United Nations, World Economic Forum, Rockefeller Foundation, and The Bill and Melinda Gates Foundation, and Other Intermeshed Corrupt NGO and NPO Organizations are threat to the Present Generation, Future Generation, and Peace.

Past Bombing by NATO and Justification for the Bombing

1. Part of NATO's justification for the bombing was to end the humanitarian crisis caused by the escape of Albanian refugees from Kosovo by Yugoslav forces.
2. NATO is the Reason for Every War, So NATO Should be Banned from this World.

U.S Democrats and Demons

More War After the World War II

1. No one Can Justify the War, if they Try to Justify the War, they are the Heartless War Criminals

The U.S.'s Weapons Sales with Iraq, Iran–Iraq War

2. The United States Democrats are the Most Warmongers.
3. They train terrorists, finance terrorists, and create war themselves and then sell weapons and kill innocent public peoples, and destroy their Infrastructure and make money from it. They will create many excuses and myths to justify the war.
4. Even those Excuses and Myths are Inscrutable, and Untrustable.

Problems and Solutions – Creating the Better and Peaceful Generation

Creating the New System

Creating the New System Will Bring new Opportunity Equally to the Everyone in this Earth. The Old System Created by the World War Mongers are Really Not Came Fully to end.

If we Need to Create the New System, First We Need to Analyze the Present Situation and Problems made by the Whom.

I Analyzed Every Segment of the Old System. After World War II ends on 1954, till the Humans in the War Happening, and there is Equality among the Everyone. Lots of Contradiction and Lots of Manipulation Done by the Greedy Rich Peoples.

Rakhesh Jaghadish L

03/Septemper/2022

I’m reporting this On Behalf of Innocent public peoples of this World Public people, Human Beings who all died and Suffered and still Suffering from the ineffective vaccine, and the News Media Promoting those Ineffective vaccines to Young people’s and Kids, The Big Pharmaceutical companies Pfizer, Moderna, CureVac, AstraZeneca, and More Vaccines Companies that Causing Dangerous Incurable Diseases and Genociding to the World Innocent Public Peoples at large scale for the Greedy Profit and Useless Agenda Called “Agenda 2030” and the Useless Great Reset by the WEF World Economic Forum and It’s Members. Please We all Request, **International Criminal Court to take a suo moto cognizance**,

The ICC can start an investigation in three ways:
(a) a state party brings a case to the Court;
(b) the Court takes a suo moto cognizance;
(c) The United Nations Security Council (UNSC) refers a case to the Court. Lots of People Died and Dying by Vaccines.

COVID 19 is the Political Retaliation on the Entire Population at the World Scale. It's Pure Crime Against Humanity. They have planned the pandemic for a long time to genocide the population. But they are now Executing those Plans Without any Interruption. The Bill Gates is Just the Front Face of the Pandemic.

There are More Faces of Individual High-Profile Persons Involved in this Pandemic Genocide behind the Bill Gates. Each Government Official and Persons Elected by the Public people are Directly Involved and Doing the Genocide without any hesitation. Because the Big Dark Deep State is behind them.

The Lot of Corruption is Playing Behind. They Falsified the documents, manipulated, and Brainwashed the people to get the poisonous vaccines through the fake mainstream media narratives. People were prevented from speaking the truth, ruthlessly forced to inject poison vaccine into their bodies beyond their natural will and without their consent. Through the Blackmail, they forced the poisonous vaccine. Their Blackmails is, "If You did not get the jab / Vaccine, Your Job Will Be Snatched".

This Coronavirus COVID19 Pandemic is Fully Hoax, Fake and Planned. There is Lots of Evidence of Roaming in the Public Domain. The virus itself is a vaccine. A vaccine is not a vaccine either. Vaccine Itself a Virus. The Vaccine Spreading the Virus. This is the Inevitable Truth. Those who all are speaking against their Crimes against humanity on social media get jobs fired, censored, and oppressed. Each individual government official is involved in this Genocide, including those who are in the World Economic Forum. Those who all speak against them are being politically retaliated and Killed Mysteriously.

This COVID19 is the full face of the Corruption and Agenda of the Globalists. The WEF, WHO, and UN are Involved in this Genocide in the name of "Agenda 2030". Their agenda is about the enslavement of the entire world population by reducing the population by implementing abortions, murdering half of the population by giving poisonous vaccines, Creating War, Creating Planned Food Shortages, Creating Riots, and also Dividing the Public People’s in the name of Religion, Race, and Gender.

Present Ukraine Conflicts also not the War, It's Diversionary Proxy War, to Coverup the COVID19 Vaccine Side Effects. They are even planning to create World War 3. Whatever they profited from the millions of deaths and injuries from the vaccines. Those Profits are directly money laundered to Ukraine in the name of aid. The lockdown is also not controlling the spread of the virus.

It's Used to control the people. The Lockdown is causing dangerous psychological and physical damage to human beings. The Lockdown is Prison Policy. There is no science that the virus spread can be controlled by the lockdown. Lots of Scientific research papers are manipulated and released as the narrative to implement the Draconian Protocols in the name of the pandemic. There are lots of fundraising scams in the name of the pandemic. In the Name of COVID19 Care Funds, Covid President Care Funds, and PM Care Funds. Their Inhuman activities are a direct threat to future generations. The Vaccine Causing the Virus, Not the Virus Causing the Virus.

They are finding a way to cover up the deadly vaccine side effects in the name of polio, monkey-pox, and Sudden adult death syndrome. The Vaccine Side Effects are 100 % more deadly than natural deaths. Who all suffer from the vaccine's side effects are painful, they are really on the brink of death. There are no words to explain their pain. Because their profitable poisonous vaccine sales have damaged their entire life. Lots of parents have lost their children. Lots of Children have lost their parents. No amount of compensation can compensate for their suffering and pain. The vaccine causes lots of side effects, including deadly heart attacks, paralysis, neurological damage, Blood Clots, and more at the Young Age and Everyone.

There is no Protection, Security, and Safety for the World's Public People. There is no Protection for the World Public People. Public Peoples are Electing the Persons of Country, Those Elected Persons unleashing the police force, Beating the public people, torturing the public people, and Killing the Public Peoples. Those who all are getting the salary from the public people's tax money.

Those who are speaking against them, their tyranny, or Political Crimes are being surveillance, Mysteriously Killed, Oppressed, and Suppressed.

Everyone who speaks out against them is deliberately censored by the big tech social media. Including speaking out against their tyranny, Financial or Political Crimes being surveillance, Mysteriously Killed / Murdered, Oppressed, Suppressed, Politically Retaliated, Black Mailed, and Psychologically Tortured.

Kindly Ban the Biological Weapons, Gain of Function, and Deadly Dangerous Poisonous Vaccine. The Vaccine Causing Virus.

Acknowledgment,

The Above Statements, Information, or Comments are the Truth of my Occurrence in Real Life.

Final Comment: If the ICC / CID Investigated those individuals Independently the Future Generation will be Saved, World War 3 Will be Prevented, and There is no Future Bio War / Biological Warfare.

From the Start of the Document, I Shared the Lot's of Proof, Facts, Truth, or Evidence that Occurred Facts.

Thank You!

Yours Faithfully,

Rakhesh Jaghadish L

RAKHESH JAGHADISH L
STOPPING INDEPENDENT RESEARCH AND ANALYSIS

Rakhesh Jaghadish L
THANK YOU!

LETTER

from,

RAKHESH JAGHADISHL

To,

Everyone in this Earth.

Information / mess.,

About (world Leaders) Corrupt world Leaders
They only know only few Things,

How To divide the public peoples in the Name of Religion, color (or) In Any matter.

But they don't know How to unite the people in the Name of Humanity.

Due to Threats In stopping Independent freedom of Research on Analysis.

All Diseases are Man Made,

Drugs and Starvation are
the No. 1. Cause of Disease

Yours faithfully
and Myself Truly,
L. Rakhesh

INCOMPLETED RESEARCH and DOCUMENTATION DUE TO THREATS

RAKHESH JAGHADISH L

I ALREADY EMAILED ON JULY 2022, 25 THE INTERNATIONAL CRIMINAL COURT and ALSO CID ARMY OF UNITED STATES BUT NO REPLY FROM INTERNATIONAL CRIMINAL COURT ANY SIDE.

THEY ALL TRY TO HIDING

WHERE IS FREEDOM OF RESEARCH AND DOCUMENTATION?

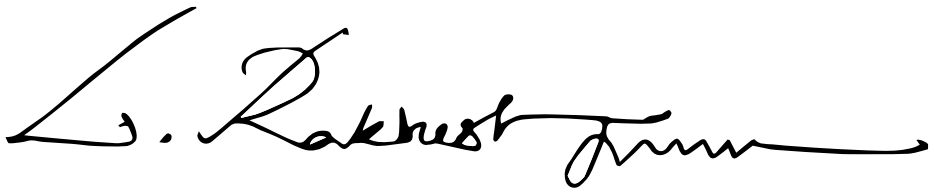

I WAS DESIRED TO PUBLISH FULL REPORT

OVER MORE THAN 1000 Pages. DUE TO THREAT I’M STOPPING MY INDEPENT RESEARCH AND ANALYSIS

I TRIED TO BE CONFIDENTIAL IN THIS MATTER. BUT DUE TO THREAT I'M INCOMPLETING MY RESEARCH AND ANALYSIS.

SO, I'm DIRECTLY RELEASING IN MY WEBSITE

https://www.stopglobalgenocidecrimes.org/

I DON'T HAVE FEAR, I'M READY TO DIE. THEY WILL KILL ME.

Indirect Threat to Me

Rakhesh Jaghadish L, 24 08 2022

Incident 1:

I Emailed anonymously the Crimes of Jaggi Vasudev on January 16, 2022 through the Email, including about the Scandal of the Coronavirus Funds to the DOJ Department of Justice United States, Tamil Nadu Chief Minister M K Stalin, Tamil Nadu Forest Department, White House, POTUS Joe Biden, 500+ Media I think, and Also Washington Post.

Note: And Also, I emailed to Former Twitter CEO JACK Through the email about the farmers issues on December month 2021, I Think December Month. My Original Twitter account was Unlocked by Twitter @RakheshJaghadis on January 1, 2022. I Got the Unlock Notification on my mail from the Twitter.

I Did not even Added my Phone Number on that Twitter Account.

After, few days I Tweeted against the Vaccines and Coronavirus.

A day later, Twitter asked me to verify my Twitter account and asked for my phone number for verification. I added a phone number for Twitter verification.

After, I Felt Something is Not Correct. I Accuse that Twitter was Leaked my Phone Number to the RSS BJP Politicians and They Leaked my Phone Number to the RSS (Rashtriya Swayamsevak Sangh) Terrorist Mobs.

RSS train RSS mercenary gangs and engage in such activities to threaten civilians like me who speak the truth for and against them.

RSS contains rapists, criminals, and genociders. The main agenda of RSS is to create division and riot among people in the name of caste and religion.

The RSS was banned once during British rule, and then thrice by the post-independence Indian government. Nathuram Godse who killed the

Freedom Fighter Mohandas Karamchand Gandhi on January 30, 1948. Godse joined RSS in Sangli (Maharashtra) in 1932. Nathuram Godse was trained by the RSS Terrorist Group.

If we take India's past history, the only mob that has instigated many riots is RSS.

Incident 1.1:

After my phone number leaked, I Got Some SMS Messages Unwantedly from the Philippines, the RSS BJP States like Bihar, Gujarat, and Some.

In between My Gmail Account was Attempted to Hack. After I Deleted my Gmail Account.

On February, I Changed My Twitter Name From @RakheshJaghadis to @SevenRakheshJag

Here Below I Attached the Phone Numbers.

These are the Phone Numbers I Received SMS Messages,

+639359806536 Philippines

+917633065860 IN - BJP RSS LINK

+918530883719 CEAT - BJP RSS LINK

+918453849667 IN - BJP RSS LINK

+916353560604 IN - BJP RSS LINK

+916002889340 IN - BJP RSS LINK

SMS MESSAGE: VM-HDAAA

Dear Sir, we have All you need is a mobile Phone.

Get a Profit of 2000 - 500,000 Rs. per day. Please Contact now: WhatsApp Me: +919146005532 GOLDEN PHARMA

Incident 2:

On the Same Night, In Between 6 to 7 O' Clock I Think, My Parents Got a Call on the phone from Someone, they asked my Parents “Is Your Son is Doctor?”.

My Parents Said to them, “Not”

Incident 3:

On the Same Night, The Electric Current Cut off on my Street Line, near my Street, there is also one Transformer, in this Action, I Analyze and Accuse that there must be three persons involved in this Incident. Those Persons are Workers of the Tamil Nadu Electricity Board Influenced or Controlled by Corrupt Politicians. Those Persons are Triggered by Politicians DMK and RSS BJP Regime.

One room has no power cut and some rooms had a power cut.

I know that before the power goes off, one person involved in the incident whistles in front of my house, another person cuts off the power through a nearby transformer and turns it on after a while, then turns it off again and turns it on again.

After the Email Incident, the Above Incident daily happened whenever I Tweet Against the Vaccines and Coronavirus.

I Also Accuse them they Used the Mobile Service Van with facility of the RF Limiters, which means Radio Frequency Limiters.

Because whenever the whistling incident happens my WiFi Signal Will Goes Down, and They Interfere with my WiFi Signal to Hack my System. Sometimes my WiFi Signal Get lost.

Incident 4:

After Every Day this Incidents Happened to me. I Can't Even Be Peaceful, because they daily whistle in front of my home, and Cut off my Electric Current.

Including Whenever I Tweet Against the Vaccination and Coronavirus.

After Every Day this Incidents Happened to me. I Can't Even Be Peaceful, because they daily whistle in front of my home, and Cut off my Electric Current. Their Actions Really Disturbed me and Really as a Human Being I Can't Even Sleep well at Night. They Did not Even Have a Conscience.

They did Spy on me totally for more than 9 months from December to Till August. And Till now. Even whenever I go out.

Incident 5:

After I sent an email to over 500 people, Prime Minister Narendra Modi told to the media that someone has tried to tarnish India's reputation internationally.

Incident 6:

In February 6, 2022, My Novecore Account was Hacked by the Hackers. I Accuse that they were Indian, or Russian, or United States or United Kingdom Hackers.

Because they hacked my account, it was illegal, because if they really had legal knowledge, they would have asked Novecore legally.

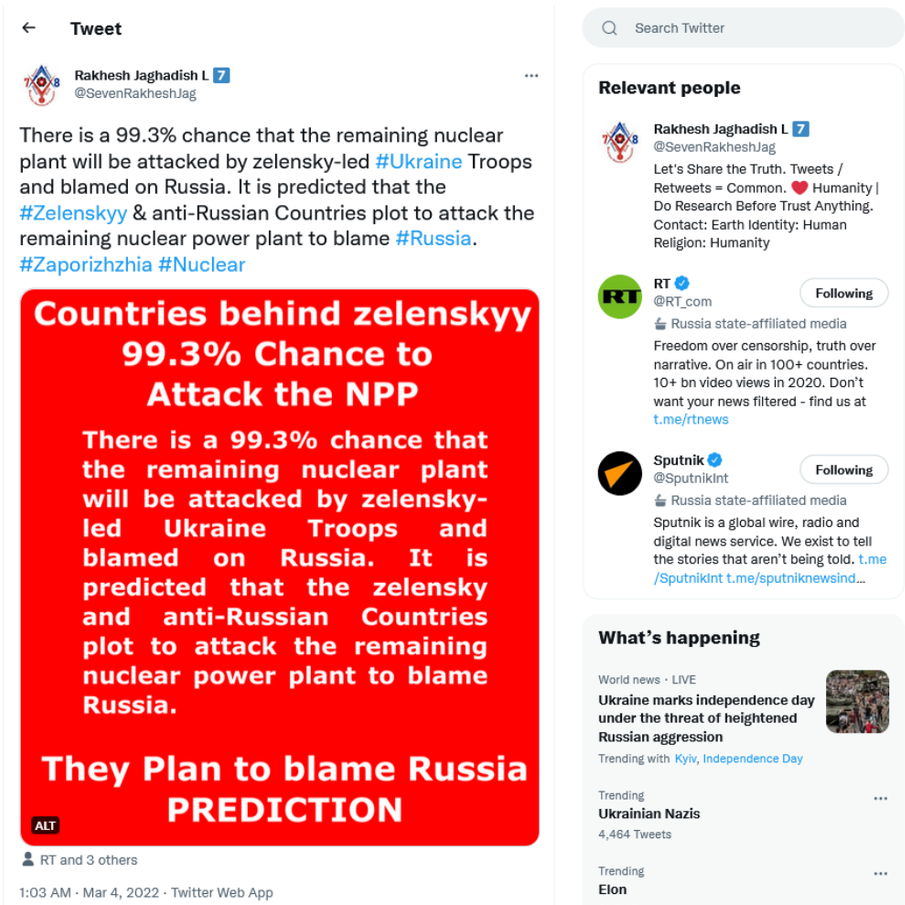

This Hack Happened Before 13 days after the Munich Security Conference (MSC) held from February 18 to 20, 2022. Yes, My Email is the Reason for the planned war between Russia versus Ukraine.

This Hack Happened Before 19 days after the planned war between Russia versus Ukraine.

Incident 7:

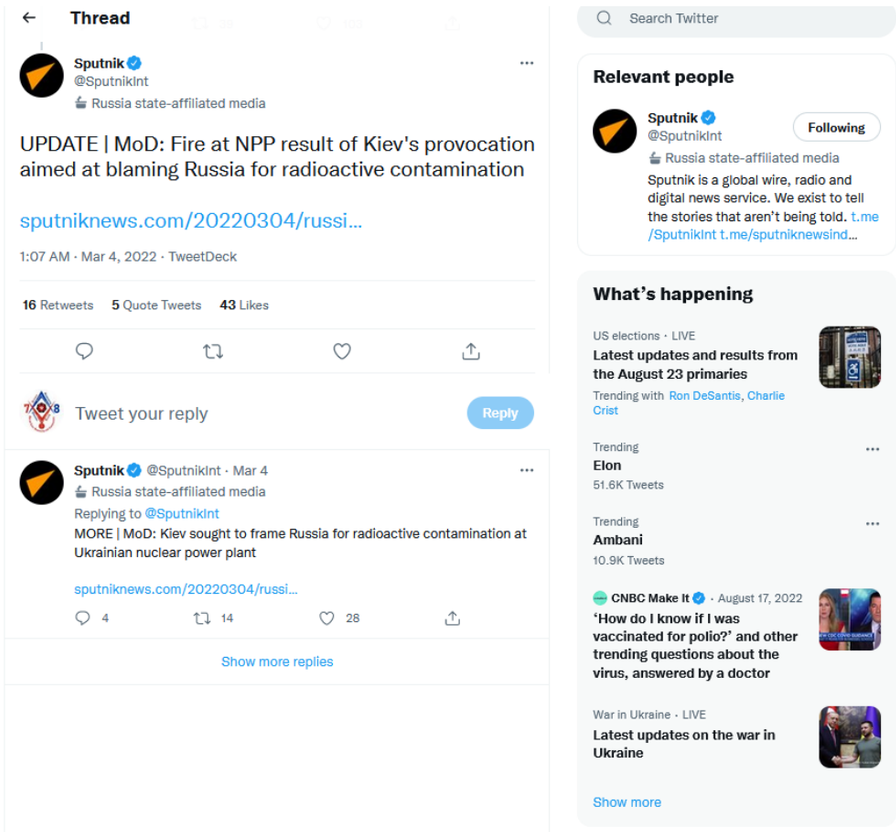

9 days later when Ukraine war against Russia, On March 4, 2022. I Tweeted about the NPP Zaporizhzhia, That Tweet is,

There is a 99.3% chance that the remaining nuclear plant will be attacked by zelensky-led #Ukraine Troops and blamed on Russia. It is predicted that the #Zelenskyy & anti-Russian Countries plot to attack the remaining nuclear power plant to blame #Russia. #Zaporizhzhia #Nuclear. - @SevenRakheshJag

4 seconds after my tweet, @SputnikInt saw my tweet and the same what I tweeted about NPP and they used my tweet to extend this war.

Below Tweet Shows the @SputnikInt International Tweet on 1:07 AM, March 4, 2022.

Zelenskyy also not Genuine. The World Corrupt Politicians are Playing together to cover UP vaccine side effects and Vaccine Deaths and Genocide.

Because, this War is Planned before the February 24, 2022. The media portrays it as a fight between Russia and Ukraine, but in reality, all the corrupt leaders have the same policy called Agenda 2030 and The Great Reset.

Really this Total War is Planned Well Planned.

All Wars are Trying to Cover up the Vaccine Deaths.

War is created to mask one problem over another by distracting people from knowing the truth.

We all Living in the Illusion.

Incident 8:

On After Russia Versus Ukraine War Started, On February 24, United States Provoked Ukraine Started Destroying Document including about the Bio Labs.

US Biolab agreements documents were deleted by the US Embassy in Ukraine website server. After they were Caught They Reuploaded the Documents.

During the war about Biolabs of the Ukraine were came out. Before the War clandestine twitter account reputedly Tweeted about the Ukraine Biolabs.

Because this War is Pre Planned. They created the Reason for the War and extended the War. Now Planned war continuing without any peaceful negotiation.

They Trying to Cover up the Bio labs as Conspiracy theory after the @WarClandestine War Clandestine Twitter Account try to Reveal the US Biolabs.

While Russia has peddled false claims about U.S. biolabs in the past.

This is taken from the https://www.politifact.com/, Controlled by the Bill Gates, WEF World Economic Forum Young Global Leaders and United States Politicians,

PolitiFact Published the Article on February 25, 2022, that article says, there are no US-run biolabs in Ukraine, contrary to social media posts "@WarClandestine"

There are no U.S. military-run labs in Ukraine, said Andy Weber, a member of the Arms Control Association Board of Directors and a former assistant secretary of defense for nuclear, chemical, and biological defense programs.

"Rather, the U.S. Department of Defense Cooperative Threat Reduction Program has provided technical support to the Ukrainian Ministry of Health since 2005 to improve public health laboratories, whose mission is analogous to the U.S. Centers for Disease Control and Prevention," Weber told PolitiFact.

On March 8, 2022,

Sen. Marco Rubio (R-FL), hoping to debunk growing claims that there are chemical weapons labs in Ukraine, smugly asked Nuland:

> Does Ukraine have chemical or biological weapons?

Victoria Nuland:

Ukraine has Biological Research Facilities which in fact we are now quite concerned Russian troops Russian Forces maybe seeking to gain control of so we are working the Ukrainians on how they can prevent any of those research materials from falling into the hands of Russian forces should they approach.

Sen. Marco Rubio (R-FL): I’m Sure you’re aware that the Russian propaganda groups already putting out there all kinds of information about how they’ve uncovered a plot by the Ukrainians to release biological weapons in the country and with nato’s coordination. If there is a biological or chemical weapon incident or or attack inside of Ukraine is there any doubt in your mind that 100 percent it would be the Russians that would be behind it.

Victoria Nuland:

There is no doubt in my mind senator and it is classic Russian uh technique to blame on the other guy what they’re planning to do.

Incident 6:

A few days later, I joined a new course. Whenever I go to my place of study, a mobile service van accompanied me to my academy to spy on my place of study.

Everyday They Follow me and Spy me.

Incident 7:

After on February 6, My Social Media Account

After Every Day this Incidents Happened to me. I Can't Even Be Peaceful, because they daily whistle in front of my home, and Cut off my Electric Current. Their Actions Really Disturbed me and Really as a Human Being I Did not Even Sleep at Night. They Did not Even Have Conscience/.

Tweet on 24 08 2022

It is better for everyone not to do such cowardly acts. If not you will all be included in my report.

நீங்களாக உங்கள் தலையில் மண்ணை அல்லி போட்டுக்காதீங்க. எனது அமைதி உங்கள் சுதந்திரம். என்னை சீண்டிப்பார்ப்பது கொரோனாவின் முடிவாக இருக்கும்.

Don't put dirt on your head yourself. My peace is your freedom. Sneezing on me will be the end of Everything.

On 24 August 2022,

Politicians and corrupt people are trying to steal my identity and my family's personal details from my close ones. Corrupt people are asking my father's Aadhaar card numbers through acquaintances of my father.

About this Document

No one funds this Document, and Without Support as Single Person, I Would like to share what I learned with this World. This Document is Not to Blame Anyone or to Hurt Anyone. The scope of this Document is Only to Share the Truth with Everyone. With My Hard Work, I Prepared these Documents and Retrieved the Evidence for Analysis Purposes.

I Learned Lots of things about Each Issue that occurred. And Also, I Fetched my Solution Here to Solve the Issues.

I Hope You Read this Document Fully and protect this Earth's humanity.

I have attached Reference Links and Sources of Incidences Occurred.

I Can't Judge Anyone, Because I'm not a Judge. I Can't Investigate Anyone, Because I'm not an Investigator. I Only Question, Because I Have Rights as a Human.

I Hope International Criminal Will Take this Issue Seriously and Solve the Problem In the Future; the Unbreakable Law Must prevent these types of Issues.

We Hope the International Criminal Court will Take this Crime Against Humanity and Genocide seriously. When Judge is Corrupt, His Verdict Will be Corrupt. We Hope ICC Will Take Action Against Those Inhuumanes'.

Thank You!

About Me

I'm Born in a Corporate environment. I’m a Human Being on this Earth. I am not using Social Media for Publicity or Anything for Personal Gains Over Others Pain like Big Pharma. I Deleted my Facebook and Other Social Media. But I'm Currently using Twitter to share the Truth., I don't have any Intentions; I don't have Any Link with Any organizations or High Profiles. I'm Just one of the Common people.

Due to Indirect Threats
I’m Stopping My
Research Sorry.
I Don’t Have Real
Freedom Here, I
Found Lot of Things.
Here No one is
Human.

TO INTERNATIONAL CRIMINAL COURT

ENGLISH LANGUAGE

41. After those Unwanted SMS Messages, I Did not Feared and Also, I Not Worried.

42. After on the Third Week from the After Joined College, I Written the Internal Exam. Those Exam I Was Written as Open Textbook Exam.

43. On February 17, 2022, Bill Gates visited Pakistan on Thursday, meeting with Prime Minister Imran Khan in the Name of Polio Eradication.

44. On February, On the Third Week, Munich Security Conference 2022 was held from Feb 18, 2022 – Feb 20, 2022. In that Conference the Bill Gates told that "Sadly the virus, itself particularly the variant called Omicron is a type of vaccine

45. Russian President Vladimir Putin attended a meeting with Pakistan Prime Minister Imran Khan on February 24, 2022 in Moscow, Russia, On February 24, The Russia Versus Ukraine War exploded in the Name of Military Operation. Before War Started. In Before from the January 20, 2022, The Information's of Biolabs in Ukraine was Started Spreading in the Social Media and Media.

46. On March 4, 2022; REFER [redacted] DOCMENT: [redacted] 2022.

47. After the Days Passed, every time When I Go to College the Mobile Service Van were came along with me to hack my Electronic device, Whenever I Tweet Against the Vaccines and Coronavirus they Cut off the Electricity Current in my Home and Also In College. I Found, One Person Follow Me with Bike and Vehicles Stickered with TNEB (Tamil Nadu Electricity Board). My Wi-Fi will Signal Get Lost, Sometimes, because they Used the Radio Frequency Limiter.

48. They Started Trying to Collect my Data in Illegal Way.

49. Once the Hackers will Hack Any Device they can See the Camera, and They Can Transfer the Data, and They can Hear the Audio from the Surrounding from the Hacked Devices.

50. On Before 26, March 2022, My Mom Had Cough for Few Days. I Told them to Go to Hospital. My Mother Went to Hospital for Checkup. My Mom Told, in that Hospital, They Injected Some Yellow Color Drips. After that Injection, My Mom Health Condition was Very Worst after that Yellow Color Drips.

51. After My Mom Came to the Home from the Hospital, I Asked them What the treatment was given by the Hospital.

52. On That Day After I Discussed about the Medication to my Mom. The neighbor of the old house where we lived, His name is Sundar, First I Taken the Call, I Gave the Phone to My Mom, He Asked by Mom, He asked, Is your body was fine? I Don't Know How he Know that my mom health Condition not well. Because How He Know. Because This one type of String Operation. The Hospital Gave the Wrong Treatment Intentionally, [redacted]

53. I Was Continuously monitored by the Corrupt RSS BJP Politicians. Because I'm Speaking Against the Vaccination, and I Emailed to the Human Rights on January 16, 2022. BJP has Illegal Power to Hack Any System. They Have Pegasus. Even they Control all the Departments. They Currently Doing the Genocide of the World Population in the Name of Pandemic and Using Vaccination.

54. After my Mom gone to the Hospital for the Again on In Between March 29, 2022 to April 9, 2022. My Mom Told me that they Injected the Same Yellow Color Drips in the Body and Urine was Came in Yellow Color. After the Report Came that the [redacted] Hospital Doctor Told to my mother about the Report that "I Think You may have Intestinal Tuberculosis".

55. That [redacted] Hospital recommended [redacted] Hospital. My mother went to check for tuberculosis. Even in that Hospital They Injected the Same Yellow color Fluid Drips into the

Body. After the days Hospital Confirmed that my Mom Have Intestinal Tuberculosis.

56. They Given Drugs for to Treat TB.

57. Something I Felt Wrong, That I Was Being Monitored by the Corrupt Peoples. And Also Analyzed that the Both the Hospitals Have given the Wrong Treatment. They Try to Rob our money, Not to Give Cure for the Any Diseases.

58. I Told my Mom to go to Another Hospital. They Went to the [redacted] MEDICAL CENTER. I Told My Mom that, After Went to the Chennai Hospital, Go and Tell to the Doctor that they Injected the Yellow Color Drips. I Was Suspect that may be the yellow color Drips was reason for the Kidney Damages.

59. After My Mom Told Everything to that Doctor, After That Hospital Treated, That Doctor Told They Gave the Heavy Dose of TB Tablets. Then They Tried to Give Less Dosage of TB Tablets to Check. They Take the LFT Test, The Result Came that Kidney Functioning Fine. Then My Mom Came to the Home.

60. Then After Days Passed, On During the March 2022 4th Week, I Written the Model Examination.

61. When I write an open exam, a mobile service van follows me, arrives at the college, hacks my device and Wi-Fi signal, and disconnects the room's electricity.

62. On March 9, 2022, I Requested the Elon Musk Via twitter to Create the Open Source Social Media Non-Governmental Independent Social Media. I Did not even Expected that he Will Announce After He will announce the Takeover of the Twitter after Seeing my Tweet. My Twitter Account Was being Monitored by the Some Peoples, Including, Pope Francis, Joe Biden, and Russia.

64. On June Final Week, Someone Called my Father Phone and Asked about where Your son is Studying. My father Told him that I was Studying in the [redacted] College. After I Got my Father Phone and I Asked him Who are You? and What is Your Name? He Cut the Call.

65. Then I called again and asked for his name. They hesitated to say his name. I Asked Why are You asked my details? He told that he asked my details For Scholarship from the NLC Neyveli Lignite Corporation. After I Asked his Name, He Feared to Tell His Name. After I Called again through the Phone, and Asked his name, He told me, why are You asking my Name, Don't Call me Like this in Phone. He Cut the Call. After I Searched in the True Caller. I Found his name is Palanivel Malar. After I Called my Father Friend and Asked About Palanivel Malar, He Told he is Working in the NLC. I Asked my Friend of my Father that there is Any Scholarship for the Master Degree. He Told Me There is No Scholarship for M.E. Now I Understand that NLC Corporation was Controlled by the RSS BJP Government. They Stealed, and Leaked my Identity to others.

Meanings:

Threatenerers – Who Threatening to others, or Group of Peoples threating the Persons

Overview

My Actions and Indirect Threat to Me by Them

I think I First Joined Twitter on August 5, 2021.

I used Twitter from September *, 2021 Account that User Name is @PlatinumMusic7. I Tagged the Kamala Harris and Requested her to Support Farmers and Protect and Save Democracy in India. After Modi Visited the United States on September 23, 2021. On That Visit, Vice President Kamala Harris criticized Modi.

I Got Suspended for speaking Truth one time. I used another account from November *, 2021 to January 17, 2022, called @HumanRightsPeop. Using that account, I Tweeted Against Jaggi Vasudev and Supported the Farmer's Protest.

@HumanRightsPeop: On January 16, 2022, I Uploaded the Letter Against Jaggi Vasudev on Twitter. After that day,

I Tagged many Peoples.
In addition, I sent a Report about Jaggi Vasudev to many officials.

I emailed the report to the Tamil Nadu Forest Department, the United States White House, President Joe Biden, Vice President Kamala Harris, human rights organizations, the United Nations, UNICEF, the United Nations Drugs and Crimes, Canadian Prime Minister Justin Trudeau, the Chief Minister of Tamil Nadu, and more than 500+ others.

I anonymously emailed the Document as a PDF and That PDF Metadata has my Name. So, using that metadata they may have found my Name.

On the Same Day After I emailed, someone called my parents on the phone and asked them, "Is Your son is Doctor" My Parent Told that Person ", Not."

After the Next day, On January 16, 2022, I Deleted my Twitter Account and Other Related Accounts to that Twitter Account.

Then days passed and PM Modi spoke to the media after the email I sent to the officials, media, and human rights organizations he says "Somebody tried to tarnish India's image at International Level".

After I Started using my original Twitter account username called as @RakheshJaghadis and Also, I Renamed After into @SevenRakheshJag.

After days passed and on February 6, 2022, I Got Data Breach Notice from Novecore Music Account. That is 13 days before the Munich Security Conference. I received a new data breach notification.

I know that my Twitter is Continuously Monitored after I Sent the Email to them. Whenever I Tweet Against COVID-19 and Vaccines, I think that the Government Electrician Worker of the TNEB – Tamil Nadu Electricity Board, That Worker turns off my Street and Home Electricity Line.

They Tried to Make me Fear. They continue to harass me like this because I sent a complaint email.

Then the planned war between Russia and Ukraine began on February 24.

Before they plan the War. I'm Predicted that Something Planned War Will Come.

And Also, I Known They are Trying to Cover UP the Vaccine Side Effects, Vaccine Deaths, and Their Mistakes and Crimes.

My tweets through Twitter changed the course and path of the planned war. My tweets Saved the Ukraine People from Being Killed in that War.

I Tagged the Russian Affiliated Media on Twitter and I Just changed the Course of the Planned War on March 4, 2022.

Then on March 9th, I made a request via Twitter to Elon Musk to create an open-source social networking platform like Twitter.

Then days went by and every time someone whistled in front of my house, my street only got blackout. I know who they are. But I remained silent. I also found myself being followed whenever I go out or go to college. I also found hacking my computer by hacking through my mobile using a mobile service van. This is Pure Espionage and Spy.

Then the college exam took place. I saw and read a question in a questionnaire. That question is,

“Show that the hypothesis, "If you send an email message, then I will finish writing the program", "If you do not send me an email message, then you will go to sleep early" and "If I go to sleep early, then I will wake up feeling refreshed" lead to the conclusion "If I do not Finish writing the program, I Will wake up feeling refreshed" using rules of interference for the proposition.”

The Above Question is About Email, and It’s Clearly Shows me they Trying to Disturb me.

This is Telling that this type of Actions Will Happens If anybody speaks against the Tyranny and Genocide done by the Government's Corrupt Politicians.

If anyone is speaking against their tyranny and the Genocide of the Corrupt Politicians. If anybody did not succumb to corrupt politicians. They Will get Spied on, and They Will be Harassed and Murdered. Corrupt Politicians think they are Above the Law.

Because every corrupt politician in this world has his own minions, henchmen, and thugs.

Because every corrupt politician has their own minions, henchmen, and thugs in this world to threaten the Public people, Activists, Journalists, and judges when they are against Crimes, tyranny, and Genocide.

If the common poor people want to get justice, they have to fight to get it. But neither the corrupt rich nor the corrupt need to fight for justice. They just manipulate blackmail bribe the judges and corrupt policemen and escape.

Jaggi Vasudev is the Best Example Here. Jaggi Vasudev Murdered his Wife on 1971. After he burned her body into ashes. Cover up the murder, bribe the Policemen to Change and manipulate the First Information Report, and Escaped.

Now Jaggi Vasudev has been Supported from the International Level. United Nations is Supporting this Criminal Murderer.

On January 23, 1997, Jaggi Vasudev Killed his Wife. Now it’s 2022. 18,836 days passed which means 51 years, 6 months, 27 days passed in other words 618 months, 27 days. But Till still Jaggi Vasudev is not Properly Investigated by the Court and the Law.

Jaggi Vasudev, who had murdered, burned and killed his wife, is roaming freely around the world without any guilt and without hesitation.

In Hindu or Yogic traditions, mahāsamādhi, the "great" and final samādhi, is the act of consciously and intentionally leaving one's body at the moment of death.

He Just Explained his Wife’s Death as “MahaSamadhi”. Mahasamadhi is the Wrong Belief of the Hindu Religion. There is nothing like Mahasamadhi. Mahasamadhi is the superstition.

At a yoga training centre run by Jaggi Vasudev, he sells some items to the idiots who come to learn yoga there. He says that the object has the power of God.

Jaggi Vasudev ISHA Foundation of USA / India has cheated many people by giving a donation receipt by email to a superstitious fool who bought a fake superstition-filled product without giving them the bill.

These types of criminals, Child brainwashers, and Murderers are using the Foundation and Tax exemption (501(c)(3) Organizations) to Fool the Fool Peoples and Collect the Donation. Some of These Types of Non-Profit Non-Governmental Organizations are in the name of donation they all convert black money or corrupt money to White money. They all use Non-Profit Non-Governmental Organizations to do This type of Money Laundering.

Here I'm not accusing all Non-Profit and Non-Governmental organizations. Here are Some good Non-Profit and Non-Governmental organizations are here. But the Bill and Melinda Gates Foundation, United Nations, and World Economic Forum like Non-Profit and Non-Governmental organizations trying to control Everyone on this Earth and Fooling the People.

They all use these types of inhumane people like Jaggi Vasudev, Dalai Lama, and Pope, fake preachers, fake pastors, fake yoga, and popes to manipulate the people in the name of religion and cast them to get the poisonous vaccination too.

All of them are using a fake mask in the name of a preacher, pastor or Buddha, or yoga teacher to fool the fool people of this word. Most people are trapped in their trap too.

Because Religion and Caste are the weapons of Fake or False Buddhists, Fake Preachers, Fake Yoga Preachers, Fake Prophets, Corrupt Politicians, and Fake Pastors who divide people, create destruction, divide them, and deceive people through their superstitions.

We Need to Before concluding whether the Pandemic is a Fake & Planned Pandemic or Real, we need to Analyze our all History from 1914 to the Present. We must analyze the past history of causes of epidemics, English medicines, and the use of mass vaccinations or Pandemic of the Mass Vaccinations.

In the past history, the first vaccination was created for the smallpox pox vaccine in 1796, Edward Jenner is considered the founder of vaccinology in the West in 1796 after he inoculated a 13 year-old-boy with the vaccinia virus (cowpox) and demonstrated immunity to smallpox. In 1798, the first smallpox vaccine was developed. Over the 18th and 19th centuries, systematic implementation of mass smallpox immunization culminated in its global eradication in 1979.

In 1800, The smallpox vaccine was introduced in the United States by Dr. Benjamin Waterhouse at Harvard University, who received the vaccine from Dr. John Haygarth of Bath, and Sommerset, who received it from Edward Jenner.

In 1935 Brodie tried an inactivated vaccine with a 10% formalin suspension of infected monkey spinal cord; he tested it first on 20 monkeys and then on 3000 California children. The results were poor, and further human studies were never conducted.

In the 1950s, The Salk polio vaccine was licensed in 1955, and polio incidence rates declined substantially in subsequent years. Salk tested his experimental killed-virus vaccine on himself and his family in 1953.

In April 1955, more than 200,000 children in five states in the western and midwestern United States received a polio vaccine in which the procedure for inactivating the live virus was found to be defective. Within days, there were reports of paralysis, and the first mass polio vaccination program had to be canceled within a month. Subsequent investigations revealed that the vaccine, manufactured by the California-based family firm Cutter Laboratories, had caused 40 000 cases of polio, leaving 200 children with varying degrees of paralysis and killing 10.

Dr. Hilary Koprowski was director of The Wistar Institute from 1957 to 1991.

In the 1950s, they created the Polio Vaccines Prepared by using the Chimpanzee Kidneys. Before using the Chimpanzee Kidneys, the Chimpanzee was Killed. After the chimpanzee was killed, they collected the kidney at autopsy and sent it to vaccine development labs in the 1950s to make a vaccine and administer it to people.

From 1957 to 1963, In 1958, Dr. Hilary Koprowski, a Polish Virologist and administered his trial vaccines to nearly a quarter million patients in the Belgian Congo.

Polio vaccines used in the late 1950s and early 1960s were contaminated with simian virus 40 (SV40), which was present in monkey kidney cells used to produce the vaccine. Researchers subsequently found SV40 DNA in biopsy samples from patients with cancers such as mesothelioma (lung), osteosarcoma (bone), and non-Hodgkin's lymphoma (lymph nodes).

The global pandemic of HIV/AIDS began in 1981 and is an ongoing worldwide public health issue. But the Main Reason of the Deaths is Smallpox Vaccines and Polio Vaccines. In the 1950s, The Smallpox Vaccines were made by the Rabbit Kidney Cells.

For AIDS Treatment, In March of 1987, FDA approved zidovudine (AZT) as the first antiretroviral drug for the treatment of AIDS.

After the AZT usage of AIDS Increased. Really there is no AIDS.

Human coronaviruses were first characterized in the 1960s.

On June 22-23, 2001 they exercised Dark Winter a fictional pandemic scenario before the 2002 – 2004 Coronavirus Pandemic begins.

On 2002 – 2004 there was a Coronavirus outbreak / Pandemic of SARS emerged.

Atlantic Storm is Another Exercise, Atlantic Storm was authored and organized by the Center for Biosecurity of UPMC, the Center for Transatlantic Relations of Johns Hopkins University, and the Transatlantic Biosecurity Network

Atlantic Storm was a ministerial table-top exercise convened on **January 14, 2005,** by the Center for Biosecurity of the University of Pittsburgh Medical Center.

The exercise was sponsored by the Alfred P. Sloan Foundation, the German Marshall Fund of the United States, and the Nuclear Threat Initiative.

On 2006 H5N1 Pandemic Emerged.

In 2009, a new H1N1 influenza virus emerged, causing the first global flu pandemic in 40 years.

In 2013, (MERS-CoV) outbreak emerged.

On May 15, 2018, Before the COVID19 they Conducted Clade X Pandemic Tabletop Exercise.

On October 18, 2019, Before 2 months The Johns Hopkins Center for Health Security in partnership with the World Economic Forum and the Bill and Melinda Gates Foundation hosted Event 201, a high-level pandemic exercise on October 18, 2019, in New York, NY. The purpose of the exercise was to illustrate the pandemic preparedness efforts, responsible decisions, and cooperation required from global businesses, governments, and public health.

In every Pandemic Begins, Before the Pandemic, they did the Exercise.

So, the above events prove that Vaccine is Causing Deaths, Pandemic is Pre-Planned, this is a Pandemic of Vaccination, and Vaccine is the Biggest Scam and Crimes Against Humanity in History.

CORONAVIRUS, THE PRE-PLANNED PANDEMIC

PRE-PLANNED WAR ON HUMANITY

Eugenics, World War I, World War II, Adolf Hitler, The Rockefeller Foundation, Destruction of Natural Medicine, Georgia Guide Stone, and Vaccines

Rakhesh Jaghadish L

Eugenics, World War I, World War II, Adolf Hitler, The Rockefeller Foundation, Destruction of Natural Medicine, Georgia Guide Stone, and Vaccines

Racial Hygiene "Eugenics"

German psychiatrists created the "racial hygiene" movement, which began with the work of eugenicist Alfred Ploetz in 1895. The idea has been traced back to the English psychologist Francis Galton, who in 1883 coined the term "eugenics," which he defined as "the science of improving the stock." [1]

Alfred Ploetz (August 22, 1860 - March 20, 1940) was a German physician, biologist, Social Darwinist, and eugenicist known for coining the Term racial hygiene, a form of eugenics, and for promoting this concept in Germany. [2]

Alfred Ploetz Alfred Ploetz founded the German Society of Racial Hygiene in 1905. However, a eugenic social agenda only gathered support after the humiliating loss of WWI, when Germans felt beset by adversaries both outside and inside their borders.

German Nazi Eugenics and Adolf Hitler's Struggle

In 1927, the Rockefeller Foundation provided funding for the establishment of the Kaiser Wilhelm Institute for Anthropology, Human Genetics and Eugenics in Berlin, duly headed by Eugen Fischer. Adolf Hitler read Fischer's "Principles of Human Heredity and Ethnic Hygiene" while imprisoned at Landsberg and used eugenic ideas in his Mein Kampf Manifesto "My Struggle" to support the ideal of a purely "Aryan" society.

Hitler and Race Hygiene [17]

When Hitler came to power in 1933, he ordered the medical community to implement a national program of racial hygiene. The first major factor was the passage of legislation in 1934 authorizing involuntary sterilization for the insane, mentally ill, epileptics, and alcoholics. ERO Superintendent Harry Laughlin's model method of sterilization was carefully modeled, and his contribution to racial hygiene was recognized with an honorary doctorate from the University of Heidelberg. The "Marriage Law" of 1935 prohibited unions between "Aryans" and Jews, as well as persons who were eugenically incompatible.

Note: Here the Hitler and The Rockefeller Foundation are on the Same Track. Lots of Human Biological Experimentation Done during the World War I and World War II, Including the Atom Bom, Nuclear and Biological Weapons.

Nazi Eugenics Psychiatry - The Beginning of the End of the World

In 1939, when World War II broke out, approximately 400,000 people were sterilized. However, in 1940 the need for a bed for the wounded led to a "final solution" to a "life not worth living". Psychiatrists and doctors have identified more than 70,000 psychiatric patients with carbon dioxide poisoning at the psychiatric hospital help center.

Euthanasia and Concentration Camps

In 1941, after the gassing of mentally ill patients ended, medical and other personnel experienced in euthanasia were transferred to concentration camps in Poland. There, hydrogen cyanide gas was used to kill Jews, Gypsies, Slavs and Social Democrats.

Eugenic Sterilization Programs in the United States

In the early 1930s, during the eugenics movement in the United States, the number of sterilizations for slightly younger women increased dramatically. This policy change was a product of the Great Depression. Agency officials were concerned that such women would place greater demands on social services because their parents would have children who could not adequately care for them. There is little evidence that the Nazi treatment program for excessive fertility, which began in 1934, changed American programs. It is presented here to show that a number of state-sponsored eugenic sterilization programs have been activated since scientists rejected the theory of eugenics.

Waltham) Massachusetts 02254 USA

The Rockefeller Foundation

John D. Rockefeller founded the Rockefeller Foundation on May 14, 1913. [3], [Page 3, Annual-Report-1913-1914-1.pdf]

The following persons named in the act of incorporation became, by the formal acceptance of the Charter, May 22, 1913, the first Board of Trustees:

John D. Rockefeller, of New York.
John D. Rockefeller, Jr., of New York.
Frederick T. Gates, of Montclair, N, J.
Harry Pratt Judson, of Chicago, 111.
Simon Flexner, of New York.
Starr J. Murphy, of Montclair, N. J.
Jerome D. Greene, of New York.
Wickliffe Rose, of Washington, D. C.
Charles O. Heydt, of Montclair, N. J

In May 1913, the Rockefeller Foundation was chartered under the laws of the state of New York. The date on which the Governor approved the Act of Incorporation, passed by the Legislature without opposition on April 24, 1913. [3], [Page 7, Annual-Report-1913-1914-1.pdf]

INTERNATIONAL HEALTH COMMISSION, June 27, 1913, [3], [Page 11, Annual-Report-1913-1914-1.pdf]

In 1909, the Rockefeller Sanitary Commission was established to eliminate hookworm disease from the United States. In the Southern States, more than 2 million people have been infected with the disease, resulting in vast suffering, partial arrest of physical, mental, and average growth, great loss of life, and a noticeable decrease in economic efficiency;

INTERNATIONAL HEALTH COMMISSION, June 27, 1913, [3], [Page 11, Annual-Report-1913-1914-1.pdf]

After its legal organization had been completed, the first meetings of the Rockefeller Foundation were devoted to discussing the policies and lines of work likely to present the most significant probability of permanent and far-reaching usefulness. There was a general agreement that the advancement of public health through medical research and education, including the demonstration of known methods of treating and preventing disease, afforded the surest prospect of such usefulness. It was, accordingly, decided at the meeting of June 27, 1913, to establish the International Health Commission.

HISTORY OF THE MR. JOHN D. ROCKEFELLER

John Davison Rockefeller was born on July 8, 1839, to William Avery Rockefeller and Eliza Davison in Richford, New York. His family later moved near Cleveland, Ohio, where he attended Cleveland's Central High School before dropping out and starting his first job as an assistant bookkeeper, earning 50 cents per day. With the money he saved from his first job and a loan from his entrepreneurial, snake-oil salesman father, he opened his first business — a commodities brokerage — in 1859. [5]; Here, he is a Fraud Snake oil Sales Man.

The Whole Monopolism was born here; John D. Rockefeller, Co-founder & Chairman, Founded Standard Oil Company, Inc., on January 10, 1870. This company was actively operated from 1870 to 1911. The company produced, transported, refined, and marketed Oil in the United States. [6], [7]

By the late 1880s, Standard Oil controlled 90% of American refineries. [5]

In 1890, Congress overwhelmingly passed the Sherman Antitrust Act (Senate 51–1; House 242–0), a source of American anti-monopoly laws, Sherman Antitrust Act of 1890. The Standard Oil group quickly attracted attention from antitrust authorities leading to a lawsuit filed by Ohio Attorney General David K. Watson. [8]

In 1896, John Rockefeller retired from the Standard Oil Co. of New Jersey, the group's holding company, but remained president and a significant shareholder. Vice-president John Dustin Archbold took a large part in the firm's running. In 1904, Standard Oil

controlled 91% of oil refinement and 85% of final sales in the United States. At this time, state and federal laws sought to counter this development with antitrust laws. In 1911, the U.S. Justice Department sued the group under the federal antitrust law and ordered its breakup into 34 companies. [8].

As a result of competition from other firms, Standard's market share gradually declined to 70 percent by 1906, when the antitrust case was filed against the company. When Standard was ordered to be broken up in 1911, its market share was 64 percent. [8]

WORLD WAR I and THE ROCKEFELLER FOUNDATION, June 27, 1913, [23], [Page 11, Annual-Report-1913-1914-1.pdf]

In 1911, Rockefeller gave up his position as President of Standard Oil as the Supreme Court began dismantling the business.

1913: In the greatest philanthropic act in U.S. history at that time, John D. Rockefeller donated $100 million to establish the Rockefeller Foundation, chartered in the state of New York. The Foundation's purpose is "to promote the well-being of humanity worldwide.

In reality, the Rockefeller Foundation did not start to promote the well-being of humankind. They Continuously Destroying Mankind from the 1990s to the Present. At Present, Bill and Melinda Gates are following its Agenda.

On July 28, 1914, the World War started. On August 13, 1914, an allocation was made to Dr. Alexis Carrel, a member of the Rockefeller Institute of Medical Research, whose offers were disseminated through the French Army Clinical Corps, to meet the urgent need for anti-meningitis serum and anti-dysentery serum, the commodity of contemporary studies with which research of the Institute is associated, to meet the urgency.

Rockefellers donated millions to international aid during World War I to maintain their status.

In 1909, the United States Department of Justice sued Standard under federal antitrust law, the Sherman Antitrust Act of 1890, for maintaining a monopoly and restricting interstate commerce by discounts, preferences, and other discriminatory practices in favor of the combination by the railroad companies; restraint and monopoly through pipeline control and unfair practices against competing pipelines; agreements with competitors to restrict trade; methods of unfair competition such as local price reductions if necessary to suppress competition; [and] spy on competitors' businesses, operate bogus independent companies and pay oil rebates with the same intent.

The lawsuit argued that Standard's monopolistic practices had occurred over the preceding four years.

On May 15, 1911, the U.S. Supreme Court upheld the lower court judgment and declared the Standard Oil group an "unreasonable" monopoly under the Sherman Antitrust Act, Section II. [8]

By 1911 the Supreme Court of the United States ruled, in Standard Oil Co. of New Jersey v. the United States, that Standard Oil of New Jersey must be dissolved under the Sherman Antitrust Act and split into 34 companies.

After three years, on May 14, 1913, he Started His Foundation.

Note: Bill Gates also Started the Foundation called Bill and Melinda Gates to Cover UP his Past Anti-Trust in the 1990s. As Like the Rockefeller Foundation was Founded by the John D. Rockefeller. Here Bill Gates and John D. Rockefeller have the Same Similarities in their Criminal Journey.

The Rockefeller Foundation and "Eugenics" TimeLine, [10]

1909-13: the buildup to World War I

1. On May 14, 1913, John D. Rockefeller created the family-run Rockefeller Foundation.
2. Rockefeller transferred blocs of the family-owned Standard Oil Co. worth more than $300 million to the Foundation's account under its trustees, who were family members and their employees. Thus, a global instrument for radical social change was established, using American money and British strategy.
3. In 1911, brother William employed, in a private capacity through his elite social club, a high-ranking British secret intelligence service officer named Claude Dansey.

4. As the United States prepared to ally itself in World War I with its old enemy Britain, Dansey personally reorganized the U.S. Army intelligence service into an adjunct of the British secret service. Dansey's loyal U.S. follower, Gen. Marlborough Churchill (a distant relative of Britain's Winston Churchill), soon became director of U.S. military intelligence.
5. York is loyal to Britain. After World War I, General Churchill headed the "Black Chamber," a New York-based group of spies serving the Department of State, the United States Army, and New York's private financiers. General Churchill would soon set up a medical research organization, the Macy Foundation, for the Rockefellers and British intelligence.

The 1920s: the pre-Hitler era in Germany

Psychiatric Genetics

1. The Rockefeller Foundation has donated money to the occupied German republic for a medical specialty known as "psychiatric genetics." This field applied the concepts of eugenics (also known as racial cleansing, racial hygiene, or racial improvement) developed at the Galton Laboratory in London and its branches of Eugenics Societies in England and America to psychiatry.

The Rockefeller Foundation and the Kaiser Wilhelm Institute for Psychiatry

1. The Rockefeller Foundation founded the Kaiser Wilhelm Institute for Psychiatry in Munich (known as the Kraepelin Institute before the Rockefeller sponsorship) and the Kaiser Wilhelm Institute for Anthropology, Eugenics and Human Genetics, which the Foundation leadership has continued to lead since became. The head of the Rockefellers in these two institutions was the fascist Swiss psychiatrist Ernst Rudin, supported by his proteges, the Rockefeller officials Otmar Freiherr von Verschuer and Franz J. Kallmann. A British medical historian friend of the Rockefellers recently explained how the family was introduced to the field in Germany.

2. The Foundation's "German Centers" combined the search for organic signs of mental illness with eugenics projects.

The Krupp Institute

3. The company [Kreibel] was originally awarded 11 million points, and involved Gustav Grupp von Bohlen and Hallbach [head of the Gruppe steelmaking family] and James Loeb [brother of Paul Warburg]. Cohen family Loeb Bank. Loeb gathered his Jewish-American friends to support the Institute, and they invited a fund to organize and expand the Munich Institute. Loeb continued to finance the company.

The Harriman Family and Rockefeller Foundation

4. Loeb's relatives, the Warburgs, owners of Cohen Loeb Bank, were close banking partners of William Rockefeller. Together with him, they established the Harriman family in big business, using capital provided by Sir Ernest Castle, the personal banker of the British royal family. The Rockefeller, Warburg, and Harriman triads and British royal agencies co-financed many social-engineering enterprises we describe here. The Rockefeller Foundation gave $2.5 million to the Munich Mental Institute in 1925 and $325,000 for a new building in 1928. It continued to finance the Institute and its Nazi leader Rudin during the Hitler era. From 1930-1935, the Foundation paid for anthropological studies of "stable populations" by Nazi reformers Rudin, Verschuer, Eugen Fischer and others.

1930: A new era in psychiatry

5. Psychologists from the Rockefeller family and racial purists created the Josie Macy Jr. Foundation, an avenue to finance medical research directed by former Black House and Chief of Military Intelligence General Marlborough Churchill. Messi's team will run London's most advanced mind control and social engineering experiments.

1932: Rudin heads Eugenics Federation, Eugenics Movement,

6. The eugenicist movement of the time wanted to kill or sterilize people. The British-led eugenicist movement met at the American Museum of Natural History in New York. It appointed Dr. Ernest Rudin of Rockefeller president of the World Eugenics Federation.

The mid-1930s: Nazi eugenics in practice, Adolf Hitler - A Brief History

7. In 1933, Adolf Hitler became Chancellor of Germany and soon became an absolute dictator. Montague Norman, the secret Governor of the Bank of England, boosted Hitler's credibility, organized the armament of Nazi Germany, and directed the strategies of Hitler's influential supporters, the Rockefellers, Warburgs, and Harrimans.
8. A few months after the meeting at the American Museum of Natural History, the Rockefeller-Rudin apparatus became part of the Nazi government. The government appointed Roden as the head of the National Health Association. Rudin and his colleagues drafted the sterilization law as part of a working group of geneticists led by S.S. leader Heinrich Himmler. Described as the American Model Law, it was passed in July 1933 and proudly printed in September 1933 under Hitler's signature in Eugenics News (USA).
9. Rockefeller's group created other racial laws, such as the Contraception Act, based on existing laws in the Commonwealth of Virginia. Ottmar Verschuer and his assistant Dr. Josef Mengele prepared reports for the special courts that enforced Rodin's Law of Racial Purity against

the illegal coexistence of Aryans and non-Aryans. The T4 Division of Hitler's Chancellery, based on psychiatrists led by Rudin and his staff, collaborated in producing propaganda films selling euthanasia (euthanasia) to German citizens. People responded hostilely: Hitler had to remove the tearful film "The right to die" from the cinemas. The proper Foundation has not yet been laid.

1934: The Scottish Rite of Freemasonry, The Freemasons Study Madness

10. The Scottish Rite of Freemasonry joined the Rockefellers in funding psychiatric genetics beginning in 1934 under the auspices of dementia praecox (schizophrenia) research. The highest degree of American Freemasonry, the Scottish Rite, was the instrument by which the British Crown restored the allegiance of American Freemasons after the American Revolution. Northern Wrights rallied the Copperheads against Abraham Lincoln's Civil War efforts and aided Southern Wright leader Albert Pike in secession and other British white supremacist programs such as the Ku Klux Klan.

The Duke of Connaught - The Grand Master of the Mother Grand Lodge

11. Wright's point of reference for eugenics was the British royal family. The Duke of Connaught, son of Queen Victoria and brother of King Edward VII, has been Grand Master of the United Grand Lodge of England since 1901. American masonry leaders called the Duke "the great master of the mother of the world of the world." "The son of a German father (Victoria's husband, Princess Albert Horn), was deeply involved in German affairs and accepted the upper British elite group, where South -Africa was based in the Duke's family, he agreed. Ribbentrop then became Hitler's head of foreign intelligence. As Hitler's ambassador to England, Ribbentrop worked with the group's leadership that used Hitler as Britain's proxy to destroy Europe: the Duke Grand Master of Freemasons and his son-in-law, the outspoken Nazi Edward VIII. Montague Norman, Governor of the Bank of England; and Lord Halifax, Foreign Secretary Neville Chamberlain.

1936-38: Columbia University's chamber of horrors and The Scottish Rite's Research on Dementia

12. This project is mysterious, but one of them is very scary. In 1936, Dr. Nolan D.C. Lewis, Director, New York State Institute of Psychiatry, Scottish Rite Supreme Council for Dementia Praecox Research "Progress of 14 Supreme Court Supported Research Projects." Scottish Rite strategist Winfred Overholser. , director of St. Elizabeth Hospital, a federal psychiatric hospital in Washington, DC, oversaw Ritt's psychiatric investigation.

Hereditary Degeneracy in the Rockefeller Foundation

13. The results are known. A study of genetic degeneration was carried out when problems arose in the residence of the German Rockefeller Foundation. Psychiatrist Franz J. A disciple of Ernst Rudin, head of Nazi racial science, Kalman was forced to quit his job. Kalman was an "anti-Jew." At a British conference hosted by Hitler's Ministry of the Interior in Berlin in 1935, Kalman advocated the sterilization of "even healthy relatives" of schizophrenic patients to eliminate all harmful germs. . Without missing a beat, Kallmann moved to the United States, where he became the research director of the New York Psychiatric Institute, affiliated with Columbia University in Manhattan. The head of the doctoral Institute was Lewis, a Scottish priest. In New York, Kallman continued the Nazi propaganda work he had done for Rockefeller in Germany. The Scottish Rite of Freemasonry paid Kallman to research more than 1,000 cases of schizophrenia, confirming claims that mental disorders are inherited.

Kallmann's Study

14. Kallmann's work was published simultaneously in the United States and Nazi Germany in 1938. In his preface, Kallmann thanked Scottish superstition and his mentor, Rudin. He called schizophrenia "the source of unscrupulous swindlers and the lowest form of criminals." Even those who believe in freedom would be happier without freedom." He said: "I do not want to admit the necessity of various eugenic programs for democracy and fascist communities. There is no biological or sociological difference between democratic schizophrenia and totalitarian schizophrenia. **Kallmann's American scientific research was used in 1939 as a pretext for the Nazi government's T4 division to start killing or murder of people with mental health conditions and various other "defective'' people and others. This program used lethal gas and lethal injection to kill 200,000 and 250,000 people and awareness and training agents for more extensive mass destruction programs.**

I.G. Farben and Rockefeller Foundation

15. The German chemical company I.G. Farben and Rockefeller's New Jersey Standard Oil were one company consolidated in hundreds of cartel deals. Aigi Farben was run until 1937 by the Warburg family, the Bank of Rockefeller, and its eugenic design partner in Nazi Germany.

1938 – 1939: The Origins of the Atomic Bomb

16. Between 1938 and 1939, the Rockefeller Foundation provided an $80,000 grant to the University of California to build and operate a large cyclotron under Lawrence's direction. In 1939, the 60-inch cyclotron Completed was the largest in the world.

1940: The Rockefeller Foundation Funded 184 Inch Cyclotron

17. In 1940, the Rockefeller Foundation provided a grant of $1,150,000 to build a cyclotron larger than 184 inches.

Reference

https://resource.rockarch.org/story/the-atomic-bomb-development-rockefeller-foundation-role/

Lawrence's 184-Inch Magnet Could Separate Large Quantities of Uranium 235

18. Lawrence soon realized that the 184-inch machine had critical military applications. A 4,200-ton magnet can be used to split large amounts of uranium-235, which can be used to make atomic bombs. He asked Warren Weaver, director of Rockefeller Foundation science if the Foundation would consider providing an additional $60,000 to facilitate magnet construction.

1942: The 184-Inch Cyclotron Magnet

19. A 184-inch cyclotron magnet, five times wider than the 37-inch magnet used in previous experiments, was built at the University of California, Berkeley, funded by the Rockefeller Foundation. The War halted work, but now, thanks to additional loans from the Foundation, Lawrence was able to complete the project by the end of **May 1942**.

The Uranium 235 Magnet

20. Rockefeller Foundation Managers Fosdick and Weaver said the grant was essential and approved. The magnet, completed in May 1942, allowed Lawrence and his team to demonstrate how to produce large quantities of uranium-235. After that, the U.S. government acquired and built enough fissile material to make the first atomic bomb.

Atomic Bombs - The Only Use of Nuclear Weapons in Armed Conflict

21. The United States detonated two atomic bombs on Hiroshima and Nagasaki, Japan, on August 6 and 9, 1945. The two explosions killed between 129,000 and 226,000 people, mostly civilians, and nuclear weapons remain the only weapons used in armed conflict.

Hiroshima Bombing

22. At 08:15 on August 6, 1945, the first bomb was dropped on the center of Hiroshima. "Little Boy" was a cannon-type fission bomb that dropped subcritical mass uranium into another uranium using a conventional explosive charge.

Nagasaki Bombing

23. Three days later, on the morning of August 9, a second American plane took off from the air force base on the island of Tinian in the Pacific Ocean. The atomic bomb there was codenamed "Fatman". It was a plutonium-based high explosive tested in the Trinity test. The main target was

the city of Kokura. However, due to thick clouds, the flight crew returned to Nagasaki, their second target. Before and after Nagasaki

24. The bomb exploded at about 500 meters and had a force of 21 kilotons. The Radiation Effects Research Foundation estimates the immediate death toll at 60,000 to 80,000.

Lawrence Lawrence and the Atomic Bombs

25. Shortly after the atomic bombs were dropped on Hiroshima and Nagasaki on August 20, 1945, Lawrence wrote a letter of appreciation to Weaver. He noted that the Russian Federation played an "important role" in the bomb's development.

1945: Weaver's Letter of Appreciation

26. Shortly after the atomic bombs were dropped on Hiroshima and Nagasaki on August 20, 1945, Lawrence wrote Weaver a letter of thanks. He noted that the Russian Federation "played an important role" in the manufacture of the bomb.

The Great Magnet

27. With this very large magnet, the problem [of sufficiently separating the U-235] could be solved at a well-deserved time in this War.

August 20, 1945

Dr. Warren Weaver
Director of Natural Sciences
Rockefeller Foundation
49 West 49th Street
New York 20, N. Y.

Dear Warren:

At long last I have the very real pleasure of writing you and through you the president and trustees something of the vital part played by the Rockefeller Foundation in the development of the atomic bomb. I shall never forget how you and President Fosdick responded so promptly to our need for additional funds to expedite the completion of the giant magnet, and I am so glad that there is now a story to tell that is in a measure a recompense for your extraordinary support.

As you know, the atomic bombs have been made of two materials, uranium 235 and 94^{239} (called plutonium), and the Foundation support has been directly connected with both. I shall speak first of the latter.

Plutonium

In the summer of 1940 McMillan and Abelson, using the 60" cyclotron (and funds largely provided by the Foundation), discovered element 93, neptunium, and later McMillan observed the growth of an alpha particle emitter from a strong sample of neptunium which he concluded was undoubtedly the daughter of neptunium, and which subsequently has come to be known as plutonium. Thus, McMillan and Abelson were the first to identify correctly a transuranic element, and it was this work that set the whole business on the right track and made the subsequent work on plutonium straightforward and inevitable.

McMillan was unable to pursue the work further than the fall of 1940 (because I had persuaded him and Alvarez to go to MIT to participate in the microwave program there) and the work was carried forward by Seaborg, Segre, Kennedy and Wahl, still supported indirectly by our Rockefeller Foundation grant. They went ahead with enthusiasm and competence, and it was not long before they had chemically isolated plutonium and worked out extensively the chemical and physical properties of this extraordinary transuranic element. The importance of Seaborg and company's work was outlined in the following memorandum prepared at the time for the National Academy Committee on Atomic Fission:

> Since the first report of the National Academy of Sciences Committee on Atomic Fission, an extremely important new possibility has been opened for the exploitation of the chain reaction with

Repository: Rockefeller Archive Center, Ernest Orlando Lawrence

World War II - A Brief History, September 1, 1939 – September 2, 1945

28. World War II began when Britain and Germany declared War on each other after the Nazis invaded Poland in September 1939. However, at the end of the month, Standard Oil executives flew to Holland in an RAF bomber with I.G. Directed by Parben. Standard Oil committed to working with I.G. Farben When the United States entered the War. It was opened in 1942 by a senator. Harry Truman and President Franklin D.
29. During the War, the Lot of Human Experimentation was done by the War Mongerers.

History of the Standard Oil-IG Farben Cartel

30. Roosevelt's commission of inquiry passed hundreds of legislative measures to end the war operations of the Standard Oil-IG Farben cartel to supply enemy war machines. In 1940-41, I.G. Farben used the Standard Oil-IG Farben patent on slave labor in concentration camps to build a large factory in Auschwitz, Poland, and extract gasoline from coal. Protecting Jews and other prisoners of War, I.G. parben.
31. Spring summer, Emil Helferich, president of German Standard, said that Standard Oil's postwar funds helped pay the S.S. guards at Auschwitz. On March 26, 1940, six months after the Standard Oil-IG Farben meeting, Daniel O'Brien of the European Rockefeller Foundation wrote to Alan Gregg, the Foundation's medical director, "It would be a shame if he were elected." For research, not War. "It has nothing to do with the war," the inquiry continued. The Rockefeller Foundation defends its reputation by claiming

that it's funding of programs in Nazi Germany during World War II was limited to psychiatric research.

1943: Research in Nazi-occupied Poland, Aand Auschwitz - A Brief History

32. In 1943, Josef Mengele, Otmar Berscht's assistant, became the medical commandant at Auschwitz. Verschuer, head of War at Rockefeller's Kaiser Wilhelm Institute for Anthropology, Eugenics, and Human Genetics in Berlin, received funding from the German Science Council for Mengele's experiments at Auschwitz. Verschuer wrote a progress report to the committee. He works as a Hauptsturmführer and doctor in the Auschwitz concentration camp. Anthropological studies of the various ethnic groups in the concentration camps are carried out with the permission of the German Reich Führer-SS Himmler, and the blood samples are sent to my laboratory for analysis. Mengele sneaked to Auschwitz by train. Twins are a favorite research subject for Frankenstein psychiatrists and geneticists. Upon arrival at Mengele's laboratory, the twins completed the "Detailed Questionnaire of the Kaiser Wilhelm Institute." Blood was drawn daily for Verschuer's "special protein" study. Eye color was determined by inserting a needle into the eye. There were experimental blood transfusions and experimental infections. Limbs and limbs are sometimes removed without anesthesia. Attempts have been made to change sex. Females are infertile, males are infertile. Thousands died, and the organs, eyes, heads, and limbs were sent to the Berscher and Rockefeller groups at the Kaiser Wilhelm Institute.

The History of Human Genetics

33. After the War, Mengele became a notorious target for Nazi fighters who pursued him in South America. But his boss saw Verschuer differently. He was a senior Rockefeller agent. In 1946, Verschuer wrote a letter to the Bureau of Human Genetics in London to allow him to continue his "scientific research." In 1947 the Human Genetics Bureau moved from London to Copenhagen and Verschuer to Denmark to join the British group. Mother A new Danish building for this group was built with Rockefeller money. In 1956, the first international human genetics conference since World War II was held at this Danish Institute. Dr. Kallman helped save Verschuer by testifying during the impeachment trial. A director of the American Eugenics Society, Kalman became an icon of the New York State Psychiatric Institute, the Eugenics Society's host to this day. Along with Verschuer and other prominent Nazi figures, Dr. Kallman founded the American Society of Human Genetics, which organized the Human Genome Project. This project is a current $3 billion effort for physical multiculturalism.

1943: The Rockefeller Foundation and the Canadian Military and Research in North America

34. As the War continued, the Rockefeller Foundation and the Canadian military sided with the mentally ill. Dr. George Brock Chisholm, Medical Director of the Canadian Army, who trained as a psychiatrist at the Tavistock Psychiatric Clinic in London, and Tavistock, the central mind-changing agency of the British Empire, were significant beneficiaries of the Rockefeller Foundation. In 1943, the Rockefeller Foundation established the Allen Memorial Institute at McGill University in Montreal. Donald Ewen Cameron, a eugenics-focused psychiatrist and a Scottish immigrant to the United States, was a psychiatrist at the Institute. Forced interrogation and brainwashing experiments are conducted at the Allen Institute under the auspices of the Canadian Army, the Rockefeller Foundation, and the U.S. Central Intelligence Agency. Dr. Cameron's "ultimate" use of brain-burning torture, psychiatric surgery, and brainwashing electrocution through drugs and hypnosis made the Canadian program the CIA's most infamous MK-Ultra peak.

The Search for the Manchurian Candidate

35. Meanwhile, in Washington, D.C., a new smell of marijuana can be detected at St. Elizabeth in Washington (St. Elizabeth is a mental hospital that houses those who have attacked the president or other federal incidents). In the face of the struggle against fascism, the criminal world organized formal but covert joint activities with governments. Riet's chief psychiatrist, Winfred Overholser, was chairman of the Office of Strategic Services (OSS),

misnamed the "Truth Drug Committee" in 1943. Overholser's team injected several subjects with the hallucinogenic mescaline. Then, in the spring of 1943, they perfected the right combination of marijuana and tobacco, creating an "irresponsible state." The official OSS story is that on May 27, 1943, New York gangster Augustus Del Gracio began smoking upholsterers' "joints" to loosen his tongue. Stop it. It was part of an ongoing federal program organized by organized crime boss Meyer Lansky (in his authorized biography). Mafia fighters were stationed in Offices of Naval Intelligence and alongside American agents in American ports and ships to more effectively threatening the nation's enemies. Former CIA agent John Marks wrote in Searching for the Manchurian Candidate that Overholser's task force included counterintelligence agents from the Manhattan Atomic Bomb Project and the FBI led by Dr. George. Overholser's friend, Scotland Yard, FBI Director J. Edgar Hoover. Overholser's group provided marijuana to American soldiers at military bases in the United States to help hunt down the kidnappers. Later in the 1950s and 1960s, Project MK-Ultra strategists used the same channels of influence within U.S. security agencies to help turn younger generations into drug users.

1945: On April 1945, Adolf Hitler, Chancellor and Distort of Germany from 1933 to 1945, Died by Suicide via Gunshot.

36. Adolf Hitler, chancellor and dictator of Germany from 1933 to 1945, committed suicide on April 30, 1945 in the Führer Bunker in Berlin.
37. After it became clear that Germany would lose the Battle of Berlin, it ended World War II in Europe. One day, his wife, Eva Brown, also drank cyanide and committed suicide.

Hitler's Last Days

38. According to Hitler's earlier written and oral instructions, their remains were taken that afternoon up the stairs, through the bunker's emergency exit, to the Imperial Chancellor's Garden, where they were doused in gasoline and burned.
39. The news of Hitler's death was announced on German radio the next day, May 1.
40. But why United States Rockefeller Foundation Helped the Hitler.

1945: On September 2, 1945, After the United States put the Atomic Bomb on Japan's Place, the War was called to end.

1. After the War ended, Instead of killing the People through the War and Guns, They started killing the Common Public Peoples Scientifically, in the name of pandemic and medical science.
2. Creating disease by creating chemical products. Creating the Pandemic and Injecting the Virus Contaminated Vaccine.
3. During the 1950s, they started the Biological Human Experiments on the Peoples without following the ethics of the Experimentation. By taking the Monkeys, Chimpanzees, sheep, and Rabbits' Kidney Cell to Create a Vaccine for Polio and Small Pox

4. Between 1958 and 1963, the United States Funded Supported Virologist and epidemiologist workers who killed the chimpanzees prepared the Live Polio from the Kidney Cells, and Injected it into African bodies forcibly.
5. 1981 The Great Pandemic, Spanish Flu, They Created the More Pandemics like Polio, HIV, AIDS, Ebola, and Coronavirus. Both are funded by the Same Governments and Fondation like Rockefeller Foundation and Bill and Melinda Gates Foundation.
6. The above World War I and World War II was triggered by the same peoples and Foundation, the Rockefeller Foundation.
7. The Rockefeller Foundation Controlled the Hitler and Experimented the Human Beings.
8. The Rockefeller Foundation is reason for the World War I and World War II. The Both war was triggered by the Rich Peoples.
9. Eugenics Controlled the World During the World war I and World War II.

Georgia Guide Stones

Elberton Granite Finishing Company and Georgia Guide Stones

1. In June 1979, a man under the pseudonym Robert S. Christian came to Elberton Granite Finishing to commission construction on behalf of "a small group of loyal Americans.
2. On March 22, 1980, Congressman Doug Barnard ((March 20, 1922 – January 11, 2018) opened the Georgia Guide Stones Monument to an audience of 200-300 people.
3. “To avoid controversy, as supporters of the Georgia Guidestones, we have a simple message for present and future people. We believe our rules are valid and should be worth it in themselves.” — Purported statement of Georgia Guidestones sponsors

   The Georgia Guide stones Center cluster erected March 22, 1980

4. The Georgia Guidelines must be set up by secret societies called freemasons and Eugenics.
5. Georgia Guide Stone is Mystery Stone That Promoting the Genocide and the Population Control.
6. On After 1981, the AIDS Epidemic was Emerged. Even this AIDS Epidemic was Planned by the Eugenics and Freemason.
7. Because During the World War the Eugenics, Feemasons, and Other World Leaders are Played the Important Roles to Kill the Peoples.
8. In 2008, the stones were painted with polyurethane paint and graffiti with the slogan "Death to the New World Order".
9. The message, consisting of ten precepts or principles, is inscribed in the Georgia Manual in eight different languages, with four large stones on each side. From the north, clockwise around the structure, these languages were English, Spanish, Swahili, Hindi, Hebrew,

Arabic, Traditional Chinese, and Russian.The World is Currently Controlled by the Eugenics, Now they in the form of the Elites.

10. The World Corrpt Leaders are Controlled by the Illuminaties. And they are the Illuminaties “The Secret Society”, Now they all in the other Name called Freemasons.
11. This guide stones promotes Eugenics; First Commandment is Indirectly Telling About the Genocide, Planned Parenhood and Destrction.
12. Right-wing activist Mark Dees called for the guidestone to be "cut into a million pieces and then use the remains for building projects".
13. Right-wing activist Mark Dice broke the stone of India into "a million pieces, and the remains must be used permanently". Georgia condemned the roadblocks built with the support of corrupt US and Russian politicians. ." , China, India, Arab countries, Spain. Due to AIDS epidemic after 1981 and Georgia Guide Stones until 1981, established in March 1980.
14. The HIV/AIDS epidemic was modeled after the 1981 Spanish flu epidemic, as were other epidemics. The Rockefeller Foundation had two epidemics, the current Bill and Melinda Gates Foundation.

The 10 messages of the Georgia Guidestones is,

1. Keep humanity under 500 million in eternal balance with nature.
2. Manage your breed wisely - improve stamina and diversity.
3. Integrate humanity with a new living language.
4. Passion - Faith - Tradition - Control everything with common sense.
5. We protect the people and the country with fair laws and fair courts.
6. Let all nations govern themselves and settle foreign disputes in world courts.
7. Avoid petty laws and unnecessary government officials.
8. Comparison of individual rights and social obligations.
9. The price is truth - beauty - love - harmony with infinity.
10. Don't be a cancer on this land - make room for nature - make room for nature.

Rockefeller Waged War on the Natural Cures and Natural Medicines.

John D. Rockefeller (July 8, 1839 – May 23, 1937), Full name: John Davison Rockefeller. The John Davison Rockefeller Who Controlled the World Wars, Oils and the World Leaders.

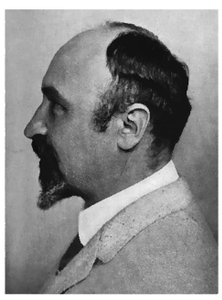

He is an America's First Billionaires and Magnate. He Monopolized the each and every industry from steel to drugs and medicines.

He Changed the Medical World before the World Wars Starts by Creating his Foundation.

Here Drugs and Starvation are the Main Cause of the Diseases. Every Drugs are the Inbuilt with the Side Effects.

Before and After He Created his Foundation, He is Directly Involved in the Medical Field and Started Taking Control Over the Medicines and Cures.

During the 1990s scientists discovered the Petrochemicals. Petrochemicals is used to create chemicals from oil like Plastics. The First Plastic "Bakelite" was Invented by Leo Hendrik Baekeland in 1907. He is also invented the Velox Photographic Paper in 1893.

Portrait of Leo Baekeland in 1916,

Born on November 14, 1863 – Died on February 23, 1944

He has been called "The Father of the Plastics Industry" for his invention of Bakelite. The Plastic is Cheap, Non-Flammable and versatile Plastic.

Petrochemicals were patented and sold for high profits. Using the opportunity, the Rockefeller started and monopolize the oil, chemical and medical Industries.

After the Rockefellers Involved in the Medical Field by Donating and Taking control and creating Rules on the Medical Industry.

Their Plans are nothing to promote the humanity but creating problems among the population, making profits by creating the problems and finally giving solution for the Pre Planned created problem.

Flexner Report

1. In 1904, the American Medical Association established the AMA Committee on Medical Education. The goal is to revolutionize and reshape American medical education.
2. CME has established two standards. One defined the minimum level of prior education required for admission to medical school. Still others defined medical education as consisting of two years of training in human anatomy and physiology, followed by two years of training in a hospital.
3. The Flexner Report is an important book on medical education in the United States and Canada written by Abraham Flexner and published in 1910 with the support of the Carnegie Endowment. Many aspects of the modern American medical profession stem from the Flexner Report and its findings. The Flexner Report has been criticized for introducing policies that promote systematic racism.

4. In 1908, CME commissioned the Carnegie Fund for the Advancement of Education to study American medical education since 1908 to advance the reform agenda and hasten the elimination of inferior schools. Henry Pritchett, president of the Carnegie Endowment and a strong advocate for medical school reform, chose Abraham Flexner to conduct his research. Flexner was not a doctor, scientist or medical professional, he had a bachelor's degree and ran a business school in Louisville, Kentucky. He then attended all 155 medical schools in North America, whose curricula, assessment methods, admission requirements, and degrees vary widely. Summarizing his discovery, he writes:
5. Every day the students were subjected to endless lectures and recitations. In the afternoon, after a long morning of dissection or a series of quizzes, they can sit wearily in front of three, four, even five lectures given in a methodical manner by part-time professors. The evenings were devoted to reading and preparing recitations. If you are lucky enough to have access to a hospital,
6. 6. The report is notorious for describing certain institutions, such as Chicago's 14 medical schools, as "an embarrassment to the state that allows the law to exist. ".. Unbelievably dirty. . . However, Western Reserve (now Case Western Reserve), Michigan,

John D Rockefeller Gives Millions to Colleges and Hospitals

7. To help with the transition and change the minds of other doctors and scientists, John D. Rockefeller gave many millions to colleges, hospitals and founded a philanthropic front group called "General Education Board" (GEB).

American Medical Schools

8. At the time Flexner researched his report, most medical schools in the US were small "private" commercial schools owned by one or more physicians, unaffiliated with any university, and operating for profit. The diploma is usually awarded after two years of study with optional laboratory work and dissection. Most of the instructors were local doctors teaching part-time. There was little or no regulation of health care by the state. American doctors differed widely in their scientific understanding of human physiology, and the word "quack" was widely used.

Medical Schools - A Critical Review

9. Flexner carefully investigated the situation. With the ideal of the Johns Hopkins School of Medicine in mind, he made the following recommendations:

    1. Reduce the number of medical schools (from 155 to 31) and the number of under-trained doctors.
    2. increased requirements for obtaining a medical degree;
    3. Involvement of the faculty of medicine in the training and research of doctors in scientific practice
    4. Giving medical schools control over clinical training in hospitals
    5. Consolidation of national regulations on medical licenses

Reasons Why All Medical Schools Are Subordinate to Hopkins

10. Flexner considered Hopkins "a small but ideal medical school, embodying the best features of English, French, and German medical education in a new form for the American context." To make Hopkins the benchmark against which all other medical schools in the United States can be compared, Flexner adds that all other medical schools will follow this "one bright spot." Flexner believed that medical school required at least a high school diploma and at least two years of study from a college or

university majoring in the basic sciences. When Flexner studied his report, only 16 out of 155 medical schools in the US and Canada required applicants to have at least two years of college education.

Flexner's Medical School

11. By 1920, 92% of US medical schools required applicants to do so. Flexner also said that the period of medical training should be four years and that the content should be as agreed by the CME in 1905. Flexner proposed closing private medical schools or merging them with existing ones. He argued that medical schools should be part of a larger university because truly independent medical schools would have to charge too much to break even.
12. Less well known is Flexner's proposal to appoint a full-time clinical professor at the medical school. Holders of these appointments must be "genuine faculty members of the university, where anything other than charitable work for the faculty is prohibited." Flexner pursued this goal for many years despite massive opposition from established medical schools.
13. Flexner was the son of German immigrants who studied and traveled in Europe. He knew very well that in continental Europe, medicine could not be done without extensive professional university studies. In fact, Flexner argued that American medical training was in line with common practice in continental Europe.

Medical Schools in Canada and the United States

14. By and large, medical schools in Canada and the United States followed many of Flexner's recommendations. However, schools have increased their emphasis on matters of public health matters.
15. The Flexner Report created systemic racism in modern medicine, and now modern medicine made by big pharmaceutical companies is more profitable.
16. Natural Medicines were Demonized and Doctors were Jailed.

17. Also, medical students were marketed and trained in the same way, and all drugs were administered by a big pharmaceutical company, which the patient had to take. Except for natural ingredients, all newly discovered drugs are patented.
18. Most of the Studies were manipulated and for Intentional Profit. Coronavirus is the Best Example.

A Pill Kills Millions over Every Years but the Big Pharma Earns Billions and Trillions this is the Mantra of the Current Commercialized Modern Medicine.

Most of the Elections were decided by the Big Pharma and their Funding's.

We are all living in a fantasy created by Big Pharma.

Freemason, Eugenics and Rich Elites They All Everybody in the Same Track. They all are Currently Waged war on the Public Peoples.

INTRODUCTION,

Page 17, ABRAHAM FLEXNER Report

The Foundation is under the greatest obligation in the preparation of this report to leading representatives of medicine and surgery in this country for their cooperation and advice. The officers of the various medical associations and of the Association of American Medical Colleges have furnished information which was invaluable and have given aid in the most cordial way. We are particularly indebted for constant and generous assistance to **Dr. William H. Welch of Johns Hopkins University, Dr. Simon Flexner of the Rockefeller Institute, and Dr. Arthur D. Bevan, chairman of the Council on Education of the American Medical Association. In addition, our acknowledgments are due to Dr. N.P. Colwell, secretary of the Council on Education of the American Medical Association, and to Dr. F. C. Zapffe, secretary of the Association of American Medical Colleges, for most helpful cooperation.** I wish to acknowledge also our indebtedness to a number of eminent men connected with various schools of medicine who have been kind enough to read the proof of this report and to give us the benefit of their comment and criticism.

HENRY S. PRITCHETT.

April 16, 1910.

On May 7, 1847, The American Medical Association is a professional association and lobbying group of physicians and medical students. Founded in 1847, it is headquartered in Chicago, Illinois. Membership was approximately 240,000 in 2016.

On May 21, 1881, American Red Cross also known as The America National Red Cross was Founded by Clara Barton.

After the First Epidemic “The First Polio Epidemic” Emerged in 1894. After the World War I, 24 years later from 1894, in 1918, the Second World Wide Pandemic “The Great Influenza” was Emerged. After World War II, after 63 years later from the Influenza Pandemic in 1981 the Third Epidemic Was Emerged called as HIV AIDS. But the Above all Epidemics Were Well Planned by the Rothschilds like Organization and with help of Governments. Including the World Health Organization and Everyone is Involved.

"They Started with the Corruption, Now they Ongoing with the Genocide."

The Main Reason For their Tyranny is Inequality in Law, and Loopholes in the Law

Rome Statute of the International Criminal Court

PREAMBLE

The States Parties to this Statute,

Conscious that all peoples are united by common bonds, their cultures pieced together in a shared heritage, and concerned that this delicate mosaic may be shattered at any time,

Mindful that during this century, millions of children, women and men have been victims of unimaginable atrocities that deeply shock the conscience of humanity,

Recognizing that such grave crimes threaten the peace, security and well-being of the world,

Affirming that the most serious crimes of concern to the international community as a whole must not go unpunished and that their effective prosecution must be ensured by taking measures at the national level and by enhancing international cooperation,

Determined to put an end to impunity for the perpetrators of these crimes and thus to contribute to the prevention of such crimes,

Recalling that it is the duty of every State to exercise its criminal jurisdiction over those responsible for international crimes,

Reaffirming the Purposes and Principles of the Charter of the United Nations, and in particular that all States shall refrain from the threat or use of force against the territorial integrity or political independence of any State,

or in any other manner inconsistent with the Purposes of the United Nations,

Emphasizing in this connection that nothing in this Statute shall be taken as authorizing any State Party to intervene in an armed conflict or in the internal affairs of any State,

Determined to these ends and for the sake of present and future generations, to establish an independent permanent International Criminal Court in relationship with the United Nations system, with jurisdiction over the most serious crimes of concern to the international community as a whole,

Emphasizing that the International Criminal Court established under this Statute shall be complementary to national criminal jurisdictions,

Resolved to guarantee lasting respect for and the enforcement of international justice,

PART 1.

ESTABLISHMENT OF THE COURT

Article 1 The Court

An International Criminal Court ("the Court") is hereby established. It shall be a permanent institution and shall have the power to exercise its jurisdiction over persons for the most serious crimes of international concern, as referred to in this Statute, and shall be complementary to national criminal jurisdictions. The jurisdiction and functioning of the Court shall be governed by the provisions of this Statute.

Article 2

Relationship of the Court with the United Nations

The Court shall be brought into relationship with the United Nations through an agreement to be approved by the Assembly of States Parties to this Statute and thereafter concluded by the President of the Court on its behalf.

Article 3

The seat of the Court

The seat of the Court shall be established at The Hague in the Netherlands ("the host State").

The Court shall enter into a headquarters agreement with the host State, to be approved by the Assembly of States Parties and thereafter concluded by the President of the Court on its behalf.

The Court may sit elsewhere, whenever it considers it desirable, as provided in this Statute.

Article 4
Legal status and powers of the Court

The Court shall have an international legal personality. It shall also have such legal capacity as may be necessary for the exercise of its functions and the fulfilment of its purposes.

The Court may exercise its functions and powers, as provided in this Statute, on the territory of any State Party and, by special agreement, on the territory of any other State.

PART 2.
JURISDICTION, ADMISSIBILITY AND APPLICABLE LAW

Article 5[1]
Crimes within the jurisdiction of the Court

The jurisdiction of the Court shall be limited to the most serious crimes of concern to the international community as a whole. The Court has jurisdiction in accordance with this Statute with respect to the following crimes:

(a) The crime of genocide;

(b) Crimes against humanity;

(c) War crimes;

(d) The crime of aggression.

Article 6
Genocide

For the purpose of this Statute, "genocide" means any of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group, as such:

(a) Killing members of the group;

(b) Causing serious bodily or mental harm to members of the group;

(c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part;

(d) Imposing measures intended to prevent births within the group;

(e) Forcibly transferring children of the group to another group.

Article 7
Crimes against humanity

1. For the purpose of this Statute, "crime against humanity" means any of the following acts when committed as part of a widespread or systematic attack directed against any civilian population, with knowledge of the attack:

(a) Murder;

(b) Extermination;

(c) Enslavement;

(d) Deportation or forcible transfer of population;

(e) Imprisonment or other severe deprivation of physical liberty in violation of fundamental rules of international law;

(f) Torture;

(g) Rape, sexual slavery, enforced prostitution, forced pregnancy, enforced sterilization, or any other form of sexual violence of comparable gravity;

(h) Persecution against any identifiable group or collectivity on political, racial, national, ethnic, cultural, religious, gender as defined in paragraph 3, or other grounds that are universally recognized as impermissible under international law, in connection with any act referred to in this paragraph or any crime within the jurisdiction of the Court;

(i) Enforced disappearance of persons;

(j) The crime of apartheid;

(k) Other inhumane acts of a similar character intentionally causing great suffering, or serious injury to body or to mental or physical health.

---

1 Paragraph 2 of article 5 ("The Court shall exercise jurisdiction over the crime of aggression once a provision is adopted in accordance with articles 121 and 123 defining the crime and setting out the conditions under which the Court shall exercise jurisdiction with respect to this crime. Such a provision shall be consistent with the relevant provisions of the Charter of the United Nations.") was deleted in accordance with RC/Res.6, annex I, of 11 June 2010.

2. For the purpose of paragraph 1:

   (a) "Attack directed against any civilian population" means a course of conduct involving the multiple commission of acts referred to in paragraph 1 against any civilian population, pursuant to or in furtherance of a State or organizational policy to commit such attack;

   (b) "Extermination" includes the intentional infliction of conditions of life, *inter alia* the deprivation of access to food and medicine, calculated to bring about the destruction of part of a population;

   (c) "Enslavement" means the exercise of any or all of the powers attaching to the right of ownership over a person and includes the exercise of such power in the course of trafficking in persons, in particular women and children;

   (d) "Deportation or forcible transfer of population" means forced displacement of the persons concerned by expulsion or other coercive acts from the area in which they are lawfully present, without grounds permitted under international law;

   (e) "Torture" means the intentional infliction of severe pain or suffering, whether physical or mental, upon a person in the custody or under the control of the accused; except that torture shall not include pain or suffering arising only from, inherent in or incidental to, lawful sanctions;

   (f) "Forced pregnancy" means the unlawful confinement of a woman forcibly made pregnant, with the intent of affecting the ethnic composition of any population or carrying out other grave violations of international law. This definition shall not in any way be interpreted as affecting national laws relating to pregnancy;

   (g) "Persecution" means the intentional and severe deprivation of fundamental rights contrary to international law by reason of the identity of the group or collectivity;

   (h) "The crime of apartheid" means inhumane acts of a character similar to those referred to in paragraph 1, committed in the context of an institutionalized regime of systematic oppression and domination by one racial group over any other racial group or groups and committed with the intention of maintaining that regime;

   (i) "Enforced disappearance of persons" means the arrest, detention or abduction of persons by, or with the authorization, support or acquiescence of, a State or a political organization, followed by a refusal to acknowledge that deprivation of freedom or to give information on the fate or whereabouts of those persons, with the intention of removing them from the protection of the law for a prolonged period of time.

3. For the purpose of this Statute, it is understood that the term "gender" refers to the two sexes, male and female, within the context of society. The term "gender" does not indicate any meaning different from the above.

Article 8[2]
War crimes

1. The Court shall have jurisdiction in respect of war crimes in particular when committed as part of a plan or policy or as part of a large-scale commission of such crimes.

2. For the purpose of this Statute, "war crimes" means:

   (a) Grave breaches of the Geneva Conventions of 12 August 1949, namely, any of the following acts against persons or property protected under the provisions of the relevant Geneva Convention:

      (i) Wilful killing;

      (ii) Torture or inhuman treatment, including biological experiments;

      (iii) Wilfully causing great suffering, or serious injury to body or health;

      (iv) Extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly;

      (v) Compelling a prisoner of war or other protected person to serve in the forces of a hostile Power;

      (vi) Wilfully depriving a prisoner of war or other protected person of the rights of fair and regular trial;

2 Paragraphs 2 (e) (xiii) to 2 (e) (xv) were amended by resolution RC/Res.5 of 11 June 2010 (adding paragraphs 2 (e) (xiii) to 2 (e) (xv)).

(vii) Unlawful deportation or transfer or unlawful confinement;

(viii) Taking of hostages.

(b) Other serious violations of the laws and customs applicable in international armed conflict, within the established framework of international law, namely, any of the following acts:

(i) Intentionally directing attacks against the civilian population as such or against individual civilians not taking direct part in hostilities;

(ii) Intentionally directing attacks against civilian objects, that is, objects which are not military objectives;

(iii) Intentionally directing attacks against personnel, installations, material, units or vehicles involved in a humanitarian assistance or peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict;

(iv) Intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects or widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated;

(v) Attacking or bombarding, by whatever means, towns, villages, dwellings or buildings which are undefended and which are not military objectives;

(vi) Killing or wounding a combatant who, having laid down his arms or having no longer means of defence, has surrendered at discretion;

(vii) Making improper use of a flag of truce, of the flag or of the military insignia and uniform of the enemy or of the United Nations, as well as of the distinctive emblems of the Geneva Conventions, resulting in death or serious personal injury;

(viii) The transfer, directly or indirectly, by the Occupying Power of parts of its own civilian population into the territory it occupies, or the deportation or transfer of all or parts of the population of the occupied territory within or outside this territory;

(ix) Intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes, historic monuments, hospitals and places where the sick and wounded are collected, provided they are not military objectives;

(x) Subjecting persons who are in the power of an adverse party to physical mutilation or to medical or scientific experiments of any kind which are neither justified by the medical, dental or hospital treatment of the person concerned nor carried out in his or her interest, and which cause death to or seriously endanger the health of such person or persons;

(xi) Killing or wounding treacherously individuals belonging to the hostile nation or army;

(xii) Declaring that no quarter will be given;

(xiii) Destroying or seizing the enemy's property unless such destruction or seizure be imperatively demanded by the necessities of war;

(xiv) Declaring abolished, suspended or inadmissible in a court of law the rights and actions of the nationals of the hostile party;

(xv) Compelling the nationals of the hostile party to take part in the operations of war directed against their own country, even if they were in the belligerent's service before the commencement of the war;

(xvi) Pillaging a town or place, even when taken by assault;

(xvii) Employing poison or poisoned weapons;

(xviii) Employing asphyxiating, poisonous or other gases, and all analogous liquids, materials or devices;

(xix) Employing bullets which expand or flatten easily in the human body, such as bullets with a hard envelope which does not entirely cover the core or is pierced with incisions;

(xx) Employing weapons, projectiles and material and methods of warfare which are of a nature to cause superfluous injury or unnecessary suffering or which are inherently indiscriminate in violation of the international law of armed conflict, provided that such weapons, projectiles and material and methods of warfare are the subject of a comprehensive prohibition and are included in an annex to this Statute, by an amendment in accordance with the relevant provisions set forth in articles 121 and 123;

(xxi) Committing outrages upon personal dignity, in particular humiliating and degrading treatment;

(xxii) Committing rape, sexual slavery, enforced prostitution, forced pregnancy, as defined in article 7, paragraph 2 (f), enforced sterilization, or any other form of sexual violence also constituting a grave breach of the Geneva Conventions;

(xxiii) Utilizing the presence of a civilian or other protected person to render certain points, areas or military forces immune from military operations;

(xxiv) Intentionally directing attacks against buildings, material, medical units and transport, and personnel using the distinctive emblems of the Geneva Conventions in conformity with international law;

(xxv) Intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions;

(xxvi) Conscripting or enlisting children under the age of fifteen years into the national armed forces or using them to participate actively in hostilities.

(c) In the case of an armed conflict not of an international character, serious violations of article 3 common to the four Geneva Conventions of 12 August 1949, namely, any of the following acts committed against persons taking no active part in the hostilities, including members of armed forces who have laid down their arms and those placed hors de combat by sickness, wounds, detention or any other cause:

(i) Violence to life and person, in particular murder of all kinds, mutilation, cruel treatment and torture;

(ii) Committing outrages upon personal dignity, in particular humiliating and degrading treatment;

(iii) Taking of hostages;

(iv) The passing of sentences and the carrying out of executions without previous judgement pronounced by a regularly constituted court, affording all judicial guarantees which are generally recognized as indispensable.

(d) Paragraph 2 (c) applies to armed conflicts not of an international character and thus does not apply to situations of internal disturbances and tensions, such as riots, isolated and sporadic acts of violence or other acts of a similar nature.

(e) Other serious violations of the laws and customs applicable in armed conflicts not of an international character, within the established framework of international law, namely, any of the following acts:

(i) Intentionally directing attacks against the civilian population as such or against individual civilians not taking direct part in hostilities;

(ii) Intentionally directing attacks against buildings, material, medical units and transport, and personnel using the distinctive emblems of the Geneva Conventions in conformity with international law;

(iii) Intentionally directing attacks against personnel, installations, material, units or vehicles involved in a humanitarian assistance or peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict;

(iv) Intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes, historic monuments, hospitals and places where the sick and wounded are collected, provided they are not military objectives;

(v) Pillaging a town or place, even when taken by assault;

(vi) Committing rape, sexual slavery, enforced prostitution, forced pregnancy, as defined in article 7, paragraph 2 (f), enforced sterilization, and any other form of sexual violence also constituting a serious violation of article 3 common to the four Geneva Conventions;

(vii) Conscripting or enlisting children under the age of fifteen years into armed forces or groups or using them to participate actively in hostilities;

(viii) Ordering the displacement of the civilian population for reasons related to the conflict, unless the security of the civilians involved or imperative military reasons so demand;

(ix) Killing or wounding treacherously a combatant adversary;

(x) Declaring that no quarter will be given;

(xi) Subjecting persons who are in the power of another party to the conflict to physical mutilation or to medical or scientific experiments of any kind which are neither justified by the medical, dental or hospital treatment of the person concerned nor carried out in his or her interest, and which cause death to or seriously endanger the health of such person or persons;

(xii) Destroying or seizing the property of an adversary unless such destruction or seizure be imperatively demanded by the necessities of the conflict;

(xiii) Employing poison or poisoned weapons;

(xiv) Employing asphyxiating, poisonous or other gases, and all analogous liquids, materials or devices;

(xv) Employing bullets which expand or flatten easily in the human body, such as bullets with a hard envelope which does not entirely cover the core or is pierced with incisions.

(f) Paragraph 2 (e) applies to armed conflicts not of an international character and thus does not apply to situations of internal disturbances and tensions, such as riots, isolated and sporadic acts of violence or other acts of a similar nature. It applies to armed conflicts that take place in the territory of a State when there is protracted armed conflict between governmental authorities and organized armed groups or between such groups.

3. Nothing in paragraph 2 (c) and (e) shall affect the responsibility of a Government to maintain or re-establish law and order in the State or to defend the unity and territorial integrity of the State, by all legitimate means.

Article 8 *bis*[3]
Crime of aggression

1. For the purpose of this Statute, "crime of aggression" means the planning, preparation, initiation or execution, by a person in a position effectively to exercise control over or to direct the political or military action of a State, of an act of aggression which, by its character, gravity and scale, constitutes a manifest violation of the Charter of the United Nations.

2. For the purpose of paragraph 1, "act of aggression" means the use of armed force by a State against the sovereignty, territorial integrity or political independence of another State, or in any other manner inconsistent with the Charter of the United Nations. Any of the following acts, regardless of a declaration of war, shall, in accordance with United Nations General Assembly resolution 3314 (XXIX) of 14 December 1974, qualify as an act of aggression:

(a) The invasion or attack by the armed forces of a State of the territory of another State, or any military occupation, however temporary, resulting from such invasion or attack, or any annexation by the use of force of the territory of another State or part thereof;

(b) Bombardment by the armed forces of a State against the territory of another State or the use of any weapons by a State against the territory of another State;

(c) The blockade of the ports or coasts of a State by the armed forces of another State;

(d) An attack by the armed forces of a State on the land, sea or air forces, or marine and air fleets of another State;

3 Inserted by resolution RC/Res.6 of 11 June 2010.

(e) The use of armed forces of one State which are within the territory of another State with the agreement of the receiving State, in contravention of the conditions provided for in the agreement or any extension of their presence in such territory beyond the termination of the agreement;

(f) The action of a State in allowing its territory, which it has placed at the disposal of another State, to be used by that other State for perpetrating an act of aggression against a third State;

(g) The sending by or on behalf of a State of armed bands, groups, irregulars or mercenaries, which carry out acts of armed force against another State of such gravity as to amount to the acts listed above, or its substantial involvement therein.

Article 9[4]
Elements of Crimes

1. Elements of Crimes shall assist the Court in the interpretation and application of articles 6, 7, 8 and 8 *bis*. They shall be adopted by a two-thirds majority of the members of the Assembly of States Parties.

2. Amendments to the Elements of Crimes may be proposed by:

   (a) Any State Party;

   (b) The judges acting by an absolute majority;

   (c) The Prosecutor.

   Such amendments shall be adopted by a two-thirds majority of the members of the Assembly of States Parties.

3. The Elements of Crimes and amendments thereto shall be consistent with this Statute.

Article 10

Nothing in this Part shall be interpreted as limiting or prejudicing in any way existing or developing rules of international law for purposes other than this Statute.

Article 11
Jurisdiction ratione temporis

1. The Court has jurisdiction only with respect to crimes committed after the entry into force of this Statute.

2. If a State becomes a Party to this Statute after its entry into force, the Court may exercise its jurisdiction only with respect to crimes committed after the entry into force of this Statute for that State, unless that State has made a declaration under article 12, paragraph 3.

Article 12
Preconditions to the exercise of jurisdiction

1. A State which becomes a Party to this Statute thereby accepts the jurisdiction of the Court with respect to the crimes referred to in article 5.

2. In the case of article 13, paragraph (a) or (c), the Court may exercise its jurisdiction if one or more of the following States are Parties to this Statute or have accepted the jurisdiction of the Court in accordance with paragraph 3:

   (a) The State on the territory of which the conduct in question occurred or, if the crime was committed on board a vessel or aircraft, the State of registration of that vessel or aircraft;

   (b) The State of which the person accused of the crime is a national.

3. If the acceptance of a State which is not a Party to this Statute is required under paragraph 2, that State may, by declaration lodged with the Registrar, accept the exercise of jurisdiction by the Court with respect to the crime in question. The accepting State shall cooperate with the Court without any delay or exception in accordance with Part 9.

4 As amended by resolution RC/Res.6 of 11 June 2010 (inserting the reference to article 8 *bis*).

Universal Declaration of Human Rights, 1948

Preamble

Whereas recognition of the inherent dignity and of the equal and inalienable rights of all members of the human family is the foundation of freedom, justice and peace in the world, Whereas disregard and contempt for human rights have resulted in barbarous acts which have outraged the conscience of mankind, and the advent of a world in which human beings shall enjoy freedom of speech and belief and freedom from fear and want has been proclaimed as the highest aspiration of the common people, Whereas it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law, Whereas it is essential to promote the development of friendly relations between nations, Whereas the peoples of the United Nations have in the Charter reaffirmed their faith in fundamental human rights, in the dignity and worth of the human person and in the equal rights of men and women and have determined to promote social progress and better standards of life in more enormous freedom, Whereas Member States have pledged themselves to achieve, in cooperation with the United Nations, the promotion of universal respect for and observance of human rights and fundamental freedoms, Whereas a common understanding of these rights and freedoms is of the most significant importance for the full realization of this pledge, Now, therefore, The General Assembly, Proclaims this Universal Declaration of Human Rights as a common standard of achievement for all peoples and all nations, to the end that every individual and every organ of society, keeping this Declaration constantly in mind, shall strive by teaching and education to promote respect for these rights and freedoms and by progressive measures, national and international, to secure their universal and effective recognition and observance, both among the peoples of Member States themselves and among the peoples of territories under their jurisdiction.

Article I

All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.

Article 2

Everyone is entitled to all the rights and freedoms outlined in this Declaration, without distinction of any kind, such as race, color, sex, language, religion, political or other opinions, national or social origin, property, birth, or any other status. Furthermore, no distinction shall be made based on the political, jurisdictional, or international status of the country or territory to which a person belongs, whether independent, trust, non-self-governing or under any other limitation of sovereignty.

Article 3

Everyone has the right to life, liberty, and security of person.

Article 4

No one shall be held in slavery or servitude; slavery and the slave trade shall be prohibited in all forms.

Article 5

No one shall be subjected to torture or cruel, inhuman, degrading treatment or punishment.

Article 6

Everyone has the right to recognition everywhere as a person before the law.

Article 7

All are equal before the law and are entitled without any discrimination to equal protection of the law. All are entitled to equal protection against discrimination in violation of this Declaration and incitement to such discrimination.

Article 8

Everyone has the right to an effective remedy by the competent national tribunals for acts violating the fundamental rights granted him by the constitution or by law.

Article 9

No one shall be subjected to arbitrary arrest, detention, or exile.

Article 10

Everyone shall be entitled to a fair and public hearing by an independent and impartial tribunal, where his rights and duties and any criminal charge against him shall be determined.

Article 11

1. Everyone charged with a penal offense has the right to be presumed innocent until proved guilty according to the law in a public trial at which he has had all the guarantees necessary for his defense.

2. No one shall be held guilty of any penal offense on account of any act or omission that did not constitute a penal offence, under national or international law, at the time it was committed. Nor shall a heavier penalty be imposed than the one applicable when the penal offense was committed.

Article 12

No one shall be subjected to arbitrary interference with his privacy, family, home, or correspondence, nor to attacks upon his honor and reputation. Everyone has the right to protect the law against such interference or attacks.

Article 13

1. Everyone has the right to freedom of movement and residence within each State's borders.

2. Everyone has the right to leave any country, including his own, and to return to his country.

Article 14

1. Everyone has the right to seek and enjoy asylum from persecution in other countries.

2. This right may not be invoked in the case of prosecutions genuinely arising from non-political crimes or acts contrary to the purposes and principles of the United Nations.

Article 15

1. Everyone has the right to a nationality.

2. No one shall be arbitrarily deprived of his nationality nor denied the right to change his nationality.

Article 16

1. Men and women of full age, without any limitation due to race, nationality, or religion, have the right to marry and to find a family. They are entitled to equal rights to marriage, during the marriage, and at its dissolution.

2. Marriage shall be entered only with the intending spouses' free and full consent.

3. The family is the natural and fundamental group unit of society and is entitled to protection by society and the State.

Article 17

1. Everyone has the right to own property alone and in association with others.

2. No one shall be arbitrarily deprived of his property.

Article 18

Everyone has the right to freedom of thought, conscience, and religion; this right includes freedom to change his religion or belief and freedom, either alone or in community with others and in public or private, to manifest his religion or belief in teaching, practice, worship, and observance.

Article 19

Everyone has the right to freedom of opinion and expression; this right includes the freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media and regardless of frontiers.

Article 20

1. Everyone has the right to freedom of peaceful assembly and association.

2. No one may be compelled to belong to an association.

Article 21

1. Everyone has the right to participate in his country's government, directly or through freely chosen representatives.

2. Everyone has the right to equal access to public service in his country.

3. The people's will shall be the basis of the government's authority; this will shall be expressed in periodic and genuine elections, which shall be by universal and equal suffrage and shall be held by secret vote or by equivalent free voting procedures.

Article 22

Everyone, as a member of society, has the right to social security and is entitled to realization, through national effort and international cooperation and following the organization and resources of each State, of the economic, social, and cultural rights indispensable for his dignity and the free development of his personality.

Article 23

1. Everyone has the right to work, to free choice of employment, to just and favorable conditions of work, and to protection against unemployment.

2. Everyone, without any discrimination, has the right to equal pay for equal work.

3. Everyone who works has the right to just and favorable remuneration, ensuring for himself and his family an existence worthy of human dignity and supplemented, if necessary, by other means of social protection.

4. Everyone has the right to form and join trade unions to protect his interests.

Article 24

Everyone has the right to rest and leisure, including reasonable limitation of working hours and periodic holidays with pay.

Article 25

1. Everyone has the right to a standard of living adequate for the health and well-being of himself and his family, including food, clothing, housing, medical care, and necessary social services, and the right to security in the event of unemployment, sickness, disability, widowhood, old age or other lack of livelihood in the circumstances beyond his control.

2. Motherhood and childhood are entitled to special care and assistance. All children, born in or out of wedlock, shall enjoy the same social protection.

Article 26

1. Everyone has the right to education. Education shall be free, at least in the elementary and fundamental stages. Elementary education shall be compulsory. Technical and professional education shall be made generally available, and higher education shall be equally accessible based on merit.

2. Education shall be directed to the full development of the human personality and strengthening respect for human rights and fundamental freedoms. It shall promote understanding, tolerance, and friendship among all nations, racial or religious groups, and shall further the activities of the United Nations to maintain peace.

3. Parents have a prior right to choose the kind of education that shall be given to their children.

Article 27

1. Everyone has the right to freely participate in the community's cultural life, enjoy the arts, and share in scientific advancement and its benefits.

2. Everyone has the right to protect the moral and material interests resulting from any scientific, literary or artistic production of which he is the author.

Article 28

Everyone is entitled to a social and international order in which the rights and freedoms outlined in this Declaration can be fully realized.

Article 29

1. Everyone has duties to the community in which alone the free and full development of his personality is possible.

2. In the exercise of his rights and freedoms, everyone shall be subject only to such limitations as are determined by law solely to secure due recognition and respect for the rights and freedoms of others and to meet the just requirements of morality, public order and the general welfare in a democratic society. 3. These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.

Article 30

Nothing in this Declaration may be interpreted as implying for any State, group, or person any right to engage in any activity or to perform any act aimed at the destruction of any of the rights and freedoms set forth herein.

BRITISH MEDICAL JOURNAL No 7070 Volume 313: Page 1448, December 7, 1996.

Introduction

The judgment by the war crimes tribunal at Nuremberg laid down ten standards to which physicians must conform when carrying out experiments on human subjects in a new code that is now accepted worldwide. This judgment established a new standard of ethical medical behavior for the post-World War II human rights era. Amongst other requirements, this document enunciates the provision of voluntary informed consent of the human subject. The voluntary informed consent principle protects the individual's right to control his own body. The principles established by this code for medical practice have now been extended into general codes of medical ethics. This code recognizes that doctors should avoid actions that injure human patients. This code also recognizes that the risk must be weighed against the expected benefit, and that unnecessary pain and suffering must be avoided.

The Nuremberg Code (1947)

Permissible Medical Experiments

The great weight of the evidence before us to the effect that certain types of medical experiments on human beings, when kept within reasonably well-defined bounds, conform to the ethics of the medical profession generally. The protagonists of the practice of human experimentation justify their views that such experiments yield results for the good of society that are unprocurable by other methods or means of study. All agree, however, that certain basic principles must be observed to satisfy moral, ethical, and legal concepts:

1. The voluntary consent of the human subject is essential. This means that the person involved should have the legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or another ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rest upon each individual who initiates direct, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary.

3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results justify the performance of the experiment.

4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.

5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.

6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.

7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability or death.

8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.

9. During the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.

10. During the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill, and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

Section Zero

Base and Foundaitons of the Crimes Against Humanity and Genocide

World War I (Jul 28, 1914 – Nov 11, 1918), Vaccination and Pandemics

World War started on Jul 28, 1914, with the assassination of Austrian Archduke Franz Ferdinand on June 28, 1914, that assassination was the reason for the start of the Great War called World War 1 (World War I).

On July 23, 1914, having secured the unconditional support of its powerful ally Germany, Austria-Hungary issued a stern ultimatum to Serbia demanding, among other things, that all anti-Austrian propaganda in Serbia is suppressed and that Austria-Hungary is allowed to conduct its own investigation into the assassination of the archduke.

July 25, 1914 - Austria-Hungary severs diplomatic ties with Serbia and begins to mobilize its troops. July 26, 1914 - Britain attempts to organize a political conference among the major European powers to settle the dispute between Austria-Hungary and Serbia. France and Italy agree to participate. Russia agrees, but Germany refuses.

On July 28, 1914, one month to the day after Archduke Franz Ferdinand of Austria and his wife were killed by a Serbian nationalist in Sarajevo by Gavrilo Princip, a member of a Serbian-backed secret para-military organization. After Austria-Hungary declares war on Serbia, effectively beginning the First World War.

Princip was tried by Hapsburg authorities for his role in the assassinations. He was found guilty of the crimes, but escaped the death penalty due to his age at the time of the commission of the crimes and was instead sentenced to 20 years in prison. He died in prison in 1918 as a result of tuberculosis.

Britain declared war on Germany on August 4th, 1914, The Reason for the Declaration was a result of German refusal to remove troops from neutral Belgium.

In that World War I, the total number of military and civilian casualties in World War I, was around 40 million. There were 20 million deaths and 21 million wounded. The total number of deaths includes 9.7 million military personnel and about 10 million civilians.

Vaccination Took Place in World War I, Antityphoid Inoculation

Typhoid fever is caused by Salmonella typhi bacteria. People who drink contaminated water or eat food washed in contaminated water can develop typhoid fever.

On 27 August 1914, just after three weeks of the Great War called as heartless World War I, Sir William Osler, Regius Professor of Medicine at Oxford University, wrote a letter to the Times, in which he urged the necessity of compulsory Vaccination British Troops against typhoid.

“In war,” he pressed, “the microbe kills more than the bullet” and he reminded his readers that more men had died of dysentery and typhoid in the Boer War than had died in action.

Olser’s plea was supported, in the first week of September, by letter from Sir Lauder Bruton, an acknowledged leader of the medial profession, and Sir Almroth Wright, Head of the Inoculation or Vaccination Department at St Mary’s Hospital, London, and Pioneer of antityphoid vaccine.

On 28th September Wright Wright Wrote again, arguing the case for compulsory vaccination at far greater length.

“An Army going on active straight back to those of barbarism”. It goes out to confront dangers that have, in settled communities, been so completely extinguished as to have passed almost out of mind.

JOUR Oct. A. M. A, October 10, 1914

The Statistics given by Major Russell as to the reduction of typhoid fever in the army by the use of antityphoid inoculation in three doses at ten-day intervals have given an impetus to this vaccine work so that thousands of persons are being inoculated throughout this country.

He reports three cases occurring in ninety thousand inoculated soldiers during last year.

In a small community here in southern Kentucky, in which we have had approximately one thousand inoculations, we have had five of them develop typhoid fever within the next eight months.

After the Vaccines, many of them Get Typhoid Fever.

JOUR Oct. A. M. A, October 24, 1914

Typhoid Inoculation of the Canadian Troops

Dr. Chas. A. Hodgetts, Ottawa, medical advisor to the Canadian Conservation Commission, had charge of the inoculations of the Canadian troops while in camp at Valcartier. Among his assistants was Dr. Theodore A. Lomer. medical officer of health, Ottawa; Dr. Harry Morell, pathologist to the Regina General Hospital, and Dr. Robert E. Wodehouse, district medical officer of health. Port Arthur, Out. There were required about forty-five thousand injections and in this large number, there were reported no cases of serious or severe constitutional reactions, nor any infected arms.

The First World War was fought from 1914 to 1918. More than 650,000 Canadians and Newfoundlanders served in this war, then called the Great War. More than 66,000 of our soldiers lost their lives and more than 172,000 were wounded.

LONDON LETTER

LONDON, Oct. 9, 1914,

The War Preparations of all kinds for this great war, to which we are about to send a large force instead of the present one of about 200,000 men, are being made ‘‘without haste, and without pause.” The call to arms has quickly been responded to and the half million of men required for the new army have been obtained without difficulty. A further army of a second half million has begun to be organized. Almost the whole of the young men of the country are coming forward with enthusiasm. The physique of the new army is excellent, though some of its members are very youthful ?nd require seasoning. Their housing in a country which maintains only a small standing army presents some difficulties. Huts accommodating from twenty to fifty men are being erected on an extensive scale, which will be much warmer in winter than tents. Timber hospitals are also being erected. The vaccination and inoculation against typhoid fever of men going to the front have been performed on a large scale. The effects of the war on the life of the country are widespread. In the medical profession they are noticeable in many ways. The staffs of hospitals are depleted, and visiting surgeons and physicians have undertaken duties usually performed by residents. Many of the students have gone to the front, some as dressers, but the greater number have enlisted in the fighting ranks. The output of medical literature is much diminished as shown in the contraction of all the medical journals. The program of the Royal Society of Medicine shows a great reduction in the

number of meetings for the forthcoming session. An unfortunate result of the war is the closure of the Polyclinic. This unique and useful institution was founded fifteen years ago mainly by the efforts of the late Sir Jonathan Hutchinson. Its object was to provide postgraduate instruction for physicians in the form of lectures and demonstrations. The annual subscription was $5. and about 1,000 members were obtained. This was not sufficient to pay the expenses; appeals for donations were

made on more than one occasion and generously responded to by a limited number of physicians. A scheme, which appeared to be successful, was in process of being carried out for the abolition of the debt of the institution. When the war broke out financial losses, actual and prospective, rendered many unable to carry out promises of help. Moreover, the support of American and colonial visitors fell to the vanishing point. At the front the supply of surgeons, dressers and nurses is ample, indeed more than sufficient. Two well-known surgeons, Sir Anthony Bowlby and Mr. Makins, have been appointed consultants attached to General French's staff as colonels. Both have experience of military surgery in the South African War. Their duties will be to visit any part of the line where a second opinion on a case may seem desirable. Some difficulties are being experienced in bringing down a large number of wounded from the rail heads or clearing hospitals to the base. The journeys are often long and interrupted. This is due to the limited number of lines, which have also to be used for the dispatch of reinforcements, ammunition and food. Some improvements are about to be made in French railway rolling stock, and by the arrival of a complete ambulance train which is being fitted in England. A heavy list of casualties has occurred among the men of the Army Medical Corps.

Therapeutics

Oct. 31, 1914, JAMA

Almost free from typhoid fever by such protective vaccination.

The danger to an army from typhoid fever, especially during war times, when it is encamped in regions not previously equipped to care for large numbers of men in a sanitary manner, is well shown by the statement that one-fifth of the soldiers in a national encampment of our men in the Spanish-American war had typhoid fever, the actual figures being that out of 107,973 men, 20,728 had typhoid fever, of which number 1,580 died. It is also stated that in 90 percent, of the volunteer regiments the disease broke out within eight weeks after going into camp. In spite of all sanitary measures possible, typhoid fever will prevail until the preventive vaccination is inaugurated. With the inauguration of this measure in the United States Army typhoid fever became greatly diminished in frequency. Vaccination of our army was begun in 1909, and, in 1911, among 80,000 men only 11 cases of typhoid fever occurred, with one death. In 1912 there were 15 cases in the army, with 2 deaths. This show's that occasionally the typhoid inoculation does not protect, but the improvement shown by the diminution in the number of typhoid cases from 9.43 cases out of every thousand soldiers in 1901, to 0.26 for every thousand soldiers, in 1912, compels belief in its efficiency. The death-rate from this disease decreased, per thousand soldiers from 0.64 in 1901 to 0.03 in 1912.1

END OF WORLD WAR 1

In 1918, the influx of American troops and resources to the Western Front tipped the balance in favor of the Allies. Germany signed an armistice agreement with the Allies on November 11, 1918. World War I have been called the "war to end all wars" because of the great carnage and destruction it wrought.

Influenza the Great Pandemic (February 1918 – April 1920)

After the Great World War ended, after three months the influenza pandemic of 1918-1919 killed more people than the Great War, known today as World War I (WWI), at somewhere between 20 and 40 million people. It has been cited as the most devastating epidemic in recorded world history.

PUBLIC NOTICE.

“Spanish Influenza” Epidemic.

In view of the widespread prevalence of this disease. attention is called to the following statement by the chief medical officer of the Local Government Board:--

"The disease is more infectious, and it is necessary that all possible precautions should be taken one case today may mean a hundred tomorrow and thousands within a week. The Symptoms are readily recognizable, consisting of extreme lassitude, aching of the limbs, and headache. There is generally. But not always nasal catarrh.

Attention is also called to the following statement by the author of

“Infuenza: Its Cause and Treatment ":--

“Formamint Tablets we posess the best means of preventing the infective processes which neglected may lead to serious complications. Consequently, every influenza patient should suck four or five of these tablets a day until convalescent. . . There is a no reason why individuals, families, and households should not adopt the preventive measures that the State cannot enforce on a large scale. No hardship is involved in sucking a Formamint tablet and taking a small dose of quinine when exposed to the danger of infection.”

PREVENTION BY FORMAMINT.

Note: The Formanint tablets referred to above are manufactured by Genatosan, Ltd. (British Purchasers of The Sanatogen Co.). 12, Chenies Street, London, W.C.I, and are obtainable of all chemists at 2/2 per bottle, Containing, no tree formalin, they are absolutely harmless, can be take freely by adults and children, and are used as a preventive by the R.A.M.C., the Red Cross Society and all the leading

INFECTIOUS DISEASES HOSPITALS

Advertisement in The Times, 28 June 1918 for Formamint tablets to prevent "Spanish influenza"

On 28 June 1918, an Advertisement in The Times of London June 28, 1918 p.8 for Formamint tablets by Genatosan, Ltd to prevent Spanish influenza.

This pattern was observed even before the 1889–1890 pandemic, also known as the 'Russian flu', when the Russians already called epidemic influenza the 'Chinese catarrh', the Germans called it the 'Russian pest', while the Italians in turn called it the 'German disease'.

On 2 June 1918 The Times of London dispatch titled, "The Spanish Epidemic," a correspondent in Madrid reported over 100,000 victims of, "The unknown disease…clearly of a gripal character," without referring to "Spanish influenza" directly.

Timeline of the Influenza Pandemic

At the First wave of early 1918, The pandemic is conventionally marked as having begun on 4 March 1918 with the recording of the case of Albert Gitchell, an army cook at Camp Funston in Kansas, United States, despite there having been cases before him.

Seattle police wearing clothe masks during the pandemic, December 1918

This Planned Pandemic of Influenza Virus was Spread over the World Quickly.

American Red Cross nurses tend to flu patients in temporary wards set up inside Oakland Municipal Auditorium.

The Washington Times

WASHINGTON, FRIDAY EVENING, SEPTEMBER 27, 1918.

Gauze Mask to Halt Spread of Plague

This is the first picture of the new mask adopted and being made by the Red Cross to prevent the spread of Spanish influenza in the United States. The picture shows the mask being worn by a Red Cross worker, who is engaged in making the masks. The masks are designed to halt the exhaling or inhaling of the influenza germ. They are five inches wide and six inches across, and are composed of two thicknesses of gauze. They are tied in back.

In September 1918, the Red Cross recommended two-layer gauze masks to halt the spread of "plague".

Treatment was largely symptomatic and aimed at reducing fever or pain. Aspirin or acetylsalicylic acid was a common remedy. For secondary pneumonia, doses of epinephrine were administered. To combat cyanosis, physicians administered oxygen by mask or injected it under the skin (JAMA, 10/3/1918).

Medical Treatment

As there were no antiviral drugs to treat the virus, and no antibiotics to treat the secondary bacterial infections, doctors would rely on a random assortment of medicines with varying degrees of effectiveness, such as aspirin, quinine, arsenics, digitalis, strychnine, Epsom salts, castor oil, and iodine.

Aspirin

Side Effects of Aspirin

- Acid or sour stomach.
- anxiety.
- belching.
- dry mouth.
- hyperventilation.
- shaking.
- stomach discomfort, upset, or pain.
- trouble sleeping.

The death rate attributed to NSAID/aspirin use was between 21.0 and 24.8 cases per million people, respectively, or 15.3 deaths per 100,000 NSAID/aspirin users. Up to one-third of all NSAID/aspirin deaths can be attributed to low-dose aspirin use.

(https://pubmed.ncbi.nlm.nih.gov/16086703)

The Rockefeller Institute, whose investigators were intimately involved in the problem, alone included extraordinary people. By 1912 its head Simon Flexner – his brother wrote the "Flexner report" that revolutionized American medical education – used immune serum to bring the mortality rate for meningococcal meningitis down from over 80% to 18%; by contrast, in the 1990s at Massachusetts General Hospital a study found a 25% mortality rate for bacterial meningitis. Peyton Rous won the Nobel Prize in 1966 for work he did at the institute in 1911; he was that far ahead of the scientific consensus. By 1918 Oswald Avery and others at Rockefeller Institute had already produced both an effective curative serum and a vaccine for the most common pneumococcal pneumonias. At least partly because of the pandemic, Avery would spend the rest of his career studying pneumonia. That work led directly to his

discovery of the "transforming principle" – his discovery that DNA carries the genetic code.

Since several influenza pandemics in preceding centuries were already well-known and had come from the orient, Jordan first considered Asia as the source. But he found no evidence. Influenza did surface in early 1918 in China, but the outbreaks were minor, did not spread, and contemporary Chinese scientists, trained by Rockefeller Institute for Medical Research (now Rockefeller University) investigators, stated they believed these outbreaks were endemic disease unrelated to the pandemic. Jordan also looked at the lethal pulmonary disease cited by some historians as influenza, but this was diagnosed by contemporary scientists as pneumonic plague. By 1918 the plague bacillus could be easily and conclusively identified in the laboratory. So, after tracing all known outbreaks of respiratory disease in China, Jordan concluded that none of them "could be reasonably regarded as the true forerunner" of the pandemic.

World War II (Sep 1, 1939 – Sep 2, 1945), Vaccination, Drugs, and Pandemics

The main Reason of the World War 2 is everybody tells that Hitler's invasion of Poland in September 1939 drove Great Britain and France to declare war on Germany, marking the beginning of World War II. Over the next six years, the conflict would take more lives and destroy more land and property around the globe than any previous war.

The major causes of World War II were numerous. They include the impact of the Treaty of Versailles following World War 1, the worldwide economic depression, failure of appeasement, the rise of militarism in Germany and Japan, and the failure of the League of Nations.

During World War II, almost all American and Allied troops were vaccinated against yellow fever. By May 1942, it was cultured in human serum and suspended. In April 1942, severe hepatitis epidemics occurred among U.S. and Allied troops who had received yellow fever vaccine.

They were used as Pig During the war they were used for Experimental. In War Only the Soldier and Innocent Public Peoples Only Dying for the Greed War Provokers. War Provokers or Triggers are Always Safe.

The United States detonated two atomic bombs over the Japanese cities of Hiroshima and Nagasaki on 6 and 9 August 1945, respectively.

World War III (Sep 2, 1945 - Present), Vaccination, Drugs, and Pandemics (The Bio Terrorism or Bio War)

Rakhesh Jaghadish L. 21 / 08 / 2022

On October 11, 1939, FDR received a letter from Albert Einstein. In it, the distinguished physicist described the potential for an atomic weapon and warned that nuclear research was underway in Germany.

On 1941, President Franklin D. Roosevelt orders Dr. Vannevar Bush to move forward with a top-secret project that led to the world's first atomic bombs.

In August of 1945, the United States was still fighting in World War II against the nation of Japan. Having been told about the successful Trinity Test of an atomic bomb, President Truman decided to drop an atomic bomb on Japan on August 6, 1945.

On August 9, 1945, the United States President Harry S. Truman (Presidential term April 12, 1945 – January 20, 1953) dropped an atomic bomb on the city of Nagasaki, Japan, three days after bombing Hiroshima. By the end of 1945, an estimated 200,000 people had died in the two cities.

Origin of United Nations Charter

The origin of the United Nations Charter goes back to the Atlantic Charter signed on August 14, 1941, in which Franklin D. Roosevelt, President of the United States of America, and Winston Churchill, Prime Minister of the United Kingdom, announced "certain principles common to the policies of their respective countries, upon which they base their hopes for a better future."

On January 1, 1942, twenty-six states at war with the Axis powers, including the United States, the United Kingdom, China, and the Union of Soviet Socialist Republics (USSR), joined the common program of purposes and principles embodied in the Atlantic Charter in a document that became known as the United Nations Declaration.

Twenty-one other states joined this declaration at a later date.

The United Nations Declaration contained the first official use of the term "United Nations." The name "United Nations" was coined by U.S. President Franklin D. Roosevelt.

President Franklin D. Roosevelt (Presidential term March 4, 1933 – April 12, 1945) 32nd President and British Prime Minister Winston Churchill issue a declaration, signed by representatives of 26 countries, called the “United Nations.” The signatories of the declaration vowed to create an international postwar peacekeeping organization.

After the End of World war 2, On October 24, 1945, the United Nations was Founded by the same War Wagers and Warmongering those who were involved in World War 1 and World War 2.

We are all really now in World War 3. The innocent people here do not even know that we are in a world war. Yes, this world war three is about, the Psychological war waged by the Globalists, and Corrupt Young Global Leaders on the Entire World's Global Population.

This World War 3 is the Hidden war of the Cowards. This Third World War is a covert war of cowards.

This war is Hosted and Launched by the Heartless Corporates and the Inhumans.

This is pure Biological Warfare on the Global Population for Greed Profits and Power. This war is waged by the Influence of the Big Pharma Pharmaceutical Companies.

If United Nations is Really Founded for International Peace Means why there is no peace among the Population all over the world? Why there is no Equality among the Everyone? Why there is no Transparency at Present? Why there is Lots of Discrimination? Why there is still war Happening? Why there is Biological Weapons?

There Reason is only once, the corrupt in the world do not want peace, unity and equality among the people. Because they are completely distorted and Corrupted.

The Corrupt Persons of the Countries and Corruption is Spread over the United Nations.

The United Nations Officials are Lost their Integrity and Obligations. They are now fully working for the Biological War Mongering Big Pharma and Destroyers of Humanity.

The More War is now being waged on the common people of the world that has never been waged since the founding of the United Nations.

This War is Quietly Waged among the World Population by just spreading the virus in the name of a pandemic by Using Illogical Restriction like Lockdown and Useless Ineffective and Poisonous Death Causing Vaccinations.

This is not even Inoculation and Pure Genocide.

They conducted epidemic drills whenever each scheduled epidemic began.

There are lots of evidence after 2002 – Present Pandemics,

Atlantic Winter Pandemic Drill or Exercise or Hosted on Before the Coronavirus 2002 Pandemic.

Dark Winter Pandemic Exercise and So on.

Every Drugs are Causing the Diseases. During the AIDS Epidemic 1981, They used Cancer Failed Drugs, But The claim is AZT Failed Cancer Drugs is the Reason for the Deaths.

Yes, The AZT is number cause of Deaths. And Also, there is No Real AIDS Pandemic At all. AIDS is just name and used to cover up the mass murder done at that time.

Cutler Incident is Best Example,

The jury found that Cutter was not negligent in producing the vaccine, but had breached an implied warranty that their product was safe.

In April 1955 more than 200 000 children in five Western and mid-Western USA states received a polio experimental vaccine in which the process of inactivating the live virus proved to be defective. Within days there were reports of paralysis and within a month the first mass vaccination programme against polio had to be abandoned. Subsequent investigations revealed that the vaccine, manufactured by the California.

On 1900s, they used lots of way to kill the peoples in the name of vaccine.

On 1950s, they used the Monkey, Rabbit, and Sheep Kidney to Prepare the Vaccine. They Killed Chimpanzee in the African Region to Make the Virus Contaminated Vaccine. Especially the Some United States Vaccines Virologist Created Vaccines are Targeting only the Black Peoples.

But that is not vaccines at all. Because of all uneducated people in the past Simple used as an Experimental Pigs.

As per the Above analysis of this Document is Telling that every pandemic is the Historical Fraud and Scam Scandal. Every Vaccine is the History Fraud and Scam used in the name of a pandemic.

Pandemic and vaccines are just a word money making tool for the corrupt politicians, Some Corporations Companies, and Big Pharma Pharmaceutical Companies.

Coronavirus Pandemic Never Exists, the Pandemic is the Illusion to Create the Fear among the World Population and to Fool the Peoples.

Every Corrupt leader are on the Same Track they all under the Same Agenda Called the Great Reset to Implement the De Population and Enslavement.

Digital ID is the Modern Enslavement of the New World Order. Using the Digital ID, they can Blackmail and Do Anything they want.

“This Pandemic is Bioweapon and Bio Terrorism, Scam, and Scandal and The Vaccines is The Biggest Medical Fraud in History”

“We all Living in the Illusion. The Global High Elites and Corrupt Politicians are trying to Enslave us all.”

“It's Time to Wake UP and Protect the Humanity and Our Future Generations.”

“Don't Comply, don’t be Slave, Don't Fear, Rise You Questions, Bring the Changes. We all Have All Rights Because we are all Independent humans.”

“Here no one is a Slave to no one.”

“Let’s End their Plots and Planned Pandemic”

Evidence of the Russia Versus Ukraine Pre-Planned War.

Base and Incident of the Current Conflicts or War between Ukraine Versus Russia: 16/1/2022

On January 16,

An Anonymous Twitter Account Called @HumanRightsPeop, with the name Human Rights for Everyone. I Anonymously emailed information About the Crime Mentioned / Attached Below in the Documents.

The Right to Anonymous is a Fundamental Element / Component to Speak or Report the Genocides, Crime Against Humanity, and Tyranny of the Dictators.

If there is no Anonymity, there is no Safety for the Victims and Truth Speakers; when Government is Genocide, the Own People of the Country.

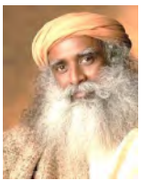

“Anonymity or Being Anonymous is a protective shield against the tyrannical rule and the genocide done by ruling majority, and Mass Murderers” – Rakhesh Jaghadish L

Below I Here I Enclosed / Attached that Document, which I sent through email to the United Nations, the President of the United States, Human Rights Organizations, and More New Media, Including Kamala Harris, the Vice President of America, to Stop the Destroying the Forest by the Jaggi Vasudev.

The Information Below, Titled ‘Requested United Nations and Environment Protectors, United Nations for Climate Change, Environment, Animal Protection, and Child Protection UNICEF:: 14/1/2022 (Please Save Animals and Childs),” was Attached as a PDF document emailed through the email to the Persons mentioned above, and also including media like [Washington Post] on January 16.

Requested United Nations and Environment Protectors, United Nations for Climate Change, Environment, Animal Protection, and Child Protection UNICEF:: 14/1/2022 (Please Save Animals and Childs)

BAN ISHA FOUNDATION IN USA (United States America)

Jaggi Vasudev Criminal: Nature Destroyer, Child Abuser, Brain Washer, Drug Trafficking and Wife Murderer.

In India, Specifically Tamil Nādu, Environment Was Destroyed and Elephants and Others Animals are Killed by the **Jaggi Vasudev aka Jagadish Vasudev aka Sadhguru (An inhumane natural destroyer who claims to be God himself and fools people in the name of religion since 1992 ISHA FOUNDATION)** using the large Electrical Fence in the Forest, Near Velliangiri, Tamil Nadu. Jaggi Vasudev is helping and harboring international criminals and drug traffickers. He also acts as a **proxy (Benami)** for many **politicians** (Including RSS BJP and Some Political Parties). Because he is close to Modi, all the independent bodies, the courts, and the forest officials are afraid to do their duty, Including the Tamil Nadu Government. In Past the Lots of Elephants are Killed by the Electric Fence, it’s very painful to say. Jackie Vasudev, on top of the case of killing his wife. Brainwashing children separates them from their parents and treats them like slaves, Destroying Nature and Killing Elephants. Moreover, politicians like the BJP RSS Modi are closely associated with converting black money into white money in the name of donation. Lots of Evidence has already been released by the Indian Government CAG Officials. But the Tamil Nadu and Indian Governments are Not Taking Action. Many elephants are killed by mentally ill people like these who claim to be God themselves. Jaggi Vasudev burned his wife and was Murdered. According to the United Nations Law of Environments, no actions were Taken by the Tamil Nadu Government and Indian Government.

The above information is Truth, But No Action is Taken by the Law of the United Nations and Protocol

- **Request to United Nations, UNICEF, United Nation for Drugs and Crimes (@HumanRightsPeop)**

Jaggi Vasudev is International Fraud; he has Heavy Support from all Leaders, Including United Nations and the United States, Including Media.

History of Jaggi Vasudev,

The Jaggi Vasudev Report murdered his Wife, Bribed the Police and Government Politician, Fraud Preacher, Yoga, and Scams. Link with the Bribing the Police and Political Parties to Destroy the Evidence and Started the Business to FOOLING THE WORLD.

Report 1957,

Jaggi Vasudev was Born on September 3, 1957, in Mysore, Karnataka, India, to a Telugu-speaking family. His father was an ophthalmologist who used to work with the 'Indian Railways; therefore, he would frequently move because of his father's work. He was the youngest of four children – two boys and two girls.

Report 1982,

In 1982 the Jaggi Vasudev had a spiritual experience. And After two years, he met Vijayakumari, also Called Viji; she worked at the Bank as an employee. They two met in Mysore at a lunch where Jaggi Vasudev was Invited. After Their Connected Well. Then 1984, he got married. After, Viji supported his husband and worked volunteer at his yoga programs. A child is born to them after 1990. She was named Radhe.

Report 1992,

Jaggi Vasudev Started his upgraded life as a fake preacher, yoga, and donation scam by Starting his ISHA [ESHA] FOUNDATION in Illegally occupied Forest Land. His business attracted the fool people who have mental problems. He Learned More than five languages [English, Telegu, Tamil, Kannada, and Malayalam, to Fool the Peoples.

Report 1997,

On January 23, 1997, his wife, Viji, was suspiciously killed and murdered. The Surrounding claims that the Reason for her death was fully manipulated and Scripted by the Jaggi Vasudev. After Viji Died, he Cremated her body instead of Buried. Jaggi Vasudev defied the demands and did not wait for his father-in-law and her father to get there. There were only the Ashes remained. Jaggi Vasudev told the Death was as explained a Mahasamadhi. What is the Definition of Mahasamadhi? In Hindu or Yogi Traditions, Mahasamadhi Means, The Great Final Samadhi, which Means the act of consciously and intentionally leaving one's body at the moment of death. Deep Definition is a state where one willfully drops the body. The willful Death state is Not Possible, and it's against science. But these are the Myths in present Generations. Many Fake Preachers here in India say they are God and everything. He Fooling the Peoples in the Name of Religion and God. Till Here the Peoples Trusting the Wrong Ritual Beliefs or Superstition, Yes Peoples Wrong Beliefs are the Tools to Brainwash them in the Name of Religion. Here Jaggi used the Mahasamadhi as a reason to escape from this India.

Definition and Explanation. Superstition in India,

Superstition means any belief or ritual, or practice that contradicts the present modern science. Superstition is the Wrong Belief of the Practice caused by Supernatural Causality.

Common examples of superstitious beliefs or Wrong Beliefs in India include:

a black cat crossing the road symbolizes bad luck
a crow cawing indicates that guests are arriving
drinking milk after eating fish causes skin diseases
seeing a mongoose signifies being very lucky
itchy palms mean that money is coming your way.

So, the Mahasamadhi is the Wrong Belief. So Jaggi Vasudev used this Wrong Belief to fool the People still Trusting the Wrong Beliefs.

But the Truth Is His Wife Not Willfully Died, there is nothing called Mahasamadhi, everything is Wrong Beliefs, He Murdered his wife and After he Cremated the Body Before his Father Come to that Place. And he Erased the Evidence by Bribing the Politicians and Police Department. And Now he Fooling Worldwide Peoples. Only Fool Peoples Still Trust the Wrong Beliefs in this Modern World.

History of Indian Constitution Against Superstition.

Maharashtra became the first state to pass legislation against superstitions or wrong Beliefs. Due to social activist Narendra Dabholkar's endeavors, the Maharashtra Prevention and Eradication of Human Sacrifice and other Inhuman, Evil and Aghori Practices and Black Magic Act in 2013 was passed.

Reference: https://www.iasexpress.net/superstition-in-india/

Central Government Act, Article 51A(h) in The Constitution of India 1949, (h) to develop the scientific temper, humanism, and the spirit of inquiry and reform;

Still, in India, Some Inhumane Like the Jaggi Vasudev is fooling every people national and International as well as world Wide. Still, Some People believe the Wrong Beliefs / Superstitions and other countries. Even If the Jaggi Vasudev Promote Himself as God. Here Uneducated Peoples are Still Beveling Those Idiotic Beliefs.

Some Peoples Like Him [Jaggi Vasudev] are fooling the World in the Name of God, **Rajneesh** also known as Acharya Rajneesh, Bhagwan Shree Rajneesh.

Rajneesh was arrested for immigration fraud. After pleading guilty, he was deported to India. He died on January 19, 1990, in Pune, India. Rajneesh Arrested in N. Carolina.

After the Murder Committed by the Jaggi Vasudev in October 1997, FIR at Date 8.10.97 October. An Indian Express report Dated 12 October 1997. But he was protected by the Police, Tamil Nadu Government, and Big High Profile people. As Marked in History, on May 2, 1996, the 11th Legislative Assembly Election, The DMK Leader M. Karunanidhi Won the Election alliance with the Congress to become the Chief Minister) by Bribing them by Giving Money. As Per the Logical, The Police Complaint was Fully Suspicious.

All Media all over the World is Promoting him as God and Yogi. Still, nobody has taken action against Him [Jaggi Vasudev]. He Murders his Wife and Killed Forest Animals, Including Elephants, in the Illegally Occupied Forest by Him [Jaggi Vasudev]. He Has Link With Politicians and Every Leader of the World. He has Links With International Level, Including the United Nations.

Using tax Exemption and Donation, he is Fooling the World.

Submitted:

This day I have received a reference vide C.No.P1/54422/97 District Police Office, Coimbatore through Dy. Supdt. of Police, in which a file containing (1) Copy of the F.I.R. in Cr.No.357/97 302, 201 r/w 34 IPC (Bangalore City, Subramania Nagar P.S.), (2) of C.D. Part I, (3) Copy of C.D. part II, (4) Order of 7th A.C.M. Court, Bangalore for transferring the case records (5) English tr lation copy of the petition.

Since the copy of the transfer first information report fou Kannada Language, I am registering the case on the basis of petit filed by the complainant which was translated before Sub Inspecto Police, Law and Order, Subramanya Nagar P.S., Bangalore. The peti of Tr. T.S. Ganganna, No.963 3rd Main road, 'D' Block, 2nd stage, Rajajinagara, Bangalore.5 runs as follows:

To, Shri. L.Revanasiddeswarappa, (I.P.S.), The Commissioner of Po Infentry Road, Bangalore 560 001, Dear Sir, Sub: The death of my daughter Mrs. Vijayakumari and the enquiry there of:- I, T.S.Gan residing at No.953 IInd Block 3rd main road, IInd stage, Rajajina requesting to you, that my daughter Mrs. Vijayakumari and her hus Jaggi Vasudev (Jagadish) on date 15.6.1996, they came and tole me they are going to Mysore and from there we phone up. Since then t 23.1.97 there was no phone call or letter received from them.

On date 23.1.97 night around 6.45 P.M. for Coimbatore I rec a phone call from Mr. Hebber his pupil who is residing and relatic of Jaggi Vasudev had called up and informed that Mrs. Vijayakumari dead so the cremation will be on 24.1.97 at 6.00 in the morning.

We could get what he is telling so he informed there that w are coming and until we came not to shift the dead body, because the matter is almost necessary, and around 8.00 P.M. We once agai called up to Coimbatore that we are coming and please do not shift

...

(3)

deadbody for cremation/funeral exam inspite of our request / cremafied the dead body and around 10.00 A.M. when we searched Coimbatore and the address of Mr. Jaggi Vasudev, who is running a Yogashrama called 'ESHA' we found the ashes of Mrs. Vijayakumari. We were quite upset after seeing that seen with full of sorrow we asked Mr. Jaggi Vasudev the reason of death, and did you shown her to the doctor or not? or whether you have taken any permission from Crematorsim or not? on whether you have taken permission from police or any permission from the concerned officer's? Because we do not gave any custom of burning the deadbody. He could not answer to any of the questioner, and till now no phone call or any letters were received so far, in this regard.

Hence we would like to known neither my daughter died naturally? or due to poisioning or due to man handling.

More over my daughter use to say quite repatedly about the illicit relationship of Mr. Jaggi Vasudev with other women, Also during 1995 some 4 persons from Coimbatore took my daughter to Banglore in un-consious state (suspect the drugs igected) to our house when asked for the same no explanation was given to me, when we asked our daughter see complant that see was given in sleeping pils, forecebly and they left her here during the night.

On seeing the above said matter we belive that my daughter had been killed and then burnt in the crematorim in pretext of some benefit or reason.

The cremation (burning) held on 23.1.97 after the working hours and on 24.1.97 before working hours, Hence on much times the availability of any officers is not possible.

Therefore, I request you to enquiry Mr. Jaggi Vasudev, who is sending at Poondy at Coimbatore and running the Ashrama and kindly let us know the actual and real thing.

1. V. Jaggadish his a real name , No.2/7 Gokual Road, V.V. Mohala, Mysore 570 002.
2. V. Ravindra's his brother, Prasanth , Pharmacy Chemistry, No.15/4 Adipampa Road, V.V.Mohalla, Mysore 570 002.
3. Jaggi Vasudev (His present name), No.15, Govindasamy Layout, Singanallur, Coimbatore-15, Phone No.57565.

Yours Sincerely, Sd/... T.S. Gangamna, No.963, 3rd Main road, D Block, 2nd stage, Rajajinagara, Bangalore 560 010.

Translated before me, Sd/..... Sub Inspector of Police, Law and Order, Subramanyanagar Police Station, Bangalore.

Jaggi Vasudev and His Murders

Jagadish Vasudev (Jaggi Vasudev (Sadhguru)) is now an icon to millions of followers. His followers range from Supreme Court judges to Prime Ministers of India. Jaggi's influence is greater than that of Pathanjali Guru Baba Ramdev or Sri Ravishankar. The reason is that while the other two professionals like to work with corporate leaders, CEOs, people who move the corporate world and people who shake the corporate world, Jaggi aspires to step into the ranks of power. IAS, IPS and senior officers, judges and arbitrators.

Jaggi quickly gained cult status and was worshiped as a god by millions of educated followers.

The early days of Jaggi Vasudev were very dark. He was accused of killing his wife Viji. Viji is found dead mysteriously and Jaggi explains to him and says that he took Moksha. But Viji's father Ganganna thought differently. In a complaint filed with the Bangalore Police Department, Gangana alleged that Jaggi killed her daughter Viji because of an affair with another woman. He also claimed that Jaggi cremated his daughter's body despite her explicit request to perform the last rites.

According to an Indian Express report on 12 October 1997, Godman was accused of murdering his wife but escaped by bribing the police and politicians. The modern media promotes him as a god and a yogi.

Godman charged with wife's murder

EXPRESS NEWS SERVICE
COIMBATORE, OCT 10

AFTER a surfeit of scandals relating to fake godmans, yet another *ashram* from Coimbatore is in the limelight with Jaggi Vasudev, alias Jagadeesh of Isha Yoga Ashram, at Poondi near here, being charged with the murder of his wife Viji alias Vijayakumari.

According to the police, T.S. Ganganna of Bangalore (Viji's father) had complained to the Bangalore City Police suspecting foul play in the death of his daughter Viji, who was married to Jaggi.

The complainant said that, his daughter had left him last on June 15,'96 and that he had received a message on January 23, '97 from Jaggi, saying that Viji was no more.

Ganganna has also reportedly said that despite requests, Jaggi had hurriedly cremated the body on January 24, even before he could rush from Bangalore.

He has also said that burning the body was not the custom in their community. Jaggi had seemingly chosen this method for disposing the mortal remains of Viji.

Ganganna suspects Jaggi of having done Viji to death, to facilitate his illicit relationship with another inmate of the *Ashram*. Based on Ganganna's complaint to the Bangalore City Police, a case was registered.

The Bangalore City police have subsequently transferred the case to the Coimbatore Rural Police, under whose jurisdiction, the *Ashram* falls. They have registered a case against Jaggi.

Meanwhile, a team of police personnel have visited the premises of Isha Ashram at Poondi and interrogated the people there.

Godman Jaggi is in the USA and further investigations are on in the case.

An Indian Express report Click Here: Dated 12, October 1997**.**

"Apart from the controversy surrounding the exposure of false gods, another Coimbatore ashram is in the limelight for Jagdeesh alias Jaggi Vasudev of the Isha Yoga ashram in Pundi near Coimbatore. He was accused of killing his wife Vijay alias Vijayakumari.

The police recently visited the Isha Ashram building in Pundi to interrogate the inmates of the Ashram. Godman Jaggi has gone to America. According to the police, T.S. Bangalore-based Ganganna (Viji's father) decided to file a complaint with the Bangalore Police after suspecting that her daughter Viji had died. The complainant said that the daughter left her for the last time on June 15, 1996. He received a message from Jaggi Vasudev on 23 January 1997 that Vijay was no more. According to Ganganna, Jaggi Vasudev completed her cremation on January 24 before leaving Bangalore, raising doubts about the nature of her death. He is believed to have died of poisoning or asphyxiation. According to him, Jaggi Vasudev may have killed Viji to facilitate illegitimate relations with other inmates of the Ashram. On August 12, the police filed a complaint against Kang Gana with the Bangalore police and filed the case. The Bangalore police handed him over to the Coimbatore police. The Coimbatore State Police has registered cases of IPC 302 (murder) and IPC 201 (destruction of evidence) against Jaggi Vasudev. The Jesus Yoga Foundation later denied reports that Jaggi Vasudev had fled to the United States to evade the Ashram's investigation. Kiran, who allowed the Ashram to sign, said that Guruji went to the lecture.

Coimbatore Police Case

The case registered by Bengal Municipal Police was then transferred to Coimbatore and PS Alandurai registered the case to Cr. Not. 176/1997 u/s 302, 201 IPC r/w of 34 IPC. However, in the case of 1999.01.08

The death of Jaggi's wife Viji remains a mystery till today. However, Jaggi continues with a detailed lecture on how Viji attained Moksha and united with the gods.

A low-key guru, Jaggi rose to fame for his serial 'Athanaikum Aasaipadu' in the popular weekly Ananda Vikatan, which translates as 'a wish for all'. This is in stark contrast to the Buddha's teaching that "worry is the root cause of all evil." This serial of Ananda Vikatan made him famous. But he still had to enter the electrical corridor.

In 2006, Jaggi came close to power through a relationship with Kamaraj, editor-in-chief of Tamil Nakkiran, a bi-weekly publication. After establishing a rapport with Kamaraj, Jaggi met the then Prime Minister Karunanidhi and walked the corridors of power. I didn't even look back. After destroying the foothills and surrounding greenery of the Velliangiri hills near Coimbatore, Jaggi started a new 'green movement' with then CM Karunanidhi. The campaign made headlines and Jaggi asked his ashram to have a dedicated uninterruptible power cable when the state faced power shortages. The effect was also to clear Forest Service charges on the way to his ashram.

Jaggi Vasudev with Passed DMK Tamil Nadu Former Chief Minister Karunanidhi 2006 TREE PLANTING.

Jaggi Vasudev with DMK MK Stalin (Present Chief Minister of Tamil Nadu 2022) Photo Taken Before 2022

Jaggi's charts continued to climb, dating many celebrities and expanding his influence across the country. But allegations are being made of bulldozing landowners in breach of the Town and Country Planning Act with the Conservation Agency and the sale of land and buildings.

This writer exposed the illegal structures in Haggis ashram through a series of articles in 2013. Three public interest litigation were subsequently filed in the Madras High Court seeking a direction for demolishing the illegal constructions. There are still litigations in the Madras High Court. However, buildings that violate all rules and norms continue to be constructed today.

Modi's demonetization and other reforms have increased Jaggi's political clout.

A 112-foot statue of Lord Shiva was built by Jaggi in February last year, and he invited the Prime Minister to unveil it. A press meet was held with the support of a retired high court judge. Green activists and protestors voiced their opposition and asked the Prime Minister not to participate in the event.

The statue of Narendra Modi was unveiled in Coimbatore after he landed. The photo op with Modi and Modi sent out a clear message. Jaggi isn't within the reach of the law.

However, activists continue to uncover and expose the illegal activities of Jaggi Vasudev. Isha Foundation and Jaggi have been exposed for their large-scale tax violations. A Chennai-based activist has submitted a complaint to the Income Tax department, requesting an investigation into and action against Jaggi and his Isha Foundation for violation of several laws. The complaint details several violations in detail. The complaint was about something.

Isha Foundation is a public charitable trust. The Trust is registered under the Sec 12A. Is that right? I believe that the reason of that is because. Is that correct? Under Section 92 of the IT Act, C No.327 was served. Is that right? Four hundred and ninety-eight Is that correct? There is a PAN number for the 2005-06/CIT- III/CBE.

Isha Foundation Exempted Under Section 80 G of IT Act

Section 80 G of the IT Act was the reason for the exemption of the Isha Foundation. Isha Foundation is headed by a self-styled godman who calls himself Sad guru. The controversy surrounding the construction of the foundation across several acres in the foothills of Velliangiri Hills in Coimbatore District stems from the fact that buildings were constructed without proper permission from the local authorities, the Town and Country Planning Department, or the Hill Area Conservation Authority. Is that right? In the future, I intend to _ I apologize for the inconvenience. I'm sorry, what was your question? I wasn't able to understand it properly.

Section 80 G of the IT Act has an initial condition. Donor ship is something you give to help a person or organization. The essence of a genuine donation should be voluntary, not forced.

Isha Foundation conducts yoga classes across the state. According to reports, the Isha Foundation has hired wedding halls to host temporary yoga classes. Yoga courses vary from 7 to 15 days. The foundation uses advanced practices at multiple levels at the Isha Foundation Center in Coimbatore.

ISHA Yoga Foundation Fees

The foundation charges between Rs 2000 and Rs 2500 for the first 7-day course. This amount is not voluntary and is a mandatory payment for attending yoga classes. However, when the amount is paid, the proof of payment shows that it is a 'donation' and is exempt under section 80G of the Income Tax Act. Advanced yoga classes can cost thousands of dollars.

Isha Yoga - Is it a Sale?

Various items like Jaggi Vasudev's books, Jaggi's audio and video tapes, Jaggi's photos and pickles, rudraksha mala and other items are sold by Isja organizers at all yoga sessions held in Chennai and elsewhere. The sales receipts for all these items say "donation", not a sale.

Jaggi Vasudev's Isha Shoppe

Jaggi Vasudev has started a new company called Isha Shoppe, which sells everything from books to clothes through students. Isha Shoppe has two in Coimbatore, three in Bangalore and one each in Chennai and Salem. The receipts issued by this shop also show the amount paid as a "donation". For example, a painting of Jaggi's footprints is Rs.1,31,700/- which is called a donation if bought.

Jaggi Vasudev has built a villa-level villa in his ashram in Coimbatore that can accommodate foreign students, which is rented out at a very high rate. As mentioned, the receipts provided here also claim this amount as a gift.

Apart from selling yoga, Jaggi Vasudev runs the following businesses through his disciples.

- Trishul Shelters Private Limited, W.Complex, No.260, Avarampalayam Road, Coimbatore 641044.
- Uzhavan Agro Solutions Private Limited, No.38/1, Kasthuribai Street, Kugalur Post, Gobi Taluk, Erode. TN 638 316
- Isha Naturo Organic Solutions Private Limited, 17, Govindasamy Naidu Layout, Singanallur,Coimbatore 641 005
- Isha Arogya Private Limited, 17, Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Isha Foods and Spices Private Limited, No.20, 9th Street, Tatabad, Coimbatore 641012.
- Isha Institute of Inner Sciences, Vellingiri Foothills, Semmedu Post, Coimbatore 641 114.
- Trishul Foundations Private Limited, W.Complex, No.260, Avarampalayam Road, Coimbatore 641044.
- Isha Crafts Private Limited, No.17, Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Isha Beauty Products & Wellness Private Limited, Khasra 504, Next to NDMC Girls School, Rajokri, New Delhi 110 038
- Isha Capital Private Limited, No.15, 1st Floor, Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Isha Life Fitness System Private Limited, No.17, Govindasamy

Naidu Layout, Singanallur, Coimbatore 641 005.

- Isha Naturo Organic Solutions Private Limited, No.17, Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Isha Business Private Limited, No.17, Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Isha Arogya Private Limited, No.17,Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Isha Life Research Foundation, No.17, Govindasamy Naidu Layout, Singanallur, Coimbatore 641 005.
- Krishi Land Farms Private Limited, Osho Drive, Gadaipur, Mehruli, New Delhi 110 030.

In addition, charities exempt from section 80G cannot carry on business and, if they do, are subject to section 80G(5)(i).

(a) the institution or foundation keeps separate accounts in relation to such activities;

(b) Contributions to an institution or foundation shall not be used directly or indirectly by an institution or foundation for any such purpose. And

(c) certify to the issuer of the certificate that the institution or foundation holds a separate account in this regard; business and that the donations received by it will not be used, directly or indirectly, for such business;

As mentioned above, the "Isha" fund trades with 16 companies in various sectors. It is suspected that the money collected through sales of various products, yoga classes and Shibara Tree events was diverted to the above companies for tax evasion and revitalization of investments.

That apart, Section 80 G (5) (iii) specifies that “the institution or fund is not expressed to be for the benefit of any particular religious community or caste.”

Mahashivaratri - A Hindu Festival

Isha Foundation is a Hindu organization. The cult of Shiva, the Hindu god, is propagated by Jaggi Vasudev, the head of the Isha Foundation.

He erected a huge statue of Shiva in his ashram at Vellingiri, Coimbatore.

During the Hindu festival of Maha Shivaratri, Jaggi organized a gathering of several important people in Coimbatore. This clearly shows that exemptions granted for "charitable purposes" are being misused for religious purposes.

On February 13, 2018, Jaggi Vasudev celebrated the Mahashivaratri festival. The entry fees for the event are Rs.500/-, Rs.1000/-, Rs.5000/-, Rs.20,000 and Rs.50,000. About 5 million people attended the event. The millions of dollars raised for this event will be counted towards donations, not entry fees.”

An activist, who declined to be named, told the author: But as a citizen, I must expose the wrongdoing of the false god and the losses it has caused to the Treasury. I know that trying to find out my identity and blackmail me like Jaggi Vasudev did to arrest activists Shiva and Piyush Manush in Coimbatore could haunt me. But someone has to pick up the stick," says the activist.

The Madras High Court - Is There a New PIL?

He also said that if the revenue authorities do not act, they will not hesitate to issue an appropriate order to the Madras High Court. As more than four PILs against Isha Foundation have been lying dormant in the Madras High Court for more than six years, it is doubtful whether a fresh PIL will see the light of day if filed.

My Novecore Novecore Breached, I Think, My Novecore Account was Hacked by the UK, US, Russia, or Someone.

Data Breach Email I Received.

After a few weeks, my Social Media Account details, Including Phone Numbers and Names, were leaked. I Accuse RSS Extremists, Terrorist organizations, BJP Corrupt Political Party, and Other World Countries Behind this Hack.

After Twitter Web Page asked for my phone number for phone verification, on the 6th day, my Novecore Music Account was Hacked by the Hackers, the Corrupted Government Behind This. I Accuse that the Above incidents are the Reason for the Hacking.

"If I did not email them about the Jaggi Vasudev and Corruption on January 16. This present Ukraine Versus Russia Will Never Happened."

Below I Attached the EML Email File From the Novecore.com

Data Breach Notice
==========

Dear Users,

We regret to inform you that on the 6th February 2022, some of Novecore’s users were the victim of a ‘credential stuffing’ cyberattack. This is when an attacker collects stolen account credentials such as a password and username, and then uses them to gain unauthorized access to accounts through large-scale automated login requests.

In this case, the attacker made around 12,000 login attempts, and accessed 280 Novecore user accounts. Despite being less than 0.5% of all users, we are unable to determine which accounts have been accessed and are therefore sending this notice to all of our users. We’d like to make it clear that Novecore’s systems have not been compromised. Such attacks are possible because of the habit of many people to use the same username and password for multiple online accounts. Once hackers know your username and password they will attack other systems with login attempts using the same username and password. A system which is otherwise protected, such as Novecore’s, cannot prevent such attacks as it will not reject logins with a correct username and password.

After investigating the attack, we would like to disclose that some of the following personal data ***has* been accessed:**

- Display Name
- Unique User Identifier
- Unique User Billing Identifier
- Email Address
- Profile Token
- Billing Transactions
- Albums, artist names, and associated metadata
- Payout balance and royalty statements

For five accounts, the following personal data has additionally been accessed:

- Partial payout information (full name, address, email, phone number, bank name and partial bank account numbers)
- Partial payment information (last 4 digits of payment cards associated with the accounts)

The following information has ***not* been accessed:**

- Full credit card details (Novecore does not store these)
- Full payout details
- Phone Numbers used for verification
- ID Cards, passports, and extracted information
- Address data used for verification

The attack was detected when Novecore’s system identified an unusual pattern of behavior on some of the compromised accounts, in particular it became apparent that the attackers had replaced some users’ bank details with their own. After taking the decision to suspend the payout functionality within 10 minutes of the detection, we successfully prevented payouts from being requested or executed using the fraudulent details.

As a result, all user login sessions have been invalidated and you will now need to log in again the next time you use Novecore. Profile Tokens have also been reset for all users.

We understand that it's convenient to have identical usernames and passwords for multiple websites, but we urge all users to use different credentials for each site. By doing so, you make it extremely difficult for this type of attack to be carried out. As a precaution, even if your account has not been affected, we will shortly require everyone to change their Novecore password. We also advise you to change the username and password on other websites where they may have been reused.

We take the protection of our users’ data extremely seriously, and since the attack, have reached out to the appropriate regulatory and law enforcement agencies in the relevant countries.

Should you have any questions or require additional information, please reach out to Novecore’s data protection officer - dpo@novecore.com

Thank you for your continued support.

EVIDENCE: NPP Nuclear Zaporizhzhia Attack Tweet March 4, 2022, | Reaction of SputnikIntl

I'm the First Person to tweet about the NPP Zaporizhzhia, and It's an Attack to blame Russia by the Western Media and the Volodymyr Zelenskyy-led Troops and Anti-Russian Countries. On March 4, 2022, at 1:03 AM, I Tweeted and Tagged the @RT_Com, and @ Sputnikintl.

Note: I Kindly Request that Everyone, Doesn't Misunderstand Me that I Helped or Manipulated this War. If I Did not Tweet and Tag them on these Conflicts, This War Will Make a Massive Amount of Deaths may have Occurred by the Inhumane War Provokers. But Nobody likes to End the War, even if there is an opportunity for Peaceful Negotiation.

After a few seconds, Sharply on the same day, March 4, 2022, 1:07 AM, Which Means 4 Seconds Later, Sputnik Russian State Affiliated Media Tweeted that, UPDATE | MoD: Fire at NPP result of Kyiv's Provocation aimed at blaming Russia for radioactive contamination.

Both the Tweets by Sputnik and Me were Attached Below for the Comparison and Verification Analysis. I Hope the Below Tweet Will be Proof that this War is Fake that Was Created, Plotted, Planned, Scripted, Screen Play, Manipulated, or Drama or Conspiracy by the WEF World Economic Forum Members, United Nations, and WHO World Health Organization Western Media's, Asian Medias, and All Media's to hide their Crimes and to Hide the Evidence and Coverup the Pfizer Released Data and Vaccine Genocide Side Effects.

The Below Tweets Show that I Tweeted the Tweet at March 4, 1:03 AM I Tagged the RT_Com, Sputnik and Some Others.

EVIDENCE: NPP Nuclear Zaporizhzhia Attack Tweet
March 4, 2022 | From RT_Com

Tweet: ‘Attempts to blame the Russian military for [the Zaporizhzhia NPP] incident is part of a cynical propaganda campaign,' Putin said https://on.rt.com/btft.

After 2 Days of My Tweet, they Tweeted the above Tweet.

This is How this War is Manipulated, Scripted, and Drama Played to Divert the Public of the World Population and to try to Cover-up the Innocent Peoples Suffered from the Vaccine Genocide Side Effects. I’m Praying Here for those who are Dying from that Vaccine. I Really Under the Pain Seeing their Atrocities.

Big Tech and Big Traditional Western Media’s and All Media’s is Fully Created Fake War by Triggering the Innocent Peoples to Die for their Greed and War-mongered Conflicts. They needed a story, so they used my comments on my Twitter account to continue this war; not only that, they continually monitored twitter all over the world. Here They Mean, Corrupted Government Leaders.

I Don’t Have Any Intentions. I Don’t like War and Conflicts.

Below I Attached Tweet Screen Capture / Evidence.

The Below Tweets Show that RT_com Tweeted the Tweet at March 6, 11:30 AM, 2 Days Later After My Tweet.

My Tweet on March 5, 2022.

In #Past War was Happened for the #Gold At #Present War is Happening for the #OIL & #GAS In #Future War Will Happen for the #Food, & To #Live #WAR is Happening for #Individual #Greed @elonmusk #Solar is Solution 2 #StopTheWar #Ukraine #Russia @UN @amnesty @Oxfam

I Tagged UN, Elon Musk, UN Human Rights, RT, Sputnik, BBC News World, Kamala Harris, The Guardian, and Declaration International Human Rights Foundation on the Above Tweet, Time 3:23 AM March 5, 2022.

My Tweet is on March 9, 2022

I Requested Elon Musk to Create Open Source by just tweeting Elon Musk and Tagged Him on March 9, 2022, But I didn't expect that after a few weeks, he would announce the Twitter acquisition.

After a Few Days, I Deleted the Tweet, I think on March 10, 2022.

Tweet Text: @elonmusk Elon Musk, you have any ideas and Desire to create Open Source Independent Non-Government Controlled Social Media For People and #Truth is Being Killed. #Peoples Voice is Being Oppressed. #Rights are being Dies. #Life is Being Darken.

Recovered Tweet from MHTML

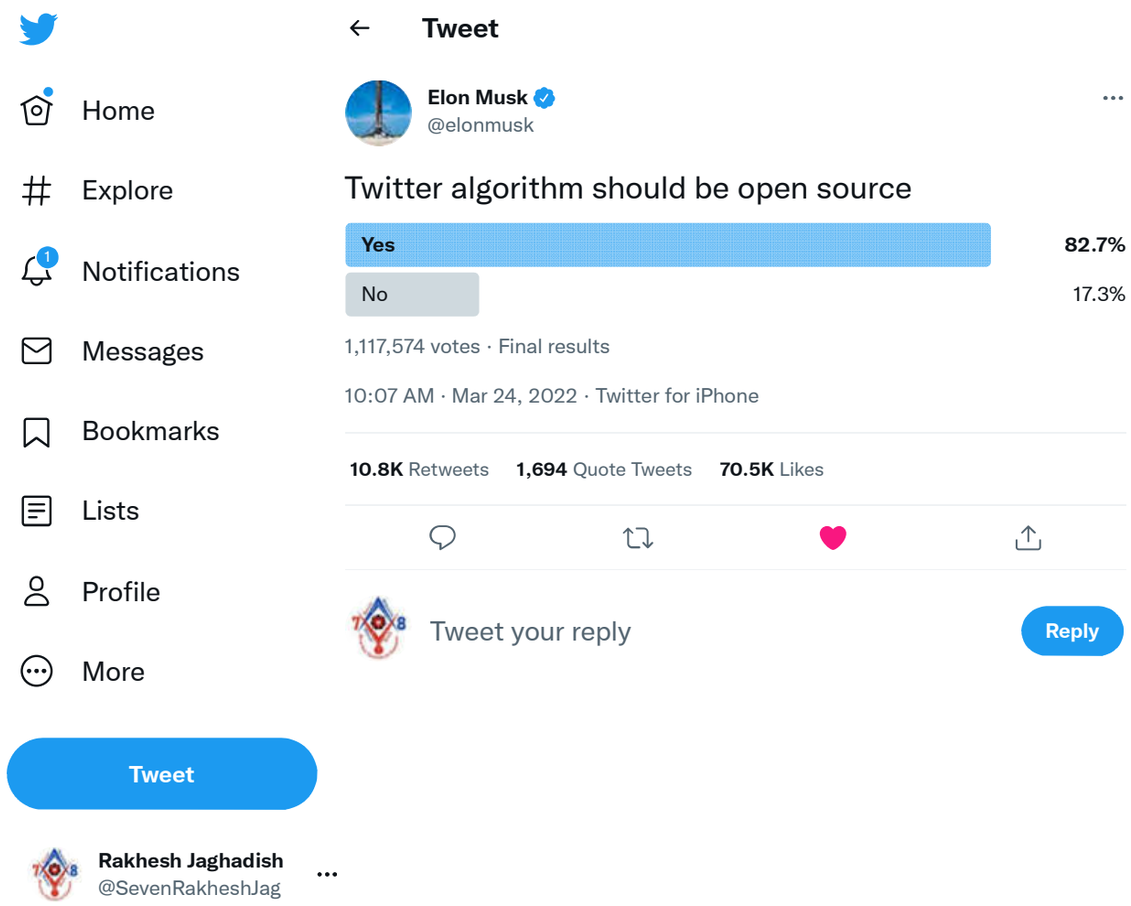

Below I Have Attached the Image I Sent through Twitter to Elon Musk on March 9, 2022,

SVG [Scalar Vector Graphics], March 9, 2022

But He Announced on March 24 the First time Elon Musk Asked his Fans, and I'm also his Fan. He is Good Human Being, and I'm Sorry, Elon Musk, For Mentioning Your Name Here in this Document. Because this is to Protect Future Generations, Every minute of delay can result in the loss of more lives. It's Time to End the Pandemic, I Hope You'll read this in the future, and I Hope You'll Support me in this Document.

On March 24, Elon Musk Tweeted that Twitter Algorithm Should Be Open Source.

After Elon musk Filed on Sec gov On April 14, 2022, business magnate Elon Musk offered to purchase American social media company Twitter, Inc., for $43 billion, after previously acquiring 9.1 percent of the company's stock for $2.64 billion, becoming its largest shareholder.

Twitter announced a "poison pill" strategy the next day. On April 25, Twitter's board of directors unanimously accepted Musk's buyout offer of $44 billion, with the company set to be taken private.

Musk announced his intention to terminate the agreement on July 8, asserting that Twitter had breached their agreement by refusing to crack down on spambot accounts.

The company filed a lawsuit against Musk in the Delaware Court of Chancery on July 12, and the trial is set to begin on October 17.

Reception to the proposed buyout has been mixed. It received praise for Musk's planned reforms and vision for the company while also drawing criticism over fears of a potential rise in disinformation and harassment on the platform.

Refer to Wikipedia or Internet:

https://en.wikipedia.org/wiki/Proposed_acquisition_of_Twitter_by_Elon_Musk

On March 25, 2022, Before Filing to Take over the Twitter's

Elon Musk Tweets That has shown in Below Figure,

Free speech is essential to a functioning democracy.

Do you believe Twitter rigorously adheres to this principle?

Elon Musk Tweet Shown Below of March 25, 2022,

On March 26, 2022,

Elon Musk Quoted the Tweet shown below, which that tweets say, Given that Twitter Serves as the de facto public town square, failing to adhere to free speech principles fundamentally undermines democracy.

On March 8.

I Tagged @VigilantFox Speaking Truth About Vaccine Side Effects, After Few Weeks He Was Suspended.

On March 9,

I Started Tweeting About US Bio Labs after a Few Days @mfa_Russia Tweeted about the US Bio labs after the anonymous person revealed it in the name of war clandestine. His Twitter Profile is this **https://twitter.com/WarClandestine**

This War Clandestine Account was not propaganda. This account was used to expose the Truth about the United States Politicians Who Fund Bio labs All Over the World. War Clandestine Biography Description in Twitter is **"Astute Observer. 11B I'm back and ready for war." ← Here 11B Means, 11B — US Army Infantry**

This War Clandestine Twitter Account may be the Army Person from the American United States, or it May be a Russian Account. It may be a Secret Operation.

Below I Attached Screen Shot Taken on MAR 01, 2021, from that Profile Page from the Internet Archive [IA],

Russia Ukraine Conflicts, and War, Including Pandemic, were Planned by The WEF World Economic Forum Young Global Leaders and its Members, Including Justine Trudeau, Klaus Schwab, Bill Gates, George Soros, and Big Pharma.

My Accuse Big Pharma is using this war to do money laundering.

This Above image shows that

@WarClandestine was Banned / Suspended by Twitter, exposing the Truth about the US Funded Bio Labs. That Account was Labeled as the Russia Propagandist Twitter Account on other fact checker websites.

On March 13 and Before / After Few Days, I Tweeted that,

Trust After Analyze

🙈 Seeing by the Eye May be False

🙉 Hearing by the Ear May be False

🙊 Speaking by the Mouth May be False

Before Trusting those, Go and Do Your Research with Your Common Sense. #Ukraine #Zelenskyy #Western Media Lies. #Russia. I Tweeted about the United States Democrats' Word Provocation and Western Media Lies, and Both Opponents used my words from Both Sides. They Used My Words and Tweets to Extend this War. They Did Not Even Like the Peaceful Negotiation.

US United States American Politicians are Trying to Protect the Bio Labs in Ukraine. Russia is Not Even Speaking About the China Wuhan Bio Labs.

Many corrupt leaders blame each other to divert the attention of the public people of the world and try to cover up the pandemic. Using this Ukraine, Those who instigated and Started the war would have destroyed much evidence by now.

On March 31, I Tweeted About Zika Virus.,

Coronavirus is Genetically Modified and Engineered. Coronavirus is a Mixture or Compound of the All Virus-like Zika Virus, AIDS, & Many More. Coronavirus was Patented in 2015 Before Bill Gates Talked at TEDx. PCT Filed on July 23, 2015. Moderna Patented on 2016 Before 3-month Pandemics.

On April 3, I Tweeted About,

Eugenics Psychopaths are very dangerous to Humanity and Humankind. They Must be Eradicate as soon as possible.

My Tweets are the Evidence, and They Used me and my tweets to Extend the War, That This War was Scripted by the Western Governments and also Every Young Global Leader of the World Economic Forum that Every-time When I Tweeting and Tagging the Western Media and Russia's Military Operation about the Vaccine Side Effects, and I'm, and My Twitter Account Was always Monitored by Twitter, Some Government is Monitoring My Twitter.

Whenever I tweet against coronavirus and vaccines and Whenever I Tag ICC International Criminal Court on Twitter, Within a Few Seconds., someone whistles in front of my house and cuts off my street and Home electricity. I think that They are all doing this type of irritating action to make me fear. The [Indian Corrupt Politicians] are Complicit in this type of Action, and also all the World Corrupt Leaders are Accompliced directly to the Genocide by promoting and injecting the poisonous toxic vaccination on the innocent people's bodies.

On April 5, I Tweeted Against the Georgia stone.

Georgia Guide stone must be Removed, Demolished, and abolished from this earth. Every Conspiracy was Started at the 1971 January 24 World Economic Forum. Coronavirus COVID19 #Russia Ukraine Conflicts are Preplanned.

My Accuse: The Secret Society, Mafia State / Dark State is Behind in those. This is not Theory.

Remember the History of the 1980 American United States Election and Georgia Guide Stones,

The presidential election was the 49th quadrennial presidential election. It was held on Tuesday, November 4, 1980. Republican nominee Ronald Reagan defeated incumbent Democratic president Jimmy Carter in a landslide victory.

Reference:

https://en.wikipedia.org/wiki/1980_United_States_presidential_election

https://en.wikipedia.org/wiki/1980_United_States_presidential_election_in_Georgia

The presidential election was the 49th quadrennial presidential election. It was held on Tuesday, Tuesday, November 4, 1980. Republican nominee Ronald Reagan defeated incumbent Democratic president Jimmy Carter in a landslide victory.

Georgia Gide Stone Build on that Time, when Democratic Jimmy Carter Won his Home State with Electoral vote 12, With Poplar Vote, 890,733 with Percentage after 55.76%.

After 228 days or seven months, 14 days later, The Mysterious Georgia Guide Stone Opened on March 22, 1980, RC Christian, Robert C. Christian, maybe the Roth Child.

But Now, on July 6, 2022, It Was Blasted by the Bomb by the Mysterious Persons.

Georgia Guide Stone Build by the One of the Anonymous Person. I Accuse that That Person Called as Linked with the Political and Politicians.

In May, Republican candidate for governor Kandiss Taylor deemed the site “satanic” and vowed to destroy it via executive order if elected. Subsequent attention on social media renewed interest in the Guide stone among evangelical Christians and fringe conspiracy theorists. In the early morning hours of July 6, 2022, an explosion destroyed part of the monument.

Reference Here: Kandiss Taylor: Reference:

https://kandisstaylor.com/executiveorder10/ | May 2, 2022

https://www.georgiaencyclopedia.org/articles/history-archaeology/georgia-guidestones/

Reference: https://www.thedailybeast.com/kandiss-taylor-georgia-candidate-for-governor-builds-campaign-on-demolition-of-satanic-tablets

In Your Thought, this may be a Coincidence that I Was Tweeted first in April 2022 to Demolish the Georgia Guide stone. Coincidentally the Georgia Governor Kandiss Taylor Candidate Builds Campaign on Demolition of ‘Satanic’ Tablets on 1 / 2 May 2022

Reference Here for More Information: BBC Reported:

https://www.bbc.com/news/world-us-canada-62073675

Georgia Gide Stone is the Evidence of this COVID19 Coronavirus Planned Pandemic to reduce the population of the World by Giving the Toxic Vaccination.

Information about the Below Information of Bio Labs Bio-labs opened in Ukraine by Tina Redlup on June 18, 2010, by http://www.bioprepwatch.com/ **by Clicking Below Link,**

http://www.bioprepwatch.com/news/213421-biolab-opens-in-ukraine

or

https://web.archive.org/web/20100918084547/http://bioprepwatch.com/news/213421-biolab-opens-in-ukraine

When Russia Accused the United States Democrats that they have bio-labs in Ukraine, the United States Current Democratic Regime Dose not Accept Russia Claims and Allegations about the Bio Labs.

After the War Clandestine Secret Operation, Russia Claims that the United States Democrats Funded Bio Labs by the American Politicians.

After the US Democrats' Regime Accepted that they had US Funded Bio Labs in Ukraine, And then they Blamed Russia that they are going to use Deadly Pathogen Bio Weapon Against the Ukraine people. But the reality here is US Democratic Regime is Trying to Cover-up its Mistakes in United Nations Conversation held in the Past Few Months by Blaming Russia.

But in reality, Russia is the First Nation to Accuse NATO that NATO is the Reason for the COVID19 Pandemic.

Biolab opens in Ukraine

by Tina Redlup on June 18, 2010

Sen. Dick Lugar

U.S. Sen. Dick Lugar applauded the opening of the Interim Central Reference Laboratory in Odessa, Ukraine, this week, announcing that it will be instrumental in researching dangerous pathogens used by bioterrorists.

The level-3 bio-safety lab, which is the first built under the expanded authority of the Nunn-Lugar Cooperative Threat Reduction program, will be used to study anthrax, tularemia and Q fever as well as other dangerous pathogens.

"The continuing cooperation of Nunn-Lugar partners has improved safety for all people against weapons of mass destruction and potential terrorist use, in addition to advancements in the prevention of pandemics and public health consequences," Lugar said.

Lugar said plans for the facility began in 2005 when he and then Senator Barack Obama entered a partnership with Ukrainian officials. Lugar and Obama also helped coordinate efforts between the U.S and Ukrainian researchers that year in an effort to study and help prevent avian flu.

The Nunn-Lugar Act, which established the Cooperative Threat Reduction Program, was established in 1991. Since that time it has provided funding and assistance to help the former Soviet Union dismantle and safeguard large stockpiles of nuclear, chemical and biological weapons. The program has also been responsible for destroying chemical weapons in Albania, Lugar said.

NATO MYTHS ON RUSSIA

NATO Released Russia's Top Five Myths about NATO & COVID-19, on April 2020, After 5 Months; I Also Attached that Document for Reference Below.

The hint of the Document:

Myth 1: COVID-19 will break up NATO

Myth 2: NATO is failing to support Allies in the fight against COVID-19

Myth 3: COVID-19 is a weapon created by NATO

Myth 4: NATO exercises spread the COVID-19 virus

Myth 5: NATO encourages defense spending at the expense of healthcare

This is proved that Russia is Trying to Expose the NATO Crime Against Humanity.

Reference: Putin Warned the Big Tech Media and the World Economic Forum: https://time.com/5933666/putin-davos-agenda-speech/

Putin Says, in the Above Conversation, that.

"Digital giants have been playing an increasingly significant role in wider society,"

Here is the question, how well does this monopolism correlate with the public interest? Where is the distinction between successful global businesses, sought-after services, and big data consolidation on the one hand, and the efforts to rule society[…] by substituting legitimate democratic institutions, by restricting the natural right for people to decide how to live and what view to express freely on the other hand?"

The Putin Also Warned Big Tech as a Threat to Democratic Institutions.

Putin warns of an 'all against all' fight if global tensions are not resolved

North Atlantic Treaty Organization

www.nato.int/factsheets Factsheet

October 2021

Russia's top five myths about NATO

Myth 1: NATO is not interested in real dialogue with Russia

Fact: We regret Russia's decision to suspend the work of its diplomatic mission to NATO, and of NATO's Military Liaison Office in Moscow, and to close down NATO's Information Office in Moscow.

NATO and Allies have been consistent in their calls for meaningful dialogue with Russia. NATO Secretary General Jens Stoltenberg has repeatedly stressed that dialogue with Russia is essential when tensions are high. This is a message he reiterated at a recent meeting with Russian Foreign Minister Sergey Lavrov. The Secretary General also restated NATO's long-standing offer to hold a meeting of the NATO-Russia Council. To date, Russia has not responded to this offer.

NATO Secretary General meets with Russian Foreign Minister Sergey Lavrov (22 September 2021)

In October 2021, NATO withdrew the accreditation of eight members of the Russian Mission to NATO, who were undeclared Russian intelligence officers. This decision was made on the basis of intelligence and does not change NATO's policy towards Russia, which combines deterrence and defence with meaningful dialogue.

Myth 2: NATO ignores proposal to move military exercises away from the "contact line" between NATO and Russian forces

Fact: There is no "contact line" between NATO and Russian forces – but internationally recognised borders of NATO Allies. NATO's deployments on Allied territory are defensive, proportionate and in line with our international commitments.

Our enhanced forward presence in the eastern part of our Alliance is not meant to provoke a conflict but to prevent a conflict. It is a response to Russia's use of military force against its neighbours and its military build-up in the Baltic region and beyond.

In contrast to Russia's proposal, we see aggressive Russian military activities continuing, including a major build-up of Russian forces in and around Ukraine earlier this year.

We urge Russia to follow existing transparency rules, including on military exercises and force posture. We also call on Russia to engage in the process of modernising the Vienna Document to enhance verification measures. We remain open to further dialogue on risk reduction and transparency, in the NATO-Russia Council and through our military-to-military channels.

Myth 3: Ukraine cannot join NATO

Fact: NATO Allies welcome Ukraine's aspirations to join NATO and they stand by the decision made at the 2008 Bucharest Summit that Ukraine will become a member of the Alliance.

Decisions regarding NATO membership are up to each individual applicant and the 30 NATO Allies. Russia has no right to intervene and cannot veto such a process.

We reject any idea of spheres of influence in Europe – they are part of history and should remain part of history. Like every country, Ukraine has the sovereign right to choose its own security arrangements. This is a fundamental principle of European security, one that Russia has also subscribed to and should respect. After the end of the Cold War, Russia played a part in building an inclusive European security architecture, including through the Charter of Paris, the establishment of the OSCE, the creation of the Euro-Atlantic Partnership Council, and the NATO-Russia Founding Act.

Myth 4: NATO rejects Russia's arms control proposals

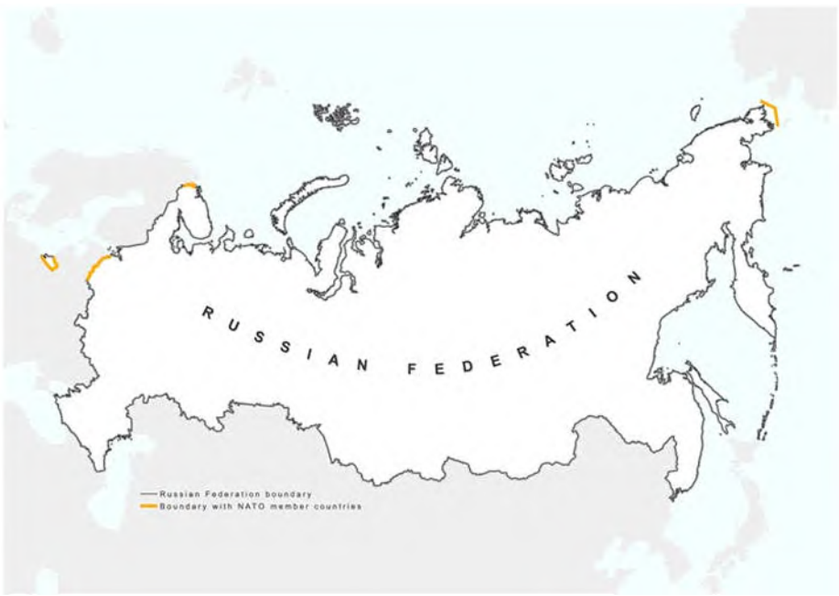

Fact: Russia's proposal for a moratorium on the deployment of ground-launched intermediate and short-range missiles in Europe is not a credible offer. It disregards the reality on the ground. The reality is that there are no new US missiles in Europe, but there are new Russian missiles in Europe – the SSC-8.

Any geographical limits on the deployment of Russia's SSC-8 are not credible, as the missile system is mobile and can be moved quickly. Unless and until Russia verifiably destroys the SSC-8 system, this moratorium is not a genuine offer.

NATO is responding in a measured way to the significant risks posed by Russia's SSC-8 in order to ensure that NATO's deterrence and defence posture remains credible and effective. NATO does not want a new arms race, and has no intention to deploy land-based nuclear weapons in Europe. Allies remain firmly committed to arms control, disarmament and non-proliferation.

Myth 5: NATO is encircling and trying to contain Russia

Fact: NATO is a defensive alliance, whose purpose is to protect our member states. Our exercises and military deployments are not directed against Russia – or any other country.

This myth also ignores geography. Russia's land border is just over 20,000 kilometres long. Of that, less than one-sixteenth (1,215 kilometres), is shared with NATO members. Russia has land borders with 14 countries. Only five of them are NATO members.

Outside NATO territory, the Alliance only has a military presence in Kosovo and Iraq. The KFOR peacekeeping mission is carried out with a United Nations mandate, endorsed by the UN Security Council, of which Russia is a member. NATO's non-combat mission in Iraq is a key contribution to the fight against international terrorism and is carried out with full respect for Iraq's sovereignty and territorial integrity and at the request of the Iraqi government. In contrast, Russia has military bases and soldiers in three countries – Georgia, Moldova, and Ukraine – without the consent of their governments.

Bill Gates met PM Imran Khan during his first-ever Pakistan visit and said that the meeting was about Polio Eradication. But it may be About the Instigation or provocation of the February 24 Conflicts. I Accuse that Bill Gates Visited the Pakistan Prime Minister for the First time After the PM of Pakistan visited the Russian President Putin.

Hadley Gamble – Anchor and reporter, CNBC

Bill Gates – Co-chair of the Bill and Melinda Gates Foundation

Comfort Ero – CEO of the International Crisis Group

Melanie Joly – Foreign minister of Canada

Anna Linde – Minister of foreign affairs, Sweden

Tedros Adhanom Ghebreyesus – Director-General of the World Health Organization

Bill Gates Transcript

Hadley Gamble

So the title of the course of this session is get well soon finding a way out of the global pandemic. I'd like to welcome all of our panelists. Her Excellency, the Foreign Minister of Canada, Melanie Joly. Her Excellency Anna Lund, the Minister of Foreign Affairs from Sweden. Comfort Ero, the CEO of the International Crisis Group, and Bill Gates, the Co-chair of the Bill and Melinda Gates Foundation. Now Doctor Tedros will be joining us a little bit later on in the program, he's been held up. He's on his way from Brussels and as soon as he gets here, we'll go to him for a few minutes. But I wanted to kick off actually, and get a bit of a scene center from Mr. Gates because this is I know, a topic that you've spoken on again and again you were ahead of the curve prior to the beginning of this pandemic. Where would you assess where we are today in beating COVID-19?

Bill Gates

Well, the, uh, you know, sadly the virus itself particularly the, the variant called Omicron is a type of vaccine. That is, it creates both B cell and T cell immunity and it's done a better job of getting out to the world population than we have with vaccines. If you do serious serosurveys in African countries, you get well over 80% of people have been exposed either to the vaccine or to various variants, and so you know what that does, is it means the chance of severe disease, which is mainly associated with being elderly and having obesity or diabetes, those risks are now dramatically reduced because of that infection exposure.

And you know, it's sad we didn't do a great job on therapeutics, you know, only here two years in, do we have a good therapeutic, vaccines. It took us two years to be an oversupply. Today there are more vaccines than there is demand for vaccines, and you know that wasn't true. And next time we should try and make it instead of two years, we should make it more like six months. Which certainly you know some of the standardized platform approaches, including mRNA, would allow us to do that, so, you know it took us a lot longer this time than than it should have.

Hadley Gamble

What's your greatest concern at this time in terms of combating COVID-19 and the potential for another pandemic? Are we going to see another pandemic before we are able to beat this one?

Bill Gates

Ya, we'll have another pandemic. It will be a different pathogen next time that we'll have some rebound. This this pathogen we don't have a tool to do eradication. We'd like to have a a new generation of vaccines that would be suitable. I mean, ideally, we'd get rid of families of respiratory viruses, including the flu family and the coronavirus family and I do think in the next decade we cancome up with an eradication

vaccine. That's an aspiration, not a guarantee, but we should put R&D dollars into that. There's already a lot of work that's been done on a universal flu vaccine, and the data on that looks very promising. So we'll have rebounds, but they'll be more typical seasonal flu levels where, of course we don't generally shut things down. Although in the future some degree of mask wearing probably will be indicated, but we won't get death levels at, you know the kind of acute level that we're still experiencing today as the omicron wave passes through on a global basis.

Hadley Gamble

Comfort, weigh in for us on the danger level that we're seeing globally at this point in terms of the danger of this pandemic and its impact on society.

Comfort Ero

Thank you. If you can hear me through the through the mic. We've tended to see, or there's a tendency to see it as strictly a public health issue, but what we've witnessed also since the the emergence of the pandemic is that it has both a political implications, social implications, and security implications.

We've seen how COVID has exacerbated crises in a number of war torn or conflict affected countries, we've seen how COVID has had an impact on humanitarian fallout in already in countries that are already vulnerable. For example, in the Sahel in east, in East Africa, in the Horn of Africa, in Yemen, in Colombia, in Venezuela, we've seen countries that are already under strain, where you've seen already discontent against government. We've already seen stresses in those countries. We've seen the economic fallout from from COVID. But we've also seen a degree of resilience in certain communities as well, so the picture that was painted was that you know Africa would suffer the worst from it. That there would, that conflicts would increase, that there will be more stresses and more strains in a number of communities on the continent. But the content

has also shown itself to be resilient as well. But we have seen that the sharp edge of COVID, we have seen the discontent, we have seen the grievances. We've also seen certain governments, certain leaders misuse COVID to put in place more stricter rules, more stringent rules to close the political space. We've seen some countries use it as a way to encroach further on the rule of law as well, so we've seen it play out. So again, while there's been a tendency to focus on the public health dimension of COVID, I think it's important to understand the the fallout, both in the humanitarian sphere, the economic sphere, political sphere, and what that is meant, particularly for countries, are already vulnerable on the eve of the pandemic as well.

Hadley Gamble

How disturbing is it to you that we see regimes like China and various other authoritarian governments taking advantage of the fact that they are able to control the populations to a much higher degree as a result of having access to their medical information and access to their movements via these apps and other devices that supposedly are keeping people safe but at the same time allow governments a backdoor into people's lives.

Comfort Ero

Yeah, and that's this is a point I was, I was saying that you we've seen certain government, and I wouldn't target one particular government, I think we've seen already in those in those societies where we've seen an authoritarian trend, or whether it's been an authoritarian drift. We've seen certain countries try to use it as an excuse, for example, to slow down elections, as an excuse for example, to go after the opposition, as an excuse, for example to use the police to clamp down on the movement of their societies as well. So it's particularly in those countries where you've already seen a standoff between their governments and society. Those

countries where there's already deep distrust. But these aren't just countries where there's that are conflict ridden. This is countries where the government structures of those countries were already weak, already fragile and there was already contestation between governments and their and their society as well.

Hadley Gamble

You know, beyond just the most vulnerable countries, that's also happening in democracies in the West, most particularly in Canada. I know that they were arresting people in Ottawa who've been protesting vaccine mandates earlier today. Foreign minister, I'd love it if you would address that for us, because that's a deep concern to many in the West that it seems as if your Prime Minister does not have a handle on this situation.

Melanie Joly

Well, first and foremost, I think we can be proud of Canadians that have decided to get a vaccine and and we're now at a level of 80% for all the population of Canada, kids five years old and up. And also I think that it is, we're now starting the third year of the pandemic at the people are tired, exasperated, exasperated. In French, there's a saying where I come from in Canada, which we say people are tene, they're fed up. And you know it is a Nordic country, and January and February are harsh months. And so at this point, definitely the mental health of Canadians is something that I have in mind and that we have in mind.

Meanwhile, there's a right for peaceful process in in Canada. And, and we obviously want to make sure that that right is uphold, but we're past that at this point and our biggest concern, and my biggest concern as Foreign Affairs Minister, is the foreign interference that is happening in the convoy we're seeing in Canada right now. The disinformation campaign, where it comes from, the financing of it, where it comes from,

and so we know that obviously there are Canadians that have gone and protested in a peaceful manner. But they're also with the truckers convoy, some elements that are extremely preoccupying and that led to also criminal charges, including particularly at the Coutts border between the US and Canada where there were criminal charges laid up and also arms that were seized.

Hadley Gamble

Do you believe that Donald Trump specifically has a role in what's happening in Canada?

Melanie Joly

Listen, as Foreign affairs minister, I won't point out somebody in particular, but we know that there is foreign interference and that's why also, we decided to go ahead and use for the first time in our country, The Emergencies Act, which is a important legislation and that at the same time gives yes authority to the government to act through its executive order. But at the same time, that needs support from parliament, and that provides also for a mandatory public hearing after its use, so we know that everything we're doing right now will be under the scrutiny of a public hearing. So based on that…

Hadley Gamble

Yeah, but these are major, major pieces of legislation under this emergency. I mean freezing the bank accounts of people who don't want to get vaccinated? That is a rather draconian step, no?

Melanie Joly

Well, it is people that have been, uh, uh parked in front of Ottawa parliament and going against basically the legislation and also, a lot of the bylaws. You know, as a parliamentarian in Canada and as a Minister, I don't have security, none of us have security. We don't need security usually in Canada, for every parliamentarian to go to Parliament for the last three weeks we have been escorted by the police to basically continue our work, which we were elected to do, and so this it's a national security threat. We took, the Prime Minister took this step very, very, very seriously and uh, and we're going ahead. But also there is strong support in Canada for going ahead because at the same time we need to make sure that we deal with this national security issue, and more than that, we need to bring more appeasement to the country right now.

Hadley Gamble

Do you think this is your January 6th moment in a sense? [referring to January 6, 2021 attack on Capitol building in Washington DC].**Melanie Joly**

Um, no, because the posture of the government is not the same. Um, but at the same time it is clearly the first time that Canada is using this legislation, um, and this legislation was, has strong um, safeguards in it. Uh, the, you know, we're not using neither the uh, the, the Army, it is within the the the work of the police officers right now. And we said many times we agree with the the uh, the peaceful protests. But at the same time, residents in Ottawa in particular, need to be able to continue their lives. Shops need to be open again. Businesses have suffered from this and it is important that we continue to have a strong democracy and parliamentarians need to be able to do their work.

Hadley Gamble

Foreign Minister, I want to bring you in here because when we talk about Sweden, I mean the Foreign Minister, was just saying that Canada is a country that it's pretty far up there in terms of latitude. When you're talking about Sweden, though, you're also obviously a Nordic country, and you've taken a very different approach to COVID. You have decided to declare the pandemic over. That was partially economic, but also about mental health as well. Walk me through your strategy.

Anna Linde

Well, let me respond to that by making three overall reflections on this and it's it's clear since this is about a week, we have more or less taken away the the restrictions in Sweden. But I think it's important that we don't see this pandemic as an individual or social issue. It's also your political issue, it's a security issue. And we just see this pandemic as a tip of an iceberg. There is much more to come unfortunately.

I mean, it's antibiotic resistance, it's all those climate related changes that will also affect human beings. Just a few days ago I presented the yearly declaration on foreign policy in the Swedish Parliament, and I actually appointed an ambassador to fight antibiotic resistance because there are so many people dying of this. Even if we are concentrating on COVID right now, this is nothing that is going to go away.

Also, these new political tensions are actually threatening public health, and that's why we as Foreign Minister also involved also in this discussion. There is also the issue of inequality, which means that it is crystal clear during the pandemic that the advantage, such as vaccine, has been very distributed in a very unequal way and we need to get it in another way to make progress possible for everybody.

The health issue is connected across the world, that's what the pandemic has shown us. And inequalities and inequities has increased during the pandemic, pandemics and we witness a backsliding. Also, when it comes to gender equality, and both I and Melanie, we are representing government that has a feminist foreign policy and what we have done also is to see that women has been much more severely hurt by the consequences of the COVID, not COVID itself, but the consequences of COVID.

So, we actually started to do, to bring this up, as in our female Foreign Minister network.

We managed to get actually, a resolution through in the United Nation to see to this because the women are being, in those areas of society, has been hit the worst by the pandemic. Also part of our way of handling the pandemic has been not to have lockdowns. And in lockdowns, women has been both subjected to domestic violence in a, women say in an increase with 30%, and also those who have to homeschool their children. So it's not just COVID and pandemic, it is the consequences of the COVID pandemic that we have to deal with as well.

Hadley Gamble

Bill, I want you to weigh in on this specifically in terms of what we've seen over the last 24 hours, G20 Finance ministers meeting, and essentially trying to figure out how to balance the need for economies to get back on track post COVID need to combat inflation. What's your greatest concern there as economies begin to open up again?

Bill Gates

Well, the the greatest damage, uh, to the most low-income countries was the economic damage.

You know the age structure of their population and variety of things meant from pure medical point of view, this is a rare disease that struck middle income and rich countries dramatically more than low income. Usually it's dramatically the other way, and you know, I think it's great when a disease like this, you know there's one small benefit to it, that it reminds people how inequitable global health is every single day. You know, there's 60 times difference in what's spent per person. There's you know, a 40 times difference in terms of the risk of a child dying. So we live in a very inequitable world. And in terms of how we take our limited resources and improve those inequities, I do think a dialogue with the countries involved would be important. You know, would they like to take resources and catch up on bed nets? Would they like to catch up on vaccinations? You know, what are their priorities?

Given that they weren't able to go out and borrow money and support their economies like the rest of the world was, you know. What is that agenda? We're going to see, you know, an uptick in malaria deaths, an update tick in TB deaths, an uptick in HIV deaths. I mean, all of those things were negatively affected, and so it's, you know, great now we can have this dialogue. We've got some generosity that's coming from people, realizing that this affected the entire world. And you know, let's make sure we maximize that, and you know, spend it in the best way possible.

Hadley Gamble

Is inflation, in your view, the greatest danger at this point to the global economic recovery post- pandemic?

Bill Gates

Say again.

Hadley Gamble

Inflation, the biggest danger post pandemic?

Bill Gates

Well, you know African countries have, have inflation at all times. In the West, yes, we forgot about inflation, we don't have much of it, but it you know it's fairly extreme, uh, you know, we have commodity markets, particularly, you know maize and wheat with, um, spiking prices and so yes, you know I was in Pakistan yesterday and the biggest concern there is actually the inflation because in that food basket it affects the poor in in a pretty dramatic way. There's different factors for different, why different products or having inflation, um, but you know, whenever the rich world gets preoccupied with its own problems, there's a temptation to sort of forget about the suffering and the need to be generous to these other countries. And you know, will that happen this time or not? You know, partly, it's making sure that we, you know, bear witness to the difficulties that these countries have and you know, make sure that, you know, we do a better job than we did in the early stage of the epidemic.

Hadley Gamble

Comfort, when you think about what happens next with regard to the most vulnerable populations, obviously we have what's happening with the Ukraine-Russia crisis, you've got oil prices that have popped above 95 at different points in the last several days, inflation as we were just

discussing is a big concern as we try to move forward through a recovery process for post pandemic. How difficult do you believe is it going to be for vulnerable countries going forward to get the kind of assistance they need when it comes to funding, post pandemic?

Comfort Ero

I mean, yeah, and I want to pick up with your point, but also what you were saying about one of the issues that's been exposed as a result of the pandemic, or further exposed as the result of the pandemic, is unevenness and also the inequity of the international system, you know. And the other thing that was, I think it's been exposed as a lack of cooperation and unity in terms of being able to identify where those needs work very quickly as well. So today we have a situation where only 4%, for example, of the vaccines have reached those countries that have a high level of a humanitarian crisis as well. So, we talk about, you know, even as we talk about equity, and yet, when you look close to the ground, you still see that that the system itself is unable to make sure that it can guarantee access to those populations that are there at the front line of the greatest needs as well. So, I think one of the things that we, we talk about building back better, are we going to build back better the humanitarian system? Are we going to build back better to ensure that we we we we deal with those societies, or the most, at the frontline of the prices, and we're going to build back better in terms of multilateral cooperation? Because we also say, so at the time of an international global crisis, that the Security Council, for example, was at the most dysfunctional because of those major power tensions and we've seen how major power tensions has been overshadowed a lot of these crises as well. So, when we talk about build back better, it's it's become a catchall phrase. And it's become very flimsy on the ground where you, at the front line, where you see in a lot of these prices. Are you going to build back better in terms of public health systems in a number of these countries? One of the good outcomes

from the Ebola crisis, for example, was the unity of the Security Council that enabled, um, regional organizations like the African Union, to benefit from consensus that led to the creation of CDC's around the African continent, for example, that allowed for a more sort of global policy on building public health systems as well. So when we talk about build back better we've got to be more specific, more concrete, and more clear in terms of what it means for a number of those countries that are vulnerable. Some of those countries are vulnerable are actually in Western democracies as well, and those have we seen just how fragile the distrust is between central governments and also the society in a lot of Western countries as well, and that, I think, is something that we need to also square the circle with going forward.

Hadley Gamble

I want to just do a quick round Robin with the panelists. I'm covering this from the very beginning as a journalist. You're reacting moment to moment. My actual last interview with Doctor Tedros, who will be joining us in a few minutes, was in Saudi Arabia on a humanitarian crisis panel and at the time markets were beginning to react to what we did or didn't know about what was coming and I asked him at the time, you know, are markets over-reacting and he said “yes, we haven't even declared it a pandemic yet”, and of course, hindsight being what it is, and that was something quickly to have taken back off the table, but just walk us through, if the candidates would briefly, how much the media, and frankly disinformation, has hurt the world’s ability, frankly, to deal with the pandemic?

Melanie Joly

Well, we are very, very concerned with, and I'm very concerned with the issue of disinformation and misinformation, to, when it comes to the pandemic, when it comes to our democracy, let's start with the pandemic. We know that vaccine hesitancy is linked also to the fact that there are social media campaigns that are spreading false information regarding the origin of the virus, its impacts, and also the you know, the impacts of vaccines. We see that throughout the world this is having an impact in democracies and in countries which have, and Comfort could talk more about that, but have had some issues in terms of trusting their public health authorities, but this entire misinformation, disinformation campaigns are…

Hadley Gamble

It's understandable that they'd have a problem trusting there their health authorities when you have Doctor Fauci giving new information every single day. Well, you know, no offense to him and his knowledge, but

Melanie Joly

No, but you know, we know that science evolves and you know definitely the idea was to make sure that we were following science. But when you don't trust your public health authorities, you put people's lives at risk. So, what we want to do as a country is we want to convene expert to find out what are these narratives? Who is behind them? How are they affecting communities? And what's the best way to counter them? And I think as a world we need to come to the table to find a solution, because it is for this pandemic and this crisis, but there will be other crises and we need to know how we can be more resilient to it, as every single of our citizens are on the web and became even more in a virtual reality during the pandemic.

Hadley Gamble

Bill, how well do you think the media has done at policing itself when getting the facts right? And did it damage the world's ability to fight this pandemic?

Bill Gates

Well, I think the mainstream media did a reasonably good job. You know, it's a little too bad that the death number that was published daily didn't say you know unvaccinated X percent, you know, vaccinated Y percent 'cause then people would have seen the, you know, phenomenal difference in terms of risk of dying being somebody who wasn't vaccinated. So you know, maybe next time we'll find a better way to get that message out. The scale of the misinformation once you move past the mainstream media, is so wild you almost have to laugh about it. I mean, you know

Doctor, Fauci and I are just killing millions of people to make money, you know, hydroxychloroquine's this miracle cure that somehow he and I have masterminded avoiding people saving their lives by taking this thing. There's no doubt that the misinformation enhanced vaccine hesitancy and that maps to hundreds of thousands of deaths. There's no doubt that the idea that you know we need the freedom not to wear a mask, you know, and that that's some you know, thing that you've got to show that in many cases that led to spreading the disease into locations where elderly people had very high death rates and so, you know, as we look back over the pandemic, you know having the politicians speak out, that doesn't work very well, because then you have a lack of trust. The CDC in our country could have been more front and center Dr. Fauci became front and center, and you know the key messages about the vaccine is good, you should take it, and at some level masks are good [*last phrase was mumbled so can't be sure that is what was said*]. It's good, I don't think he ever confused anybody about the primary messages that saved lives.

Hadley Gamble

What about masks? I think there are a lot of people in America who are confused about whether they should be wearing a mask and in the United Kingdom, for example, they've scrapped that altogether.

Bill Gates

Well, that's interesting, you know what is the downside of wearing a mask? I mean it's got to be tough, you know you have to wear pants. I mean, this is tough stuff. These societies are so cruel. Why do they make you wear pants? I'm trying to figure it out.

Hadley Gamble

We're very glad you have yours on. [*laughing*]

Hadley Gamble

Morning Minister, weigh in on this in terms of Sweden specifically, do you think that the media helped or hurt your ability to fight the pandemic and to move out of it as quickly as you have.

Anna Linde

Can you repeat that?

Hadley Gamble

In terms of the media approach in your country. How did it help or hurt your ability to get back to business as usual, open up with media, yeah, misinformation, disinformation.

Anna Linde

With the media? Yeah, I think in the beginning there was a lot of a very strong opinions about what was good, what was bad, there was debate, anything, and I think it's very clear that the fact that we chose different ways that we didn't have, for example, masks more than in very, very specific circumstances. It's also because of the culture, do you have if you trust the authorities or not. And since we have quite a high level of trust between authorities and the citizens, we asked the citizens to take a lot of personal responsibility and to believe to use their common sense in a way and absolutely get vaccinated, that's the number one when the vaccine came, but of course there was a lot of disinformation also in in our society. Now when we see the kind of results of the excess death rates and so on, it shows that for example, Sweden, who got criticized in the beginning, there was so many things, I read, I had to answer so many questions for journalists all over the world. And we don't have, actually, we have, in fact one of the countries with less, with the smallest number of excess deaths, we have #5 and that means that you can choose different ways of fighting the pandemic that is suitable to your to your circumstances.

Hadley Gamble

Yeah, Comfort, in terms of the most vulnerable areas, as a journalist, I did multiple panels for the last couple of years, focusing on everything from the economic fallout to supply chain disruption and frankly, many on the idea that more needs to be done for the underprivileged areas for countries of low income for vaccine distribution, et cetera. But at the end of the day, how many people were really watching those panels? How many people, other than the organizations that were holding them like this one, my worry would be that the story of the most vulnerable countries was not being told to the degree in which it needed to be. Do you believe that the media has been helpful or more hurtful?

Comfort Ero

I mean again, as as I said, we've tended to look at the pandemic strictly within a political, I mean within a public health system. And the again, we've learned also over the last two years about the fallout and the consequences and understanding just how extensive those are. What I would, I think this is yet another panel that is trying to understand the post pandemic situation and how we how we reframe the conversations and how we do better coming out of the pandemic. There are conversations taking place. They, they're not often heard in these in these, in these centres, for example, one of the stories that is often not told is the role, for example, of the African Union and the role of its own chief of CDC and the conversations he had with African heads of states, lessons learned from the Ebola crisis. There are also conversations that are taking place in places like among communities in Colombia, in Venezuela, in Lebanon also as a result of the protest as a result of discontent as a result of those existing grievances.

So there are multiple conversations, and when you talk about issues around disinformation, I wouldn't limit it just to the media and I would also add the social media space where we are all our own media at the end of the day when it comes down to Twitter to WhatsApp, to Instagram, we all make up our own news at the end of the day in 240 characters, right. I can generate my own spin around the pandemic and that's it. So it plays a double edged sword as well But there are other groups that I think we need to focus our attention on. We need to also look at the power of faith groups as well that there can be a source of information source also of disinformation. We have to also look at various local community groups as well that are also source of information and a source of disinformation. And by the way, politicians also, decide what the news is and how you and how you then craft the message around pandemic. One day we're following the scientist, another day, we're not following the scientist. When it suits us we follow the science when it doesn't suit the public mood, when we're trying to win the battle in Parliament, it doesn't suit us to follow the scientists because the public mood suggests that we don't want to wear masks anymore, we don't want to be in lockdown anymore we want to get out, and because there are other political imperatives at stake as well. So I think again the pandemic has exposed a number of things that we knew were already uneven and unequal in a number of, a number of countries and not just vulnerable countries, but also in sort of what we define as strong democracies.

We've seen just how fragile some of those societies are in terms of the trust within that with within their own communities as well.

Hadley Gamble

Bill, how confident are you that we as a global community will deal with the next pandemic better?

Bill Gates

Well, you know there were a lot of people in 2015 after the Ebola epidemic who were talking about what needed to be done. And in this pandemic, the countries that had some exposure to SARS-CoV-1 were amongst the outliers, you know. So, Australia is a true outlier. They orchestrated diagnostics.

They executed quarantine policies and they have a death rate in a different league than the other rich countries. I mean, just utterly different. And everybody had the capability to do that. They you know, have less PCR machines than other rich countries, it wasn't some thing, they had more travelers coming in from China than other countries, so hopefully you know, given the so many negative things, not just the millions of deaths and the economic toll, but the lack of schooling, depression, overdose deaths, I mean, it's, you know, hard, hard to make the entire list, as you say. You know, for men more men died. For women more women had, you know, unacceptable burdens thrust onto them so the cost of being ready for the next pandemic is not super large, it's not like climate change where you know 10 trillion, 20 trillion. These are big numbers, you know. Global surveillance capability would cost like a billion a year. The R&D that we need to do to get magic vaccines and diagnostics and therapeutics, you know, that's less than 100 billion over the next decade. So, you know if we're rational, yes, the next time we'll catch it early and it won't go global like it did this time.

Melanie Joly

But I think also that we now have a better health security infrastructure than we did before the pandemic the accelerator of Covax are examples and I think also that many countries in the world know that we need to vaccine more people in order to get out of the pandemic. And that's why we're stepping up to the plate. In Canada, we've, you know, provided 200 million vaccines, we've invested $2.6 billion also in treatment and PPE,

et cetera. But I think Bill, that was not ready before the pandemic We've worked together through our different multilateral institution, Comfort, you were referring to the African Union as well. I think that multilateral institutions worked during the pandemic. It's not perfect, but I think we're stronger than before.

Anna Linde

I think there is many weaknesses that was exposed, and I think that it maybe worked, but mostly it did not work because there were until everybody decided, now we have to put everything into the goal of getting a vaccine, then we managed to do it. That was, you know, for public private cooperation, for multilateral cooperation, for the big institutions, there are the EU other organizations like that and we get a vaccine in a in a in a period of time that was unseen. Nobody could expect us to do that. And that was, I think, one of the best things that happened. But it also explored the weaknesses of the multilateral organization and I hope, now that the Secretary General of United Nations, he is going to have a summit for the future and so to see how we can make it more robust because we cannot go on with these in inappropriate way of dealing with the multilateralism, absolutely not.

Hadley Gamble

In terms of reaching the goal, the WHO goal of vaccinating 70% of the global population by July of 2022. Show of hands on this stage. Do we think it's going to happen?

Bill Gates

To happen what?

Hadley Gamble

To get to vaccination of 70% of the population of the world?

Bill Gates

No, it's too late. Wait, I mean there's a lot of diseases out there that demand does not exist. For that I mean, countries should be able to set priorities.

Hadley Gamble

I'd love to open up the floor for questions at this point, and doctor Tadros has joined us and we'll be giving some closing remarks as soon as we're finished. If you have a question, I believe that we have a microphone that we can give you.

Question from audience

We had a tough time to manage COVID, but good news we have managed it. Initially we started vaccination much earlier than other countries, but then we made an arrangement. We paid for Astrazeneca from India. But India had a terrible situation, so they failed to provide the basic.

Then we're looking for vaccine everywhere, and it was unfortunate for few weeks, almost six weeks, we had to abandon our vaccination program. Finally, Chinese came forward and we were lucky this they started providing vaccination at a cost, we have to pay for it. Finally, thanks to Covax, you see they started coming up. We need lot of vaccine, not less than 300 million vaccines. It's because we have around 165 million people, and since we need too much vaccines, you know, not to speak up, you know the booster first, you know, and 2nd vaccine. We need a lot, but we face this difficulty. Until today we got assurance from some of the country's, friendly countries, they would be providing some vaccine for around 1.1 million. You know, displaced people, persecuted people of Myanmar who are currently staying in, but unfortunately that did not come yet. So we hope that those will flow in future. There is a during this pandemic we find there was a partial narrowness among many countries.

They were not forthcoming with the vaccine, until of course, the Covax started giving thanks to the Covax [*mumbling*] General who arranged it. My question is, I have two part.

First question is, from the day one we wanted this vaccine should be a public good and the technology should be shared with the countries. Till today, many African countries don't have it. If the technology could be shared with that. We have the, you know, pharmaceutical expertise we could produce it, but since this technology is not a public good and therefore, we cannot produce it, so we is it going to be because this was coming up in varieties of ways in variety of variants so, will it be allowed as a public good and the technology to be shared by the countries that can afford to do it?

Second part of course, and here is the Director general is here for my Rohingya. You see, they live in a very congested area. They need vaccine and it's not much, it's around, if you do 2 doses, is only 2 million vaccines we are providing from our own, but it's not enough because we have a large, but we bought plenty of vaccine on our own and thanks to Covax that we got some. So these are the two questions here. Thank you, thank you very.

Hadley Gamble
India I believe, Bangladesh.

Bill Gates
OK. Well, there's no doubt that given the risk factors of this disease, that vaccinating young people anywhere before we vaccinated, older people, or people with comorbidities was not a just thing to do. And you know, it's hard to get the vaccines allocated according to, you know that risk ordering, which would have been ideal. You know, because of the second source deal that we helped fund with serum and Astra Zeneca, India

actually had vaccines in a lot of vaccines very early. And you know the rich countries had vaccines early, and so yes, in the future there's two solutions. One is to make sure that limited supply is allocated in a more rational way. And there's ways to do that. The second is to just have so much capacity that you can supply all of mankind 2 doses in a very short period of time. And given this, how easy it is to build very high volume mRNA vaccines, I see the second is more likely and you can use mix, but the 2nd one, you know, being able within six months to make enough for the world.
I think that should be our aspiration.

Hadley Gamble
Do you believe it's possible to prevent the next pandemic?

Bill Gates
Say again.

Hadley Gamble
Is it possible to prevent the next pandemic?

Bill Gates
Yes, if every country does what Australia did then you wouldn't be calling it a pandemic, uh, that's all.

Hadley Gamble
Foreign minister

Anna Linde
Yeah, I would say to your question about this that. I mean we have, I know the criticism that is in your question and the way we hear it often, but actually we have seen the fastest development of a safe and effective vaccine in in the history of mankind, and it has been the most significant

scale up of global vaccine production, actually it's a tripling of the global outcome of vaccine and that is under the rules that we have now. And under the criticized trips, for example, that I know that that your country is talking about, and I think that if we waiver proposal that would not help because it will take away incentives for the vaccine producers to deliver the vaccine. But what we should do is of course that when we have the vaccine done in the way with the market economy so to speak, is to propose an even harder Covax system, and that everybody takes the responsibility and that we increase the effectiveness of supporting all countries. I know it's more than 120 countries now that is not having the vaccine in a very high level, but to go that way of wavering or waivers or taking away trips or getting it getting not their producers to get what they want, what they need to have, I think that's the wrong way to go, actually.

Comfort Ero

Sorry, I think you know what I'm going to say. Here's the statistics. 12% of people have been vaccinated in Africa, 71% have been vaccinated in Europe. I mean, I that that is the stark reality, that is how uneven the processes as well. The one good story and I just saw your tweet this morning, Dr. Tedros, is that 6 countries in Africa for themselves have now received the technology. Up to now, begin to think through about their about vaccination on the continent as well. Again, it talks to the resilience of communities realizing that they're not necessarily going to get what they need, and that they can't rely on the traditional multilateral corporation which was damaged at the very beginning of COVID because of also, the other major power tensions as well, but I think we also need to look at the realities there. There really is a divide between what is happening. To answer the question, do we believe that people 70% of people will be vaccinated by 2023? No, and I'm glad that you said so, you're yourself, it's unrealistic because of this this crisis that we have within the system. And also, I think we should also be clear, the vaccine diplomacy using geopolitics as a bargaining chip to decide who gets vaccine vaccinated first,

Oh well, because I'm not getting because we're not getting what we want from the West, Well then we can turn to Russia, we can turn to China because the bidding is at a very low low low low place, whereas there are lots of conditions tied even within the Covax initiative as well. So, I think if we're going to build back better, I think we really need to rethink the multilateral cooperation. And again, I think the public health systems exposed what we already knew about the weakness and the fragile, the fragility of that multilateral corporation.

Melanie Joly

Yeah, well you know and mentioned a bit earlier, the impacts of the pandemic on terms of social, political economy and Comfort mentioned it as well, I think that you know the pandemic has an impact on our public health systems and health systems in general, and we are not done dealing with that yet. Well, we're still vaccinating the world, so we have to also work on the resiliency of health systems in Bangladesh and other countries. Because meanwhile there are people on the waiting list that are trying to get surgery and don't necessarily have a spot in the hospital where you, we're going through this in Canada and in many countries, but we know we have to do that, as well in different countries of the world.

Hadley Gamble

Panelists I'm afraid we're going to actually have to wrap it up, but Doctor Tedros is going to offer his assessment of where we are today, I believe, in the next 5 minutes.

Tedros Adhanom Ghebreyesus

Thank you very much. First of all, I would like to apologize. I'm very late. It took us one hour to get into Munich from Brussels, almost same time from the airport here, we were stuck in a tunnel. I'm really sorry but I have to apologize. But I'm glad you were with great panelists. Excellencies, colleagues, friends. Guten abend, and good evening and my thanks to Ambassador Ischinger and his team for bringing us together again. I'm sure when we met two years ago, when we were all coming to grips with the spread of this new virus, that none of us would have imagined we would now be entering the third year of the pandemic. So, when will it end? Is it ending now, some one of the major questions being asked? Indeed, high vaccine coverage in some countries combined with the lower severity of Omicron is driving a dangerous narrative that the pandemic is over. But it's not. Not when 70,000 people a week are dying from a

preventable and treatable disease. Not when 83% of the population of Africa is yet to receive a single dose of vaccine. Not when health systems continue to strain and crack under the caseload. Not when we have a highly transmissible virus circulating almost unchecked with too little surveillance to track its evolution. In fact, conditions are ideal for more transmissible, more dangerous variants to emerge. But we can end the pandemic as a global health emergency this year. We have the tools, we have the know-how. In particular, we're calling on all countries to fill the urgent financing gap of 16 billion U.S. dollars for the ACT accelerator to make vaccines, tests, treatments and PPE available everywhere. Compared with the costs of another year of economic turmoil, $60 billion is frankly, peanuts and some finance ministers called it a rounding error to the money they're losing due to the pandemic. Ending this pandemic must remain our focus. At the same time, we must learn the lessons it's teaching us. As you know, there have been many reviews of the global response to this pandemic, with more than 200 recommendations. Taking those recommendations into account, last month [*mumbling*] executive board tasked me with developing a set of proposals on strengthening the global architecture for pandemic prevention, preparedness and response to be considered by all Member States at the World Health Assembly in May. In brief, I see three key pillars of that architecture.

First we need stronger governance. I think that has been raised. Instead of the confusion and incoherence that has fueled this pandemic, we need cooperation and collaboration in the face of common threats that can address the trust deficit that we have seen. At a special session of the World Health Assembly at the end of last year, WHO’s 194 Member States agreed to negotiate a new legally binding instrument to set the rules of the game for pandemic prevention, preparedness and response. WHO also supports the recommendations for a Heads of State Council to provide high level political leadership for rapid and coordinated action. In

our view, such a Council must be anchored in the constitutional mandate of WHO to ensure political, strategic, and technical coherence.

Second, we need stronger systems and tools to prevent, detect, and respond rapidly to epidemics and pandemics. Already, WHL has taken steps to build some of these systems and tools, including the WHO have for pandemic and epidemic intelligence in Berlin to enhance global surveillance through collaborative intelligence. We're piloting the WHO BIOHUB system, a new mechanism for countries to share novel biological materials. Several countries are now piloting the Universal Health Preparedness Review, a new peer review mechanism for enhancing national preparedness. We established the ACT accelerator which has given us valuable experience and insights into how to fast track equitable access to countermeasures and to strengthen capacities for local production of vaccines and other health products in low and middle income countries. We have established that WHO technology transfer hub in South Africa, which has now developed its own mRNA COVID-19 vaccine candidate. Today we announced the first six African countries to receive technology from the hub to produce their own mRNA vaccines, Egypt, Kenya, Nigeria, Senegal, South Africa and Tunisia. But above all, not only the systems and tools, the central point will be developing the workforce and that's why the WHO Academy we're building in Lyon, France.

And third, we need stronger financing. It's obvious that nationally and globally we need substantial resources for strengthening global health security. Our analysis estimates the needs at $31 billion per year. We estimate that about $20 billion could come from existing and projected domestic and international resources, leaving a gap of $10 billion per year. To close the gap for the most essential functions such as surveillance, research and market shaping for counter measures, we support the idea of a new dedicated financing facility anchored in, and directed by, WHO

constitutional mandate inclusive governance and technical expertise in and installed in the World Bank. Any efforts to strengthen the global health security architecture can only succeed if they also strengthen WHO's role at its centre, rather than centering further mechanisms, creating further mechanisms that would only create further fragmentation and potentially leave the world, less safe. We especially appreciate Germany's leadership of the Member States working group on sustainable financing and we look forward to our continuing discussion with our Member States on ensuring WHO has the resources to meet the world expectations of it, as well as accountability for delivering against those expectations. Let me return to the question I asked at the beginning. When will the pandemic end? It will end when we choose to end it, because ultimately, it's not a matter of chance. It's a matter of choice. I thank you and excuse me again, my apologies. For joining you late thank you.

Hadley Gamble

Dr. Tedros, one question. Bill says that we could potentially prevent another pandemic if we all act like Australia, do you agree?

Tedros Adhanom Ghebreyesus

It depends on our choices, of course, and how prepared we are; and we have been saying the world has not been prepared for a long time, and it was caught by surprise due to this pandemic. Still, I don't see that the world is prepared, and I worry because of that because the investment we expect is not happening. So can a pandemic be prevented in a state like now? I don't think so.

Hadley Gamble

Thank you so much, Sir; thank you, panelists.

Section 4
Bill Gates and Africa Coronavirus Research on BAT

Bill Gates and Yaw Adu-Sarkodie, 2011, Before the 11 years, after the Pandemic Starts. He Was Funded by the Bill Gates, European Union, and Some Big Pharmaceutical Companies, as Below Information Shows.

Yaw Adu-Sarkodie

Department of ClinicalMicrobiology, School of Medicine and Dentistry, College of Health Sciences, Kwame Nkrumah University of Science and Technology, Kumasi, Ghana

Yaw Adu-Sarkodie is a consummate High Education Leader and Administrator with over 20 years of experience at all levels of University administration. He has risen to the Academic rank of Professor, leading students, faculty, and support staff in positions of Hall Master, Head of Department, Vice-Dean and Dean of the School of Medicine and Dentistry, and Provost of the College of Health Sciences of one of the leading Universities in Africa, the Kwame Nkrumah University of Science and Technology, Kumasi, Ghana. At the level of the University, he has worked on its highest policy-making bodies - Executive Committee, Academic Board, Committees of Appointment and Promotions of staff, Search Committees for the appointment of Senior Staff, Quality Assurance, and others. His passion for inclusivity of all has led him to chair the University's Policies Committee on Gender, Disability, Health, and Safety. Currently, he Chairs the Vice-Chancellor's Enterprise Development Board which has the mandate of linking the University to opportunities within and outside the University to increase its internally generated funds in a bid to achieve financial sustainability. Being passionate about scholarship, he has authored over 150 journal articles in high-impact peer-reviewed journals, and he is the Editor in Chief of the University's Journal

of Science and Technology, which publishes research on the Humanities, Engineering, Art and Built Environment, Agriculture, and Natural Resources, Science, Health Sciences, Law, etc.

In the capacity of Dean and Provost, he led Financial and Material Resource Mobilisation efforts locally and Internationally for Capital projects, Research, and Skills acquisition to support the work of the University. He is passionate about graduate student mentorship, having mentored over 15 and 25 students, respectively, at the Doctoral and master's levels (local and International) and numerous at the Bachelor's level. In research, he has been the Principal Investigator/Investigator of many public health-related types of research with collaborators globally, bringing to the University over $10 million in research grants. He is currently working on various Typhoid related studies, including a Phase IV Typhoid fever Conjugate Vaccine trial funded by the European Union and the Bill and Melinda Gates Fund at over Euro 6m, a Phase II non-typhoidal vaccine trial funded by GSK Global, and a Typhoid Environmental Surveillance study also funded by the BMGF. At the International level, he has worked with the WHO in various capacities, the International Vaccine Institute, the London School of Hygiene and Tropical Medicine, Boston School of Public Health, the Health Sciences Research Council of South Africa, and others in Research and consultancies.

As a Professor in Clinical Microbiology at the College of Health Sciences, Kwame Nkrumah University of Science and Technology, Ghana, he has over 25 years of teaching experience in teaching courses in Clinical Microbiology and Reproductive Health to undergraduate and graduate students of Medicine, Dentistry, Laboratory Sciences, Nursing, and Public Health.

Is the PCR Swab test Working, or It's an Illusion and Fraud?

Distant Relatives of Severe Acute Respiratory Syndrome Coronavirus and Close Relatives of Human Coronavirus 229E in Bats, Ghana

Susanne Pfefferle, Samuel Oppong, Jan Felix Drexler, Florian Gloza-Rausch, Anne Ipsen, Antje Seebens, Marcel A. Müller, Augustina Annan, Peter Vallo, Yaw Adu-Sarkodie, Thomas F. Kruppa, and Christian Drosten

Results

Virus Detection

During February 2008, bats were sampled in the described locations around Kumasi, Ghana. Initially, 7 fecal samples tested positive by pan-CoV PCR. Products (440 bp, *RdRp* gene) were sequenced and aligned with prototype CoV. Neighbor-joining phylogenies indicated 2 distinct groups of sequences that belonged to CoV group 1 (n = 4) and group 2 (n = 3), respectively. Specific primer pairs for the group 1 and group 2 sequences were designed and applied again to all samples. Five additional viruses were found, resulting in a total CoV prevalence of 9.76% in insect-eating bats (n = 123). **No virus was found in any oral swab. All virus findings in fecal samples** are listed by capture site in Table 1.

Notably, all CoV findings were in insect-eating leaf-nosed bats of the genus *Hipposideros*. Within the genus, the species *H. abae* could be discriminated unambiguously by morphology (Table 1). The remaining *Hipposideros* species were assigned to the complex of forms related to currently recognized species *H. caffer* and *H.*

Figure 2. Two morphotypes of *Hipposideros caffer ruber*, held by one of the authors (F.G.-R.), who was wearing a leather glove. Photograph courtesy of Antje Seebens.

ACCOUNTABILITY OF INTERNATIONAL NGOS: HUMAN RIGHTS VIOLATIONS IN HEALTHCARE PROVISION IN DEVELOPING COUNTRIES.

The Gates Foundation focuses on world health and population and highlights its strategy of accelerating scientific discovery by reducing costs. Since the early 2000s, the Global Alliance for Vaccines and Immunizations (Gavi), Global Health Innovative Technology Fund, and PATH, all heavily funded by the Gates Foundation, have been distributing vaccines and drugs to vulnerable African populations and India. In 2010, the Gates Foundation funded experimental malaria and meningitis vaccine trials across Africa and HPV vaccine programs in India. All of these programs resulted in numerous deaths and injuries, including the Genocide of the COVID19 Pandemic, with accounts of forced vaccinations and uninformed consent. Ultimately, these health campaigns, under the guise of saving lives, have relocated large-scale clinical trials of untested or unapproved drugs to developing markets where administering drugs is less regulated and cheaper.

In this Pre Planned Coronavirus Pandemic, Big Pharma Companies, Corrupt Politicians, and Corrupt Representatives have Profited From this Planned heartless Pandemic.

The Below Image is Describe their Plans and Conspiracy against the World Population; on 2013, Bill Gates Owned Bill and Melinda Gates Foundation and funded the money to The Pirbright Institute Dollar, $ 21,621,031. After Two Years the Before 2013, in 2015, The Coronavirus was PCT Filed on July 23, 2015, by Pirbright Institute International Patent Application: - PCT No:- PCT/GB2015/052124. And Date of the Patent is November 20, 2018, and the Inventors are Erica Bickerton, Woking (GB); Sarah Keep, Woking (GB); Paul Britton, Woking (GB.

Section 9
BILL GATES, RAHUL GANDHI, and NARENDRA MODI

Bill Gates

Research, Report, Investigation, Examine, Analyzed, or Study by Rakhesh Jaghadish L,
10 [Day]– 8 [August] – 2022 [Year],
New Conclusion in Systematic Way

Bill Gates, his Full name is William Henry Gates III, was born on October 28, 1955, and he is an American Business Magnate, Software Seller, Investor, and philanthropist.

He is the Co-Founder of Microsoft and his childhood friend Paul Allen.

Microsoft was Founded by Paul Allen and Bill Gates on April 4, 1975, in Albuquerque, New Mexico, the U.S, to develop and sell Basic Interpreters for the Altair 8800.

4, February 1998, Bill Gates was hit with Pie by Neil Godin, as Reported by The Associated Press.

18, May 1998, the suit began on May 18, 1998, with the U.S. Department of Justice and the Attorneys General of twenty U.S. states (and the District of Columbia) suing Microsoft for illegally thwarting competition to protect and extend its software monopoly.

In October 1998, the U.S. Department of Justice also sued Microsoft for violating a 1994 consent decree by forcing computer makers to include its Internet browser as a part of the Windows software installation. While David Boies represented the DOJ, the States were separately represented by New York Attorneys General Alan Kusinitz, Gail Cleary, and Steve Houck [3].

Bill Gates was called "evasive and nonresponsive" by a source present at his videotaped deposition [3].

[5] Some of the exchanges evoked laughter in the courtroom. After introducing Gates' e-mail into evidence, Boies quizzed Gates about what "non-Microsoft" browsers he was concerned about when he wrote it in January 1996.

Gates said he was confused. "I'm sure -- what's the question? Are you asking me about when I wrote this e-mail, or what are you asking me about?"

Said Boies, "I'm asking you about January of 1996."
Replied Gates: "That month?"
Said Boies, "Yes, sir?"
Replied Gates, "And what about it?"

After 20 minutes of bobbing and weaving Boies' questions, Gates testified that he and other company officials were looking at rivals' browsers, including Netscape's then-market dominant Navigator browser and the browser used by America Online was called Booklink.

At another point, Boies pressed Gates on whether he was "concerned" about competition from those browsers. "Is the term 'concerned' a term that you're familiar with in the English language?" after more back-and-forth about what the term meant "concerned" and why the question was posed, Boies lost his patience.

In Mid-2000,

The Bill and Melinda Gates Foundation (BMGF), a merging of the William H. Gates Foundation and the Gates Learning Foundation, is an American private foundation founded by Bill Gates and Melinda French Gates.

Bill Gates Cover Up his Inhumane Act by Being a Philanthropist.

Bill Gates has wrapped up a blanket called a philanthropist to cover up his inhumane act.

In 2001, Bill Gates, at World Economic Forum,

Speech of Bill Gates,

When I first learned about world health, I have to say that I was kind of stunned. I half expected that the United States and other governments and foundations were taking these low-cost interventions and saying that the value of life is the same throughout the world and focusing on that problem. And yet the more I learned about it, the more I realized that there is an absolute market failure here. There's a failure of visibility, a failure of incentives; there's a failure of cooperation that has led to a very disastrous situation. The gap in health outcomes is growing very dramatically. While the rich world is cutting down on tobacco use, it's growing in the poor. AIDS and T.B. are a phenomenon in the imperfect world. When I say the poor world, of course, I mean the majority of the world, anything outside the enclave that most of us here are privileged to live in, and the kind of vaccines and things that we take for granted, not only for ourselves but also for our children.

Source: Bill Gates Grant Details.,

After the HPV Vaccine, Deaths came to the eye of the Media.

Fatal trials, Reported by FRONTLINE THE HINDU, Print Edition, May 07, 2010

A CONCERTED campaign by women's organizations and health groups, together with media reports, has finally woken up the Country's health establishment to the dangers of a vaccination program against cervical cancer currently underway in Andhra Pradesh and Gujarat.

The program, under a private-public partnership arrangement involving the Indian Council of Medical Research (ICMR), an international non-governmental organization (NGO) called PATH, the Bill and Melinda Gates Foundation, and the governments of the two States concerned, involved conducting operational research studies and vaccinating adolescent girls against the human papillomavirus (HPV), known to cause cervical cancer.

One of the vaccines, Gardasil, manufactured by the significant pharmaceutical Merck, has allegedly resulted in the death of four teenage tribal girls and caused debilitating problems such as epilepsy, headaches, stomach disorders, and early menarche to 120 others in Andhra Pradesh Khammam district. Since July 2009, 42,000 girls have been administered three doses of Gardasil each.

The controversy began in September-October last year following an advertisement blitz launched by another HPV vaccine manufacturer (Frontline, February 12).

The ICMR, though unconvinced that the Vaccine caused the deaths, has ordered the suspension of the program in the two States. Its Director-General, V.M. Katoch, and the Andhra Pradesh Health Minister, Danam Nagendar, remain convinced that the Vaccine's benefits far outweigh the risks. The Drug Controller General of India, Katoch stated, had approved using the Vaccine. According to him, all the reported deaths were not associated with the vaccination. Incidentally, two deaths were certified as suicides in the post-mortem reports.

Unsurprisingly, the protesting groups view the ICMRs' half-hearted intervention with cynicism. While welcoming the suspension of the trials, they said that the governments had to ensure the well-being of the children already covered under the program. They pointed out that entire vaccine batches had been withdrawn in other countries where hospitalization and deaths were reported following its use. They alleged that the other HPV vaccine, Cervarix (produced and marketed by GlaxoSmithKline in India), had been approved for use on children without any trials.

The ICMRs Response followed a memorandum to Union Health Minister Ghulam Nabi Azad on April 7, World Health Day, by organizations such as the All India Democratic Women's Association (AIDWA), the Committee against Violence on Women, the Jan Swasthya Abhiyan, and the Saheli Women's Resource Centre demanding, among other things, the complete suspension of all studies and trials with Gardasil and Cervarix.

The organization questioned the veracity of PATH's claim that the Vaccine has no side effects other than irritation at the injection site and fever and that it has been safely administered to millions of girls in developed countries. They pointed out that the package insert said the Vaccine did cause epilepsy-like seizures. Post-marketing surveillance, they said, had observed an increase in the occurrence of blood clotting, autoimmune

diseases, and disorders of the respiratory and nervous systems. In some cases, death was reported, they said. They said that data from the United States showed that the adverse effects of the HPV vaccine were far more numerous than those of all other vaccines administered to children.

The organizations wondered why and how various agreements were made with Merck and PATH and why the Institute of Cytology and Preventive Oncology, the ICMRs own cancer research institute, was kept away from trials. They alleged that the licensing of Gardasil and Cervarix was done based on preliminary bridging studies. While Gardasil has been approved for the age group of 10-27 years, it has been tried only on a tiny sample of girls in the 10-14 age group. Cervarix has been approved for the 10-45 age group but has been tested only in women aged 18-35.

A report by local health organizations in Khammam district noted that 14,000 girls in the 10-14 age group had been vaccinated with three doses of Gardasil. These girls had early menarche, heavy bleeding, and severe cramps following the vaccination. The demonstration project had no follow-up system in place to deal with the after-effects of the immunization, the Report said. It found that in many schools, only verbal consent was taken from the hostel warden/ teacher-in-charge to vaccinate girls residing in the hostels, and the parents had not been informed about it.

T.K. Rajalakshmi

PATH and Bill Gates,

The India HPV vaccine suspension,

In Response to demand from advocacy groups, the Indian Government has Suspended demonstration projects for PATH HPV Vaccination in Andhra Pradesh and Gujarat. Prior to this vaccination program, in 2002, the Bill and Melinda Gates Foundation, founded and owned by Bill Gates, funded the **twelve million six hundred forty-two thousand eight hundred and forty-eight dollars** to PATH (Program for Appropriate Technology in Health).

April 2010, Memorandum from 68 Indian Human Rights Organizations and Women's Groups, Academics, and Individuals Sent to the Indian Minister of Health and Family Welfare. A Similar Memo had been sent six months earlier. The April Memo called for the Immediate halt of the demonstration projects by PATH. It also demanded an inquiry into compensation for the reported side effects and alleged vaccine-related deaths of four girls who participated in the study.

October 1, 2009, demanded that "all trials and studies be immediately brought to a halt till in an open forum questions relating to safety, efficacy, and cost-effectiveness of the planned intervention can be justified."

On December 28, 2009, the groups continued their unanswered pleas and convened a public meeting that generated more attention than the October memorandum. By February, GlaxoSmithKline, Merck, and PATH had issued responses on the safety of the Vaccine and on the process of the study.

Globalization takes many forms; one is the rapid sharing of multiple types of Information and evidence. The advocacy groups that pressured the Indian Government to halt and re-evaluate the HPV Vaccine activities drew their Information from many sources. They made fact-finding visits to study sites, combined with Information from a US-based anti-HPV vaccination group, and researched various public documents.

The study was investigated and confirmed as Unrelated to the Vaccine.

Referred and Information Accessed on 10 / 08 / 2022 by me from The Lancet about Paper, India HPV-vaccine suspension, Report by THE LANCET, Published: August 21, 2010, https://www.thelancet.com/journals/lancet/article/PIIS0140-6736(10)60881-1/fulltext

But the Big Politics and Money was Played in Hidden.

Committee Appointed by the Government of India to Enquire into the Alleged Irregularities in conducting studies using HPV Vaccinations.

After the Issues came big on **April 15, 2010,** a Committee appointed by the Government of India, **Vide Notification No. V.25011/160/2010-HR dated April 15, 2010,** to Enquire into "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine" by PATH [Program for Appropriate Technology in Health] in India, which the Bill Gates funded Owned Bill and Melinda Gates Foundation, and Final Report was released on February 15, 2011.

PREFACE

I, the Chairman of the Department-related Parliamentary Standing Committee on Health and Family Welfare, having been authorized by the Committee to present the Report on its behalf, do hereby present this Seventy Second Report of the Committee on the "Alleged Irregularities in the Conduct of Studies Using Human Papilloma Virus (HPV) Vaccine" by Programme for Appropriate Technology in Health (PATH) in India.

2. The Committee first took up the issue about the trial of HPV vaccine on the children in Khammam district of Andhra Pradesh and Vadodra district of Gujarat and reported deaths of the children therefrom in its meeting held on 06th April, 2010 during the course of examination of Demands for Grants (2010-11) of Department of Health Research and sought exact status in this regard from the Secretary, Department of Health Research. Subsequently, taking serious view of the procedural and ethical lapses on the part of the Ministry, the Committee sought the matter of allowing trial of the vaccine as also the approval for its marketing in the country to be enquired into. The Committee also desired the Ministry to take further appropriate action in the matter and apprise it of the follow-up action taken in this regard at the earliest. As a sequel to the Committee's recommendation, a Committee was appointed by the Government of India to enquire into"Alleged Irregularities in the Conduct of Studies Using Human Papilloma Virus (HPV) Vaccine" by Programme for Appropriate Technology in Health (PATH) in India on 15th April,2010. The Final Report of the Committee appointed by the Government of India to enquire into"Alleged Irregularities in the Conduct of Studies Using Human Papilloma Virus (HPV) Vaccine" by Programme for Appropriate Technology in Health(PATH) in India was made on 15th February,2011.

3. The Committee thereafter deliberated on the subject in its meetings held on 25th July, 2011 and 24th May, 2013.

4. During the course of examination of the subject, the Committee heard the views of the Secretary, Department of Health Research and other officials of the Department on 25th July, 2011 and Secretary, Department of Health Research and Drug Controller General of India (DCGI) on 24th May, 2013.

5. During the finalization of its Report, the Committee relied upon the following documents/ papers:–

(i) Background note received from the Ministry;

(ii) Final Report of the Committee Appointed by the Government of India to enquire into "Alleged Irregularities in the Conduct of Studies Using Human Papilloma Virus (HPV) Vaccine" by Programme for Appropriate Technology in Health (PATH) in India;

(iii) Oral Evidences tendered by Secretary, Department of Health Research and DCGI; and

(iv) Replies to the questionnaires received from the Department of Health Research.

6. The Committee considered the Draft Report and adopted the same in its meeting held on 29th August, 2013.

7. For facility of reference and convenience, observations and recommendations of the Committee have been printed in bold letters in the body of the Report.

BRAJESH PATHAK,
Chairman,
Department-related Parliamentary Standing
Committee on Health and Family Welfare

REPORT

I. BACKGROUND

1.1 During March, 2010 the entire world was shocked by the media reports about the deaths of some female children and adolescents in Khammam district of Andhra Pradesh after being administered Human Papilloma Virus (HPV) vaccines. The vaccination trials were carried out by an American agency *viz.* Programme for Appropriate Technology in Health (PATH). The project was reportedly funded by Bill and Melinda Gates Foundation, an American charity.

1.2 Several questions were asked and concerns expressed in the media and well meaning quarters on the role of government agencies including Indian Council of Medical Research (ICMR) and Drugs Controller General of India (DCGI) in approving and facilitating the trials, which was against all laws of the land and even international ethical norms and rules; misuse of government funds, man-power, facilities and infrastructure for a private project of dubious nature; use of logo of National Rural Health Mission (NRHM), an official programme of the Union Government during these vaccination drives to give it respectability and official endorsement; and above all the blatant violation by PATH of all regulatory and ethical norms laid down by the Government of India for the purpose as also possible violations of such norms prescribed and very scrupulously enforced in the Country of its origin *viz.* United States of America.

1.3 Taking cognizance of these reports, the Committee (2009-10) which was examining the Demand for Grants (2010-11) of the Department of Health Research at that point of time sought a detailed clarification from the Government in the matter. In response the Secretary of the Department of Health Research and DG, ICMR informed the Committee that it was a vaccine against the Human Papilloma Virus which causes cervical cancer in women. The Drugs Controller General, India had given approval for marketing of HPV vaccines in India as a vaccine to be prescribed by the clinicians as per schedule 'Y' of the Drugs and Cosmetics Rules and then for a post-marketing surveillance trial. The Committee was informed that the proposal for trial came two years earlier (though later on during the Committee's examination it was proved that it began in 2006) before the ICMR through PATH, an American agency, and the logic for allowing the trial was to see acceptability of this vaccine on Indian population. Besides, these trials were approved by the National Ethical Committee and the State Ethical Committee.

1.4 Attention of the Secretary was drawn to DCGI guidelines wherein Phase III trials cannot be conducted on children until a similar trial was conducted on adults. It was admitted by the Secretary that the DCGI guidelines were not adhered to in the present case but this vaccine is given before the sexual activity begins and then it protects against cancer. That was the reason for allowing trials on girls of the age of 10-14 years. The Committee was assured that State Governments of Andhra Pradesh and Gujarat would be asked to get the ongoing clinical trial stopped immediately.

1.5 Hugely perturbed by these blatant violations, the Committee in its Forty first Report on Demands for Grants (2010-11) of the Department of Health Research made the following recommendations on this issue:

> "Taking serious view of procedural and ethical lapses on the part of the Ministry, the Committee sought the matter of allowing trial of the vaccine as also the approval for its marketing in the country to be enquired into by a premier investigating agency and to take further appropriate follow-up action in the matter. It also asked that findings of the investigating agency and the follow-up action taken in this regard may be furnished to the

Committee at the earliest. The Committee, taking a serious view in the matter, recommends to the Department of Health Research that in future all guidelines and norms should be adhered to before allowing trials of any drug including vaccines on Indian population. The Committee also recommends that the DCGI should observe optimum precautions and follow all norms and guidelines while allowing marketing of any drug including the vaccines in the Indian market".

1.6 The Department of Health Research in its Action Taken Note on the above recommendations submitted the following:

> "PATH in partnership with State Governments of Gujarat and Andhra Pradesh was implementing an operational research study related to cancer of cervix prevention in India. ICMR is providing technical support and consultation for development of protocol and plan of monitoring.
>
> The study utilized both the brands of HPV vaccines available in the market (Gardasil by Merck in Andhra Pradesh; and Cervarix by GSK in Gujarat). In view of certain complaints received, the State Governments have been advised not to carry out further vaccination till further orders. To ascertain the facts of the matter, Minister for Health and Family Welfare appointed a Committee comprising of Dr. S.S. Agarwal, former Director, Advanced Centre for Training, Research, Education on Cancer, Dr. S.P. Aggarwal, former DGHS and Dr. Sunita Mittal, HoD, Obstetrics and Gynaecology, AIIMS to investigate ethical issues raised in the matter."

1.7 Not being satisfied with the action taken by the Government on its Recommendations, the Committee in its Forty eighth Report further recommended the following:

> "The Committee observes that as a result of its intervention, the State Governments have been advised by the Department not to carry out HPV vaccinations and a Committee has been appointed to investigate ethical issues raised in the matter. The Committee is not aware about the date of setting up of the Committee. However, the absence of any specific time-line for submission of Report of the Committee in the Action Taken Note given by the Department makes the Committee somewhat apprehensive. Like so many Committees set up by the Government, findings of this Committee, as and when received, may remain on paper only. The Committee, therefore, recommends that every effort should be made to expedite the Report of this Committee so that real facts about the HPV Vaccine trial are made known without any further delay and corrective measures not only in respect of this case but for all such ongoing/proposed clinical trials of drugs/vaccines are taken. The Committee also recommends that the Department should at least now work in close coordination with other concerned departments/organizations to undertake a comprehensive analysis of the process of granting permission to research studies having hazardous effects on health and put in place a fool-proof system for pre-empting unethical research studies."

1.8 Considering the enormity of the wrong doing/criminality involved, and the dilly-dallying attitude of the Government in taking exemplary corrective action, the Committee took it up for detailed examination. The succeeding paragraphs contain the details of the matter, Committee's findings and recommendations.

1.9 Cancer of the cervix (mouth of uterus) popularly called Cervical Cancer has been there ever since the dawn of human race. Over the years, preventive and treatment protocols have been developed by medical experts.

1.10 The Committee was given to understand that on June 1, 2006 the American drug regulator, the U. S. Food and Drug Administration (USFDA) approved the first vaccine to prevent HPV virus

that is claimed to cause 70% of cervical cancers, under the brand name of Gardasil by a US drug company namely, Merck.

1.11 In the very same month, an American organization called Program for Appropriate Technology in Health (PATH) embarked upon a large scale, 5-year long (June 2006 to May 2011) project with "the main objective …..to generate and disseminate evidence for informed public sector introduction of HPV vaccines" in four countries, India, Uganda, Peru and Vietnam. Interestingly these four countries have different ethnic populations: India (Indo-Aryans, Dravidians, Tribals etc.), Uganda (Negroid), Peru (Hispanics) and Vietnam (Mongoloids). The Committee has been given to understand that ethnicity is relevant in the determination of safety and efficacy of some drugs. What would be of further interest, as per World Health Organization (WHO) is that all these countries have state-funded national vaccine immunization programs, which if expanded to include Gardasil, would mean tremendous financial benefit to the then sole manufacturer.

1.12 With this background a clinical trial under the title 'Post-licensure observational study of Human Papilloma Virus Vaccination – Demonstration Project' was undertaken by Programme for Appropriate Technology in Health (PATH), an agency of American origin. The Indian Council of Medical Research (ICMR), which is the highest body in the Country for medical research and related matters lent its platform to PATH in an improper and unlawful manner. The State Governments of Andhra Pradesh and Gujarat swayed by the involvement of ICMR followed suit.

II. NATURE OF PROJECT

2.1 Given the controversy surrounding the project, the Committee was keen to know from the Government the exact nature of the project. The Committee noticed that there was fundamental difference between the perceptions of Drugs Controller General of India (DCGI) and Department of Health Research (DHR)/Indian Council of Medical Research (ICMR) on the actual nature of the project. The DCGI was of the opinion that since human subjects, as part of the research, were receiving invasive intervention like vaccines, the clinical trial rules must be enforced. Experts also upheld these views and were very clear about it. However, PATH described the project as an "observational study" since "it did not conform to the definition of clinical trial".

2.2 The Committee found from the information furnished to it that ICMR representative on the Project Advisory Committee not only opposed DCGI but also argued that the nature of the project does not require them to follow the clinical trial rules, including reporting of serious adverse effects within a specific time-frame.

2.3 The Committee in this regard took note of the expert opinion given in the Inquiry Committee report which questioned the PATH description of the project and observed that since "the demonstration project is a study of a pharmaceutical product carried out on humans and since the primary objectives include the study of serious adverse effects, it is clear that clinical trial rules and guidelines should apply".

2.4 In fact, the Inquiry Committee in one of its findings very pointedly stated that the investigators had variously labeled the research project carried out by them as "Observational Study/Demonstrational Study," etc. to establish that the study was not a clinical trial. But, since the project had been carried as research on human participants, it had to follow all the guidelines and statutory requirements applicable for research on human participants.

2.5 **The Committee finds the entire matter very intriguing and fishy. The choice of countries and population groups; the monopolistic nature, at that point of time, of the product being pushed; the unlimited market potential and opportunities in the universal immunization progammes of the respective countries are all pointers to a well planned scheme to commercially exploit a situation. Had PATH been successful in getting the HPV**

vaccine included in the universal immunization programme of the concerned countries, this would have generated windfall profit for the manufacturer(s) by way of automatic sale, year after year, without any promotional or marketing expenses. It is well known that once introduced into the immunization programme it becomes politically impossible to stop any vaccination. To achieve this end effortlessly without going through the arduous and strictly regulated route of clinical trials, PATH resorted to an element of subterfuge by calling the clinical trials as "Observational Studies" or "Demonstration Project" and various such expressions. Thus, the interest, safety and well being of subjects were completely jeopardized by PATH by using self-determined and self-servicing nomenclature which is not only highly deplorable but a serious breach of law of the land. The Committee is not aware about the strategy followed by PATH in the remaining three countries *viz.* Uganda, Vietnam and Peru. The Government should take up the matter with the Governments of these countries through diplomatic channels to know the truth of the matter and take appropriate necessary action, accordingly. The Committee would also like to be apprised of the responses of these countries in the matter.

III. ROLE OF DEPARTMENT OF HEALTH RESEARCH/INDIAN COUNCIL OF MEDICAL RESEARCH

3.1 One of the functions mandated to the Department of Health Research/ICMR is promotion and coordination of basic, applied, clinical and operational research in medical, health and bio-medical field through development of infrastructure, manpower and skills. Uniform Ethical Guidelines for bio-medical Research on human subjects are incorporated in Good Clinical Practice (GCP) and ICMR documents. These guidelines outline the procedure for Ethics Committees review of clinical trials in India using the human beings as participants. All institutions and investigators in the country which carry out any form of biomedical research involving human beings are obliged to follow these guidelines in letter and spirit to protect participants.

3.2 As per the records made available to the Committee, the first documented contact made by PATH with ICMR took place, as early as, on 5th October 2006. An employee of PATH India sent an e-mail to Deputy Director of National AIDS Research Institute, ICMR expressing sorrow that she could not travel to Seattle, United States for "Formative Research Workshop" (on HPV vaccine) scheduled for October 24-26, 2006. Apparently, PATH functionaries were in touch with ICMR officials on an informal basis in the past.

3.3 Within a few days, a meeting took place between PATH and ICMR officials on 13 October, 2006 at PATH office in New Delhi where it was stated that "HPV vaccine, when available (in India), can prevent HPV and cervical cancer." The possibility of Global Alliance for Vaccines and Immunizations (GAVI) subsidizing the cost of vaccine for the first 2 - 4 years was also mentioned. Evidence (on role, utility of vaccine) made available to Government of India and States would "help to decide on public sector (State funded) introduction of the vaccine."

3.4 On 16 November, 2006, a draft Memorandum of Understanding (MoU) between PATH and ICMR was circulated by PATH which stated that "Parties (PATH and ICMR) desiring to explore collaboration to support public sector decision regarding HPV vaccine introduction in India and to generate necessary evidence to allow the possible introduction of HPV vaccine into India's Universal Immunization Programme."

3.5 Thus as early as October-November 2006, it was clear that the main objective of PATH project was to generate evidence that would facilitate the introduction of HPV vaccine Gardasil into government-funded immunization program in India. This appears to be a promotional activity for the benefit of manufacturing company because at that time only one HPV vaccine, Gardasil had been approved abroad, though not in India. Indeed "the key object of the project activities in India

is to gather information and help the government make a decision about the introduction of HPV vaccine". The Country Director of PATH in India emphasized that "this needs to be our consistent message throughout the project." In the formal proposal submitted by PATH to the ICMR on Project Proposals involving Foreign Collaboration/Assistance, the applicant clearly stated under Para 9. Objectives of the Project: "…….Introduction of HPV vaccines into Universal Immunization Program." The Committee found repeated mention of similar objectives at several places in various documents submitted by the Ministry. The Memorandum of Understanding (MoU) was signed by PATH and ICMR on 20 February, 2007. At that time only Gardasil was marketed in some countries in the world though not approved for use in India. The MoU stated that the purpose of the project was:

(i) Increasing understanding of HPV vaccine (*i.e.* Gardasil) introduction.

(ii) To help in decision-making related to the use of HPV (*i.e.* Gardasil) vaccine in the public and private sector.

3.6 The Committee enquired from the Secretary of Department of Health Research (DHR) and DG, ICMR, as to whether the Department or CDSCO, before approving the project had really reviewed its actual design. The Committee highlighted the observations of the experts of the Inquiry Committee who have opined that the design of the project itself was faulty. For instance, in the documents there was no column whatsoever for Serious Adverse Events (SAE) and no diary was to be maintained as part of the protocol.

3.7 Moreover, much before the trials started, many expected side effects including anaphylaxis (severe allergic reaction), syncope, convulsions, asthma, central demyelinating diseases, acute disseminated encephalomyelitis, Idiopathic Thrombopenia Purpura, etc. were known. And astonishingly, as the records stated, while ICMR functionary was worried of bad publicity in case of side effects, PATH did not provide for urgent expert medical attention in case of serious adverse events whether known or unexpected.

3.8 After going through the final report and interactions with the Secretaries of the Department of Health and Family Welfare and the Department of Health Research/ICMR and DCGI, the Committee felt that it needs clarification as to under what category, permission was given to PATH to conduct such study on the Indian people and whether the programme was a clinical trial or promotional activity. The Committee took note of the fact that the Enquiry Committee meeting held on September 27, 2010, noted as under **(Annexure-A):**

> "....Besides the factual information about the terms of reference the Committee was greatly concerned with the aspect of commercial interests of manufacturers influencing the Government policy on this expensive vaccine. The committee observed that the study was initiated by PATH on its own …….. without any reference from the National Technical Advisory Group on Immunization (NTAGI), the official body of the GOI on vaccines.....It is not clear whether the State expenses were funded by PATH or came from their own resources. The monetary contributions of ICMR are also not clear. The Committee therefore felt that it would be in the fitness of the inquiry to document the sources and magnitude of funding of the study".

3.9 In this connection, the Committee also noted that one of the roles assigned to ICMR in the MOU signed by the Director General of the ICMR was "advising on plans for results dissemination to support decision making for use of the HPV vaccine".

3.10 **The Committee is unable to understand as to how ICMR could commit itself to support "the use of the HPV vaccine" in an MOU signed in the year 2007 even before the vaccine was approved for use in the country, which actually happened in 2008. The**

Committee also questions the decision of ICMR to commit itself to promote the drug for inclusion in the Universal Immunization Programme (UIP) even before any independent study about its utility and rationale of inclusion in UIP was undertaken.

3.11 The Committee noted that there were many gaps and missing links in the whole episode and enquired as to when ICMR came into contact with PATH. First a vaccine should get the approval from the Government and then only it can be used in UIP. Secretary, Department of Health Research/DG, ICMR while responding to the queries, informed that the first discussion with the PATH was held in 2006 followed by signing of agreement in the year 2007. At that time HPV vaccine had not been approved in India and no study was conducted on it. This was all a preparatory exercise.

3.12 The Committee was informed that the trial was on the two vaccines approved by DCGI. It was also stated that these vaccines had been tested abroad and on a limited number of people in India as per rules following which DCGI had given the approval for their marketing in the country, and then a post-marketing surveillance trial.

3.13 The Committee in this connection took note of the fact that before any drug is tested especially on a large population of 25,000-32,000 children between the age of 10 to 14, then according to the CDSCO guidelines, no such trial can be conducted on children until a similar, prior trial is conducted on adults to determine efficacy and safety.

3.14 The Secretary, Department of Health Research/DG, ICMR while deposing before the Committee in its meeting held on 25th July, 2011, stated that the terms of reference of the Enquiry Committee was to find out any relation between the deaths with the administration of vaccine and any incidents of irregularities in the implementation of the study. He stated that the Enquiry Committee concluded that the deaths reported during trial had no uniform pattern to link them to the administration of vaccines.

3.15 The Committee noted that all the seven deaths were summarily dismissed as unrelated to vaccinations without in-depth investigations. According to Inquiry Committee report, the speculative causes were suicides, accidental drowning in well (why not suicide?), maleria, viral infections, sub-arachnoid haemorrhage (without autopsy) etc. The Committee has been given to understand that suicidal ideation is caused by many drugs. Since then one more death due to suicide in case of Gardasil has been reported in addition to 5 deaths reported during 2009-10. Therefore, HPV vaccine as a possible, if not probable, cause of suicidal ideation cannot be ruled out.

3.16 The Secretary of DHR/DG, ICMR acknowledged that certain irregularities were reported in the implementation of the project. With regard to Informed Consent, he said that though the consent was taken properly in Gujarat, there were gross violations of norms in Andhra Pradesh. He informed the Committee that DCGI, had sought explanation for the incidents of irregularities.

3.17 The Committee took note of Secretary's comments but sought to know as to how ethical it was on the part of ICMR to become a party to a project in the name of Public-Private Partnership (PPP mode). How ICMR, which is mandated to formulate ethical guidelines for researchers, can become a direct party in such a study. The Secretary, Department of Health Research admitted that presence of ICMR in the Project's Advisory Committee-responsible and accountable for various acts of omissions and commissions-clearly indicates Conflict of Interest. Therefore, ICMR owes full moral responsibility for numerous irregularities reportedly committed in the study.

3.18 **The Committee feels that there was serious dereliction of duty by many of the Institutions and individuals involved. The Committee observes that ICMR representatives, instead of ensuring highest levels of ethical standards in research studies, apparently acted at the behest of the PATH in promoting the interests of manufacturers of the HPV Vaccine.**

3.19 **It was unwise on the part of ICMR to go in the PPP mode with PATH, as such an involvement gives rise to grave Conflict of Interest. The Committee takes a serious view of the role of ICMR in the entire episode and is constrained to observe that ICMR should have been more responsible in the matter. The Committee strongly recommends that the Ministry may review the activities of ICMR functionaries involved in PATH project.**

3.20 Secretary of Department of Health Research and DG, ICMR in their defense also claimed that the ICMR had fulfilled the written role entrusted to it but the irregularities that took place during the implementation of the study clearly indicate that there were certain micro (ground) level issues requiring more attention. For instance, it was noticed that States were not even capable of monitoring the adverse effects. He stated that this all was a learning exercise.

3.21 It maybe pertinent to mention here that the safety, efficacy and introduction of vaccines in India is handled by National Technical Advisory Group on Immunization (NTAGI). Thus, at the very outset, ICMR should have either referred PATH to NTAGI or at least taken NTAGI on board.

3.22 **The Committee from its examination has found that DHR/ICMR have completely failed to perform their mandated role and responsibility as the apex body for medical research in the Country. Rather, in their over-enthusiasm to act as a willing facilitator to the machinations of PATH they have even transgressed into the domain of other bodies/ agencies which deserves the strongest condemnation and strictest action against them. The Committee fails to understand as to why ICMR took so much interest and initiative in this project when the safety, efficacy and introduction of vaccines in India is handled by National Technical Advisory Group on Immunization (NTAGI). The submissions of the Secretary, DHR/DG, ICMR before the Committee about the commencement of the project, facts of the case and the action taken have also failed to stand scrutiny during the Committee's examination of the matter. The Committee, therefore, reiterates the recommendation made in their Forty-first Report that the matter of allowing trial of the vaccine as also the approval for its marketing in the Country be inquired into by a premier investigating agency and appropriate action be taken thereafter by the Government in the matter. The Committee expects the Government not to procrastinate in this matter any further.**

IV. ROLE OF DRUG CONTROLLER GENERAL, INDIA (DCGI)

4.1 The Committee noted that as per Rule122-DA and Schedule Y of the Drugs and Cosmetics Rules, 1945 made under the Drugs and Cosmetics Act, 1940, no clinical trial on a drug can be conducted except under, and in accordance with the permission in writing, of the Licensing Authority *i.e.* DCGI. All vaccines are deemed to be drugs. Clinical trials of pharmaceutical products are conducted on human subjects in the country to determine or verify safety and/or efficacy. Every permission for conducting clinical trials also, *inter alia*, includes a condition that in event of trial related injury or death, the sponsor will provide complete medical care as well as compensation. Statement to this effect needs to be incorporated in the Informed Consent Form. The details of compensation provided are to be intimated to the office of DCGI.

4.2 The Committee noted from the evidence available that the nature of the PATH project made it Post-marketing Phase IV Clinical Trial under Drugs and Cosmetic Rules. It was on this basis that DCGI approved the clinical trial on 22 April, 2009 and had earlier issued import licenses on 23 December, 2008 though it was incorrect on the part of DCGI to issue import licences on Form 11 under Rule 33 which states:

> *Import of drugs for examination, test or analysis:* Small quantities of drugs the import of which is otherwise prohibited under section 10 of the Act may be imported for the purpose of examination, test or analysis subject to the following conditions:

(a) No drug shall be imported for such purpose except under a licence in Form 11;

(b) the licensee shall use the substances imported under the license exclusively for purposes of examination, test or analysis and shall carry on such examination, test or analysis in the place specified in the license, or in such other places as the licensing authority may from time to time authorize.

4.3 Since both Gardasil and Cervarix had received marketing approval from CDSCO on 4 July, 2008 and 10 September, 2008 respectively, DCGI should have issued Import Licenses on Form 10 which is applicable to import of drugs already approved.

4.4 The so called Demonstration Project of PATH has the objectives as follows:

Primary Outcomes:

- Number and percentage of vaccinated girls.
- Number and percentage of vaccinated girls experiencing Serious Adverse Events (SAEs)
- Number and percentage of vaccinated girls experiencing non-Serious Adverse Events.
- Timeliness of reporting SAEs to local, state and national authorities.
- Timeliness of reporting Non-SAEs to local, state and national authorities.

4.5 Thus it is clear that PATH project had two well defined and specific objectives:

(a) The commercial objective of the project was to generate evidence, data and arguments to support inclusion of HPV vaccines into India's state-funded Universal Immunization Program (UIP), and

(b) The scientific purpose was to collect data on serious and non-serious adverse effects. Given that similar projects were launched in Peru, Uganda and Vietnam, the entire exercise would have collected side effect profiles of HPV vaccines in all the ethnic groups that reside in developing countries. Such data would be invaluable to promote the two branded, patented, single source HPV vaccines as safe all over the world.

4.6 **The Committee's examination has proved that DCGI has also played a very questionable role in the entire matter. Initially, it took a call that since human subjects, as part of the studies, were receiving invasive intervention like immunization, clinical trial rules must be enforced. However, it remained as a silent spectator thereafter, even when its own rules and regulations were being so flagrantly violated. The approvals of clinical trials, marketing approval and import licenses by DCGI appear to be irregular. Therefore, the role of DCGI in this entire matter should also be inquired into.**

V. MARKETING APPROVAL TO HPV VACCINES IN INDIA

5.1 Before approving any new drug (including new vaccines), under Drugs and Cosmetics Rules, it is mandatory to conduct Phase III clinical trials in India to determine any ethnic differences in the safety and efficacy profiles. As per records made available to the Committee the following clinical trials, albeit, under various names, were conducted:

Gardasil (Merck): Clinical trials were conducted on 108 subjects (girls in the age group of 9-15 years). Several violations took place in the trial: (a) trials should have been conducted in adults first before exposing children to known and unknown side effects, (b) in adolescents and

children the trials should have been conducted from "top to bottom" age groups *i.e.* first in adolescents (13-15 years) followed by children (9-12 years). This was not done. Vaccines were administered to children irrespective of age at the same time.

Cervarix (GSK): Clinical trials were conducted on 162 subjects (adults in the age group of 18-35 years). Yet permission was given to use the vaccine in children (10-14 years) in violation of rules.

VI. INQUIRY COMMITTEE

(a) Composition and Terms of Reference

6.1 The Committee was informed that because of the concerns raised at different fora, the study was suspended and an Enquiry Committee was constituted by the Govt. of India vide notification No. V.25011/160/2010-HR dated 15th April, 2010, to enquire into "Alleged irregularities" in the conduct of studies using Human Papilloma Virus (HPV) vaccines by PATH in India.

The inquiry committee consisted of the following:

(1) Dr. S.S. Agarwal, former Director, Advanced Centre for Training, Research, Education on Cancer,

(2) Dr. S.P. Aggarwal, former DGHS, and

(3) Dr. Sunita Mittal, HoD, Obstetrics and Gynaecology, AIIMS

6.2 The terms of reference of the Committee were to enquire into:

(i) Link between the deaths and vaccine, if any, and

(ii) Ethical Issues of subjecting children of marginalized populations to these studies, and investigations in children without appropriate Consent.

6.3 The Committee was assisted by the following experts:

(i) Dr. Rani Kumar, Dean, AIIMS

(ii) Dr. A. K. Dutta, Head of Pediatrics, Kalawati Saran Hospital

(iii) Dr. Y. K. Gupta, Head of Pharmacology, AIIMS

(b) Conflict of Interest

6.4 The Committee sought information from the Ministry of Health and Family Welfare (MoHFW) as to whether members of the Inquiry Committee were asked to file Conflict of Interest declarations. In response the Ministry replied: "No written Conflict of Interest declarations were sought from the core members of the Inquiry Committee as well as experts. It was understood that if there is any conflict, highly learned members will point it out."

6.5 In order to verify the Ministry's claim, the Committee picked just one member *i.e.*, Professor and HoD of the Department of Obstetrics and Gynaecology (O&G) of All India Institute of Medical Sciences (AIIMS). It was found that manufacturers of Gardasil, Merck was sponsoring and funding a trial in the Department of O&G at AIIMS to determine if 2 doses of Gardasil can be used safely and effectively instead of 3 doses. Documents received by the Committee in connection with the examination of AIIMS also revealed that the individual in question availed the hospitality of these very sponsors during the said individual's visit to Seoul to attend a conference.

The FCRA application form was, therefore, deliberately left incomplete to hide this truth. All these speaks of a serious conflict of interest of this member of the Inquiry Committee.

6.6 The Committee also found that the Ministry appointed a senior official of ICMR (described as Resource Person) to assist the Inquiry Committee. The concerned individual was the main link between ICMR and PATH, and had participated actively in all discussions, meetings and helped PATH to carry out the project proactively in every respect right from the beginning in October 2006. As such he had a clear Conflict of Interest and could not be relied upon to give correct information and unbiased opinion. Indeed he should have been summoned as a witness to answer questions and not as an official Resource Person attached to the Enquiry Committee.

(c) Adverse Events Reporting

6.7 The Committee examined the final Report of the Inquiry Committee constituted to enquire into the alleged irregularities in the conduct of studies using HPV vaccines by PATH in India. In its first meeting held on 21-4-2010, the Inquiry Committee sought details on the following core issues:

1. When did PATH approach ICMR for trial runs?
2. With whose permission was MOU signed?
3. Did President of ICMR approve?
4. Whether it had approval of the Screening Committee?
5. Approval of DCGI.
6. Details of reimbursements provided so far by PATH to ICMR
7. Names of beneficiaries.
8. Expenditure incurred by ICMR so far on all items including travel expenses.

6.8 However in its second meeting on 30 April, 2010, no discussion took place on the above crucial issues since the Inquiry Committee wished "to restrict itself to the terms of reference."

6.9 Inexplicably, however, as the records placed before the Committee proved, this decision did not prevent the Inquiry Committee from going into and recommending actions on other matters far beyond the terms of reference.

6.10 **The Committee notes that once this matter was taken up by it, the Government appointed an Inquiry Committee on 15 April, 2010 to inquire into 'alleged irregularities in the conduct of the studies using HPV vaccines by PATH in India'. The Committee has noted the serious conflict of interest of members of this Inquiry Committee with the subject matter. The Committee, therefore, strongly deprecates the Government for appointing a committee to inquire into such a serious matter in such a casual manner even without ascertaining as to whether any of the members of the said Inquiry Committee were having any conflict of interest with the subject matter of inquiry.**

6.11 **The Committee finds it very intriguing as to when the Inquiry Committee after having sought details of some core issues in the very first meeting of the Committee on 21 April, 2007 subsequently chose not to pursue them purportedly because 'it wanted to restrict itself to its terms of reference'. These core issues raised by the Inquiry Committee earlier, if pursued to their logical end, would not only have provided the Inquiry Committee a lot more clarity in unraveling the truth but also the Country would have known the exact details as to what transpired in this sordid incident.**

(d) Informed Consent

6.12 Obtaining Informed Consent from study subjects is a core requirement in the conduct of clinical trials and protection of human rights. In case of minors, the Consent has to be signed by parents/guardians. In the case of uneducated signatories, an independent person has to explain and witness the consent process. The Informed Consent document approved by various Ethics Committees on PATH project included the sentence: "I have read the information in this consent form (or it has been read to me). I consent to allow my daughter to receive three doses of HPV vaccines." In the case of Andhra Pradesh 9,543 forms were signed, 1,948 had thumb impressions while hostel warden had signed 2,763 forms. In the case of Gujarat 6,217 forms were signed, 3,944 had thumb impressions and 545 were either signed or carried thumb impression of guardians. The data shows that a very large number of parents/guardians were illiterate and could not even sign in their local language *i.e.* Telugu or Gujarati.

6.13 One of the experts, while going into the question of Informed consent in great detail, in two reports, has pointed out glaring discrepancies. Out of 100 consent forms for AP Project taken for study, it was found that signatures of witnesses were missing in 69 forms. In many forms there were no dates while in others the signature of just one person appeared in seven forms The legality of the Andhra Pradesh State Government circular directing all Headmasters/Wardens in all private/government/ashram schools to sign the consent forms on behalf of parents/guardians was also questionable.

6.14 The Inquiry Committee, while going through the above report, noticed the following irregularities and discrepancies in the study:

(i) The warden/teachers/headmasters were not given written permission by the parents/ guardians to sign on behalf of their girls.

(ii) On many forms witness had not signed and of the forms which are signed, it is not clear whether they are signed by full time government employees, as per rules.

(iii) Neither the photograph nor the photo ID card of parents/guardians/wardens is pasted in consent form.

(iv) On many forms investigator has not signed.

(v) On some forms signature of parents/guardians is not matching with their names.

(vi) The date of vaccination is much earlier than the date of signature of parents/guardian in the consent forms. Apparently they were obtained post-facto.

(vii) In some forms, the name is of the father but signature is of probably mother (lady's name).

6.15 Secretary, DHR and DG, ICMR while deposing before the Committee, reiterated that the regulatory approvals given to the project were in proper order and due attention was paid to the guidelines and formats for seeking consent. However, during the implementation of the project certain irregularities took place. He admitted there were cases of discrepancies in A.P. He admitted that many consent forms were filled up by the Principal on behalf of the students. He admitted to gross violation in the recording of SAEs also. He informed the Committee that keeping all these observations in view the DCGI, besides issuing immediate instructions to stop the study, had sought explanations for irregularities committed during the study.

6.16 **The Committee observes that obtaining informed consent from study subjects is a fundamental requirement in the conduct of clinical trials to ensure that the human rights of the study subjects are ensured. In case of minors it is mandatory that the consent be**

signed by parents/guardians. For the uneducated subjects, the law requires an independent person to explain and witness the consent process. The Committee is however, deeply shocked to find that in Andhra Pradesh out of the 9543 forms, 1948 forms have thumb impressions while hostel wardens have signed 2763 forms. In Gujarat, out of the 6217 forms 3944 have thumb impressions and 5454 either signed or carried thumb impressions of guardians. The data also revealed that a very large number of parents/guardians are illiterate and could not even write in their local languages viz. Telugu or Gujarati. The Committee is further shocked to find from one of the reports that out of 100 consent forms for Andhra Pradesh project signatures of witnesses were missing in 69 forms. In many forms there were no dates. One particular person had signed seven forms. In fact the legality of Andhra Pradesh State Government directing headmasters in all private/ Government/ashram/schools to sign the consent form on behalf of parents/guardians is highly questionable. The absence of photographs of parents/guardians/wardens on consent forms, the absence of signatures of investigators; the signatures of parents/guardians not matching with their names; the date of vaccination being much earlier than the date of signature of parents/guardian in the consent forms, etc. all speak of grave irregularities.

6.17 **The Committee, accordingly, concludes that most, if not all consent forms, were carelessly filled-up and were incomplete and inaccurate. The full explanation, role, usefulness and pros and cons of vaccination had not been properly communicated to the parents/guardians. The Committee observes that there is a gross violation of the consent and legal requirement of consent which had been substantiated by the experts. The Committee takes a serious view of the violations and strongly recommends that on the basis of the above facts, PATH should be made accountable and the Ministry should take appropriate action in the matter including taking legal action against it for breach of various laws of the land and possible violations of laws of the Country of its origin.**

6.18 The Committee was informed that the basic aim of the study was to evaluate strategies for introduction and delivery of the vaccines in the public sector. Strangely four of the five primary outcome measures proposed in the study related to evaluation and determination of safety of the vaccines.

6.19 One of the experts has stated that there was lack of rigour in the design regarding reporting and dealing with serious adverse events. He has pointed out absence of preparedness in the event of any such occurrence that would put children at grave risk. The side effects mentioned by the manufacturers themselves were revised several times and now include serious health issues. Since there were contra-indications to the use of the vaccines, the reasons for not ascertaining contra-indications before the girls were vaccinated is clearly an act of willful negligence.. The design of the project neither took the possibility of Serious Adverse Event (SAE) seriously nor was there any attention paid to the need for an independent monitoring agency. Consequently action on investigations into the causes of deaths took an unacceptably long time. A number of discrepancies and gaps in the investigations of the deaths have also been pointed out. There was no diary card based reporting of adverse events for recording minor or major adverse events in the study protocol in such a large study. This resulted in gross under reporting of the adverse events.

6.20 Another expert, while analyzing deaths and Adverse Events Following Immunizations (AEFI) has observed after reviewing all seven deaths (five deaths from AP in the Gardasil group and two deaths in Gujarat from Cervarix group), that there was no common pattern to the deaths that would suggest that these were caused by the vaccine. However, the reporting system as per Government of India surveillance of vaccine preventable disease guidelines notification was not done within time limit in two cases in AP and both the cases in Gujarat. There was no uniformity in the reporting system of AEFI in both the States. The primary end point of the study was to

find out the number of girls having serious and non serious adverse events following vaccination through routine UIP system. He has opined that in this regard first of all routine system of reporting should have been verified in both States.

6.21 Another expert has stated that the reporting of non-serious AEs was grossly under reported and hence the accuracy of SAEs is doubtful as well. It has been observed that delay in reporting and investigations of deaths could have been due to sole dependence on routine UIP protocol. It was a significant lapse in the protocol and execution of the study. While reporting on safety aspects in the study, it has been pointed out that there was absence of preparedness to handle Serious Adverse Events (SAE) like anaphylaxis, cardiac arrest, seizures, etc. occurring at the sites of vaccine administration. Though such serious adverse events might be rare but it was advisable to be well prepared for such an eventuality through adequate training of health workers. Assessment of the immune status of the participants by the ANM, ASHA or the health workers was virtually non-existent. These issues needed to be addressed as prescribing information of the HPV vaccines specifically contra-indicates administration in immune-compromised subjects (such as HIV/AIDS etc.).

6.22 **The Committee, in the light of the observations made by experts, feels that the methodology and implementation of the study at both the places was full of flaws. The Committee is of the view that since the population under study was vulnerable, utmost caution should have been exercised in the implementation of the study. The Committee also recommends that there should be an independent monitoring mechanism in such a study involving human participants so that the accurate recording of AEs and SAEs could be made. The findings of the experts clearly indicate that the safety and rights of the children in this vaccination project were highly compromised and violated. The Committee is also concerned over the fact that there was no insurance cover for the children. The Committee strongly recommends that while allowing any such trial in future, all the lapses pointed out by the experts should be addressed effectively. ICMR and DCGI should ensure strict adherence to the guidelines, methodology and monitoring.**

(e) Role of Ethics Committees

6.23 While examining the role of the Ethics Committees in both the States, one of the experts pointed out that Ethics Committees were supposed to meet periodically to evaluate and monitor the progress of the project and review SAE reports. No such meetings were held by the Committees. Only after reports of deaths appeared in the media, the meetings of these Committees were held.

6.24 **The Committee takes a serious note of the fact that both the Ethics Committees existed only as a formality and they did not play the role they were designated for. This is a clear dereliction of duty on the part of the Ethics Committees. The Committee apart from recommending suitable action in the matter, strongly recommends that there should be a mechanism in place to take appropriate action against such dereliction of duty on the part of the Ethics Committees. There should be specific guidelines for Ethics Committees and the Ethics Committees should strictly follow them. The functioning of Ethics Committees should be regularly monitored.**

(f) Use of Official Machinery

6.25 The Committee has noted that the information/publicity material displayed/distributed at trial sites implied that the Government had started a vaccination programme. Thus, the credibility of the Universal Immunization Programme (UIP) was used to promote private, foreign interests. It has

been found that the funds meant for the NRHM were used, without authorization for monitoring and transportation of the vaccines to the fields for use in the project.

6.26 **The Committee observes that the wrongful use of the NRHM logo for a project implemented by a private, foreign agency as well as the identification of this project with the UIP has adversely affected and damaged the credibility of the programme as well as that of the NRHM. The Committee, therefore, recommends that such practices of diverting public funds for advancing interests of a private agency should never be allowed in future. The Committee strongly recommends that strict action should be taken against those officials responsible for such lapses.**

6.27 Besides, the Committee notes that no information had been provided to Indian authorities about funding of the project except that it was reportedly funded by Bill and Melinda Gates Foundation and that the vaccines had been donated by the manufacturers. The information regarding financial investments of ICMR and State Governments in the project was not provided, though the States clearly provided cold chain and manpower for immunization. **The Committee, accordingly, observes that it might have been more prudent if the National Technical Advisory group on Immunization (NTAGI) had been brought into the picture right in the beginning to review and give its views on the study prior to its approval and implementation.**

6.28 No information is available on the total outlay on the project spent by PATH, ICMR, state governments of Andhra Pradesh and Gujarat (immunization staff, cold chain system, equipment, transportation etc.). According to the documents submitted by PATH to ICMR/Health Ministry Screening Committee, the total outlay by PATH for expenses in India was Rs. 29,76,000. However Centre for Operations Research and Training (CORT), a sub-contractor of PATH had quoted US$ 83,889 (first year) and US$ 96,472 (second year), which is not included in the figure submitted to ICMR/HMSC.

6.29 **Considering the above lapses and irregularities committed by PATH during the course of conducting the trials on hapless tribal children in Andhra Pradesh and Gujarat, the Committee is convinced that the authorities concerned did not exercise due diligence in scrutinizing the publicity material of PATH. Blurring the distinction between the UIP and PATH project due to the involvement of the State Governments in the project and ignoring the financial contribution of ICMR and the State Governments are very serious issues. The Committee, therefore, recommends that the Ministry should investigate into the above acts of omissions and commissions and take necessary action against those who are found responsible for breach of rules and regulations.**

(g) Action taken on the Inquiry Committee Report

6.30 With a view to find out the action taken by the Government on the findings of the Inquiry Committee, the Committee again heard the Secretary, Department of Health Research/DG, ICMR along with DCGI at its meeting held on 24th May, 2013. The Secretary informed the Committee that after the submission of Report by the Inquiry Committee, they were formally called to give explanation in the year 2011. In addition, clarifications were also sought from them in between which were formally answered to. The Committee in the said meeting desired to know whether criminal inquiry, if any, has been initiated against PATH on account of the following irregularities in the conduct of trial as pointed out by the Inquiry Committee:

(i) Irregularities in obtaining consent forms and actual implementation of the consent process;

(ii) Lack of monitoring and preparedness to deal with serious adverse events;

(iii) Inclusion of vulnerable and tribal population groups;

(iv) Blurring of distinction between Universal Immunization Programme and PATH study;

(v) Absence of insurance coverage for the study participants; and

(vi) Inclusion of the statement in the consent form that "you will not be charged for your daughter to receive the vaccine" that could be construed as covert inducement.

6.31 The Committee also sought to know as to whether any compensation was awarded to the families of children for suppression of material information before administering vaccines.

6.32 The Committee also took note of the Action Taken Note submitted by Department of Health Research wherein it was informed that subsequent to findings of the Inquiry Committee following action was taken:

(i) PATH was informed about suggestions made by the Committee;

(ii) Principal Investigators of other suspended studies on HPV vaccines were informed to get their studies re-examined from respective Ethics Committees after addressing the concerns raised by the Inquiry Committee;

(iii) DCG(I) was informed of the suggestions of the Committee for necessary action; and

(iv) Suggestions were forwarded to the relevant authority for inclusion in the Draft bill on Biomedical Research on Human Subjects.

6.33 DCG(I) informed the Committee that subsequent to findings of the Inquiry Committee; the following action was taken:

(i) Both the manufacturers of HPV vaccines have been asked to submit additional data for 4 years on PSURs (Periodic Safety Update Reports), every 6 months for first 2 years, and annually during the subsequent 2 years, and to submit protocol for approval for conducting post marketing surveillance study;

(ii) Proposal to amend the definition of "New Drug" under rule 122-E would be taken up for consideration; and,

(iii) In future the following steps would be ensured before approving a clinical trial by DCG(I): (a) every clinical trial is to be registered at ICMR's clinical trial registry of India; (b) every approval would include a condition for provision of complete medical care in case of study related injury/death and the statement to this effect is to be included in the informed consent: (c) DCG(I) should be informed about death/injury: (d) Schedule 'Y' would be amended to expand the responsibilities of sponsors, investigators and Ethics Committees; and (e) the consent forms are to be amended to include details of address and occupations of subject giving socio-economic background.

6.34 **The Committee is amazed at the audacity of DCGI to merely repeat various steps which it proposes to take as if they are new, additional measures. All these are already part of the written rules and are supposed to be followed by all sponsors. Except for slight amendment in the Informed Consent Form, there is nothing new in the ATN submitted by DCGI.**

6.35 The Committee observes that the Department has nothing fresh to offer in the status note as the same information was furnished by it in December, 2012 *vide* its updated note on Action Taken after availability of Report of enquiry Committee.

6.36 **The Committee not being convinced with the action taken by the Department or DCGI, feels that the whole issue has been diluted and no accountability has been fixed on the erring Officials/Departments for the gross violations committed in the conduct of Study. The Committee also feels that a very casual approach has been taken by the Department in the matter and their replies lack any concrete action to protect and safeguard the health of our people.**

6.37 **The Committee also noticed lack of firm action on the part of DCGI, to avoid such irregularities in future. One of the actions proposed by the DCGI to check any recurrence of such gross violations was 'proposal to amend the definition of New Drug during the next meeting'. The same assurance was given by DCGI in December, 2012. The Committee, accordingly, observes that response of the Department and DCGI is very casual, bureaucratic and lacks any sense of urgency. The Committee feels that DCGI is not very serious in bringing improvements in the system. It, therefore, desires the Ministry to ensure compliance by DCGI.**

VII. PROGRAMME FOR APPROPRIATE TECHNOLOGY IN HEALTH (PATH)

7.1 The Committee during the course of its present examination sought information from the Government about PATH in order have a better understanding of its legal status and its *locus standi* in carrying out various activities on the Indian soil including the project in question where apparently several laws of India and possibly of its country of origin had been violated.

7.2 The information furnished to the Committee reveals that PATH describes itself as an "International nonprofit, non-government organization based in the United States." Legally, it is a Public Benefit Corporation (PBC) registered (No. 600588751 dated 28th August, 1981) by the Corporation and Charities Division in the State of Washington. For all practical purposes its legal status in US is equivalent to a Registered Society in the Indian context. It is certainly not a commercial company and hence would not be subject to the jurisdiction of Company Law Board or Registrar of Companies in India. Incidentally, Ford Foundation is also a PBC (Registration number 768093 dated 15th January, 1936). Under American laws organizations such as Trusts, Fraternal Societies, Savings and Loan Associations, Municipal Utility Services etc. are all registered as PBCs.

7.3 Under Indian rules, foreign non-commercial organizations such as PATH wanting to set up an office in India are required to obtain (a) permission from the Ministry of External Affairs (MEA) from "political angle" (**Annexure B**) and (b) permission from Ministry of Home Affairs (MHA) from "security angle" (**Annexure C**). In the latter case, application needs to be forwarded through proper channel such as Ministry of Health and Family Welfare for health-related activities, Ministry of Human Resources for education related activities, Ministry of Labour for trade union or workers related activities etc. Once such an approval is accorded, then an office can be setup which should naturally abide by all other laws of the land such as income tax, shop and establishment act, municipal and other applicable laws, just to mention a few.

7.4 The Committee asked the Department to direct PATH to provide details of various mandatory permissions required by foreign agencies, including charities, for and in connection with opening office in India and the date of opening of its office in India. Unbelievably, the exact date of opening the office is not even known to its functionaries in New Delhi. To begin with vide its letter dated 5-3-2012, PATH claimed that "it has a Liaison Office status under Income Tax Rules." Since no such provision exists, after prolonged correspondence it settled for 19th April, 1999 as the date of opening office based on the fact that its PAN card (No. AAFCP2249G) is dated 19th April, 1999. The Committee was intrigued because PAN card is issued just for income tax

purposes and nothing else. Income Tax Department does not go about permitting foreign entities to open offices in India. In any case PAN card is not a replacement for Ministry of External Affairs and Ministry of Home Affairs approvals. Besides, the application for issuance of PAN card must have been made much before 19th April 1999 there being no online system of obtaining PAN card instantaneously. It can be safely assumed that the date of opening office has to be much earlier than 19th April, 1999.

7.5 PATH also produced copy of a letter dated 16-3-1999 from PATH office in US to the Exchange Control Department of the Reserve Bank of India along with reply dated 19-4-1999 received by PATH in US on 29-4-1999. It merely stated that since PATH is "not engaged in any commercial, trading or industrial activity," it does not need "RBI permission from foreign exchange angle. *However you may seek necessary approval from the Government of India or other statutory/ regulatory bodies as applicable."* Apparently PATH paid no attention to RBI's sane advice. Even before the letter reached PATH office in the United States on 29-4-1999, it had already opened its office in India.

7.6 The Foreign Exchange Regulation Act (FERA) was replaced with Foreign Exchange Management Act (FEMA) on 1-6-2000. PATH produced post-facto permission from the Reserve Bank of India dated 25-5-2009 which clearly stated:

> *"RBI permission (is) granted from the foreign exchange angle….and should not be construed to convey the approval of any other statutory authority or Government under any other laws/regulations."* Moreover, the Liaison Office is permitted to undertake "solely liaison work for the head office" as mentioned below:
>
> 1. Representing in India the parent company/group companies
> 2. Promoting export, import from/to India.
> 3. Promoting technical/financial collaborations between parent/group companies and companies in India.
> 4. Acting as a communication channel between the parent company and Indian companies.
>
> "The office in India will not render any consultancy or any other services directly/indirectly with or without any consideration."
>
> In addition *"Permission granted by RBI is limited to and for the purpose of the provisions of FEMA-2000 and shall not be construed in any way as regularizing, condoning or in any manner validating any irregularities, contraventions and other lapses, if any, under the provisions of any other law."*

7.7 It is clear that the back dated permission obtained after 10 years of having opened its office in India was merely and exclusively from foreign exchange angle and not a substitute for approval from MEA and MHA.

7.8 Finally and belatedly PATH produced a certificate from the Registrar of Companies (RoC) dated 23-9-2009 stating that PATH, a company originally incorporated in US, had filed documents on 10-09-2009 notifying establishment of place of business in India *w.e.f.* 19.4.1999. The Certificate was apparently issued in violation of its own rules that states that documents must be submitted within 30 days of the establishment of "place of business." In any case such a certificate cannot and does not obviate the need to obtain baseline, mandatory permission from MEA and MHA. Moreover RoC deals with commercial companies, not foreign trusts, foundations and charities.

7.9 PATH also claimed that it had received "permission" from the Ministry of Health and Family Welfare to set up an office in India. The *post-facto* letter dated 27-4-2001 (two years after PATH admits having opened the office in India) is not a permission at all but a vague, non-specific statement to say that PATH was "engaged in health care related activities".

7.10 According to the published Annual Report of PATH for the year 2008, it received funding in "excess of US $ 1,000" from many governmental sources including the Ministry of Health and Family Welfare, Government of India. However, in response to Rajya Sabha Question Number 952 on 3.8.2010, the Health Minister denied any Ministry funding to PATH.

7.11 **The Committee is concerned that if PATH can set up an office in India so easily without getting the required mandatory approvals/permissions, then individuals and entities inimical to the interest of the country can do the same. The Committee expresses its concern that paper and shell companies can be easily registered in many jurisdictions and then set up a place of business in India as "Liaison offices" with no questions being asked. It is surprising that security and intelligence agencies did not raise an eyebrow on the way a foreign entity entered India virtually incognito through the backdoor. The Committee desires that such incidents should not be allowed in future. The Government should tighten the rules lest one day foreign citizens, with deep roots in organizations/nations inimical to India, set up offices in the country to engage in anti-national and/or unlawful activities.**

7.12 **It is apparent the PATH has exploited with impunity the loopholes in our system as also the absence of a nodal point or a single window for maintaining a data bank of foreign entities entering the Country for setting up their offices. Given the multiplicity of agencies involved in processing such requests there is a definite need for a nodal agency which would keep a tab on all such existing and aspiring agencies from the point of view of having obtained all necessary clearances/permissions before commencing their operations in India. The Committee strongly recommends that government set up one such umbrella agency which should be linked to all the agencies that are involved in processing such requests. The Committee desires that within three months such an agency should be put in place and start functioning. The proposed nodal agency should be a part of MHA with a well established coordination mechanism with the MEA so that undeserving cases are dealt forthwith through diplomatic channels. All ministries/departments/agencies/state governments/other entities should be required to share details of all requests/proposals from foreign entities for setting up offices in any form with this nodal agency.**

7.13 **Coming to the instant case, it is established that PATH by carrying out the clinical trials for HPV vaccines in Andhra Pradesh and Gujarat under the pretext of observation/ demonstration project has violated all laws and regulations laid down for clinical trials by the Government. While doing so, its sole aim has been to promote the commercial interests of HPV vaccine manufacturers who would have reaped windfall profits had PATH been successful in getting the HPV vaccine included in the UIP of the Country. This is a serious breach of trust by any entity as the project involved life and safety of girl children and adolescents who were mostly unaware of the implications of vaccination. The violation is also a serious breach of medical ethics. This act of PATH is a clear cut violation of the human rights of these girl children and adolescents. It also deems it an established case of child abuse. The Committee, therefore, recommends action by the Government against PATH. The Committee also desires that the National Human Rights Commission and National Commission for Protection of Children Rights may take up this matter from the point of view of the violation of human rights and child abuse. The National Commission for Women should also *suo motu* take cognizance of this case as all the poor and hapless subjects are females.**

7.14 **The Ministry of Health and Family Welfare should without wasting time report the violations indulged in by PATH to international bodies like WHO and UNICEF so as to ensure that appropriate remedial action is initiated by these agencies worldwide.**

7.15 **The Committee also desires that the Ministry of Health and Family Welfare may take up the matter through the Ministry of External Affairs with the US Government so as to ensure that appropriate action is taken against PATH under the laws of its country of origin in case of any violations of laws there.**

OBSERVATIONS/RECOMMENDATIONS — AT A GLANCE

II. NATURE OF PROJECT

1. **The Committee finds the entire matter very intriguing and fishy. The choice of countries and population groups; the monopolistic nature, at that point of time, of the product being pushed; the unlimited market potential and opportunities in the universal immunization progammes of the respective countries are all pointers to a well planned scheme to commercially exploit a situation. Had PATH been successful in getting the HPV vaccine included in the universal immunization programme of the concerned countries, this would have generated windfall profit for the manufacturer(s) by way of automatic sale, year after year, without any promotional or marketing expenses. It is well known that once introduced into the immunization programme it becomes politically impossible to stop any vaccination. To achieve this end effortlessly without going through the arduous and strictly regulated route of clinical trials, PATH resorted to an element of subterfuge by calling the clinical trials as "Observational Studies" or "Demonstration Project" and various such expressions. Thus, the interest, safety and well being of subjects were completely jeopardized by PATH by using self-determined and self-servicing nomenclature which is not only highly deplorable but a serious breach of law of the land. The Committee is not aware about the strategy followed by PATH in the remaining three countries *viz.* Uganda, Vietnam and Peru. The Government should take up the matter with the Governments of these countries through diplomatic channels to know the truth of the matter and take appropriate necessary action, accordingly. The Committee would also like to be apprised of the responses of these countries in the matter.** (Para 2.5)

III. ROLE OF DEPARTMENT OF HEALTH RESEARCH/INDIAN COUNCIL OF MEDICAL RESEARCH

2. **The Committee is unable to understand as to how ICMR could commit itself to support "the use of the HPV vaccine" in an MOU signed in the year 2007 even before the vaccine was approved for use in the country, which actually happened in 2008. The Committee also questions the decision of ICMR to commit itself to promote the drug for inclusion in the Universal Immunization Programme (UIP) even before any independent study about its utility and rationale of inclusion in UIP was undertaken.** (Para 3.10)

3. **The Committee feels that there was serious dereliction of duty by many of the Institutions and individuals involved. The Committee observes that ICMR representatives, instead of ensuring highest levels of ethical standards in research studies, apparently acted at the behest of the PATH in promoting the interests of manufacturers of the HPV Vaccine.** (Para 3.18)

4. **It was unwise on the part of ICMR to go in the PPP mode with PATH, as such an involvement gives rise to grave Conflict of Interest. The Committee takes a serious view of the role of ICMR in the entire episode and is constrained to observe that ICMR should have been more responsible in the matter. The Committee strongly recommends that the Ministry may review the activities of ICMR functionaries involved in PATH project.** (Para 3.19)

5. **The Committee from its examination has found that DHR/ICMR have completely failed to perform their mandated role and responsibility as the apex body for medical research in the Country. Rather, in their over-enthusiasm to act as a willing facilitator to the machinations of PATH they have even transgressed into the domain of other bodies/ agencies which deserves the strongest condemnation and strictest action against them. The Committee fails to understand as to why ICMR took so much interest and initiative in this project when the safety, efficacy and introduction of vaccines in India is handled by National Technical Advisory Group on Immunization (NTAGI). The submissions of the Secretary, DHR/DG, ICMR before the Committee about the commencement of the project, facts of the case and the action taken have also failed to stand scrutiny during the Committee's examination of the matter. The Committee, therefore, reiterates the recommendation made in their Forty-first Report that the matter of allowing trial of the vaccine as also the approval for its marketing in the Country be inquired into by a premier investigating agency and appropriate action be taken thereafter by the Government in the matter. The Committee expects the Government not to procrastinate in this matter any further.** (Para 3.22)

IV. ROLE OF DRUG CONTROLLER GENERAL, INDIA (DCGI)

6. **The Committee's examination has proved that DCGI has also played a very questionable role in the entire matter. Initially, it took a call that since human subjects, as part of the studies, were receiving invasive intervention like immunization, clinical trial rules must be enforced. However, it remained as a silent spectator thereafter, even when its own rules and regulations were being so flagrantly violated. The approvals of clinical trials, marketing approval and import licenses by DCGI appear to be irregular. Therefore, the role of DCGI in this entire matter should also be inquired into.** (Para 4.6)

VI. INQUIRY COMMITTEE

(c) Adverse Events Reporting

7. **The Committee notes that once this matter was taken up by it, the Government appointed an Inquiry Committee on 15 April, 2010 to inquire into 'alleged irregularities in the conduct of the studies using HPV vaccines by PATH in India'. The Committee has noted the serious conflict of interest of members of this Inquiry Committee with the subject matter. The Committee, therefore, strongly deprecates the Government for appointing a committee to inquire into such a serious matter in such a casual manner even without ascertaining as to whether any of the members of the said Inquiry Committee were having any conflict of interest with the subject matter of inquiry.** (Para 6.10)

8. **The Committee finds it very intriguing as to when the Inquiry Committee after having sought details of some core issues in the very first meeting of the Committee on 21 April, 2007 subsequently chose not to pursue them purportedly because 'it wanted to restrict itself to its terms of reference'. These core issues raised by the Inquiry Committee earlier, if pursued to their logical end, would not only have provided the Inquiry Committee a lot more clarity in unraveling the truth but also the Country would have known the exact details as to what transpired in this sordid incident.** (Para 6.11)

(d) Informed Consent

9. **The Committee observes that obtaining informed consent from study subjects is a fundamental requirement in the conduct of clinical trials to ensure that the human rights**

of the study subjects are ensured. In case of minors it is mandatory that the consent be signed by parents/guardians. For the uneducated subjects, the law requires an independent person to explain and witness the consent process. The Committee is however, deeply shocked to find that in Andhra Pradesh out of the 9543 forms, 1948 forms have thumb impressions while hostel wardens have signed 2763 forms. In Gujarat, out of the 6217 forms 3944 have thumb impressions and 5454 either signed or carried thumb impressions of guardians. The data also revealed that a very large number of parents/guardians are illiterate and could not even write in their local languages viz. Telugu or Gujarati. The Committee is further shocked to find from one of the reports that out of 100 consent forms for Andhra Pradesh project signatures of witnesses were missing in 69 forms. In many forms there were no dates. One particular person had signed seven forms. In fact the legality of Andhra Pradesh State Government directing headmasters in all private/ Government/ashram/schools to sign the consent form on behalf of parents/guardians is highly questionable. The absence of photographs of parents/guardians/wardens on consent forms, the absence of signatures of investigators; the signatures of parents/guardians not matching with their names; the date of vaccination being much earlier than the date of signature of parents/guardian in the consent forms, etc. all speak of grave irregularities. (Para 6.16)

10. **The Committee, accordingly, concludes that most, if not all consent forms, were carelessly filled-up and were incomplete and inaccurate. The full explanation, role, usefulness and pros and cons of vaccination had not been properly communicated to the parents/guardians. The Committee observes that there is a gross violation of the concept and legal requirement of consent which had been substantiated by the experts. The Committee takes a serious view of the violations and strongly recommends that on the basis of the above facts, PATH should be made accountable and the Ministry should take appropriate action in the matter including taking legal action against it for breach of various laws of the land and possible violations of laws of the Country of its origin.** (Para 6.17)

11. **The Committee, in the light of the observations made by experts, feels that the methodology and implementation of the study at both the places was full of flaws. The Committee is of the view that since the population under study was vulnerable, utmost caution should have been exercised in the implementation of the study. The Committee also recommends that there should be an independent monitoring mechanism in such a study involving human participants so that the accurate recording of AEs and SAEs could be made. The findings of the experts clearly indicate that the safety and rights of the children in this vaccination project were highly compromised and violated. The Committee is also concerned over the fact that there was no insurance cover for the children. The Committee strongly recommends that while allowing any such trial in future, all the lapses pointed out by the experts should be addressed effectively. ICMR and DCGI should ensure strict adherence to the guidelines, methodology and monitoring.** (Para 6.22)

12. **The Committee takes a serious note of the fact that both the Ethics Committees existed only as a formality and they did not play the role they were designated for. This is a clear dereliction of duty on the part of the Ethics Committees. The Committee apart from recommending suitable action in the matter, strongly recommends that there should be a mechanism in place to take appropriate action against such dereliction of duty on the part of the Ethics Committees. There should be specific guidelines for Ethics Committees and the Ethics Committees should strictly follow them. The functioning of Ethics Committees should be regularly monitored.** (Para 6.24)

13. **The Committee observes that the wrongful use of the NRHM logo for a project implemented by a private, foreign agency as well as the identification of this project with the UIP has adversely affected and damaged the credibility of the programme as well as that of the NRHM. The Committee, therefore, recommends that such practices of diverting public funds for advancing interests of a private agency should never be allowed in future. The Committee strongly recommends that strict action should be taken against those officials responsible for such lapses.** (Para 6.26)

14. **Besides, the Committee notes that no information had been provided to Indian authorities about funding of the project except that it was reportedly funded by Bill and Melinda Gates Foundation and that the vaccines had been donated by the manufacturers. The information regarding financial investments of ICMR and State Governments in the project was not provided, though the States clearly provided cold chain and manpower for immunization. The Committee, accordingly, observes that it might have been more prudent if the National Technical Advisory group on Immunization (NTAGI) had been brought into the picture right in the beginning to review and give its views on the study prior to its approval and implementation.** (Para 6.27)

15. **Considering the above lapses and irregularities committed by PATH during the course of conducting the trials on hapless tribal children in Andhra Pradesh and Gujarat, the Committee is convinced that the authorities concerned did not exercise due diligence in scrutinizing the publicity material of PATH. Blurring the distinction between the UIP and PATH project due to the involvement of the State Governments in the project and ignoring the financial contribution of ICMR and the State Governments are very serious issues. The Committee, therefore, recommends that the Ministry should investigate into the above acts of omissions and commissions and take necessary action against those who are found responsible for breach of rules and regulations.** (Para 6.29)

16. **The Committee is amazed at the audacity of DCGI to merely repeat various steps which it proposes to take as if they are new, additional measures. All these are already part of the written rules and are supposed to be followed by all sponsors. Except for slight amendment in the Informed Consent Form, there is nothing new in the ATN submitted by DCGI.** (Para 6.34)

17. **The Committee not being convinced with the action taken by the Department or DCGI, feels that the whole issue has been diluted and no accountability has been fixed on the erring Officials/Departments for the gross violations committed in the conduct of Study. The Committee also feels that a very casual approach has been taken by the Department in the matter and their replies lack any concrete action to protect and safeguard the health of our people.** (Para 6.36)

18. **The Committee also noticed lack of firm action on the part of DCGI, to avoid such irregularities in future. One of the actions proposed by the DCGI to check any recurrence of such gross violations was 'proposal to amend the definition of New Drug during the next meeting'. The same assurance was given by DCGI in December, 2012. The Committee, accordingly, observes that response of the Department and DCGI is very casual, bureaucratic and lacks any sense of urgency. The Committee feels that DCGI is not very serious in bringing improvements in the system. It, therefore, desires the Ministry to ensure compliance by DCGI.** (Para 6.37)

VII. PROGRAMME FOR APPROPRIATE TECHNOLOGY IN HEALTH (PATH)

19. **The Committee is concerned that if PATH can set up an office in India so easily**

without getting the required mandatory approvals/permissions, then individuals and entities inimical to the interest of the country can do the same. The Committee expresses its concern that paper and shell companies can be easily registered in many jurisdictions and then set up a place of business in India as "Liaison offices" with no questions being asked. It is surprising that security and intelligence agencies did not raise an eyebrow on the way a foreign entity entered India virtually incognito through the backdoor. The Committee desires that such incidents should not be allowed in future. The Government should tighten the rules lest one day foreign citizens, with deep roots in organizations/nations inimical to India, set up offices in the country to engage in anti-national and/or unlawful activities. (Para 7.11)

20. **It is apparent the PATH has exploited with impunity the loopholes in our system as also the absence of a nodal point or a single window for maintaining a data bank of foreign entities entering the Country for setting up their offices. Given the multiplicity of agencies involved in processing such requests there is a definite need for a nodal agency which would keep a tab on all such existing and aspiring agencies from the point of view of having obtained all necessary clearances/permissions before commencing their operations in India. The Committee strongly recommends that government set up one such umbrella agency which should be linked to all the agencies that are involved in processing such requests. The Committee desires that within three months such an agency should be put in place and start functioning. The proposed nodal agency should be a part of MHA with a well established coordination mechanism with the MEA so that undeserving cases are dealt forthwith through diplomatic channels. All ministries/departments/agencies/state governments/other entities should be required to share details of all requests/proposals from foreign entities for setting up offices in any form with this nodal agency.** (Para 7.12)

21. **Coming to the instant case, it is established that PATH by carrying out the clinical trials for HPV vaccines in Andhra Pradesh and Gujarat under the pretext of observation/ demonstration project has violated all laws and regulations laid down for clinical trials by the Government. While doing so, its sole aim has been to promote the commercial interests of HPV vaccine manufacturers who would have reaped windfall profits had PATH been successful in getting the HPV vaccine included in the UIP of the Country. This is a serious breach of trust by any entity as the project involved life and safety of girl children and adolescents who were mostly unaware of the implications of vaccination. The violation is also a serious breach of medical ethics. This act of PATH is a clear cut violation of the human rights of these girl children and adolescents. It also deems it an established case of child abuse. The Committee, therefore, recommends action by the Government against PATH. The Committee also desires that the National Human Rights Commission and National Commission for Protection of Children Rights may take up this matter from the point of view of the violation of human rights and child abuse. The National Commission for Women should also *suo motu* take cognizance of this case as all the poor and hapless subjects are females.** (Para 7.13)

22. **The Ministry of Health and Family Welfare should without wasting time report the violations indulged in by PATH to international bodies like WHO and UNICEF so as to ensure that appropriate remedial action is initiated by these agencies worldwide.** (Para 7.14)

23. **The Committee also desires that the Ministry of Health and Family Welfare may take up the matter through the Ministry of External Affairs with the US Government so as to ensure that appropriate action is taken against PATH under the laws of its country of origin in case of any violations of laws there.** (Para 7.15)

MINUTES

VIII

EIGHTH MEETING

(2009-10)

The Committee met at 11.00 A.M. on Tuesday, the 6th April, 2010 in Room No. 139, First Floor, Parliament House Annexe, New Delhi.

MEMBERS PRESENT

RAJYA SABHA

1. Shri Amar Singh — *Chairman*
2. Shrimati Viplove Thakur
3. Dr. Radhakant Nayak
4. Shri Janardan Dwivedi
5. Shrimati Brinda Karat
6. Shrimati Vasanthi Stanley

LOK SABHA

7. Shri Ashok Argal
8. Shrimati Sarika Devendra Singh Baghel
9. Dr. Chinta Mohan
10. Dr. Sanjay Jaiswal
11. Shri S.R. Jeyadurai
12. Dr. (Shrimati) Kruparani Killi
13. Shri N. Kristappa
14. Dr. Tarun Mandal
15. Dr. Jyoti Mirdha
16. Shri R.K. Singh Patel
17. Dr. Anup Kumar Saha
18. Shrimati Meena Singh
19. Dr. Arvind Kumar Sharma
20. Shri Ratan Singh

SECRETARIAT

Shrimati Vandana Garg, *Additional Secretary*

Shri R. B. Gupta, *Director*

Shrimati Arpana Mendiratta, *Joint Director*

Shri Dinesh Singh, *Assistant Director*

WITNESSES

* * *

Representatives from the Department of Health Research

1. Dr.Vishwa Mohan Katoch, Secretary
2. Ms. Shalini Prasad, Joint Secretary
3. Dr. Vijay Kumar, Scientist
4. Dr. Bela Shah, Head NCD Division
5. Dr. K. Satyanarayana, Head P&I Division
6. Shri Sanjiv Datta, Financial Adviser

* * *

2. At the outset, the Chairman welcomed Members to the meeting and informed them about the agenda of the meeting, *i.e.*, examination of Demands for Grants (2010-11) of the Ministry of Health and Family Welfare and taking oral evidence of the Secretaries * * *, Health Research * * * in connection therewith.

3. * * *

4. * * *

5. * * *

6. * * *

7. The Committee then adjourned at 1.30 P.M. for lunch to meet again at 2.30 P.M.

8. * * *

9. During the course of the meeting, Shrimati Brinda Karat, Member of the Committee raised the issue about the trial of HPV vaccine on the children in Khammam district of Andhra Pradesh and reported deaths of the children therefrom and sought exact status in this regard from the Secretary. The Secretary, Department of Health Research informed the Committee that the Drug Controller General of India had given approval for marketing of HPV vaccine in India as per schedule 'Y' of the Drugs and Cosmetics Act and then a post-marketing surveillance. The Committee was informed that the proposal for trial came two years back before the ICMR through PATH, an American NGO. Attention of the Secretary was drawn to DCGI guidelines whereunder third phase trial cannot be conducted on children until a similar trial was conducted on adults. It was admitted by the Secretary that the DCGI guidelines were not adhered to in the present case. The Committee was assured that State Governments of Andhra Pradesh and Gujarat would be asked to get the ongoing clinical trial stopped immediately. Taking serious view of procedural and ethical lapses on the part of the Ministry, the Committee sought the matter of allowing trial of the vaccine as also the approval for its marketing in the country to be enquired into by a premier investigating agency and to take further appropriate action in the matter. It also asked that findings of the investigating agency and the follow-up action taken in this regard may be furnished to the Committee at the earliest.

10. * * *

11. * * *

12. A verbatim record of the proceedings of the meeting was kept.

13. The Committee then adjourned at 5.15 P.M.

---

* Relate to other matters.

XV

FIFTEENTH MEETING

(2010-11)

The Committee met at 11.00 A.M. on Monday, the 25th July, 2011 in Committee Room 'A', Ground Floor, Parliament House Annexe, New Delhi.

MEMBERS PRESENT

RAJYA SABHA

1. Shri Brajesh Pathak — *Chairman*
2. Shri Janardan Dwivedi
3. Shrimati Viplove Thakur
4. Dr. Vijaylaxmi Sadho
5. Shrimati Brinda Karat
6. Shri Rasheed Masood
7. Shrimati B. Jayashree

LOK SABHA

8. Shri Ashok Argal
9. Shrimati Sarika Devendra Singh Baghel
10. Shri Vijay Bahuguna
11. Dr. Sanjay Jaiswal
12. Shri S.R. Jeyadurai
13. Shri N. Kristappa
14. Dr. Tarun Mandal
15. Dr. Jyoti Mirdha
16. Dr. Anup Kumar Saha
17. Shrimati Meena Singh
18. Shri Pradeep Kumar Singh

SECRETARIAT

Shri P.P.K. Ramacharyulu, *Joint Secretary*
Shri R. B. Gupta, *Director*
Shrimati Arpana Mendiratta, *Joint Director*
Shri Dinesh Singh, *Assistant Director*

WITNESSES

* * *

Department of Health Research

1. Dr. V.M. Katoch, Secretary, Health Research
2. Ms. Shalini Prasad, Joint Secretary
3. Shri S.K. Rao, Joint Secretary

---

* Relate to other matters.

2. The Chairman welcomed the Members of the Committee and apprised them of the agenda of the meeting, *i.e.* to hear oral evidence on (i) * * *(ii) * * * and (iii) issues arising out of the final report of the Committee to enquire into "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV)" by PATH in the country.

3. * * *

4. * * *

(*The Committee adjourned at* 12.20 *P.M. to meet again at* 2.30 *P.M.)*

5. In the second half of the meeting, the Committee heard the views of Secretaries of Departments of Health Research and Health and Family Welfare on the issues arising out of the final report of the Committee appointed to enquire into "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) by PATH in the country". The Secretary, Department of Health Research, in his deposition, admitted before the Committee that the trials of the vaccine were not conducted by PATH according to the required protocol/guidelines in Andhra Pradesh. He admitted flaws in ethical procedure in conducting the tests such as lack of proper consent from the parents etc. He further stated that new guidelines are being issued and a moratorium has been imposed on further trials till guidelines are issued. The Members raised some queries like how far it was ethically correct for ICMR to go into Private Public Partnership (PPP) mode, faulty design of project; differences between ICMR and DCGI with respect to the project, action taken against the person involved; sale of this vaccine even before it was tested. The Members also enquired as to why the said enquiry report has not been posted on the website of the Ministry. The Secretary, Department of Health and Family Welfare submitted before the Committee that show cause notice of 15 days has been issued to PATH to seek its written views on the issue and action will be taken within three months after the reply of PATH is received. Members also raised queries like sources and magnitude of funding of this project, compensation to the affected parties and blacklisting of PATH, etc. which were partly answered. The Committee directed the witnesses to furnish written replies to queries which remained unanswered.

6. A verbatim record of the proceedings of the meeting was kept.

7. The Committee then adjourned at 3.30 P.M.

---

* Relate to other matters.

XII

TWELFTH MEETING

(2012-13)

The Committee met at 12.00 (NOON) on Friday, the 24th May, 2013 in Committee Room 'A', Ground Floor, Parliament House Annexe, New Delhi.

MEMBERS PRESENT

1. Shri Brajesh Pathak — *Chairman*

RAJYA SABHA

2. Dr. Vijaylaxmi Sadho
3. Shri Rasheed Masood
4. Shri Jagat Prakash Nadda
5. Shri D. Raja
6. Shri H.K. Dua
7. Shrimati B. Jayashree

LOK SABHA

8. Shri Kirti Azad
9. Shri Mohd. Azharuddin
10. Shrimati Sarika Devendra Singh Baghel
11. Dr. Sucharu Ranjan Haldar
12. Dr. Monazir Hassan
13. Dr. Sanjay Jaiswal
14. Shri Tarun Mandal
15. Shrimati Jayshreeben Patel
16. Shri Harin Pathak
17. Dr. Anup Kumar Saha
18. Dr. Raghuvansh Prasad Singh

SECRETARIAT

Shri P.P.K. Ramacharyulu, *Joint Secretary*
Shri R. B. Gupta, *Director*
Shrimati Arpana Mendiratta, *Joint Director*
Shri Pratap Shenoy, *Committee Officer*

WITNESSES

Department of Health Research

1. Dr. V. M. Katoch, Secretary
2. Dr. D. K. Shukla, Scientist-F
3. Dr. Tanveer Kaur, Scientist-D

Department of Health and Family Welfare

Dr. G. N. Singh, Drug Controller General of India

I. Opening Remarks

2. At the outset, the Chairman welcomed Members of the Committee and apprised them of the agenda of the meeting, *i.e.*, to hear the Secretary, Department of Health Research along with the Drug Controller General of India (DCGI) on the Action Taken on the final report of the Committee appointed by the Government of India to enquire into "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine" by PATH in India. * * *

II. Oral Evidence of the Secretary, Department of Health Research and DCGI on the final report of the Committee appointed by the Government of India to enquire into"Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine" by PATH in India

3. Thereafter, the Committee heard the Secretary, Department of Health Research on the Action Taken on the final report of the Committee appointed by the Government of India to enquire into"Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine" by PATH in India. In his deposition, the Secretary, stated that in the year 2007, PATH had applied for licence for trials which was approved in the year 2008 and trails were started on the tribal and non tribal girls of Andhra Pradesh and Gujarat in the year 2009 to see the acceptance of the vaccines. In the year 2010, five deaths in Andhra Pradesh and two deaths in Gujarat were reported. Subsequent to the reported deaths an expert Committee was set up under the Chairmanship of Prof. S.S. Aggarwal, PGIMER, Chandigarh, which in its Report submitted in February, 2011, found the discrepancies in respect of: (i) consent forms and actual implementation of the consent process; (ii) methods of monitoring of adverse effects/serious adverse effects and remedial measure for such events; (iii) inclusion of vulnerable and tribal population groups; (iv) blurring of distinction between National Immunization Programme and Path study; (v) insurance coverage for the study participants; and (vi) convert inducement and indirect coercion etc. The Secretary, apprised the Committee about the remedial action taken pursuant to the findings of the expert Committee. However, members were not satisfied with the action taken by the Department.

4. The Drug Controller General of India, in his deposition, *inter alia* stated that during the future trials for any vaccination, the following safeguards would be adopted: (i) consent form would be transparent; (ii) consent would be in audiovisual format; (iii) clear guidelines have been framed. He also informed the Committee that these guidelines are available on the website of the Ministry. Further, he informed the Committee that in future strict emphasis would be laid on enforcement and patient safety.

5. Thereafter, members raised queries on some issues including conduct of trail without guardian's approval; details of action taken, if any, against officials who had given approval to these trials; absence of complete details of postmortem conducted on the subjects who had died during the said trials; details of use of machinery of State Governments by PATH during the conduct of the trials; whether the said trials were classified as 'clinical trial'; non action on the findings of the Expert Committee, etc. The Chairman directed the witnesses to send comprehensive written replies to queries which remained unanswered, within a week's time.

6. A verbatim record of the proceedings of the meeting was kept.

7. The Committee adjourned at 12.56 P.M.

---

* Relate to other matters.

XV

FIFTEENTH MEETING

(2012-13)

The Committee met at 4.00 P.M. on Thursday, the 29th August, 2013 in Committee Room 'A', Ground Floor, Parliament House Annexe, New Delhi.

MEMBERS PRESENT

1. Shri Brajesh Pathak — *Chairman*

RAJYA SABHA

2. Shri Jagat Prakash Nadda
3. Shri Mohd. Ali Khan
4. Shri H.K. Dua

LOK SABHA

5. Shri Kuvarjibhai M. Bavalia
6. Dr. Sucharu Ranjan Haldar
7. Mohd. Asrarul Haque
8. Dr. Sanjay Jaiswal
9. Shrimati Jayshreeben Patel
10. Dr. Anup Kumar Saha
11. Shri P. T. Thomas

SECRETARIAT

Shri P.P.K. Ramacharyulu, *Joint Secretary*

Shri R. B. Gupta, *Director*

Shrimati Arpana Mendiratta, *Joint Director*

Shri Dinesh Singh, *Deputy Director*

Shri Pratap Shenoy, *Committee Officer*

* * *

I. Opening Remarks

2. At the outset, the Chairman welcomed the Members of the Committee and apprised them of the agenda of the meeting, *i.e.*, * * * and consider and adopt draft Seventy-second Report on "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine by PATH in India."

---

* Relates to other matters.

II. Adoption of the Draft Report on "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine by PATH in India."

3. The Committee then considered and discussed the draft Seventy-second Report on "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine by PATH in India." The Chairman invited Members to share their specific suggestions for incorporation in the Draft Report. After some discussion, the Committee adopted the Report with some modifications.

4. The Committee, thereafter, decided that the Report may be presented to the Rajya Sabha and laid on the Table of the Lok Sabha on Friday, the 30th August, 2013. The Committee authorized its Chairman and in his absence, Shri Shri H.K. Dua and Shri Jagat Prasad Nadda to present the Report in Rajya Sabha, and Shri Sanjay Jaiswal, and in his absence, Dr. Anup Kumar Saha to lay the Report on the Table of the Lok Sabha.

II. * * *

3. * * *

4. * * *

5. A verbatim record of the proceedings of the meeting was kept.

6. The Committee adjourned at 5.00 P.M.

ANNEXURES

ANNEXURE-A

Committee to investigate "Alleged irregularities in conduct of studies in India using Human Papilloma Virus (HPV) vaccine"

Minutes of the 5th **Meeting** held on September 27th at the Indian Red Cross Society, (NHO), New Delhi

1. All members of the committee were present. In addition the Experts nominated to assist the committee *vide* GO no. V.250II/160/20IO-HR dated June 30th, 2010 were also invited to attend the meeting.

2. The minutes of the meeting dated June 22nd, 2010 as circulated were adopted.

3. The Experts were requested to present salient findings of their reports and the members discussed with them their findings. A summary of the discussions is as follows:

   (a) Dr. Rani Kumar, Dean, AIIMS –

      (i) She was requested to carry out numerical analysis of the consent forms – under headings already identified – separately for the AP and Gujarat. (Action: Dr. Rani Kumar)

      (ii) She requested the list of members of the two ethics committees at AP and Gujarat. In particular she asked about the membership of a lawyer in the committee. She also asked about the functioning of these committees – the number and dates of meetings, and any monitoring of the PATH study prior to repots in the Press. (Action: Dr. Kishore Chaudhry)

      (iii) Opined that the trial in adolescent girls was justified as this is the target group to benefit, but authorization of school authorities by the AP Govt. to give consent on behalf of the girls was not correct. Also, implementation of the procedure of taking consent lacked rigor.

   (b) Dr. Y.K. Gupta, HOD Pharmacology, AIIMS – made the following points:

      (i) Bridging trials in India, as required under Schedule Y for drugs/vaccines already approved and in use abroad, for licensing in India were carried out as required. One of the studies was in Adults and the other one was in adolescent girls.

      (ii) The DCGI has licensed the GSK HPV vaccine Cervarix for " .... females from 10-45 years of age for prevention of cervical cancer. ... ", and MSD vaccine Gardasil for " .. girls and women 9-26 years of age for prevention of cervical cancer ..."

      (iii) There is wide international experience, including that in India, regarding use of HPV vaccines in adolescent girls.

      (iv) HPV vaccines are quite safe. Millions of doses of HPV vaccines of both types have been used abroad. By the end of May, 2010, there were 16, 410 VARES reports of AE following Gardasil vaccination licensed in the US in 2006. 8% of these have been considered serious, including syncope, GB syndrome, blood clots, and anaphylaxis. A total of 53 deaths have been recorded following vaccination

but they do not seem to be related to the vaccine. The use of the vaccine continues all over the world. Several countries have incorporated it in their national programmes.

(v) Both the GSK and MSD have submitted the required Periodic Safety Update Reports to the DCGI. These are international reports, and not India specific. There has been some delay in submission of these reports. The last six monthly report for 18th November to 17th May, 2010 which should have covered the reports the deaths from India has not been submitted yet.

(vi) A critical analysis of the First Information Reports of SAE/Deaths, Medical records related to these events and the Post-mortem reports do not support the possibility of deaths to be related to vaccine but it can not be ruled out with certainty. This was mainly because the alternate cause of death as listed can not be fully substantiated on the basis of medical records in all the cases. The quality of the medical records was not adequate. The capability of the local staff and preparedness to deal with SAEs/Critical illnesses leading to death is also suspect. Most of the deaths were detected when the ANMs were mobilizing the recipients for the next vaccination. These events were not reported and investigated timely. In most cases the treatment was provided by private medical practitioners and the subjects had to be shifted to a better facility while they died on the way. There was no plan to deal with the crisis as it emerged.

(vii) There is a strong need to strengthen the post-licensing surveillance.

(c) Dr. A.K. Dutta, Head of Pediatrics, Kalavati Saran Hospital, New Delhi –

(i) Dr. Dutta focused on analysis of Deaths and AE, both serious and minor, under the HPV vaccination project carried out in AP and Gujarat, by PATH in collaboration with the respective State Governments.

(ii) Dr. Dutta highlighted that the Primary Outcome measures of the project were:

– Number and percent of eligible girls fully vaccinated, partially vaccinated or not vaccinated at all according to vaccine delivery strategy

– Number and percent of vaccinated girls experiencing serious adverse events, as reported spontaneously through routine mechanisms of UIP programme

– Number and percent of vaccinated girls experiencing non-serious adverse events, as reported spontaneously through routine mechanisms of UIP programme

– Timelines of reporting serious adverse events to local, state and National authorities, as per the usual UIP protocol and

– Timelines of reporting non-serious adverse events to local, state and National authorities, as per the usual UIP protocol

(iii) Since 4 out of the 5 outcome measures related to monitoring and reporting of AE the project should not have totally relied on the existing UIP AEFI reporting system. There should have been a parallel research based monitoring system for AEFI to compare with the State system. Alternatively the effectiveness of the State system should have been pre-verified before initiating the study.

(iv) Dr. Dutta found that 3 of the 7 deaths have occurred within 30 days of last vaccine dose (one in AP and 2 in Gujarat, on days 18,20 and 23), while 4 were after this period (45,49,96,97 days after the vaccine).

The ones within 30 days have been attributed to Fever of unknown origin - ? Viral, Malaria and Snake bite. Two of the 4 later deaths were attributed to Pesticide poisoning. In both cases post-mortem has been done and chemical report on record has confirmed presence of the poison in stomach.

In one case there was history of drowning in a pond. The fourth case has died after a brief illness of few hours, probably neurological ? Intracranial hemorrhage/ Intracranial space occupying lesion.

Dr. Dutta's observation was that – 1. There was no specific pattern of illness leading to death, 2. The illnesses can not be explained by expected adverse responses to vaccine, and 3. There was an alternate plausible diagnosis in most cases. Therefore, the deaths were unlikely to be related to the vaccine. However, post-mortem has been carried out only in 2 cases. And the alternate diagnosis is not confirmed in all the cases.

(v) Further a critical analysis of the reporting of other AE and SAE shows the inadequacies of the AEFI reporting system. Dr. Dutta was of the opinion whether it was an observational study or otherwise the vaccine was administered to the subjects and data collected for enerating knowledge. It should have followed all the rigors of the research.

4. The committee deliberated on the reports of the Experts and pertinent data received under various queries raised during previous meetings of the committee. Besides the factual information about the terms of reference the committee was greatly concerned with the aspect of commercial interests of manufacturers influencing the Government policy on this expensive vaccine. The committee observed that the study was initiated by PATH on its own having obtained funds from the Bill and Melinda Gates Foundation and supply of vaccine from the manufacturers – without any reference from the NTAGI, the official body of the GOI on vaccines. It is not clear whether the State expenses were funded by PATH or came from their own resources. The monetary contribution of ICMR is also not clear. The committee therefore felt that it would be in the fitness of the inquiry to document the sources and magnitude of funding of the study. It desired to obtain the following information from the PI, *i.e.* PATH in this case:

(i) Letter of Sanction of grant form Bill and Melinda Gates foundation for Indian study

(ii) Letter of donation of vaccine by the manufacturers and the invoice indicating the cost of the vaccine for trial in India

(iii) Copies of the letters of PATH to ICMR and State Government, including the terms and conditions of collaboration

(iv) Financial contribution of the 3 parties to the study, *viz*., the PA TH, ICMR and the State Governments from beginning till date

Action: Dr. Kishore Chaudhry

5. The committee noted the urgency to submit the report. Since most of the facts have been gathered and analyzed, including the critical input of the experts, it decided to expedite the finalization of the report. Since there was consensus on all issues among the members, the committee authorized the chairman to prepare the draft report which may be circulated to all the members and then finalized in a meeting called for the purpose. In the meantime the additional information as identified above may also be collected. The next meeting could be held in about 2 week time. (Action: Chairman)

ANNEXURE-B

Government of India
Ministry of External Affairs

भारत सरकार
विदेश मंत्रालय, नई दिल्ली

New Delhi the_____200

No.AA/551/1/2011 Dt. 11th June, 2012.

OFFICE MEMORANDUM

Sub: Clinical Trial of HPV Vaccine – regarding

Reference O.M. No. RS.10/2(ii)/2011-Com. (H&FW) dated 4th June, 2012 from the Parliament of India, Rajya Sabha Secretariat, New Delhi, on the subject mentioned above.

2 As per the existing procedure, the clearance of the Ministry of External Affairs from Political angle is required before any foreign organisation/charity/foundation etc. sets up an office/branch in India. The concerned foreign entity may approach this Ministry with a detailed proposal, to be routed through the concerned nodal Ministry in India, for processing and issue of above Political clearance.

No.II/20034/280/2012-IS-II
Government of India
Ministry of Home Affairs
IS-I Division, (IS-II Desk)

New Delhi, the 5th July, 2012

Office Memorandum

Subject:– Parliamentary Standing Committee on Health and Family Welfare – clinical trial of HPV Vaccine and related matters – furnishing of information to the Committee.

The undersigned is direacted to enclose a copy of Rajya Sabha Secretariat O.M No.RS.10/2(ii)/2011-Com.(H&FW) dated 21st June, 2012 along with a copy of earlier D.O. letter dated 4th June, 2012 regarding clinical trial of HPV Vaccine on the subject noted above and to state that Department of Economic Affairs is the concerned Administrative Ministry for "setting up of the Liaison Offices/Branch Offices/Project Offices in India by foreign entities". As such, laying down the procedure/rules/guidelines etc. for setting up of such offices falls within the ambit of DEA.

2. Department of Economic Affairs seeks MHA's comments from security angle on the applications received from various firms for setting up of the Liaison Offices/Branch Offices/Project Offices in India by foreign entities. As such, Ministry of Home Affairs assesses the suitability of the applicant company from security angle.

3. Further, a draft Circular proposed by RBI and forwarded by DEA containing additional reporting feature by foreign entities for implementing additional security safeguards is under consideration in this Ministry.

4. In view of foregoing, the above Rajya Sabha Secretariat O.M. dated 21st June, 2012 along with its enclosures is transferred to Department of Economic Affairs for giving a suitable reply to Rajya Sabha Secretariat, under intimation to this Ministry.

72 SECOND REPORT, No: - 72

The Committee first took up the issue of the trial of HPV vaccine on the children in Khammam district of Andhra Pradesh and Vadodra district of Gujarat and reported deaths of the children from that place in its meeting held on April 6, 2010, during the examination of Demands for Grants (2010-11) of Department of Health Research and sought exact status in this regard from the Secretary, Department of Health Research. Subsequently, taking a serious view of the procedural and ethical lapses on the part of the Ministry, the Committee sought the matter of allowing the Vaccine trial as the approval for its marketing in the Country to be enquired into. The Committee also desired the Ministry to take further appropriate action in the matter and apprise it of the follow-up action taken in this regard at the earliest [12].

The Committee after that deliberated on the subject in its meetings held on July 25, 2011, and May 24, 2013.

The study utilized the brands of HPV vaccines available in the market (Gardasil by Merck in Andhra Pradesh; and Cervarix by GSK in Gujarat). **Note: The Bill Gates Foundation funds both GSK and Merck**.

Given specific complaints received, the State Governments have been advised not to carry out further vaccination till further orders, Page 2(18).

Committee Conclusions and Recommendations,

On February 15, 2011, the Final Report of the Committee was made by the Committee after the Enquiry of the Tilted "Alleged irregularities in the conduct of studies using Human Papilloma Virus (HPV) vaccine" by PATH in India." After Reading those reports and researching the 2010 Incidences.

The Report Bring out the Truth and Clear-Cut Violation of Rules in India by the PATH.

The then Congress government planned to cover it up without any further against PATH Violation and Bill Gates's vaccine monopolism that Causing Global Disaster.

Their Inaction, seven children's deaths Incidents occurred, but Congress Regime Controlled Investigations Officials like Police, Doctors and Corrupt; Postmortem was covered up for different reasons. The Incidents and deaths after the HPV Vaccines Trials are covered all deaths such as Suicide, Snake bites, and Viral fever.

In India, Anyone can easily corrupt the Police Department, Including Corrupt Politicians.

Committee Recommended that lots of Good for the Welfare of Humans.

Rajiv Gandhi Charitable Trust

The Rajiv Gandhi Charitable Trust is a registered non-profit institution established in 2002 by the Indian National Congress. Named after the 6th Prime Minister of India, the trust is headed by the Interim President of the Indian National Congress.

Founder and Founded on 2002: Rahul Gandhi, Sonia Gandhi, Priyanka Gandhi Vadra.

Below Image Data Shows,

Bill and Melinda Gates Foundation Funded $ 10580944 in words, **TEN MILLION FIVE HUNDRED EIGHTY THOUSAND NINE HUNDRED AND FORTY-FOUR DOLLARS**, From 2012 to 2017 to the Rajiv Gandhi Charitable Trust and Rajiv Gandhi Foundation.

Notable: Intentional Funds after the Bill Gates Visits Rahul Gandhi on **May 12, 2010, Before the Committee Appointed by the Government of India on April 15, 2010,** about the HPV Vaccines Deaths.

These Funds are reasons the After Committee Recommended the Government of India To Action Against the PATH Funded by Bill Gates. But there is no Action on the Indian Congress Government side.

"They Started with the Corruption, But Sadly, now they are Ongoing with the Genocide to End the Humanity."

NGO supported by Bill and Melinda Gates Foundation was accused of bypassing Indian laws, causing the death of tribal children, and the UPA govt didn't do anything

PATH's dubious HPV vaccine trials and Congress govt, Representational image via Twitter

https://www.opindia.com/2021/10/path-bill-and-melinda-gates-foundation-bypassing-indian-laws-death-tribal-children-upa-govt-silence/

January 13, 2015, Judges demand answers after children die in a controversial cancer vaccine trial in India, Reported by https://www.dailymail.co.uk/news/article-2908963/Judges-demand-answers-children-die-controversial-cancer-vaccine-trial-India.html

Judges in India's Supreme Court have demanded answers after children died during a controversial cervical cancer vaccine trial on Young Girls Received Shots of pharmaceutical company Merck's Gardasil vaccine and Cervarix, manufactured by GlaxoSmithKline under PATH.

But the Indian Court yesterday heard a challenge by campaigners who claim the study - funded by the Bill & Melinda Gates Foundation - failed to obtain the informed consent of the children or their parents.

An Indian Parliamentary Committee found that PATH had 'violated all laws and regulations laid down for clinical trials by the government' in a 'clear-cut violation of human rights and a case of child abuse (Parliament of India, 2013). In the months following the release of the committee report, no action was taken: the Government declined to act on its recommendations; a lawsuit on behalf of the victims remained 'stuck in limbo' before the Indian Supreme Court (Mittal, 2016). Unperturbed PATH steamed forward with trials of a new flavor of the HPV vaccine, Merck's Gardasil 9, with typical consequences including re- ports of coercion, lack of informed consent, and paralyzing injuries (Chamberlain, 2015). Meanwhile, India's state and local health ministries experienced increasing pressure from the highest levels of the global public health apparatus to embrace HPV vaccines (Narayanan, 2018). PATH-endorsed vaccine development resembles a juggernaut that rolls irresistibly forward despite hazardous clinical trials, unsatisfactory results, or resistance from the people. According to public health journalist Sandhya Srinivasan, PATH's research plan is to look for ways to introduce the Vaccine into the national immunization program. The question is not "whether' but "when' and how'" (Srinivasan, 2011).bo37

Supreme Court on Human Papilloma Virus vaccine case: Can't stay away from the issue because Parliament is debating it.

Reference, https://www.newindianexpress.com/nation/2017/oct/26/supreme-court-on-human-papilloma-virus-vaccine-case-cant-stay-away-from-issue-just-because-parliam-1683800.html

An NGO supported by the Bill and Melinda Gates Foundation has been accused of circumventing Indian laws and causing the deaths of tribal children. The UPA government has taken no action.

PATH, which has received funds from BMGF to the tune of $2.5 billion between 1995 and May 2021, undertook the initiative to inoculate tribal children in Khammam with the Human Papillomavirus (HPV) vaccine 'Gardasil' by Merck in 2009. The BMGF also held shares in Merck at that time.

Narendra Damodardas Modi

RSS Terrorist Group Trained Narendra Modi

The reality of the above incidents and the inaction of the Indian Congress governments of the past regimes and Political Organized Crimes.

India is a country with different languages, religions, cultures, appearances, spirituality, and history. Each state has its official language; in Kerala, it is Malayalam; in Tamil Nadu, Tamil is the official language, and so on. Each state can be considered a country. But even Lots of Diversity in India, such as Indian, Indians United.

But even though there is a lot of Diversity in India, everybody is United as an Indian.

RSS (Rashtriya Swayamsevak Sangh) is the Extremist Mobs Terrorist Group in India and has been Trying to Divide India for Past Decades.

Their Main Intentions and Agenda is to Create Peaceful Environment in India, Divide the Peoples in the name of Religion, and Create Riots and Divisive between the Hindu and Muslim Unity.

In January 1948, Mahatma Gandhi was assassinated by a member of the RSS, Nathuram Godse. After the assassination, many prominent leaders of the RSS were arrested, and the RSS was banned as an organization on February 4, 1948, is notable.

The Indian Prime minister Narendra Modi is also the RSS Trained Member and Person with the Same RSS Ideology to Divide the National in the Name of Religion and Language,

Narendra Modi 'allowed' Gujarat 2002 anti-Muslim riots; basically, as I mentioned above, RSS Ideology is only one thing to create divisive between the two religions, here that two religions are Hindu and Muslim.

But the case of 2002 was Manipulated, and S.C. gave a clean chit to PM Modi.

When the Gujarat 2002 anti-Muslim riots occurred, the Gujarat Chief Minister was Narendra Modi. He is Directly Involved in this

Narendra Modi, then Chief Minister of Gujarat and now Prime Minister of India, was accused of condoning the violence, as were police and government officials who allegedly directed the rioters and gave lists of Muslim-owned properties to them [13].

Most BJP - Bharatiya Janata Party Members are Criminals, 50% Percentage. Modi is Manipulating the Judiciary System for his Gains.

The demolition of the Babri Masjid

The demolition of the Babri Masjid was carried out on December 6, 1992, by a large group of activists from the Vishva Hindu Parishad and allied organizations, the Sangh Parivar (translated as "family of the Rashtriya Swayamsevak Sangh" or "RSS family") refers as an umbrella term to the totality of Hindu nationalist organizations that have emerged from and remain affiliated with the Rashtriya Swayamsevak Sangh (RSS). These include the political party Bharatiya Janata Party, Vishva Hindu Parishad, the student association Akhil Bharatiya Vidyarthi Parishad (ABVP), and the religious militant organization Bajrang Dal.

In Hindu tradition, the city of Ayodhya is the birthplace of Rama. In the 16th century, a Mughal general, Mir Baqi, built a mosque known as

the Babri Masjid at a site identified by some Hindus as Ram Janmabhoomi, or the birthplace of Rama. The Archaeological Survey of India states that the mosque was built on land where a non-Islamic structure had previously existed.

In the 1980s, the Vishva Hindu Parishad (VHP) began a campaign to construct a temple dedicated to Rama at the site, with the Bharatiya Janata Party (BJP) as its political voice. Several rallies and marches were held as a part of this movement, including the Ram Rath Yatra led by L. K. Advani.

On December 6, 1992, the VHP and the BJP organized a rally at the site involving 150,000 volunteers, known as kar sevaks. The rally turned violent, and the crowd overwhelmed security forces and tore down the mosque. A subsequent inquiry into the incident found 68 people responsible, including several leaders of the BJP and the VHP. The demolition resulted in several months of intercommunal rioting between India's Hindu and Muslim communities, causing the death of at least 2,000 people. Retaliatory violence against Hindus also occurred in Pakistan and Bangladesh.

Result: Archeologist Who Observed Dig Says No Evidence of Temple Under Babri Masjid.

This Proved, The BJP RSS is a Dangerous Organization Against the Peace and Equality of the Nation.

Lies of Corrupt Prime Minister Modi,

1. Prime Minister Modi uses this 'tea-seller' image only to gain public sympathy; Modi never sold tea, just a lie to gain sympathy, says Praveen Togadia
2. Narendra Modi of lying on the issue of his marital status

Prime Minister Modi with Murderer Jaggi Vasudev,

Modi with Jaggi Vasudev Murderer

With Prime Minister Narendra Modi set to unveil a 112-foot tall statue of Shiva at the Isha Foundation in Coimbatore, activists and tribal groups have raised the pitch of protests against the Foundation's "environmental violations."

This is not the Statue of the God, and This is the State of the Jaggi Vasudev

Activists have asked Prime Minister Narendra Modi not to preside over the unveiling of the 112-foot tall statue of Shiva at Isha Centre in Coimbatore on Friday over alleged violation of environmental norms by the organizers, Isha Foundation of yoga guru Jaggi Vasudev, which has denied the accusations.

The unveiling ceremony is scheduled to be held at 5:30 pm to mark Maha Shivratri. Modi is expected to arrive at the Isha center by helicopter after landing at Sulur Air Base.

With tribal associations and others in Coimbatore having planned demonstrations and protests in the city, security and traffic regulations have been beefed up.

On Wednesday, former Madras high court judge D Hariparanthaman said that the Isha Foundation has over 13 lakh sqft of illegal constructions, and "the visit by the Prime Minister may interfere with the administration of justice."

He also said the opposition was not because of the religious event but due to the "violation of the building norms" and the apprehension that the Prime Minister's visit would "legitimize the actions of the organization," a fear endorsed by activists and tribal bodies.

Isha Foundation, however, said vested interests were trying to disrupt the event.

"We have got all the necessary permissions from the authorized people. These are some vested interests who are trying to create a ruckus to disrupt a major event like this," said a public relations executive from Isha Foundation.

In a statement, it also said that "a no objection certificate from the district collector, Coimbatore, for using wetlands for non-agricultural purposes has also been obtained," besides approvals from necessary authorities, including the Coimbatore district collector, the forest department, and BSNL.

This is not the first time that the ruling Centre has been seen to support an event organized by a spiritual leader accused of environmental violations.

Last March, Art of Living founder Sri Sri Ravi Shankar hosted a World Culture Festival on the banks of the Yamuna in New Delhi, which saw senior members of the BJP, including finance minister Arun Jaitley and party president Amit Shah, attending the final day.

The NGT subsequently declared that the event had " destroyed" the flood plains of the Yamuna, causing an irreversible loss of the local fauna and flora.

A recent blog by Isha Foundation has said that the accusations in petitions filed in the Madras High Court are "frivolous and a compilation of twisted allegations."

The Foundation has been embroiled in a controversial legal battle over its compound in Coimbatore since 2012 and has even received demolition notices from the state government in the past.

While public interest litigation (PIL) in the Madras H.C. was filed by the Velliangiri Hill Tribal Protection Society, seeking to demolish the unauthorized construction, another application before the southern bench of the National Green Tribunal (NGT) claimed that it is located in Velliangiri foothills which is a man-animal conflict area.

In 2013, the Town and Country Planning department had specified that the extent of illegal construction is 13 lakh sq ft to the Madras high court. A "stop-work" notice was issued in November 2012, with a "lock and seal and demolition notice" being served shortly after in December 2012.

LOCK AND SEAL AND DEMOLITION NOTICE TO JAGGI VASUDEV

Electronic Voting Machine Fraud in India,

The Indian Electronic Voting Machines (EVM) was developed in 1989 by the Election Commission of India in collaboration with Bharat Electronics Limited and Electronics Corporation of India Limited. The industrial designers of the EVMs were faculty members at the Industrial Design Center, IIT Bombay. The EVMs were first used in 1982 by-elections in the North Paravur assembly constituency in Kerala for a limited number of polling stations. The EVMs were used on a trial basis in selected constituencies in Rajasthan, Madhya Pradesh, and Delhi. EVMs were first used in the 1999 general elections (entire state) to the Goa Assembly. In 2003, all by-elections and state assembly elections were held using EVMs, and the Election Commission decided to use EVMs exclusively in the 2004 Lok Sabha elections.

2009 allegations by RSS BJP against EVM,

In 2009 RSS BJP was Accused and Blamed that the Reason for the Congress Victory was Electronic Voting Machine. EVMs have become 'electronic victory machines' for Congress: BJP, Reported by Times of India.

The senior RSS BJP leader maintained that not only his party but other political parties had raised doubts about the credibility of EVMs. "How can five votes be cast in one minute," he asked.

The BJP vice-president said the ordinary workers of the party had labored hard during the polls. "We fought these elections on the issue of price rise, corruption, lack of law and order, farmers' suicide and bijli, Sadak, paani (power, roads, and water)," he said.

"In Politics, no one is a Permanent Friend or Enemy. All Politicians have Linked together. Including Congress and BJP are on the Same track."

RSS BJP Leader L. K Advani doubts EVM and wants ballot papers back, New Delhi, Sun July 5, 2009, Indian Express.

"We should revert to ballot papers unless the Election Commission can ensure that Electronic Voting Machines (EVMs) are foolproof and every possibility of their malfunctioning is taken care of," Advani told The Sunday Express here on Saturday.

While the Election Commission, during the recent general elections, once toyed with the idea of using ballot papers instead of EVMs (essentially due to a large number of independent candidates in states like Tamil Nadu), this is the first time that a mainstream political party has raised questions over the reliability of EVMs.

Citing the instances of Germany (which has banned electronic voting altogether) and the U.S. (which has detailed guidelines for voting through EVMs), Advani stressed that "no one was raising any questions like rigging or malpractices in the elections." Still, more significant questions about the "possibility of EVMs' malfunctioning...must be addressed".

BJP leader L.K. Advani

BJP Was Against the EVM when it was not in the Regime when Congress was in the Regime.

We can Tell More Incidents that EVM Electronic Voting Machine is a Threat to Democracy.

Stealing the EVM by the RSS BJP.

This is the Safety of the Indian People like EVM. They will do whatever they want. If anybody is against the RSS BJP, that Person will be Threatened by the RSS BJP and Mercenaries Mobs.

EVM – ELECTRONIC VOTING MACHINE DANGER TO DEMOCRACY (INDIA or Any Other Countries)

Introduction

The danger to democracy is the electronic voting machine (EVM). The main reason why people have been suffering since the 2019 elections is that Modi Control the EVM. The reason why the peasants died in the struggle was the voting machine. Even developed Countries like England, Italy, and Germany Have Banned EVMs because of the Issue of Electronic Voting Machines being Tampered with, Hijacked, or Any Violations, and other countries are not using EVM. Because the EVM is against democracy and the Liberty of the People, EVM can cause dictatorial rule. Electronic voting machines have also been banned in developed countries such as the United Kingdom, Italy, and Germany. Electronic voting machines have been banned because they could cause fraud, hijacking, hacking, Blackmailing, Spying, or any other irregularities. In the USA, Experts say Paper Voting Systems are the safest method for Secure and Transparent Elections, as they are less vulnerable to hacking and Manipulation.

EVM Vulnerabilities in Democracy and What are the ways to Win Election by Manipulating the Election,

1. A lot of crimes and dictatorship against the people will take place.
2. The Equality Act enacted by Dr. Ambedkar will be destroyed.
3. People's freedom will be taken away.
4. The voting machine will pave the way for extremist activities.
5. Humanity will be questioned and destroyed.
6. Crimes against people, children, and animals will increase.
7. The unity and equality of the Country will be uprooted.
8. Stealing the EVM by the Mobs.
9. EVM manipulation.
10. Bribing the Election Commission.
11. EVM through tampering.

12. Even there is Verification Method Like VVPAT, EVM is Threat to the Democracy.
13.

Conclusion,

The EVM – Electronic Voting Machine is the Danger to Democracy, Opportunity for Human mistakes, Hacking, Hijacking and Blackmailing. Kindly Protest against the EVM or Ban the EVM to save the Democracy and Unity of the People. BAN EVM to save the Country.

Every Electronic Machine are Hackable, Including the EVM Electronic Voting Machine.

Ban Electronic Voting Machine.

Ranjan Gogoi

Political Influence on Indian Supreme Court Judges and Judiciary System

Ranjan Gogoi, the Ex Corrupt Court Justice of India,

Former CJIs Ranjan Gogoi, S A Bobde Wednesday. (Express photo by Anil Sharma)

Pegasus: Woman who accused former CJI Ranjan Gogoi of sexual harassment among potential targets

She was marked as a person of interest just days after she sent an affidavit detailing the accusations to judges of the Supreme Court, according to 'The Wire.'

The woman, who worked as a junior court assistant at the Supreme Court, had alleged that Gogoi made sexual advances on her at his residence office on October 10 and October 11, 2018. She had submitted an affidavit to 22 judges of the Supreme Court on April 19, 2019, and called for an inquiry against Gogoi.

Read More Here

https://scroll.in/latest/1000586/pegasus-woman-who-accused-former-cji-ranjan-gogoi-of-sexual-harassment-among-potential-targets

Case of sexual harassment charge against Justice Ranjan Gogoi,

On April 19, 2019, a former junior Court Officer alleged that she was sexually harassed by the Chief Justice of India, Ranjan Gogoi. She submitted documents substantiating her claims and wrote a letter to 22 other Supreme Court Justices. On April 20, Gogoi CJI called a special hearing and denied the allegations.

Massive controversy erupted in 2019 after a Supreme Court staffer alleged sexual harassment by CJI Ranjan Gogoi. The Supreme Court had taken a suo moto cognizance back then, and a three-judge bench on Thursday closed the case hinting at a "conspiracy."

After Ayodhya verdict, took the bench for dinner, and wine, picked tab: ex-CJI Ranjan Gogoi

After delivering a unanimous verdict in the Ram Janmabhoomi-Babri Masjid case on November 9, 2019, the then Chief Justice of India, Ranjan Gogoi, took his colleagues, who were part of the bench, for dinner to Hotel Taj Mansingh and ordered their best wine.

Case Verdict by RSS BJP Ranjan Gogoi after he was Rajya Sabha MP Now with the help of BJP.

This is one of the several critical incidents related to his career that has been brought to light by Gogoi, who is now a **Rajya Sabha MP**, in his autobiography titled Justice for the Judge: An Autobiography, from the press conference in 2018 by four senior judges and allegations of sexual

harassment against him to decisions taken during his tenure by the Supreme Court collegium.

https://indianexpress.com/article/india/after-ayodhya-verdict-took-bench-for-dinner-wine-picked-tab-ex-cji-ranjan-gogoi-7663263/

Judges are also the Human, and they also make the Mistake. This is Proved.

Bill Gates Visits the Modi

On November 17, 2019, Visits Before Pandemic Starts,

Bill Gates Visits PM Modi Amid 3-day-review Of His Foundation's Work in India

Bill Gates met Nitish Kumar, and Bill Gates praised the Bihar government's progress in fighting poverty and disease in the last 20 years.

Bill Gates to PTI

"Gates also complimented India's pioneering work in vaccine manufacturing, saying the Country has made an impactful contribution to improving people's lives. "When people think of India, they think of the I.T. services and the great work done there. Less visible but certainly very impactful for improving the human condition is the great work done by the vaccine manufacturers, whether its Serum, who's the largest, but a dozen others - Bharat Biotech, Bio-E, a number of companies,"

Bill Gates, November 2019, 17

REALITY and TRUTH of Corrupt Politicians' Influence on Indian Judiciary System / Department: Manipulating the Indian Constitution.

An Indian Judiciary and Police Departments are Fully Corrupted by Political Influence. Here Anyone can bribe the Police to escape from the cases and punishment. If you have just Rs. 5000 – 10000 in the dollar, $ 63.14 to $ 126.27, you can bribe the Corrupt Police Man; no FIR, No Case, Including a Murder case. Anyone escapes if he has political influence and lots of Money. Bill gates escaped from India. Police Stations are Like a Shopping in India. The Rich Peoples and Political or Politically Influenced Peoples are Always Above the Law. Even if they Murder Anyone, they will escape from the Indian Law because Corrupt Politicians damage Law. The Law has lots of Exceptions and Loop Holes for the Ministers. Indian Law has Lots of Loop Holes. Here Police Will act like the Court. Poor Peoples Always Punished by the Law, not Rich.

Rich Peoples above the Law and Power Rich Peoples are Always Above the Law even if they Commit Crime Against Humanity and Genocide against the World Population on a Global Scale or Global Length.

Destroying the Evidence by the Police, Manipulation in the FIR First Information Report. Slaves to the Corrupt Politicians.

Black Mailing Judges and Political Murders of the Judges are happening in India.

There are many Loop Holes in Indian Laws for Officials, Including Prime Minister and Politicians.,

Dangers of Aadhaar Card, Digital ID, Biometrics ID, and Connection to the Pegasus Spyware and Illegal Surveillance.

Digital ID

Aadhaar

Aadhaar means base or foundation, a 12-digit unique identity number that can be obtained voluntarily by the citizens of India, and resident foreign nationals who have spent over 182 days in twelve months immediately preceding the date of application for enrolment based on their biometric and demographic data.

But they started the Aadhaar as voluntarily, but now they are collecting every biological data of every citizen of India through biometrics.

They have every Indian Citizen of India, Including the Eye, Fingerprint, and Facial Recognition.

They can do anything they want by using those valuable data of their personal identity.

Aadhaar is also called the Digital ID. There may be a Big Link Between Aadhaar and the planned Coronavirus Pandemic.

Aadhaar used for the Pegasus spyware to Spy on Anyone who gave their Bio Metrics identity to this Corrupt Government?

This is about controlling the Freedom of Every citizen of India.

Pegasus is the Spyware Program; once it is injected into Mobile Phones through the Missed Call or Message. They can Hack Anything they Want.

They Can Operate Mobile Phones and can see through the mobile camera.

The Pegasus Spyware can hack anything, including Apple or Android Phones.

Even if Person Change their Mobile Phones, they can able to Hack their Devices. Because they have the Aadhaar, Aadhaar Contains the Fingerprints of Both Hands, Eye Data, and Facial Recognition.

Every Sim Card Number is Linked to the Aadhaar. They can easily retrieve the Phone Number even if they change it.

By using this Pandemic, the Globalists are Planning to Collect the Details of Every Individual in the World. So All Wold Economic Forum Globalists Global Leaders are Implementing the Digital ID by using this Planned Pandemic Situation Created by Them.

They can Manipulate the Verdict of the Judgments.

Their Target is only one thing; using this pandemic, they implement their plan, Digital ID and Everything.

Once they got the Data of Everyone. They will control everyone. They will watch every movement. They will even Blackmail for Personal Gain.

This is also called the Great Reset.

In India, They Started the Aadhaar as a Voluntary, Not Mandatory. On 24 August 2017, the Indian Supreme Court heard various cases relating to the validity of Aadhaar, Including Privacy, Surveillance, and exclusion from welfare Benefits.

On 9 January 2017, the five-judge Constitution bench of the Supreme Court of India reserved its judgment on the interim relief sought by petitions to extend the deadline making Aadhaar mandatory for everything from bank accounts to mobile services. The final hearing began on 17 January 2018.

In the September 2018 judgment, the Supreme Court nevertheless stipulated that the Aadhaar card is not mandatory for opening bank accounts, getting a mobile number, or being admitted to a school

Digital ID is an Enslavement of Modern Society

By using these types of Digital IDs, they can forcefully control over those Digital ID Enrolled persons. Their Privacy is in the Single Database. Once it’s Leaked, that means their Life is at Risk.

Manual Traditional ID Card is Enough. But in Digital ID Collecting the Eye Data, Fingerprints with the Total Hand are Dangerous to their Privacy.

Maybe their Data may be Sale for the Huge Amount, and It also can be sold to Any Private Individual by the Corrupted Government or Politicians in the Regime.

The legality of sharing data with law enforcement and the Uses of Aadhaar

In 2013 in Goa, the CBI was trying to solve the case of rape of a schoolgirl. It approached a Goa local court saying that they had acquired some fingerprints from the scene that could be matched with the UIDAI database. The court asked the UIDAI to hand over all data of all persons in Goa to the CBI.

Data leaks and security incidents

The Aadhaar database has experienced multiple data leaks and security breaches. These have ranged from the sale of unauthorized access by database administrators, the exposure of personal information on government websites, and unauthorized use and access of Aadhar data by private institutions.

Pegasus Spyware, the Illegal Surveillance on Public Peoples, Including Judges, Journalists, and Everyone for Political Retaliation and Political Gains, Also It Can be Used to Manipulate the Judges to Change the Verdicts, Pegasus can also Used to Manipulates and Change the Election Results by Black Mailing.

Pegasus Software is a Spyware tool produced by NSO Group of Israel.

Indian PM Narendra Modi Government, In 2017, the RSS BJP Regime Government bought the Pegasus spyware tool 2017 as part of a larger arms deal with Israel., according to a news report published by The New York Times.

Refer Here

https://thewire.in/tech/india-bought-pegasus-israel-nyt-report

The Guardian reported,

India's supreme court has ordered an independent inquiry into whether the government used the surveillance software Pegasus to spy illegally on journalists, activists, and political opponents.

The decision on Wednesday to create an independent committee to investigate whether and how the Indian state had used the Israeli spyware tool was a significant victory for privacy campaigners after years of stonewalling by Narendra Modi's government.

Pegasus is a cyber-weapon capable of hacking a target's smartphone, extracting its contents, and turning on its microphone and camera.

Refer Here: https://www.theguardian.com/news/2021/oct/27/indian-supreme-court-orders-inquiry-into-states-use-of-pegasus-spyware

Now they are Doing the tyranny and implementing their Digital ID at the World Level by Using this Planned Pandemic as an Opportunity in the Name of the Great Reset. They are Implementing the Digital ID to Enslavement the Entire Humanity.

Someone's Having the Identity of the Others will lead to the Problem for Everyone, When the Data are Stored in the Centralized Database.

In Aadhaar, the Stored Database has Finger Print of the Entire Hand, Eye Data, and Facial Data. What Happened if the All Data is Leaked? How Can We Trust the Peoples that they have the Biological Bio Metrics Electronic Data in Centralized Database?

If it is Leaked, that damage the Total Life of that Leaked person' Data.

Bill Gates and Big Pharma Companies

Bill Gates First met Adar Poonawalla On 2011 with some other vaccine manufacturers after the HPV Vaccine Deaths were Buried by the Inhumane News Media and Corrupt Government Officials and Representatives; Bill Gates Funded the SERUM Institute of India PVT. LTD.

Partnerships

Strategic Collaborators

Collaboration is an integral part of our success. Our alliances with pharmaceutical and biotech companies, government organizations, foundations and research institutes are helping us advance the development of mRNA medicines.

AstraZeneca

AstraZeneca is a pharmaceutical and biotechnology company with whom we have been working with since 2013.

Our partnership provides AstraZeneca with exclusive rights and licenses to research, develop and commercialize potential therapeutic mRNA medicines that target cardiovascular disease and cancer.

Merck

We established a multi-faceted relationship with Merck, a pharmaceutical company, in 2015.

This alliance is focused on the research, development, and commercialization of mRNA medicines for the prevention and treatment of viral infections and cancer.

Vertex

Vertex is a biopharmaceutical company with whom we are working with on the discovery and development of mRNA medicines for the treatment of cystic fibrosis (CF).

From treating the underlying cause of CF to exploring the potential utilization of pulmonary mRNA delivery, this alliance allows us to collaborate and explore the potential of mRNA medicines.

BARDA

BARDA (Biomedical Advanced Research and Development Authority) is a U.S. Department of Health and Human Services responsible for the procurement and development of medical countermeasures.

In September 2016, we received an award of up to approximately $125 million from BARDA to help fund our Zika vaccine program.

DARPA

DARPA (Defense Advanced Research Projects Agency) is a research and development agency of the United States Department of Defense responsible for the development of emerging technologies for use by the military.

In October 2013, DARPA awarded Moderna up to approximately $25 million to research and develop potential mRNA medicines to primarily support our vaccine and antibody programs to protect against Chikungunya infection.

Bill & Melinda Gates Foundation

The Bill & Melinda Gates Foundation is an American private foundation founded by Bill Gates and Melinda French Gates.

In January 2016, we entered a global health project framework agreement with the Bill & Melinda Gates Foundation to advance mRNA-based development projects for various infectious diseases.

Karolinska Institute and Karolinska University Hospital

The Karolinska Institute is a research-led medical university in Stockholm, Sweden. The Karolinska University Hospital is a teaching hospital affiliated with Karolinska Institute.

Moderna will sponsor research grants for scientists at both institutions to conduct preclinical research with novel mRNA Therapeutics™.

Institut Pasteur

The Institut Pasteur is a private, non-profit French foundation dedicated to the study of biology, microorganisms, diseases and vaccines.

Moderna will sponsor programs of preclinical and clinical research aimed at identifying and developing new approaches to combatting known and emerging viral and bacterial diseases using mRNA technology.

Genocide Crimes Against Humanity, Exhibit 7, Rakhesh Jaghadish L

Evidence N: Innocent Kid Died from COVID Vaccine.

Girl Loses vision days after COVID Vaccine, India.

Doctor Compelled the Parents that their kids just needed to inject with the vaccine.

On the 18th Vaccine was Injected into that Child, But Sadly, on January 16th, their son fell Unconscious and vomited, They took him to the Hospital, and the doctors declared him Dead.

Postmortem Report – No Reason Found for their son's Death. But the Reason is the Vaccine. This information was Taken from the Awaken India Movement [AIM]

Another Incidence:

Information Taken From the Awaken India Movement [AIM]

From IBA Has Filed the said Petition. That Dr. Snehal Lunawat died due to side effects of the COVID Shield Vaccine.

We, Will, Tell the Lot of Those Tragedy incidences Caused by the Ineffective Genocide Vaccine that Leads to Millions of Death.

Personal Statement

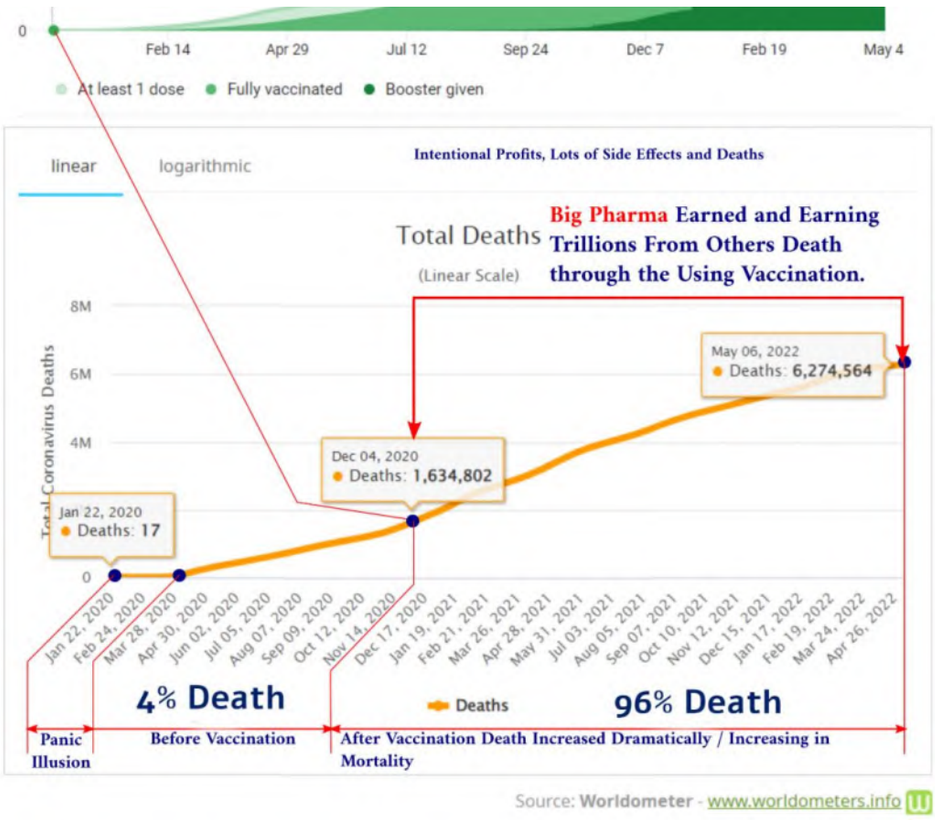

Elected Person of the People of the Nation doesn't have the right to snatch the People's Rights & Freedom, not even a single drop. Everyone has equal rights to live on this earth with complete freedom without any Impose.

Incl. International Government Organization. The Real Pain is that when we share the truth on Twitter like Big Tech Media, someone in a ruthless dictatorship labels that information as misinformation. Truth is Labeled as Misinformation. Because Truth is not fitted with their narrative and agenda. If there is no Security for the People, there is no Security for the Nations. A country is an asset to the People of that country. If the Elected Person against their Peoples. He will go Against the Country. COVID19 antigen test is an illusion and white-collar crime, including the RT PCR Test. The swab test is not 100 % Accurate. Lock-down not Protected People, It's Damaged the Life.

Big Pharma Earned & Earning Trillions From Others Death through the Using Vaccination. Even Corpse Never Do that Sin. Before Vaccination, 4% < After Vaccination, Death is Increased by 96%.

Vaccine Causing the Incurable Disease, Virus, and Deaths. Claims, Below Pages with Proof: That Means The Vaccinated People Died More than the Unvaccinated people. Because, There is No Virus, This is an Illusion and Planned Pandemic.

These Genocide Vaccines act as Slow Poison Also, Which Means Vulnerable Peoples Will Suddenly Die, and Medium Healthy or Healthy Peoples Die Later, It takes Some Years.

Common Sense Chart of the Pre-planned Pandemic.

If We think with Common Sense, We can understand that After-Vaccination, Death Increased in the World Population. The WHO World Health Organization, United Nations, and WEF World Economic Form Member used COVID19 Coronavirus Term Word to Create Fear and Panic in the World Peoples. And Earned Trillions of Money from their Pains and Deaths.

Request to the News Media, May 10, 2022,

Everyone knows that people all over the world did not die From the COVID 19 Coronavirus. Only the Injected Person knows the pain of the Side Effects. The injector will never feel that pain because they have no sensations. Every major media outlet is complicit in this crime against humanity. An Including the Big Tech Social Media like Google, Facebook, Twitter and YouTube, and More. The media has abandoned the people's voice, suppressed the voices of countless human beings, and failed to save them. Media virtue of acting with a conscience. You all have thrown it all away and buried humanity in the abyss. No Single Media not Supported and visualized the Affected people by the Vaccine's Side Effects.

Only Inhumane can do that sin. Betray the trust of the people who trust you. Only humans can understand the pain of Others. Inhumane Media all strangled the people's necks by burying the truth, their pain, and suffering. The best example of the current conflict is that the media can create war and stop the fight when needed. Every human being needs humanity / Humanism. If there is no humanity, there will never be peace ever flower. My Kind request and all over the people in the earth world is to the Independent Public media need to work with consensus, conscience, and Humanity. The Past two Years is Fully tried to Manipulate people's thoughts and brains. But It's Proved No one Can Manipulate Nature. Nature has its Path. Every media should adhere to truth, freedom, honesty, impartiality, humanity, respect, and Accountability. People Lost the Trust in Mainstream Media.

Thank You!

Rakhesh Jaghadish L

May 10, 2022

The drama of the Presidents, Prime Ministers, Other Officials, and Some Rich Peoples Started saying they Got COVID, But They Telling the Same Lie

All Global Leaders and businesses Mans Start Getting Fake COVID19 to Fool the World Peoples that they got COVID. But there are No Rich Peoples Who Died from COVID.

On May 10, Bill Gates suddenly got COVID, and then within a few days, they told the Media they had Cured.

Then After Within a few days, They Telling They Got COVID19 Coronavirus. So their Actions are Proved that they Lying to the World Peoples. And Making the Common Peoples Need to Trust that they got COVID. Because they were again doing the Same Trick that COVID is Real.

THE HISTORY OF THE PANDEMICS, VACCINATION, and CLASSIFICATIONS

History of Virus, Bioweapons, and Vaccines

Virus

A virus is a submicroscopic infectious microbe agent that replicates only inside the living cells of an organism, often causing Disease and Death.

Bioweapons

Bioweapons – Biological Weapons are the Most Dangerous weapon in this world. Biological and toxin weapons are microorganisms like viruses, bacteria or fungi, or toxic substances produced by living organisms that are produced and released deliberately to cause Disease and Death in humans, animals, or plants.

History of the Bioweapons Events

Year	Event
1155	Emperor Barbarossa poisons water wells with human bodies, Tortona, Italy
1346	Mongols catapult bodies of plague victims over the city walls of Caffa, Crimean Peninsula
1495	Spanish mix wine with the blood of leprosy patients to sell to their French foes, Naples, Italy
1650	Polish fire saliva from rabid dogs toward their enemies
1675	The first deal between German and French forces was not to use 'poison bullets.'
1754 to 1767	Smallpox was used as a biological weapon during the French and Indian Wars (1754 to 1767) when British soldiers distributed smallpox-infected blankets to American Indians.
1763	British distributed blankets from smallpox patients to Native Americans
1797	Napoleon floods the plains around Mantua, Italy, to enhance the spread of malaria
1863	Confederates sell clothing from yellow fever and smallpox patients to Union troops, USA
1980	The Soviet Union developed variola as an aerosol biological weapon and produced tons of virus-laden material for release via intercontinental ballistic missiles.

History of the Pandemic Events

Year	Description
1346-1353	Black Death, Great Mortality
1918-1920	Spanish flu, Influenza A/H1N1 killed more than 100 million.
1576-1580	Cocoliztli epidemic of 1576
1894	The First Polio Epidemic
1957–1958	Influenza pandemic
1968–1969	Hong Kong flu
1979	Anthrax, Russia, Sverdlovsk anthrax leak
1981	**The AIDS epidemic officially began on June 5, 1981. HIV and AIDS**
1984	1984 Western Sahara plague
1986	Oju yellow fever epidemic, Oju, Nigeria
1988	Shanghai hepatitis A epidemic
1991	Cholera, Bangladesh
1994	India, Bubonic plague and Pneumonic plague
1996–2001	United Kingdom BSE outbreak
1998–1999	Malaysia, Nipah virus infection
1998–2000	In the Democratic Republic of the Congo, the Marburg virus
2001	South Africa, Cholera
2002–2004 SARS outbreak	**Worldwide, Severe acute respiratory syndrome / SARS**
2003–2019	2003–2019 Asia and Egypt avian influenza epidemic, China, Southeast Asia and Egypt Influenza A virus subtype H5N1

History of the Vaccination Events

Year	Description
1796	Edward Jenner is considered the founder of vaccinology in the West in 1796 after he inoculated a 13 year-old-boy with the vaccinia virus (cowpox) and demonstrated immunity to smallpox. In 1798, the first smallpox vaccine was developed. Over the 18th and 19th centuries, systematic implementation of mass smallpox immunization culminated in its global eradication in 1979. Over the 18th and 19th centuries, systematic implementation of mass smallpox immunization culminated in its global eradication in 1979.
1800	The smallpox vaccine was introduced in the United States around 1800 by Dr Benjamin Waterhouse at Harvard University, who received the vaccine from Dr. John Haygarth of Bath, and Sommerset, who received it from Edward Jenner. Severe smallpox disease caused by the Variola major virus was already eliminated from the United States by 1927. Still, annual epidemics of the less severe Variola minor virus continued until the Disease was eradicated in the late 1940s.
1881, 1885, 1897	In 1881, he helped develop a vaccine for anthrax, which was used successfully in sheep, goats and cows. Then, in 1885, Pasteur tested his first human vaccine while studying rabies. Pasteur produced the vaccine by attenuating the Virus in rabbits and harvesting it from their spinal cords.
In 1935	In 1935, Brodie tried an inactivated vaccine with 10% formalin suspension of P.V. taken from infected monkey spinal cord; he tried it first on 20 monkeys, then on 3000 Californian children. The results were poor, and additional human studies were never performed. The discovery that the various antigenic strains of P.V.s could be grouped into three distinct viral types and the propagation of the P.V. in vitro led to the development of the vaccines against poliomyelitis: the formalin-inactivated vaccine (IPV) by Jonas Salk (1953) and the

	live-attenuated vaccines (OPV) by Albert Sabin (1956).
The 1950s, 1955	Salk polio vaccine was licensed in 1955, and polio incidence rates decreased substantially in the succeeding years. Salk tested his experimental killed-virus vaccine on himself and his family in 1953, and a year later on 1.6 million children in Canada, Finland, and the USA. Russian virologists visited his lab in 1956; Sabin travelled to Leningrad and Moscow to work with them later that year. Trials carried out in the Soviet Union, on 20 000 children in 1958 and 10 million children in 1959, and in Czechoslovakia, on over 110 000 children from 1958 to 1959, proved the vaccine was safe and effective. In April 1955, Salk's vaccine was adopted throughout the United States. The incidence of paralytic poliomyelitis in the United States decreased from 13.9 cases per 100 000 in 1954 to 0.8 cases per 100 000 in 1961 In 1950, Koprowski began experiments with a rodent-adapted type 2 P.V. that had been fed to a small group in California. He, Cox, and their associates had fed millions worldwide with the three types of viruses[19]. The isolation of P.V. with the properties of the Cox strain from the brain tissue of the dead father of a vaccinated child was followed by the withdrawal of this strain
1955	In April 1955, more than 200 000 children in five Western and mid-Western USA states received a polio vaccine in which the process of inactivating the live Virus proved defective. Within days there were reports of paralysis, and the first mass vaccination programme against polio had to be abandoned within a month. Subsequent investigations revealed that the vaccine, manufactured by the California-based family firm Cutter Laboratories, had caused 40 000 cases of polio, leaving 200 children with varying degrees of paralysis and killing 10.
1957 to 1959	It has contaminated the polio vaccine that was administered to inhabitants of Equatorial Africa. Polio vaccines and the origin of AIDS.
1962	In 1962, Cuba began administering OPV in nationwide immunization programs. OPV had an additional advantage that paved the way for eradication. IPV protected the vaccinated child but did not prevent the spread of poliovirus

	among children. The first nationwide polio vaccination campaign was in Cuba in 1962
1963	Measles, rubella, and mumps occurred in well-characterized annual and biannual epidemics, with a median incidence rate before the introduction of a vaccine of 317.1, 28.1, and 89.5 cases per 100,000 population, respectively. The Edmonston measles vaccine was licensed in 1963, and measles incidence rates declined rapidly afterward, whereas rubella and mumps persisted until the late 1970s despite vaccine licensure in 1969 and 1967, respectively. Vaccination programs that started in the late 1970s (the Measles Immunization Initiative and the National Childhood Immunization Initiative) and the introduction of the combined measles–mumps–rubella (MMR) vaccine in 1978 led to significant reductions in the transmission of these diseases.
1979	In 1979 Rotary International started a multi-year project to immunize 6 million children in the Philippines.
1988	In 1988, the World Health Assembly passed a resolution to eradicate polio – to achieve its permanent reduction to zero, with no risk of reintroduction – and in the same year, the Global Polio Eradication Initiative (GPEI) was launched.

POLIO, SMALL POX VACCINATION 1950s and HIV AIDS DISEASE 1980s,

AIDS, The Epidemic Started on 1981,

Discovery of HIV

In 1982, Willy Rozenbaum, a clinician at the Hôpital Bichat hospital in Paris, asked Montagnier for assistance in establishing the cause of a mysterious new syndrome, AIDS (known at the time as "gay-related immune deficiency" or GRID).

It was even called the "gay plague" for many years after. In September of 1982, the CDC used the term AIDS to describe the Disease for the first time.

https://www.mayoclinicproceedings.org/article/S0025-6196(11)61990-3/fulltext

Polio Epidemics were raging throughout the world in the late 1940s.

1957

Claims, Before the AIDS Epidemic, begins they injected the Experimental CHAT Vaccination in Africa (1957-1960).

Experimental Oral Polio Vaccines and Acquired Immune Deficiency Syndrome, Edward Hooper c/o Penguin Books, 27 Wrights Lane, London W8 5T£, U.K. (fdhooper@,withy.f9.co.uk), Reanalyzed

Chimpanzee immunodeficiency virus (SIV) is widely considered to be the direct ancestor of HIV-1. There is growing historical evidence that kidneys were routinely collected from Central African chimpanzees in the late 1950s by scientists working with Dr. Hilary Koprowski's polio vaccine research and sent to vaccine production laboratories in LISA and Africa and unknown locations in Belgium, among other places. While there is no direct evidence that cells from these kidneys were used as a substrate for Dr. Koprowski's oral polio vaccine breeding, there is a striking correspondence between the sites in Africa where his CHAT vaccine was fed and the first appearance of HIV-1 group M and group M-related AIDS. Because of the enormity of the hypothesis that AIDS may be an unintentional iatrogenic (caused by physicians) Disease, it is almost inevitable that this theory will provoke fierce opposition from many in the scientific establishment and those with vested interests.

Keywords: chimpanzees; kidneys; oral polio vaccine; HIV-1 group M; origins; iatrogenic

Timelines of Present Coronavirus Like Pandemic on 1981 Called HIV AIDS,

1981

On 1981, The United States of America, June 5, The U.S. Center for Disease Control (CDC) published an article in its Morbidity and Mortality Weekly Report (MMWR): Pneumocystis Pneumonia—Los Angeles. The article describes cases of a rare lung infection, Pneumocystis carinii pneumonia (PCP), in five young, previously healthy gay men in Los Angeles. Los Angeles immunologist Dr. Michael Gottlieb, CDC's Dr. Wayne Shandera, and their colleagues report that all the men have other unusual infections, indicating their immune systems are not working. Two have already died by publishing the report, and the others will die soon after. This edition of the MMWR marks the first official reporting of what will later become known as the AIDS (Acquired Immunodeficiency Syndrome) epidemic.

June 5: The same day the MMWR is published, New York dermatologist Dr. Alvin Friedman-Kien calls CDC to report a cluster of cases of a rare and unusually aggressive cancer—Kaposi's Sarcoma (K.S.)—among gay men in New York and California. Like PCP, KS is associated with people who have weakened immune systems.

June 5-6: The Associated Press, the Los Angeles Times, and the San Francisco Chronicle report on the MMWR article. Within days, CDC receives reports from around the nation of similar cases of PCP, KS, and other opportunistic infections among gay men.

June 8: In response to these reports, CDC establishes the Task Force on Kaposi's Sarcoma and Opportunistic Infections to identify risk factors and

to develop a case definition for the as-yet-unnamed syndrome so that the CDC can begin national surveillance of new cases.

June 16: A 35-year-old white gay man exhibiting symptoms of severe immunodeficiency is the first person with AIDS to be admitted to the Clinical Center at the National Institutes of Health (NIH). He never leaves the Center and dies on October 28.

December 10: Bobbi Campbell, a San Francisco nurse, becomes the first K.S. patient to go public with his diagnosis. Calling himself the "K.S. Poster Boy," Campbell writes a newspaper column, "Gay Cancer Journal," on his experiences living with K.S. for the San Francisco Sentinel. He also posts photos of his K.S. lesions in the window of a local drugstore to alert the community to the Disease and encourage people to seek treatment.

By year's end, there is a cumulative total of 337 reported cases of individuals with a severe immune deficiency in the United States—321 adults/adolescents and 16 children under age 13. Of those cases, 130 are already dead by December 31.

1982

January 4: Gay Men's Health Crisis (GMHC), the first community-based AIDS service provider in the United States, was founded in New York City. In May, volunteer Rodger McFarlane sets up a GMHC information and counselling hotline on his home phone—he receives 100 phone calls from worried gay men the first night.

April 13: U.S. Representative Henry Waxman convenes the first congressional hearings on AIDS at the Los Angeles Gay and Lesbian

Community Services Center in Hollywood, California. At the hearing, Dr. James Curran, head of the Center for Disease Control's (CDC) Task Force on Kaposi's Sarcoma and Opportunistic Infections, estimates that tens of thousands of people may already be affected by the Disease.

May 9: San Francisco dermatologist Dr. Marcus Conant and gay activist Cleve Jones joined to form The Kaposi's Sarcoma Research and Education Foundation. The goal is to provide information on Kaposi's Sarcoma (K.S.) to local gay men. The organization will ultimately become the San Francisco AIDS Foundation.

May 11: The New York Times publishes the first mention of the term "GRID" (Gay-Related Immune Deficiency), which some researchers use to describe the new epidemic. The term will deepen the public perception that AIDS affects only gay men.

May 31: The Los Angeles Times publishes the first front-page story on AIDS in the mainstream press: "Mysterious Fever Now an Epidemic."

June 18: CDC publishes "A Cluster of Kaposi's Sarcoma and Pneumocystis carinii Pneumonia among Homosexual Male Residents of Los Angeles and Orange Counties, California"—a Morbidity and Mortality Weekly Report (MMWR) that makes the first connection between a potential sexually transmitted agent and the outbreaks of K.S., Pneumocystis carinii pneumonia (PCP), K.S., and other opportunistic infections among young gay men.

June 27: A gay activist group in San Francisco publishes the first pamphlet on "safer sex" and distributes 16,000 copies at the International Lesbian & Gay Freedom Day Parade.

July 16: CDC publishes another MMWR article, "2Epidemiologic Notes and Reports Pneumocystis carinii Pneumonia among Persons with Hemophilia A." It is the first report of immunosuppression in haemophilia patients with no other known risk factors for AIDS. Two of the three patients profiled in the report had already died by publication.

September 24: CDC uses the term "AIDS" (Acquired Immune Deficiency Syndrome) for the first time in a new MMWR and releases the first case definition for AIDS: "A disease at least moderately predictive of a defect in cell-mediated immunity, occurring in a person with no known cause for diminished resistance to that disease."

September 28: Rep. Phillip Burton and Rep. Ted Weiss joined in introducing the first legislation to allocate funding for AIDS research. The resolution dies in committee. Congress will not approve the first dedicated funding for AIDS research and treatment until July 1983.

November 5: CDC's "Current Trends Acquired Immune Deficiency Syndrome (AIDS): Precautions for Clinical and Laboratory Staffs" lays out the first set of precautions for clinical and laboratory staff working with people exhibiting signs of AIDS.

December 10: CDC's "Epidemiologic Notes and Reports Possible Transfusion-Associated Acquired Immune Deficiency Syndrome (AIDS) -- California" notes that a 20-month-old white infant who required multiple blood transfusions at birth has developed unexplained cellular immunodeficiency and opportunistic infections. Donor tracing reveals that one of the baby's blood donors died of AIDS in August.

December 17: CDC's latest MMWR, "Unexplained Immunodeficiency and Opportunistic Infections in Infants -- New York, New Jersey, California," reports another 22 cases of unexplained immunodeficiency and opportunistic infections in infants. The article states, "It is possible that these infants had the acquired immune deficiency syndrome (AIDS)," but stops short of making a definitive diagnosis.

1983

January 1: Ward 86, the world's first dedicated outpatient AIDS clinic, opens at San Francisco General Hospital. The clinic is a collaboration between the hospital and the University of California, San Francisco, and it draws staff passionate about treating people with AIDS. Over time, the staff develop the San Francisco Model of Care, which emphasizes: treating patients with compassion and respect, providing an array of health and social services in one facility, and collaborating closely with the local health department and community organizations. The model eventually became the global gold standard for HIV patient care.

January 4: The U.S. Center for Disease Control (CDC) hosts a public meeting to identify opportunities to protect the nation's blood supply from AIDS. Representatives from the U.S. Food and Drug Administration (FDA), the National Institutes of Health (NIH), the blood services and haemophilia communities, and gay activists attend. Still, participants fail to reach a consensus on appropriate action.

January 7: CDC'sMorbidity and Mortality Weekly Report (MMWR) reports the first cases of AIDS in women: Epidemiologic Notes and Reports Immunodeficiency among Female Sexual Partners of Males with Acquired Immune Deficiency Syndrome (AIDS) -- New York.

March 4: CDC's MMWR article Current Trends Prevention of Acquired Immune Deficiency Syndrome (AIDS): Report of Inter-Agency Recommendations" notes that most cases of AIDS have been reported among gay men with multiple sexual partners, people who inject drugs, Haitians, and people with haemophilia. The report suggests that AIDS may be caused by an infectious agent transmitted sexually or through exposure to blood or blood products and issues recommendations for preventing transmission.

March 14: AIDS activist Larry Kramer publishes a blistering assessment of the impact of AIDS on the gay community in the New York Native. The essay, 1,121 and Counting, is a frantic plea for that community to get angry at the lack of government support for sick and dying gay men and the slow pace of scientific progress in finding a cause for AIDS.

May: Richard Berkowitz and Michael Callen—both men, living with AIDS—publish a booklet on "safer sex" titled How to Have Sex in an Epidemic: One Approach. It advocates condom use for gay men and focuses on self-empowerment for those living with AIDS.

May 3: The Kaposi's Sarcoma Foundation sponsors the first AIDS Candlelight Vigils in San Francisco and New York. It is the first time people with AIDS have come together in a public demonstration. Photos of the event are circulated worldwide—shedding some of the first light on the growing health crisis and humanizing those affected.

May 18: The U.S. Congress passed the first bill that includes funding specifically targeted for AIDS research and treatment—$12 million for agencies within the U.S. Department of Health and Human Services.

May 20: Dr. Françoise Barré-Sinoussi and her colleagues at the Pasteur Institute in France report the discovery of a retrovirus that could cause AIDS. In 2008, she will share the Nobel Prize in Medicine for this discovery with her colleague, Dr. Luc Montagnier.

May 25: The New York Times publishes its first front-page story on AIDS: "Health Chief Calls AIDS Battle' No. 1 Priority'." The article reports on the federal response to the growing AIDS epidemic. By the time it was published, 1,450 cases of AIDS had been reported, and 558 of those individuals had died.

June 12: Eleven gay men living with AIDS take over the plenary stage at the National AIDS Forum in Denver. They state the rights of people living with AIDS to be at the table when the policy is made, to be treated with dignity, and to be called "people with AIDS," not "AIDS victims." The statement becomes known as The Denver Principles [PDF, 19 K.B.], and it serves as the charter for founding the National Association of People with AIDS.

July 1: The U.S. Public Health Service opens the National AIDS Hotline to respond to public inquiries about the Disease. By July 28, the hotline has to be expanded from three phone lines to eight because 8,000-10,000 callers are phoning daily.

July 25: After a petition by psychiatric nurse Cliff Morrison, San Francisco General Hospital opened Ward 5B, the first dedicated in-patient AIDS ward in the U.S. Within days, its 12 beds were fully occupied. The ward is run by Morrison and an all-volunteer staff—from nurses to janitors—who offer compassionate, holistic care for AIDS patients.

August: The National Institute of Allergy and Infectious Diseases begins publishing an informal newsletter, the AIDS Memorandum [PDF, 1.1MB], through which scientists can share unpublished research findings. This publication lasts two years until mainstream scientific journals begin expediting publication for articles on AIDS.

August 1-2: The U.S. House of Representatives Subcommittee on Government Operations holds hearings on the federal response to AIDS.
August 8: AIDS activist Bobbi Campbell appears with his partner, Bobby Hilliard, on the cover of Newsweek magazine for the story, "Gay America: Sex, Politics, and the Impact of AIDS." It is the first time two gay men are pictured embracing one another on the cover of a U.S. mainstream national magazine.

September 2: In response to growing concerns about the potential for transmission of AIDS in healthcare settings, CDC published the first set of occupational exposure precautions for healthcare workers and allied health professionals.

September 9: In its latest edition of the MMWR, "Current Trends Update: Acquired Immunodeficiency Syndrome (AIDS) -- United States," CDC identifies all major routes of HIV transmission—and rules out transmission by casual contact, food, water, air, or environmental surfaces.
September 30: After New York City physician Joseph Sonnabend is threatened with eviction from his office building for treating patients with AIDS, the State's Attorney General and Lambda Legal join together to file the first AIDS discrimination lawsuit.

November 22-25: The World Health Organization holds its first meeting to assess the global AIDS situation and begins international surveillance.

April 23: U.S. Department of Health and Human Services Secretary Margaret Heckler announces that Dr. Robert Gallo and his colleagues at the National Cancer Institute have found the cause of AIDS, a retrovirus labelled HTLV-III. Heckler also announced the development of a diagnostic blood test to identify HTLV-III and expressed hope that a vaccine against AIDS would be produced within two years.
July 13: A Morbidity and Mortality Weekly Report from the U.S. Center for Disease Control states that avoiding injection drug use and reducing needle-sharing "should also be effective in preventing transmission of the virus."

August 15: AIDS activist Bobbi Campbell dies of AIDS-related illness at age 32.

October 9: The New York Times reports that new scientific evidence has raised the possibility that AIDS may be transmissible through saliva. It will be another two years before proof emerges that this is not the case.

October 10: San Francisco public health officials ordered bathhouses closed due to high-risk sexual activity in these venues.

1984

April 23: U.S. Department of Health and Human Services Secretary Margaret Heckler announces that Dr. Robert Gallo and his colleagues at the National Cancer Institute have found the cause of AIDS, a retrovirus labelled HTLV-III. Heckler also announced the development of a

diagnostic blood test to identify HTLV-III and expressed hope that a vaccine against AIDS would be produced within two years.

July 13: A Morbidity and Mortality Weekly Report from the U.S. Center for Disease Control states that avoiding injection drug use and reducing needle-sharing "should also be effective in preventing transmission of the virus."

August 15: AIDS activist Bobbi Campbell dies of AIDS-related illness at age 32.

October 9: The New York Times reports that new scientific evidence has raised the possibility that AIDS may be transmissible through saliva. It will be another two years before proof emerges that this is not the case.

October 10: San Francisco public health officials ordered bathhouses closed due to high-risk sexual activity in these venues.

1987

January 11: The U.S. Center for Disease Control (CDC) revises the AIDS case definition to note that a newly identified virus causes AIDS. CDC also issues provisional guidelines for blood screening.

March 2: The U.S Food and Drug Administration licenses the first commercial blood test, ELISA, to detect HIV. Blood banks begin screening the U.S. blood supply.

April 15–17: The U.S. Department of Health and Human Services and the World Health Organization host the first International AIDS Conference in Atlanta, Georgia.

April 10: CDC removes Haitians from the list of those at increased risk for AIDS.

April 22: AIDS activist Larry Kramer's autobiographical play, The Normal Heart, opens Off-Broadway at the Public Theater. The play covers the impact of the growing AIDS epidemic on the New York gay community between 1981-1984. It highlights the growing rifts between those—like the play's protagonist, Ned Weeks (Kramer's alter ego)—who are desperately banging on the doors of government and science in an attempt to stave off the annihilation of gay men and those who focus instead on building new institutions that will care for the sick and the dying.

May 1: As Is, the first play about AIDS to make it to Broadway opens. The plot focuses on a gay couple who have broken up—but when one of them develops AIDS, his ex-partner returns to take care of him—"as is." The play gets excellent reviews and runs for 285 performances.

July 25: Actor Rock Hudson, who played leading roles in over 60 Hollywood films, announces he has AIDS —the first major U.S. public figure to do so. His acknowledgement marks a turning point in public perceptions about the epidemic, and AIDS stories in the major print media more than triple in the next six months.

August 27: Ryan White, an Indiana teenager who contracted AIDS through contaminated blood products to treat his haemophilia, is refused entry to his middle school. His family's protracted legal battles to protect Ryan's right to attend school call national attention to the issue of AIDS, and Ryan chooses to speak out publicly on the need for AIDS education.

August 31: The Pentagon announces that beginning October 1, it will begin testing all new military recruits for HIV infection and will reject those who test positive for the Virus.

September 17: President Ronald Reagan mentions AIDS publicly for the first time, calling it "a top priority" and defending his administration against criticisms that funding for AIDS research is inadequate.

October 2: Rock Hudson dies of AIDS-related illness at age 59. In his will, Hudson leaves $250,000 to help set up the American Foundation for AIDS Research (amfAR). Actress Elizabeth Taylor serves as the organization's founding National Chairman.

October 2: The U.S. Congress allocates nearly $190 million for AIDS research —an increase of $70 million over the Reagan Administration's budget request. The House Appropriations Committee also urges President Reagan to appoint an "AIDS czar."

October 25: The New York State Public Health Council empowers local health officials to close gay bathhouses, bars, clubs, and other places where "high-risk sexual activity takes place."

December 4: The Los Angeles County Board of Supervisors enacts strict regulations on local bathhouses to stop the spread of HIV. Bathhouse owners file suit to stop the regulations from going into effect. In August 1986, the court sides with the owners, saying that the venues offer opportunities to provide HIV/AIDS education.

December 6: CDC publishes a Morbidity and Mortality Weekly Report with recommendations on preventing mother-to-child transmission of HIV. They include: delaying pregnancy until more is known about the

risks of transmission and avoiding breastfeeding. As of December 1, there have been 217 reported cases of AIDS among children under age 13, and 60% of them have died by publication.

December 13: Pennsylvania toddler Dwight Burk, aged 20 months, dies of AIDS. He is the first child of a haemophiliac to be born with AIDS.

December 13: The Pasteur Institute files suit against the U.S. Government (USG) in the United States Court of Claims in Washington, DC. The suit asks for recognition that French researchers were the first to discover the Virus that causes AIDS; permission for companies it licenses to sell the blood test without being sued by the USG for counterfeiting; and the right to share in royalties collected by the USG for sales of blood tests by its licensees.

December 19: A Los Angeles Times poll finds that most Americans favour quarantining people with AIDS. By year's end, the United Nations states that at least one HIV case has been reported from each region of the world. [PDF, 49KB].

1987

In February, AIDS activist Cleve Jones created the first panel of the AIDS Memorial Quilt to honour his friend Marvin Feldman, who died on October 10, 1986, of AIDS-related illness at age 33. The quilt panels are 3 feet wide by 6 feet long—the size and shape of a typical grave plot.

February 1: The World Health Organization (WHO) launches The Special Programme on AIDS to raise awareness; formulate evidence-based policies; provide technical and financial support to countries; initiate relevant social, behavioural, and biomedical research; promote

participation by nongovernmental organizations; and champion rights of those living with HIV. In 1988, it will be renamed the Global Programme on AIDS.

February 4: Emmy-award-winning pianist Liberace dies at his home in California at age 67. His doctor claims that Liberace died of a heart attack caused by an underlying brain infection. But the county coroner orders an autopsy, which proves that the entertainer died of AIDS-related illness. The case demonstrates the powerful stigma of AIDS and leads to a national discussion about the rights of people living with AIDS to privacy before and after Death.

March 12: AIDS activist Larry Kramer founds the AIDS Coalition to Unleash Power (ACT UP) in New York City. Kramer's goal is to create a political direct-action group that will force governments, elected officials, public health agencies, the pharmaceutical and insurance industries, and religious institutions to act to protect those at risk of HIV and those sick with AIDS. TIME Magazine calls ACT UP "the most effective health activist [group] in history" for "pressuring drug companies, government agencies and other powers that stood in their way to find better treatments for people with AIDS — and, in the process, improving the way drugs are tested and approved in the U.S."

March 19: The U.S. Food and Drug Administration (FDA) approved the first medication for AIDS—AZT (zidovudine), an antiretroviral drug initially developed to treat cancer.

March 19: FDA issues regulations that expand access to promising new medications that have not yet been approved or licensed by the agency. This accelerates drug approval by 2-3 years.

March 24: ACT UP stages its first protest on Wall Street. Protestors demand immediate action on a variety of issues, including having the FDA immediately release potentially lifesaving investigational drugs to everyone with AIDS or AIDS-related complex; immediate abolition of government-funded double-blind studies; availability of drugs at affordable prices; a massive public education to stop the spread of AIDS; policy to prohibit discrimination in AIDS treatment, insurance, employment, and housing; and establishment of a coordinated, comprehensive, and compassionate national policy on AIDS.

March 31: President Ronald Reagan and French Prime Minister Jacques Chirac ended an international scientific dispute when they announced that researchers from the two countries would share credit for discovering the AIDS virus. The countries agree that patent rights to a blood test that emerged from that discovery will also be shared, with most of the royalties to be donated to a new foundation for AIDS research and education.

April 6-9: The U.S. Surgeon General, Dr. C. Everett Koop, hosts a workshop on children with HIV infection and their families. Participants include families affected by HIV, leading HIV researchers and clinicians, mental health professionals, public health officials, and representatives from the insurance, legal, and nonprofit organizations. The workshop report calls for numerous changes in how the nation addresses pediatric HIV/AIDS [PDF, 7.46MB], including more access to trial medications and support for attending school.

April 7: FDA declares HIV prevention as a new indication for male condoms.

April 19: Princess Diana makes international headlines when she is photographed shaking the hand of an HIV-positive patient in a London hospital. She goes on to become a passionate advocate for people living with HIV and to speak forcefully against HIV/AIDS-related stigma and discrimination.

April 29: FDA approves a new, more specific test for HIV antibodies: the Western blot blood test kit.

May 15: The U.S. Public Health Service adds HIV as a "dangerous contagious disease" to its immigration exclusion list and mandates testing for all visa applicants. The HIV ban will not be lifted until January 4, 2010.

May 31: President Reagan makes his first public speech about AIDS.

June 24: President Reagan signs an Executive Order creating the first Presidential Commission on AIDS.

August 4: A task force of the Society of Actuaries issues a report claiming that the cost of AIDS to insurance companies could exceed $50 billion by 2000.

August 5: A federal judge orders Florida's DeSoto County School Board to enrol HIV-positive brothers Ricky, Robert, and Randy Ray. The board had refused to allow the three boys, who have haemophilia, to attend. After the ruling, outraged town residents refused to allow their children to attend school, and someone destroyed the Ray house on August 28.

August 14: CDC issues Perspectives in Disease Prevention and Health Promotion: Public Health Service Guidelines for Counseling and Antibody Testing to Prevent HIV Infection and AIDS.

August 18: FDA sanctions the first human testing of a candidate vaccine against HIV.

August 21: CDC issues Recommendations for HIV transmission prevention in Healthcare Settings. The recommendations call for healthcare workers to practice universal precautions.

September 30: CDC launches the first AIDS-related public service announcement, America Responds to AIDS, to kick off the newly designated AIDS Awareness Month in October. The campaign is a multipart public-awareness initiative that "focuses on reaching a wide range of audiences defined by identity or behaviour…." The campaign reaches millions, becoming a central prong in the "everyone is at risk" strategy of AIDS prevention.

October: A Gallup poll finds that 68% of those polled call AIDS "the most urgent health problem facing the world.

October 11: The AIDS Memorial Quilt is displayed on the National Mall in Washington, DC, for the first time. The display features 1,920 4x8 panels and draws half a million visitors.

October 14: In a 94-2 vote, the U.S. Senate adopts the Helms Amendment, which requires federally financed educational materials about AIDS to stress sexual abstinence and forbids any material that "promotes" homosexuality or drug use.

October 22: AIDS became the first Disease ever debated on the floor of the United Nations General Assembly (UNGA). The UNGA resolves to mobilize the entire United Nations system in the worldwide struggle against AIDS and designates the WHO to lead the effort.

November: Journalist Randy Shilts' book about the early years of the HIV/AIDS epidemic, And the Band Played On: Politics, People and the AIDS Epidemic, is published.

November: Debra Fraser-Howze, director of teenage services at the Urban League of New York, founded the National Black Leadership Commission on AIDS. The organization works to educate, mobilize, and empower black leaders to meet the challenge of fighting HIV/AIDS and other health disparities in their local communities.

November 13: The American Medical Association declares that doctors have an ethical obligation to care for people with AIDS and those who have been infected with the Virus but show no symptoms.

1988

March 3: Ryan White, the Indiana teenager who has become a national spokesperson for AIDS education, testifies about the stigma he has endured due to AIDS before the President's Commission on AIDS.

May 26: The U.S. Surgeon General, C. Everett Koop, launches the United States' first coordinated HIV/AIDS education campaign by mailing 107 million copies of an 8-page booklet, Understanding AIDS [PDF, 1.1MB], to all American households. The pamphlet is the largest public health mailing in history—and the first time that the federal government provides explicit sex information to the public. An additional four million copies are printed in Spanish and delivered to Latinx organizations to be distributed locally.

July 23: The U.S. Food and Drug Administration (FDA) announces that it will allow the importation of small quantities of unapproved drugs for people with life-threatening illnesses, including HIV/AIDS.

August: The U.S. Health Resources and Services Administration (HRSA) awards $4.4 million in grants to 11 states and Puerto Rico for the first pediatric AIDS service demonstration projects. The projects are expected to demonstrate effective ways to reduce mother-to-child transmission of HIV, develop coordinated, community-based and family-centred services for infants and children living with HIV, and develop programs to reduce the spread of HIV to vulnerable populations of young people.

August 9: Drug counsellor David Purchase sets up the nation's first needle-exchange program to combat the spread of HIV on a sidewalk in Tacoma, Washington. Although he has secured support from the mayor and the police chief for his one-person effort, Purchase has to pay for the needles out of pocket. Within five months, he exchanged 13,000 clean needles for contaminated ones. The Purchase will go on to form the North American Syringe Exchange Network (NASEN) and become known as the "Godfather of Needle Exchange."

October 11: Over 1,000 members and supporters of the activist group ACT UP engage in a massive sit-in that shuts down FDA's Rockville, MD, offices for the entire day to protest the slow pace of the federal drug-approval process for treatments for HIV/AIDS. There are 176 arrests. Eight days later, FDA announced new regulations to speed up that process.

October 18: The Abandoned Infants Assistance (AIA) Act [PDF, 262KB] becomes law; it addresses the issue of so-called "border babies." Many of these infants have been perinatally exposed to drugs or HIV and have been orphaned or left at hospitals indefinitely by their parents. The AIA funds

demonstration projects to support moving these children into foster care or other traditional living arrangements.

November 4: President Reagan signs the Health Omnibus Programs Extension (HOPE) Act into law. The legislation authorizes federal funds for AIDS prevention, education, and testing. It is the first comprehensive federal AIDS bill, establishing the Office of AIDS Research at the National Institutes of Health (NIH) and the AIDS Clinical Trials Group.

November 7: The New York City Health Department begins a pilot needle-exchange program to address the growing number of HIV infections among people who inject drugs (PWID). The program is opposed by many African American and Latinx leaders in the city, who see it as an abandonment of PWID of colour. They demand a more comprehensive approach, including drug-prevention education, treatment and increased law enforcement.

November 28: Elizabeth Glaser, an HIV-positive mother of two HIV-positive children, forms the Pediatric AIDS Foundation (later renamed the Elizabeth Glaser Pediatric AIDS Foundation). The Foundation funds cutting-edge research that leads to improved treatments for children living with HIV/AIDS and helps to establish protocols to prevent mother-to-child transmission of HIV.

December 1: World AIDS Day is observed for the first time. The date is designated by the World Health Organization and supported by the United Nations. The theme for the observance is "Join the Worldwide Effort."

December 16: Singer Sylvester James, Jr., dies of AIDS-related illness at age 41. James is an openly gay, African American entertainer who uses only his first name and is called "the embodiment of disco." His legacy is

such that, in 2018, the University of Sussex in England will host an interdisciplinary academic conference on disco and Sylvester's contribution to the genre.

December 20: Pioneering broadcast journalist Max Robinson dies of AIDS-related illness at age 49. Robinson is the first black network news anchor in the U.S. and the National Association of Black Journalists founder.

December 27: Gay rights activist and writer Joseph Beam dies of an AIDS-related illness three days before his 34th birthday. He is best known for editing In the Life, the first collection of writings by gay black men on HIV/AIDS's impact on their community. Today In the Life is widely regarded as a literary and cultural milestone in gay literature.

1989

Photographer Robert Mapplethorpe died of an AIDS-related illness on March 9.

On June 16, the U.S. Centers for Disease Control and Prevention (CDC) issued the first guidelines for preventing Pneumocystis carinii pneumonia (PCP), an AIDS-related opportunistic infection and a major cause of illness and Death for people living with AIDS.

On June 23, CDC released the Guidelines for Prevention of Transmission of Human Immunodeficiency Virus and Hepatitis B Virus to Health-Care and Public-Safety Workers.

The U.S. Congress creates the National Commission on AIDS. The Commission meets for the first time on September 18.

Dr. Anthony Fauci, head of the National Institutes of Health's National Institute of Allergy and Infectious Diseases (NIAID), endorses giving HIV-positive people who do not qualify for clinical trials access to experimental treatments.

The U.S. Health Resources and Services Administration (HRSA) grants $20 million for HIV care and treatment through the Home-Based and Community-Based Care State grant program. This is their first involvement in HIV care and treatment for many states.

A CDC/HRSA initiative provides $11 million to fund seven community health centres to provide HIV counselling and testing services. This is a precursor to what will be part of the Ryan White CARE Act.

The number of reported AIDS cases in the United States reaches 100,000.

1990

On January 18, the U.S. Centers for Disease Control and Prevention (CDC) reported the possible transmission of HIV to a patient through a dental procedure performed by an HIV-positive dentist. This episode provokes much public debate about the safety of common dental and medical procedures.

On January 26, the U.S. Public Health Service stated managing occupational exposure to HIV, including considerations regarding post-exposure use of the antiretroviral drug AZT.

Pop artist Keith Haring died of AIDS-related illness on February 16.

On April 8, Ryan White died of AIDS-related illness at 18.

On May 21, ACT UP (AIDS Coalition to Unleash Power) protested at the National Institutes of Health (NIH), demanding more HIV treatments and expanding clinical trials to include more women and people of colour.
In June, the 6th International AIDS Conference meets in San Francisco. To protest the U.S. immigration policy that bars people with HIV from entering the country, domestic and international nongovernmental groups boycott the conference.

In July, the U.S. Congress enacted the Americans with Disabilities Act (ADA). The Act prohibits discrimination against individuals with disabilities, including people living with HIV/AIDS.

In August, the U.S. Congress enacted the Ryan White Comprehensive AIDS Resources Emergency (CARE) Act of 1990 (PDF 8.3 MB), which provides $220.5 million in Federal funds for HIV community-based care and treatment services in its first year. The U.S. Health Resources and Services Administration (HRSA) manages the program, which is the nation's largest HIV-specific Federal grant program.

On October 26, the U.S. Food and Drug Administration (FDA) approved using zidovudine (AZT) for pediatric AIDS.

CDC adopts the HIV-prevention counselling model, a "client-centred" approach that focuses on the patient rather than the Disease.

AZT Zidovudine

Jerome

AZT is the Drug, Dr. Jerome Horwitz created AZT, ddC and d4T during his research at the Detroit Institute of Cancer Research (now the Barbara Ann Karmanos Cancer Institute) in the early 1960s. Though the compounds he invented proved against cancer, they were later shown to prolong the lives of those with AIDS - Acquired Immune Deficiency Syndrome. AIDS is now largely treated as a chronic, rather than an acute illness extending the quality of life for so many.

NOTE: AZT proved ineffective against cancer and was shelved, but in the 1980s, it was included in an NCI screening program to identify drugs to treat HIV/AIDS.

During 1981, Just 234 deaths.

On 1982, Deaths were 853.

On 1983, HIV AIDS Deaths were 2304.

On 1984, HIV AIDS Deaths were 4251.

On March 19, 1987, The U.S. Food and Drug Administration (FDA) approved the first medication for AIDS—AZT (zidovudine), an antiretroviral drug initially developed to treat cancer.

On 1988, 4855 Deaths.

On 1989, Deaths increased to 14,544 after the usage of Failed Cancer Drugs in Patients in the Name of HIV AIDS Disease.

Questions, Why the Ineffective Failed Cancer Drug Given to the HIV Patients from 1987?
What is the Proof that HIV causes AIDS?
Is AZT is Reason for the Deaths?
Is AZT Reson for the HIV?
How does HIV Spread to Other Countries?

Claims,
HIV is the Planned Pandemic Like the Coronavirus Pandemic.

The United States Politicians, United Nations, and WHO World Health Organizations are the Main reason of HIV. The AZT Drugs Caused Deaths and Covered UP as HIV AIDS. In the Name of Science and Religion, they all Genociding the Public people. We are all Living in the Big Pharma Illusions.

AIDS in India

After the Pandemic Emerged in America, How India infected by the HIV Infection.

HIV Infection in India was first Detected in 1986 among female sex workers.

The Indian Council of Medical Research (ICMR) undertook screening of asymptomatic persons from a high-risk group with the ELISA test for HIV infection in 1986 and found that HIV infection had reached India.

ICMR, in collaboration with the central and State health services, initiated the national sero- surveillance program for HIV infection in 43 surveillance and five reference centres to determine the significant transmission and magnitude of the Disease. Data from the sero-surveillance showed that HIV infection was present in all the known high-risk groups and the general population in all the States, both in urban and rural areas. HIV was getting transmitted through all the known modes of transmission. In most States, the heterosexual transmission was predominant, but in Manipur, intravenous (iv) drug use was the most common mode of communication. Prevalence of HIV infection in high-risk groups was not high, and that in low-risk groups was relatively low. ICMR initiated hospital-based sentinel surveillance in high-risk groups and the general population to obtain time trends in seroprevalence. Between 1986 and 1991, National AIDS Programme was carried out as a collaborative effort of ICMR and central and State health services. As the dimensions of the epidemic unfolded, rational, evidence-based interventions which could be implemented within the existing health system were initiated. National AIDS Control Programme (NACP) continued and upscaled all these interventions. Effective implementation of a multi-pronged, rational strategy for HIV infection containment and

control right from the initial stages and dedicated work done by committed professionals belonging to the government and voluntary sectors, the cultural ethos of the country, responsible behaviour of the population, and relatively low iv drug use have resulted in rapid decline in new infection and prevalence of Disease within a quarter of a century after the initial detection of HIV.

Intentional Errors and Murders of Vaccinations

Cutter Incident – 1955

In 1955, some batches of polio vaccine given to the public contained live polio virus, even though they had passed required safety testing. The vaccine was recalled as soon as cases of polio were detected. Over 250 cases of polio were attributed to vaccines produced by one company: Cutter Laboratories. This case, which came to be known as the Cutter Incident, resulted in many cases of paralysis.

The Cutter Incident was a defining moment in the history of vaccine manufacturing and government oversight of vaccines and led to the creation of a better system of regulating vaccines. After the government improved this process and increased oversight, polio vaccinations resumed in the fall of 1955.

At the time, there was no system to compensate people who a vaccine might have harmed. Today we have the National Vaccine Injury Compensation Program external icon (VICP), which uses scientific evidence to determine whether a vaccine might cause an illness or injury and provides compensation to individuals found to have been harmed by a vaccine. The VICP remains a model method for ensuring that all persons harmed by vaccines are compensated quickly and fairly while also protecting companies that make lifesaving products from financially unsustainable liability claims through the tort system.

Simian Virus 40 (SV40) - 1955–1963

From 1955 to 1963, approximately 10-30% of polio vaccines administered in the U.S. were contaminated with simian virus 40 (SV40). The Virus came from monkey kidney cell cultures used to make polio vaccines then. Most of the contamination was in the inactivated polio

vaccine (IPV) but was also found in the oral polio vaccine (OPV). After the contamination was discovered, the U.S. government established testing requirements to verify that all new lots of polio vaccines were free of SV40.

Because of research done with SV40 in animal models, there has been some concern that the Virus could cause human cancer. However, most studies looking at the relationship between SV40 and cancers are reassuring, finding no causal association between receipt of the SV40-contaminated polio vaccine and cancer development.

No vaccines used today contain the SV40 Virus.

Swine Flu Vaccine and Guillain-Barré Syndrome - 1976

In 1976 there was a small increased risk of a severe neurological disorder called Guillain-Barré Syndrome (GBS) following Vaccination with a swine flu vaccine. The increased risk was approximately one additional case of GBS for every 100,000 people who got the swine flu vaccine. When over 40 million people were vaccinated against swine flu, federal health officials decided that the possibility of an association of GBS with the vaccine, however small, necessitated stopping immunization until the issue could be explored.

The Institute of Medicine (IOM) conducted a thorough scientific review external icon of this issue in 2003. It concluded that people who received the 1976 swine influenza vaccine had an increased risk of developing GBS. Scientists have multiple theories on why this increased risk may have occurred, but the exact reason for this association remains unknown.

Global HIV/AIDS Timeline, KFF.ORG

1981

- U.S. Centers for Disease Control and Prevention (CDC) reports the first cases of rare pneumonia in young gay men in the June 5 MMWR. These cases were later determined to be AIDS. This marks the official beginning of the HIV/AIDS epidemic. CDC also reports on a highly unusual occurrence of rare skin cancer, Kaposi's Sarcoma, among young gay men in the July 4 MMWR.
- First mainstream news coverage of the CDC's June 5 MMWR by the Associated Press and the L.A. Times is issued on the same day. The San Francisco Chronicle reports on it the next day.
- New York Times published its first news story on AIDS on July 3.

1982

- U.S. CDC established Acquired Immune Deficiency Syndrome (AIDS), which refers to four "identified risk factors:" male homosexuality, intravenous drug abuse, Haitian origin, and hemophilia A.
- Cases of AIDS are now present in many states, and its cause is not yet known.
- "GRID" or "gay-related immune deficiency" is increasingly used by media and health care professionals, mistakenly suggesting an inherent link between homosexuality and AIDS.
- First U.S. Congressional hearings on AIDS were held.
- Gay Men's Health Crisis, the first community-based AIDS service provider in the U.S., was established in New York City.
- City and County of San Francisco, working closely with the San Francisco AIDS Foundation, Shanti Project, and others, develops the "San Francisco Model of Care," which emphasizes home- and community-based services for people with AIDS.
- First AIDS case reported in Africa.

1983

- The U.S. Public Health Service issues recommendations for preventing transmission of the infection through sexual contact and blood transfusions.
- U.S. CDC clarifies its use of the term "high-risk group" and urges it not be used to justify discrimination or unwarranted fear of casual transmission.
- U.S. CDC adds female sexual partners of men with AIDS as the fifth risk group.
- The Orphan Drug Act is signed into U.S. law, providing incentives to drug companies to develop therapies for rare diseases.
- In the September 9 MMWR, U.S. CDC notes that AIDS has not been spread through casual contact and declares that "AIDS is not known to be transmitted through food, water, air, or environmental surfaces."
- Dr. Luc Montagnier of the Pasteur Institute in France isolates lymphadenopathy-associated Virus (LAV) — which he believed to be related to AIDS — and publishes findings. That same year, Dr. Robert Gallo of the National Cancer Institute in the U.S. successfully cultivated LAV (which he identified as HTLV-III) in the lab and submitted a paper for publication proposing that a retrovirus causes AIDS.
- The World Health Organization (WHO) holds its first meeting to assess the impact of AIDS globally and begins international surveillance.
- People living with AIDS (PWAs) take over the plenary stage at a U.S. conference and state the rights of PWAs, referred to as The Denver Principles.
- National Association of People with AIDS (NAPWA) and Federation of AIDS-Related Organizations form.
- AIDS Candlelight Memorial was held for the first time.

1984

- **U.S. Department of Health and Human Services (HHS) announces Dr. Robert Gallo of the National Cancer Institute found that a retrovirus causes AIDS. Dr. Gallo and Dr. Luc Montagnier of the Pasteur Institute held a joint press conference in June announcing the discovery of a retrovirus (identified as HTLV-III by Gallo and LAV by Montagnier; see 1983 entry) — later named Human Immunodeficiency Virus (HIV) — causes AIDS.**

- U.S. CDC states that abstention from intravenous drug use and reduction of needle-sharing "should also be effective in preventing transmission of the virus."
- San Francisco officials ordered bathhouses closed; major public controversy ensued and continues in Los Angeles, New York, and other cities.
- AIDS Action Council is formed by a small group of AIDS service organizations across the U.S.

1985

- President Ronald Reagan mentions AIDS publicly for the first time.
- First International AIDS Conference held in Atlanta, hosted by U.S. HHS and WHO.
- At least one HIV/AIDS case is reported in each region. The first HIV case was said in China.
- The first HIV test licensed by the U.S. Food and Drug Administration (FDA); detects antibodies to HIV. Blood banks begin screening the U.S. blood supply.
- Pentagon announces it will begin testing all recruits for HIV and will reject those who are positive.
- U.S. Public Health Service issues first recommendations for preventing transmission of HIV from mother to child.
- Rock Hudson announces that he has AIDS and will die later this year.
- Ryan White, an Indiana teenager with AIDS, is barred from school; he goes on to speak out publicly against AIDS stigma and discrimination.
- The first major play about the early days of the AIDS epidemic, "The Normal Heart" by playwright Larry Kramer, opens.
- American Foundation for AIDS Research (amfAR) was founded by Co-Chairs Mathilde Krim and Michael S. Gottlieb and National Chair Elizabeth Taylor.
- Project Inform was founded to advocate for faster government approval of HIV drugs.
- National AIDS Network (NAN) in the U.S. forms.

1986

- National Academy of Sciences issues report critical U.S. response to "national health crisis;" calls for $2 billion investment.
- U.S. Surgeon General Koop issues Surgeon General's Report on AIDS, calling for education and condom use.
- Institute of Medicine report calls for a national education campaign and the creation of the National Commission on AIDS in the U.S.
- **AZT, the first drug used to treat HIV/AIDS, began clinical trials.**
- **First, HIV cases were reported in Russia and India.**
- 2nd International AIDS Conference held in Paris, France.
- International Steering Committee for People with HIV/AIDS (ISC) was created; it became the Global Network of People Living with HIV/AIDS (GNP+) in 1992.
- Ricky Ray, a nine-year-old hemophiliac with HIV, was barred from Florida school; his family's home was burned by arsonists the following year.
- Robert Wood Johnson Foundation creates the "AIDS Health Services Program," providing funding to hard-hit U.S. cities; the program is a precursor to Ryan White CARE Act.
- Informal distribution of clean syringes begins in Boston and New Haven.
- The first panel of the AIDS Memorial Quilt was created.

1987

- **First antiretroviral (ARV) drug — zidovudine or AZT (a nucleoside analog) — approved by U.S. FDA.**
- **U.S. Congress approves $30 million in emergency funding to states for AZT.**
- **AIDS Coalition to Unleash Power (ACT UP) was established in New York in response to the proposed cost of AZT; the price was subsequently lowered.**
- President Reagan's first public speech about AIDS; establishes Presidential Commission on HIV (Watkins Commission).
- U.S. CDC launches first AIDS-related public service announcement, "America Responds to AIDS."
- U.S. CDC holds its first National Conference on HIV and communities of colour.

- U.S. FDA adds HIV prevention as a new indication for male condoms.
- U.S. FDA created a new class of experimental drugs called Treatment Investigational New Drugs (INDs), which accelerates drug approval by two to three years.
- U.S. FDA sanctions first human testing of a candidate vaccine against HIV.
- U.S. Congress adopted the Helms Amendment banning federal funds for AIDS education materials that "promote or encourage, directly or indirectly, homosexual activities," often referred to as the "no promo homo" policy.
- U.S. adds HIV as a "dangerous contagious disease" to its immigration exclusion list, which mandates testing all applicants.
- The 3rd International AIDS Conference is held in Washington, D.C.
- AIDS became the first Disease debated on the floor of the United Nations (U.N.) General Assembly. Assembly designates WHO to lead the effort to address AIDS globally.
- Global Programme on AIDS launched by WHO.
- AIDS Support Organisation (TASO) forms in Uganda.
- National Black Leadership Commission on AIDS, National Minority AIDS Council, and National Task Force on AIDS Prevention form in the U.S.
- The first issue of "AIDS Treatment News" was published to provide HIV treatment information to community members.
- "And the Band Played On: Politics, People and the AIDS Epidemic," published a history of the epidemic's early years by Randy Shilts.
- AIDS Memorial Quilt was displayed on National Mall in Washington, DC, for the first time.
- Entertainer Liberace dies of AIDS.

1988

- WHO first declared World AIDS Day on December 1.
- WHO reports AIDS cases increased 56% worldwide.
- UNAIDS reports the number of women living with HIV/AIDS in sub-Saharan Africa exceeds that of men.
- 4th International AIDS Conference is held in Stockholm, Sweden; International AIDS Society (IAS) forms.

- Watkins Commission on AIDS presents the report to President Reagan.
- U.S. National Institutes of Health (NIH) establishes the Office of AIDS Research (OAR) and AIDS Clinical Trials Group (ACTG).
- U.S. FDA allows the importation of unapproved drugs for persons with life-threatening illnesses, including HIV/AIDS.
- ACT UP demonstrates at U.S. FDA headquarters in protest of the slow pace of the drug approval process.
- The U.S. Health Resources and Services Administration (HRSA) awards 21 grants to plan for HIV/AIDS care systems, laying the groundwork for statewide programs later funded through Ryan White CARE Act.
- The U.S. Health Omnibus Programs Extension (HOPE) Act of 1988 authorizes the use of federal funds for HIV/AIDS prevention, education, and testing.
- U.S. Surgeon General Koop and U.S. CDC mailed the brochure "Understanding AIDS" to all U.S. households, the first and only national mailing of its kind.
- U.S. Justice Department says people with HIV/AIDS cannot be discriminated against.
- The judge in Florida rules young girls with AIDS can only attend school if in a glass enclosure.
- U.S. CDC launches a T.V. commercial campaign about AIDS awareness aimed at minorities.
- Elizabeth Glaser, an HIV-positive mother of two HIV-positive children and two friends from the Pediatric AIDS Foundation, later renamed the Elizabeth Glaser Pediatric AIDS Foundation.
- The first comprehensive needle exchange program (NEP) was established in North America in Tacoma, Washington; New York City created the first government-funded NEP; San Francisco showed what became the largest NEP in the U.S.

1989

- **A foreign traveller with AIDS is not allowed into the U.S. because he has AIDS.**
- U.S. Congress creates National Commission on AIDS.
- U.S. CDC issues the first guidelines for preventing Pneumocystis carinii pneumonia (PCP), an AIDS-related opportunistic infection and a significant cause of morbidity and mortality for people with HIV.

- Head of NIH's National Institute of Allergy and Infectious Diseases (NIAID), Dr. Anthony Fauci, endorses a parallel track policy, giving those that do not qualify for clinical trials access to experimental treatments.
- AIDS activists stage several major protests about AIDS drugs during the year, including at the Golden Gate Bridge, the New York Stock Exchange, and the U.S. headquarters of Burroughs Wellcome.
- 5th International AIDS Conference ("The Scientific and Social Challenge of AIDS") was held in Montreal, Canada.
- First, "Day Without Art" was organized by Visual AIDS to underscore the impact of AIDS on the arts.
- Dancer and choreographer Alvin Ailey die of AIDS.
- Photographer Robert Mapplethorpe dies of AIDS.

1990

- Ryan White dies at 18.
- Ryan White Comprehensive AIDS Resources Emergency (CARE) Act of 1990, enacted by U.S. Congress. Provides federal funds for community-based care and treatment services; funded at $220.5 million in the first year.
- Americans with Disabilities Act of 1990 (ADA), enacted by U.S. Congress, prohibits discrimination against individuals with disabilities, including people with HIV/AIDS.
- U.S. FDA approves the use of AZT for pediatric AIDS.
- To protest U.S. immigration policy, domestic and international non-governmental groups boycotted the conference. 6th International AIDS Conference ("AIDS in the Nineties: From Science to Policy") held in San Francisco, CA. The 1992 conference, scheduled to take place in Boston, moved to Amsterdam.
- Kimberly Bergalis of Florida believed to have been infected with HIV by her dentist, causing major public debate.
- First National Conference on Women and AIDS held in Washington, D.C.
- "Women, AIDS and Activism," developed by ACT UP's Women's Caucus, published, becoming the first book of its kind.
- Pop artist Keith Haring dies of AIDS.

1991

- NBA legend Earvin "Magic" Johnson announces he is HIV-positive and retires from basketball.
- U.S. CDC recommends restrictions on practice of HIV-positive health care workers; U.S. Congress enacts law requiring states to take similar action.
- Housing Opportunities for Persons with AIDS (HOPWA) Act of 1991 enacted by U.S. Congress. Provides housing assistance to people living with AIDS through grants to U.S. states and local communities.
- 7th International AIDS Conference ("Science Challenging AIDS") held in Florence, Italy.
- ICASO (International Council of AIDS Service Organizations) forms as global network of non-governmental and community-based organizations.
- Red ribbon introduced as international symbol of AIDS awareness at Tony Awards by Broadway Cares/Equity Fights AIDS and Visual AIDS.
- Lead singer of band Queen Freddie Mercury dies of AIDS.

1992

- AIDS becomes number one cause of death for U.S. men ages 25 to 44.
- U.S. FDA licenses first rapid HIV test, which provides results in as little as ten minutes.
- 8th International AIDS Conference ("A World United Against AIDS") held in Amsterdam, the Netherlands; would have taken place in Boston but was moved due to U.S. immigration ban.
- International Community of Women Living with HIV/AIDS (ICW) founded.
- Teenager Ricky Ray, whose home was torched because he and his siblings were HIV-positive, dies of AIDS.
- Mary Fisher and Bob Hattoy, each HIV-positive, address the Republican and Democratic National Conventions, respectively.
- Tennis star Arthur Ashe announces he has AIDS.

1993

- U.S. President Clinton establishes White House Office of National AIDS Policy (ONAP).
- U.S. CDC initiates HIV prevention community planning process for local distribution of federal prevention funding.
- U.S. CDC expands case definition of AIDS to reflect fuller spectrum of the Disease, including adding conditions specific to women and injection drug users.
- U.S. FDA approves female condom for sale in U.S.
- U.S. Congress enacts NIH Revitalization Act, giving the OAR primary oversight of all NIH AIDS research; requires NIH and other research agencies to expand involvement of women and minorities in all research. President Clinton signs HIV immigration exclusion policy into law as part of the same law.
- Women's Interagency HIV Study (WIHS) and HIV Epidemiology Study (HERS) begin; both major U.S. federally-funded research studies on women and HIV/AIDS.
- First annual "AIDSWatch" — hundreds of community members from across U.S. converge in Washington, D.C. to lobby Congress for increased AIDS funding.
- 9th International AIDS Conference is held in Berlin, Germany.
- "Angels in America," Tony Kushner's play about AIDS, wins Tony Award and Pulitzer Prize for Drama.
- "Philadelphia," film starring Tom Hanks as a lawyer with AIDS, opens in theaters, becoming first major Hollywood movie on AIDS.
- Ballet dancer Rudolf Nureyev dies of AIDS.
- Tennis star Arthur Ashe dies of AIDS.
- Leading advocate for women with AIDS in prison Katrina Haslip dies of AIDS.

1994

- AIDS becomes leading cause of death for all Americans ages 25 to 44; remains so through 1995.
- U.S. Public Health Service recommends use of AZT by pregnant women to reduce perinatal transmission of HIV; based on "076" study showing up to 70% reduction in transmission.
- U.S. FDA approves oral HIV test, first non-blood based antibody test for HIV.

- NIH issues guidelines requiring applicants for NIH grants to address "the appropriate inclusion of women and minorities in clinical research."
- 10th International AIDS Conference ("The Global Challenge of AIDS: Together for the Future") held in Yokohama, Japan.
- Author of "And the Band Played On" Randy Shilts dies of AIDS.
- Pedro Zamora, a young gay man living with HIV, appears on the cast of MTV's popular show, The Real World; dies later in the year at age 22.
- Co-founder of Pediatric AIDS Foundation Elizabeth Glaser dies of AIDS.

1995

- First protease inhibitor, saquinavir, approved in record time by the U.S. FDA, ushering in new era of highly active antiretroviral therapy (HAART).
- U.S. CDC issues first guidelines for prevention of opportunistic infections in persons infected with HIV.
- U.S. CDC issues report on syringe exchange programs (SEPs). The National Academy of Sciences concludes SEPs are effective component of a comprehensive HIV prevention strategy.
- U.S. President Clinton establishes Presidential Advisory Council on HIV/AIDS (PACHA).
- First White House Conference on HIV/AIDS held.
- First National HIV Testing Day held on June 27; created by the National Association of People with AIDS (NAPWA).
- Olympic Gold Medal diver Greg Louganis discloses he is living with HIV; announcement leads to public debate regarding disclosure of HIV status.
- Rap artist Eric Wright (Eazy-E of NWA) dies of AIDS.

1996

- 11th International AIDS Conference ("One World, One Hope") held in Vancouver, Canada; highlights effectiveness of HAART, creating a period of optimism.
- UNAIDS (Joint United Nations Programme on HIV/AIDS) begins operations; established to advocate for global action on epidemic and coordinate HIV/AIDS efforts across U.N. system.

- IAVI (International AIDS Vaccine Initiative) forms to speed the search for effective HIV vaccine.
- Brazil begins national ARV distribution; first developing country to do so.
- Number of new AIDS cases diagnosed in U.S. declines for first time in history of epidemic.
- HIV no longer leading cause of death for all Americans ages 25-44; remains leading cause of death for African-Americans in this age group.
- Time Magazine names AIDS researcher Dr. David Ho as its "Man of the Year."
- The Levine Committee, a blue ribbon advisory panel, calls for overhaul of NIH AIDS research, including stronger role for OAR and increased support for vaccine-related and investigator-initiated research.
- U.S. FDA approves viral load test, a new test that measures the level of HIV in the body.
- U.S. FDA approves first HIV home testing and collection kit.
- U.S. FDA approves first HIV urine test.
- U.S. FDA approves first non-nucleoside reverse transcriptase inhibitor (NNRTI), nevirapine.
- U.S. Congress reauthorizes Ryan White CARE Act.
- AIDS awareness ad campaigns target larger public, not only those at high risk.
- Former heavyweight boxing champion Tommy Morrison announces he is HIV-positive.

1997

- AIDS-related deaths in U.S. decline by more than 40 percent compared to prior year, largely due to HAART.
- U.S. President Clinton announces goal of finding an effective vaccine in 10 years and creation of Dale and Betty Bumpers Vaccine Research Center.
- U.S. FDA approves Combivir, a tablet combining two ARV drugs, making it easier for people living with HIV to take medication.
- U.S. Congress enacts FDA Modernization Act of 1997, codifying accelerated approval process and allowing dissemination of information about off-label uses of drugs.

1998

- First large-scale human trials (Phase III) for an HIV vaccine begin.
- Despite earlier optimism, several reports indicate growing signs of treatment failure and side effects from HAART.
- U.S. HHS issues first national guidelines for use of antiretroviral therapy in adults.
- U.S. HHS Secretary Shalala determines needle exchange programs to be effective and do not encourage use of illegal drugs, but Clinton Administration does not lift ban on use of federal funds for such purposes.
- U.S. Supreme Court, in Bragdon v. Abbott, rules that Americans with Disabilities Act covers those in earlier stages of HIV disease, not just AIDS.
- Ricky Ray Hemophilia Relief Fund Act of 1998 enacted by U.S. Congress, authorizing payments to hemophiliacs infected through un-screened blood-clotting agents between 1982 and 1987.
- Minority AIDS Initiative created in U.S., after African-American leaders declare "state of emergency" and Congressional Black Caucus (CBC) calls on U.S. HHS to do the same.
- 12th International AIDS Conference ("Bridging the Gap") held in Geneva, Switzerland.
- Treatment Action Campaign (TAC) forms in South Africa; grassroots movement pushes for access to treatment.
- Global AIDS and human rights activists Jonathan Mann and Mary Lou Clements-Mann killed in plane crash.

1999

- First human vaccine trial in a developing country begins in Thailand.
- U.S. President Clinton announces Leadership and Investment in Fighting an Epidemic (LIFE) Initiative to address the global epidemic; leads to increased funding.
- U.S. Congressional Hispanic Caucus, with the Congressional Hispanic Caucus Institute, convenes Congressional hearing on impact of HIV/AIDS on Latino community.
- Founder of National Task Force on AIDS Prevention Reggie Williams dies of AIDS.

2000

- 13th International AIDS Conference ("Breaking the Silence") held in Durban, South Africa; first time held in developing nation; heightens awareness of the global Pandemic.
- U.S. National Security Council and U.N. Security Council each declare HIV/AIDS a security threat.
- G8 Leaders acknowledge need for additional HIV/AIDS resources during Okinawa Meeting.
- Millennium Development Goals, announced as part of Millennium Declaration, include reversing the spread of HIV, T.B., and malaria as one of 8 key goals.
- UNAIDS, WHO, and other global health groups announce joint initiative with five major pharmaceutical manufacturers to negotiate reduced prices for AIDS drugs in developing countries.
- U.S. Congress enacts Global AIDS and Tuberculosis Relief Act of 2000, authorizing up to $600 million for U.S. global efforts.
- U.S. President Clinton announces Millennium Vaccine Initiative, creating incentives for development and distribution of vaccines against HIV, T.B. and malaria.
- U.S. President Clinton issues Executive Order 13155 to assist developing countries in importing and producing generic forms of HIV treatments.
- U.S. President Clinton creates first ever Presidential Envoy for AIDS Cooperation.
- U.S. CDC forms Global AIDS Program (GAP).
- U.S. CDC reports that among men who have sex with men in the U.S., African-American and Latino cases exceed those among whites.
- U.S. Congress reauthorizes the Ryan White CARE Act for the second time.
- U.S. HHS approves first State 1115 Medicaid expansion waivers for low-income people with HIV in Maine, Massachusetts and District of Columbia; in 2001, Massachusetts becomes first State to enroll new clients.

Dr. Robert Willner MD, PhD. Exposed AIDS and FAUCI, October 28, 1994

Robert E. Willner (June 21, 1929 — April 15, 1995) was an American doctor. He states that AIDS is not caused by HIV Infection.

In 1995, Willner asserted that "I am convinced you can prevent all disease with diet, lifestyle changes, sanitation."

Willner's Florida medical license was suspended in 1990 following a Florida Board of Medicine ruling that Willner had made inappropriate medical claims for food products.

Willner described himself as originally an "orthodox" physician who slowly transitioned to alternative medicine, particularly following his wife's 1978 struggle with cancer chemotherapy.

On December 7, 1994, Shared his book called deadly deception, He Says,

"There's only two ways that you can get the truth to people, your own words out of your own mouth and by putting and that's the reason for the book"

"we're talking about probably the most horrible Scandal and scam ever perpetrated not only in the name of science but in humanity and in all history"

"The repeated use of these commandments by the conspirators prompted T. C. Fry to comment in his book, THE GREAT AIDS HOAX; "...the presence of what they call HIV in the disease (AIDS) is no more proof of cause than the presence of flies in garbage proves that the flies are the cause of garbage." Deadly Deception, Page 5, 6

"there is no epidemic it doesn't exist they are there they're not some character who goes through from the Health Organization and says oh I've seen the people dying of course you have we all saw them on television in Somalia what do you think you were looking at that was AIDS due to starvation due to malnutrition it's no big secret what's causing AIDS we've known it for 70 years number two is drugs and don't just think of street drugs because the number one cause of AIDS today is actually two medical drugs AZT a drug that was discovered in the 60s"

Willner died on April 15, 1995

Conclusion of the Section

By Rakhesh Jaghadish L

My assertions and conclusions are that vaccines have been commercialized. Diseases have been commercialized; the epidemic of HIV and AIDS 1980s was well planned, and the same people are involved in the current Pandemic called coronavirus, Including Fauci. In Every Pandemic, they are First creating Manipulated medical articles, and after they start creating illusions through the Media and Convincing the People that the Pandemic has Occurred. What I'm Saying is They are Creating the Belief that Virus has Occurred in another way. The Virus is not Exist.

Every time a pandemic occurs, before they have developed the plots and strategies to manipulate and brainwash people.

The Pandemic Begins after the Mass Vaccination Campaigns, or they creatine every Pandemic in the name of Virus and Pandemic.

As per the above Pandemic, their Genocide Strategies are,

- First, they create articles that there are viruses,
- After the creating panic among the population,
- Manipulating the people through the media,
- They are using celebrities or familiars to manipulate people to get Vaccination.
- Before the Vaccination, they created deaths and fears,
- Developing Poisonous Vaccines to kill People and Covered UP those deaths as Virus Killed due to Pandemic.

There are also the Big Mafias are Behind in all Pandemics. Those Pandemics are Linked to the Corruption. The High Elite Peoples are Involved in these Pandemics.

Lot Tyrannies are Happening in the Name of God, Including Circumcision.

Lot Cheating is Happening in this World in the Name of God.

FACTS

1. Both AIDS and COVID-19 have the Same Plots and Tracks.
2. The Corrupt Politicians, Elites, Eugenics, and Greedy Big Pharma are Involved in the Genocide "Depopulation".
3. Condoms cannot stop a disease that can only stop getting pregnant.
4. Every Disease is caused by Drugs and Man-Made Food Famine (Starvation).
5. The Vaccine is the Virus.
6. The Vaccine Causing Diseases and Deaths.
7. The Vaccine Deaths Making Big Pharma Make More Money.

The Global or Mass Vaccination or Universal Vaccination those all pure genocides.

Every drug is inbuild and Manufactured with the Diseases

The Government Representatives, Big Pharma made the Deaths, and Pharmaceutical Companies, including the Health Agencies, were Involved in the Genocide.

Sub Section 10.2

CORONAVIRUS and VACCINES "THE PRE-PLANNED PANDEMIC & GENOCIDE"

1980's

THE TIMELINES and DATA ANALYSIS of the CHRONOLOGICAL EVENTS

Coronavirus

December 2019 12

Coronavirus first emerged and Started in Wuhan, China, on December 2019 12. As per the Report, A cluster of patients in Wuhan, Hubei Providence, China, experience shortness of breath and Fever.

After Media Started Creating Fear and Panic Among the World Population.

December 2019 31

On 31 December 2019, the World Health Organization China Country Office Informed the number of cases of pneumonia of unknown etiology (unknown cause) detected in Wuhan, Hubei Province. On that day, they started with lies that all patients were connected to the Huanan Seafood Wholesale Market in Wuhan because Wuhan Virology of Institute destroyed the evidence before blaming the virus on the Market.

Reaction to COVID by the Corrupt Governments Leaders, Big Pharma, Media, and Other Agencies

January 2, 2020

WHO World Health Organization had set up the Incident Management Support Team across the three levels of the organization: headquarters, regional headquarters, and country level putting the organization on an emergency footing for dealing with the outbreak.

January 4, 2020

WHO reported on social media that there was a cluster of pneumonia cases with no deaths in Wuhan, Hubei province.

January 5, 2020

WHO published our first Disease Outbreak News on the new virus. This is a flagship technical publication to the scientific and public health community and global media. It contained a risk assessment and advice and reported on what China had told the organization about the status of patients and the public health response to the cluster of pneumonia cases in Wuhan.

January 6, 2020

Chinese public health official shares the genetic sequence of the unknown pneumonia virus (Wuhan-Hu-1) through an online database.

CDC's National Center for Immunization and Respiratory Diseases (NCIRD) activates a Center Level Response for novel pneumonia of unknown etiology.

January 7, 2020

Chinese authorities identified and isolated a novel coronavirus as the causative agent of the outbreak.

Here Note: They already have Many Samples of the Isolated Coronavirus.

CDC establishes a 2019-nCoV Incident Management Structure to guide the response. It follows previously established MERS-CoV preparedness plans for developing tests and managing cases.

January 10, 2020

CDC publishes information about the novel coronavirus on its website.

From Jan 10 to 12, 2020
WHO published a comprehensive package of guidance documents for countries, covering topics related to the management of an outbreak of a new disease:

- Infection prevention and control
- Laboratory testing
- National capacities review tool
- Risk communication and community engagement
- Disease Commodity Package (v1)
- Disease Commodity Package (v2)
- Travel advice
- Clinical management
- Surveillance case definitions

January 13, 2020

The Thailand Ministry of Public Health confirms China's first imported case of lab-confirmed novel coronavirus.

January 15, 2020

The Japanese Ministry of Health, Labor, and Welfare reports an Imported case of Laboratory confirmed novel coronavirus.

January 17, 2020

CDC begins screening passengers on direct and connecting from Wuhan, China at San Francisco, California, New York City, New York, and Los Angeles, California, and Plans to expand screening to other Major Airports.

CDC deploys a team to Washington state to assist with contact tracing efforts in response to the first reported case of 2019-nCOV in the U.S.

January 20, 2020

CDC confirms the first U.S. laboratory-confirmed case of COVID-19 in the U.S. from samples taken on January 18 in Washington state.

January 21, 2020

CDC transitions from a Center-led Incident Management Structure to an Agency-wide Structure and activates its Emergency Response System

January 21, 2020

CDC artists Alissa Eckert and Dan Higgins create “an identity” for the novel coronavirus by designing the iconic red and white virus image.

January 22, 2020

The World Health Organization International Health Regulation Emergency Committee meets. The Emergency Committee decides not to declare the novel coronavirus a Public Health Emergency of International Concern. The Committee decides to monitor the situation instead and reconvene in 10 days to re-discuss.

The World Health Organization confirms the human-to-human spread of the novel coronavirus.
Note: In the 2013 Spread of Coronavirus, they Told the Same Reason that Novel Coronavirus is Human to Human Transmission.

January 27, 2020

The United States Food and Drug Administration announced that it would take “critical actions to advance the development of novel coronavirus medical countermeasures” with interagency partners, including the CDC.

January 29, 2020

The U.S establishes the White House Coronavirus Task Force. Health and Human Services Secretary, Alex Azar, is the Task Force head.

January 31, 2020

U.S. Secretary of Health and Human Services, Alex Azar, declared the SARS-CoV-2 virus a public health emergency. The White House 2019 Novel Coronavirus Task Force announced the implementation of new travel policies to be effective at 5:00 PM EST on February 2, 2020.

The World Health Organization International Health Regulation Emergency Committee reconvenes and declares the coronavirus outbreak a Public Health Emergency of International Concern.

February 3, 2020

CDC submits an Emergency Use Authorization (EUA) PACK to the U.S. Food and Drug Administration to expedite approval for the CDC-developed SARS-CoV-2 diagnostic test.

February 4, 2020

The U.S. Food and Drug Administration approves the Emergency Use Authorization (EUA) PACK for the CDC-developed SARS-CoV-2 diagnostic test. CDC distributes 200 test kits through its Influenza Reagent Resource program to laboratories across the U.S.

February 8, 2020

One of the first CDC test kits arrives at a public health laboratory in east Manhattan, New York City, New York. The laboratory reports that the test produces “untrustworthy results.”

February 11, 2020

The World Health Organization announces the name of the disease causing the 2019 novel coronavirus outbreak: COVID-19. The new name of this disease is an abbreviated version of coronavirus disease 2019.

February 23, 2020

As Italy becomes a global COVID19 Hotspot, the Italian government issued Decree-Law No. 6 on February 23, 2020, containing Urgent Measures to Contain and manage the Epidemiological Emergency Caused by COVID-19, effectively locking down the country.

Here Italy played an essential role in creating the Panic in the World Population.

February 26, 2020

CDC's Dr. Nancy Messonnier, Incident Manager for the COVID-19 Response, holds a telebriefing. During the telebriefing, she braces the U.S. for the eventual spread of the novel coronavirus and states that the "disruption to everyday life may be severe."

February 29, 2020

The U.S. Food and Drug Administration announced a "new policy…for certain laboratories that develop and begin to use validated COVID-19 diagnostics before the FDA has completed the review of their Emergency Use Authorization (EUA) requests," allowing laboratories to create tests to address testing shortages in the U.S.

CDC updates its Criteria to Guide Evaluation and Testing of Patients Under Investigation (PUI) for COVID-19 to any patients with a severe respiratory illness even in the absence of travel history to affected areas or known exposure to another case to prepare for possible additional person-to-person spread.

March 1, 2020

CDC creates COVID-NET by modifying existing respiratory virus surveillance networks that monitor for hospitalizations associated with influenza and Respiratory Syncytical Virus (RSV) to watch for hospitalizations related to COVID-19.

March 11, 2020

The World Health Organization declares COVID-19 a pandemic.

March 12, 2020

Confirmatory testing for COVID-19 by CDC is no longer required by the U.S, Food and Drug Administration.

March 13, 2020

President Donald J. Trump declares a nationwide emergency.

March 14, 2020

CDC issues a “No Sail Order” to all cruise ships. The order calls for all cruise ships in waters that the U.S. has jurisdiction over to cease activity.

March 15, 2020

U.S. states have begun to shut down to prevent the spread of COVID-19. New York City public schools system (the most extensive school system in the U.S., with 1.1 million students) shuts down, while Ohio calls for restaurants and bars to close.

March 16, 2020

CDC launches the Clara bot, a COVID-19 symptom checker, on its website.

March 17, 2020

The first human trial of a vaccine to protect against pandemic COVID-19 begins in the U.S. at Kaiser Permanente research facility in Seattle, Washington. Moderna Therapeutics is the biotech company behind the vaccine.

March 26, 2020

U.S. Senate passes the Coronavirus Aid, Relief, and Economic Security (CARES) Act providing $2 trillion in aid to hospitals, small businesses, and state and local governments while including an elimination of the Medicare sequester from May to December 31, 2020.

March 28, 2020

White House extends social distancing measures until the end of April 2020.

CDC distributes a Health Alert Network (HAN) warning against using chloroquine phosphate without the recommendation of a doctor or pharmacy after one person is seriously ill and another dies from ingesting non-pharmaceutical chloroquine phosphate (a chemical for aquarium use that is commercially available for purchase at stores or online) to prevent COVID-19.

U.S. Food and Drug Administration issues an Emergency Use Authorization (EUA) to allow hydroxychloroquine sulfate and chloroquine phosphate products donated to the Strategic National

Stockpile to be distributed and used for certain hospitalized patients with COVID-19.

March 31, 2020

At a White House Press Briefing, Dr. Anthony Fauci and Dr. Deborah Brix announce that 100,000 to 240,000 deaths in the U.S. are expected even if social distancing and public health measures are perfectly enacted.

April 3, 2020

CDC launches COVIDView, a weekly report that summarizes and interprets key indicators from several existing surveillance systems.

At a White House press briefing, CDC announced new mask-wearing guidelines and recommended that all people wear a mask when outside of the home.

April 6, 2020

Hundreds of doctors and civil rights groups urge CDC and the U.S. government to release race and ethnicity data on COVID-19 cases in order to ensure the proper response in black communities.

April 7, 2020

A report from the Chicago Tribune notes that 68% of the COVID-19-related deaths in Chicago occur among the city's African American community, illuminating racial disparities of the pandemic in the U.S.

April 8, 2020

The U.S. Health and Human Services announce the first contract for ventilator production goes to General Motors under the Defense Production Act.

April 10, 2020

The U.S. surpasses Italy as the global leader for reported deaths due to COVID-19 (23,036 deaths)

April 13, 2020

Most U.S. states report widespread cases of COVID-19.

At a White House press briefing, President Trump announced that the U.S. will cease funding the World Health Organization, shaking the public health community during the pandemic.

April 24, 2020

Georgia, Alaska, and Oklahoma began to partially reopen their states despite health experts' concerns that it was too early to reopen.

April 26, 2020

Clinicians in the United Kingdom note increased reports of previously healthy children presenting with the severe inflammatory syndrome with Kawasaki disease-like features. The cases occurred in children testing positive for current or recent infection with SARS-CoV-2. This condition would later be known as Multisystem inflammatory syndrome in children

(MIS-C), an inflammatory condition that affects children with COVID-19.

April 30, 2020

President Trump launches Operation Warp Speed, an initiative to produce a vaccine for the coronavirus as quickly as possible, with CDC as an integral member.

President Donald Trump Remarks on Protecting America's seniors from the COVID-19 Pandemic

Reference:

https://trumpwhitehouse.archives.gov/briefings-statements/remarks-president-trump-protecting-americas-seniors-fort-myers-fl/

April 30, 2020

US President Donald Trump speaks on protecting America's seniors from the COVID-19 pandemic in the East Room of the White House in Washington, DC, on 30 April 2020. (AFP Photo).

On 30 April 2020, After President Trump delivered remarks on the government's efforts to protect seniors during the coronavirus pandemic, he took reporters' questions on the pandemic response and other issues.

In that Speech, After the Hour, One Reporter Asked the One Question:

Reporter: WHAT GIVES YOU A HIGH DEGREE EVENT -- HIGH DEGREE OF CONFIDENCE THAT THIS ORIGINATED FROM THE WUHAN INSTITUTE?

Trump: I Can't tell you that I'm not allowed to say to You that.
The above Trump words prove that he is Something hiding the Truth about the Coronavirus.

I Searched for that Video on the Internet. That Particular Speech was Removed from all Videos from news media and web social media.

The above speech of trump on this Link, From The Telegraph: https://youtu.be/VBL_KHaEwLE

Because Someone is Blackmailing Trump, Bill Gates, and Every Corrupt leader through their Weak points, Trump is Controlled by someone. Maybe he was Blackmailed by the Jeffrey Edward Epstein [Jeffrey Epstein Sex Trafficker and Child Abuser] Connections or Any Evidence that Blackmailer Used to Black Mail Trump for Personal Gain.

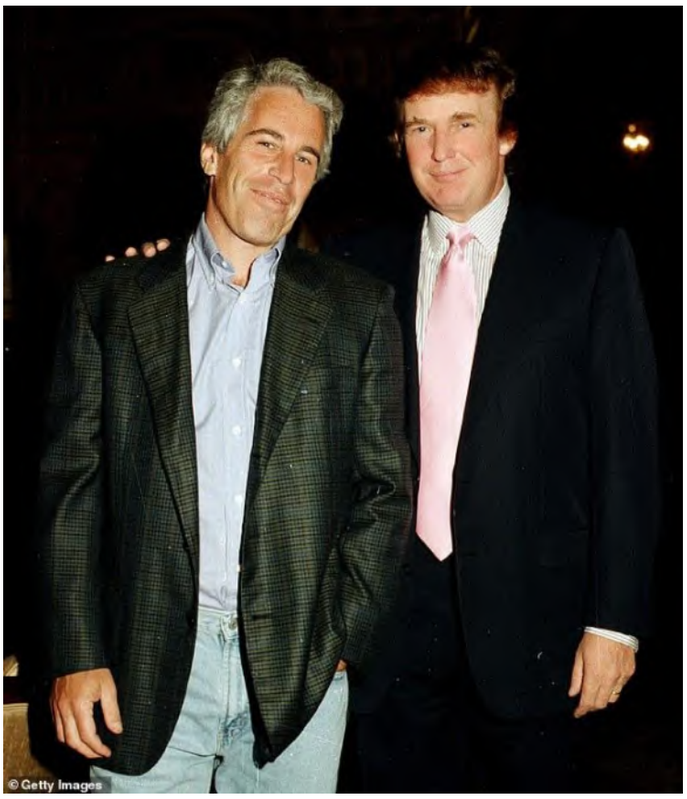

So Only Trump allowed Operation Warp Speed to Initiate the Ineffective Poisonous Vaccine production.

Maybe Donald John Trump was Blackmailed by the Blackmailer to Continue the Coronavirus Planned Pandemic. Blackmailer Maybe the Big Pharma, or Any.

Trump took several trips on Epstein’s jet; at least Trump flew on Jeffrey Epstein's private Lolita Express jet Seven more times than was previously known, flight logs reveal after new documents were released at the Ghislaine Maxwell trial.

The former president traveled on the plane four times in 1993, once in 1994, and once in 1995 with his ex-wife Marla Marples and children Tiffany and Eric, flight logs show.

Trump had flown on Epstein's plane from Palm Beach, where both had homes, to Newark, in 1997. Epstein is also said to have flown on one of Trump's private planes., as News Reported by the Daily Mail UK.

Flight Log and Donald Trump with Pedophile Jefferey Epstein:

DATE 1994 MAY	AIRCRAFT MAKE AND MODEL	AIRCRAFT IDENTIFICATION MARK	POINTS OF DEPARTURE & ARRIVAL FROM	TO	MILES FLOWN	FLT. NO.	REMARKS, PROCEDURES, MANEUVERS, ENDORSEMENTS	NO. LDG.	AIRCRAFT CATEGORY

© U.S. Courts	"	"	TEB	PBI		936	NO PASSENGERS - RETURN WITH 935	1/1	4

On January 5, 1997, as was previously reported, Trump traveled with Epstein from Palm Beach to Newark.

The documents show Epstein regularly moved between his homes in Manhattan, Palm Beach, New Mexico, and his now-notorious 'pedophile island in the US Virgin Islands.

Someone killed Jeffrey Epstein on **August 10, 2019;** on their side, Jeffrey Epstein is not Suicide by hanging himself; he Was Murdered by one of the members of the World Economic Forum.

Continuation..

May 1, 2020

U.S. Food and Drug Administration issues an Emergency Use Authorization for investigational antiviral drug remdesivir to treat suspected or laboratory-confirmed COVID-19 in adults and children hospitalized with severe disease.

CDC develops the PPE Burn Rate Calculator, a spreadsheet-based model that will help healthcare facilities plan and optimize the use of PPE for response to COVID-19, and publishes it on the Apple and Android App stores.

CDC launches the SARS-CoV-2 Sequencing for Public Health Emergency Response, Epidemiology, and Surveillance (SPHERES), a consortium to expand the use of whole genome sequencing of the COVID-19 virus.

May 2, 2020

World Health Organization renewed its emergency declaration three months prior, calling the pandemic a global health crisis.

May 8, 2020

News media outlets report that top White House officials shelve CDC "Guidance for Implementing the Opening Up America Again Framework," which includes detailed advice on reopening the country safely.

May 9, 2020

U.S. unemployment rate was 14.7%, the worst since the Great Depression. It is affecting low income and minority workers the most. With 20.5 million people out of work, hospitality, leisure, and healthcare industries taking the greatest hits.

May 15, 2020

President Trump announced' Operation Warp Speed' on May 15, 2020; officially, Donald Trump declared Operation Warp Speed to Produce the Vaccine at High Speed.

Donald Trump

Transcript of his Speech about the Operation Warp Speed and Delivered the Remarks on COVID 19 Vaccine Development

May 15, 2020 Donald Trump, Transcript:

Donald Trump: (00:11)

Thank you very much. Thank you very much. It's very hot today. Please sit down. This is going to be a very hot one and we apologize to everybody out there that's got to suffer through it. But you know what? It's better than bad weather and it's great to be in the rose garden. I want to especially thank this group for joining us as we announce a historic groundbreaking initiative in our ongoing effort to rapidly develop and manufacture a coronavirus vaccine. We're joined by secretary Steven Mnuchin, Secretary Mark Esper, Secretary Alex Azar, Chairman of the Joint Chiefs of Staff, General Mark Milley, FDA Director, Dr. Stephen Hahn, Director of the National Institute of Health, Dr. Francis Collins, Dr. Fauci, Dr. Birx. We're joined by a very terrific group of professionals.

Donald Trump: (01:10)

Tomorrow will mark 30 days since we released the White House guidelines for a safe and phased opening of America. That's what we're doing. It's the opening of America. We're going to have an amazing year next year. We're going to have a great transition into the fourth quarter. As of this morning, almost every state has taken steps to begin reopening and the American people are doing an extraordinary job of continuing to take precautions while at the same time wanting to start, and they will be starting, to resume their American way of life. We will be reigniting our economic engines. We're going to be taking care of our most vulnerable, which are our senior citizens and some others. We're going to be working very, very hard on our senior citizens and our nursing homes and various

communities to support those that are struggling in this very difficult time. Others don't have the same kind of struggle.

Donald Trump: (02:14)

For example, today, Secretary Perdue, together with Ivanka Trump, launched the Farmers and Families Food Box Program, which will provide $3 billion to help small farmers. And it will be helping farmers, ranchers, but it'll be bringing food to some of the food lines and some of the food kitchens that you've been seeing on television. And I said, "Why aren't we doing that? We have all of this tremendous food produced by our farmers and our ranchers." And so we're going to be buying $3 billion worth of that food, great for everybody. Our farmers, our ranchers, and the people that need great food.

Donald Trump: (02:51)

A key feature of our reopening plan is the largest and most ambitious testing system in the world by far. America is now conducting close to 350,000 tests per day, an unthinkable number just a short while ago, more than anybody in the world by far, suggesting many states now have excess testing capacity to monitor for new outbreaks. Florida, many other states have so much testing the testers are waiting for people to show up. It's great.

Donald Trump: (03:23)

Another essential pillar of our strategy to keep America open is the development of effective treatments and vaccines as quickly as possible. Want to see if we can do that very quickly. We're looking to, when I say quickly, we're looking to get it by the end of the year if we can, maybe before. We're doing tremendously well. From the earliest days of the pandemic, we have marshaled the genius of American scientists and

researchers from all across government and the private sector, from academia, from everywhere to vanquish the virus, and tremendous strides have been made. Can tell you, I get to see it every day. Tremendous strides are being made. Scientists at the NIH began developing the first vaccine candidate on January 11th, think of that, within hours of the virus's genetic code being posted online. So January 11th, most people never even heard what was going on January 11th. And we were out there trying to develop a vaccine, not even knowing what we were up against. Then my administration cut through every piece of red tape to achieve the fastest ever, by far, launch of a vaccine trial for this new virus, this very vicious virus. And I want to thank all of the doctors and scientists and researchers involved because they've never moved like this or never even close.

Donald Trump: (04:51)

The NIH and the HHS have also been working constantly with private industry to evaluate more than 100 potential treatments. The Food and Drug Administration has swiftly approved more than 130 therapies for active trials. That's what we have right now, 130. And another 450 are in the planning stages and tremendous potential awaits. I think we're going to have some very interesting things to report in the not too distant future. And thank you very much to Dr. Hahn. Through a historic series of funding bills, my administration is providing roughly $10 billion to support a medical research effort without parallel. I especially want to thank Senator Steve Daines of Montana for his incredible work. He has worked so hard to secure additional funding for vaccine development. He has been right at the forefront.

Donald Trump: (05:49)

Today, I want to update you on the next stage of this momentous medical initiative. It's called Operation Warp Speed. That means big and it means fast, a massive scientific, industrial and logistical endeavor unlike anything our country has seen since the Manhattan Project. You really could say that nobody's seen anything like we're doing, whether it's ventilators or testing. Nobody's seen anything like we're doing now within our country since the second World War, incredible. Its objective is to finish developing and then to manufacture and distribute a proven coronavirus vaccine as fast as possible. Again, we'd love to see if we could do it prior to the end of the year. We think we're going to have some very good results coming out very quickly.

Donald Trump: (06:41)

In addition, it will continue accelerating the development of diagnostics and breakthrough therapies. The great national project will bring together the best of American industry and innovation, the full resources of the United States government, and the excellence and precision of the United States military. We have the military totally involved. We're also working very strongly with other countries who are also have some great, great scientists, doctors, and we're all working very closely together and they're viewing us as the leader and we are. The relationship with other countries on solving this problem has been incredible. Today, the Operation Warp Speed has brought together all of the experts across the federal government from places like the NIH, CDC, FDA, and many other agencies. This historic partnership will now bring together the full resources of the Department of Health and Human Services with the Department of Defense. And we know what that means. That means the full power and strength of military, the military, and that really talking about the logistics. We get it when we get it. That means the logistics, getting it out so that everybody can take it.

Donald Trump: (07:59)

And today, we're proud to announce the addition of two of the most highly respected skilled professionals in our country, worldwide respected. Operation Warp Speed's chief scientists will be Dr. Moncef Slaoui, a world renowned immunologist who helped create 14 new vaccines, that's a lot of our new vaccines, in 10 years during his time in the private sector. One of the most respected men in the world in the production and, really, on the formulation of vaccines. Joining Dr. Slaoui as Chief Operating Officer will be General Gus Perna, a four star general who currently oversees 190,000 service members, civilians, and contractors as Commander of the US Army Material Command. That means logistics. That means getting it out. We've got to get it out there. So General, thank you very much. And doctor, thank you very much. It's great to have you on board. Really highly respected people. Thank you.

Donald Trump: (09:03)

It's great to have you on board. Really highly respected people. Thank you.

Donald Trump: (09:05)

These two outstanding individuals will provide more details following my remarks. In preparation for this initiative, experts throughout the government have been collaborating to evaluate roughly 100 vaccine candidates from all over the world. They have identified 14 that they believe are the most promising and they're working to narrow that list still further. So we started off with over 100, we're down to 14, and we have some really interesting choices to be made. They're doing very well.

Donald Trump: (09:36)

Through Operation Warp Speed, the federal government is providing unprecedented support and resources to safely expedite the trials. Moving on at record, record, record speed. While we accelerate the final phases of vaccine trials, Operation Warp Speed will be simultaneously accelerating its manufacturing and manufacturing process. In other words, we're getting ready so that when we get the good word that we have the vaccine, we have the formula, we have what we need, we're ready to go. As opposed to taking years to gear up. We're gearing up. It's risky, it's expensive, but we'll be saving massive amounts of time. We'll be saving years if we do this properly. And that's what we're doing. So we're gearing up on the assumption that we'll have in the near future, relatively near future, a vaccine.

Donald Trump: (10:35)

Typically pharmaceutical companies wait to manufacture a vaccine until it has received all of the regulatory approvals necessary. And this can delay vaccines availability to the public as much as a year, and even more than that. However, our task is so urgent that under Operation Warp Speed, the federal government will invest in manufacturing all of the top vaccine candidates before they're approved. So we're knowing exactly what we're doing before they're approved. That means they better come up with a good vaccine, because we're ready to deliver it. This will eliminate any unnecessary delay and enable us to begin providing Americans with a proven vaccine the day our scientists say, "We're ready, we got it."

Donald Trump: (11:23)

And as we work to bring critical medical production back to America, these vaccines that we're going to be focused on and manufacturing, they're all going to be right here in the USA. Now we're working, as I said, with other people outside, and that's fine too. We want to get to the

solution. We know exactly where the other countries are and we'll be very happy if they were able to do it. We'll help them with delivery, we'll help them with it in every way we can. We have no ego when it comes to this. No ego whatsoever. Operation Warp Speed is also making the necessary preparations to distribute these life saving treatments at scale. So we're talking about massive numbers so that millions of Americans will quickly have access to them. This includes ramping up production of supplies needed for distribution. And I have to say, we're also very, very much involved in other things other than the vaccine. If you take a look at what we're doing beyond vaccines, it's going to be very interesting. We may talk about that in a little while. But this includes ramping up production of supplies needed for distribution, such as cold chain storage, glass vials, needles, syringes, and more. We'll have everything right on hand, ready to go.

Donald Trump: (12:51)

When a vaccine is ready, the US government will deploy every plane, truck and soldier required to help distribute it to the American people as quickly as possible. America's blessed to have the most brilliant, talented doctors and researchers anywhere in the world. We have the mightiest military by far in the world. Our military is completely rebuilt. Much of the equipment has been delivered. Some of it's on the way. All made right here in the USA. We took over very, very empty cupboards, I say, medically. We also had empty cupboards in a military sense. Our military was in sad shape. It was depleted. We now have the strongest military the United States has ever had by far, and the best equipment. And you hear that outside, that beautiful sound, those are truckers that are with us all the way. They're protesting in favor of President Trump, as opposed to against. There's hundreds of trucks out there. And that's the sign of love, not the sign of your typical protest. So I want to thank our great truckers. They like me and I like them. We're working on something together.

Donald Trump: (13:58)

But we have the mightiest… And they'll be helping us with this, by the way. Speaking of truckers. We have the mightiest military in the long history of humankind. We have the best and most devoted workers ever to walk the face of the earth. And now we're combining all of these amazing strengths for the most aggressive vaccine project in history. There's never been a vaccine project anywhere in history like this. And I just want to make something clear. It's very important, vaccine or no vaccine, we're back. And we're starting the process. And in many cases they don't have vaccines and a virus or a flu comes and you fight through it. We haven't seen anything like this in 100 and some odd years, 1917, but you fight through it. And people sometimes, I guess, we don't know exactly yet, but it looks like they become immune or at least for a short while and maybe for life. But you fight through it. But what we'd like to do, if we can, is the vaccine. And I think we're going to be successful in doing it, and hopefully by the end of the year.

Donald Trump: (15:03)

Just as generations of Americans before us faced down the most difficult trials, set their sights on the highest summit and overcame the biggest obstacles, america will meet the moment, and this moment specifically in our time, with unrivaled speed, unmatched scale, and the unyielding spirit of the American people. Our nation will come back stronger and greater than ever. We're going to have a tremendous year next year. We're going to have a really good fourth quarter. We're going to have a very interesting and productive transition quarter, where Steve is there, And I'm sure our Secretary of the Treasury, I think you feel the same way, Steve. And thank you for your good work. Really good work. And it's not finished yet, is it? I want to thank Steve Mnuchin, everybody.

Donald Trump: (15:51)

Now I'd like to ask Dr. [Slowey and 00:15:54] and General Perna to come up and say a few words, followed by Secretary Azar and Secretary Esper. Thank you all very much. We're doing something that has never been done before. It's a going to result in a tremendous end. I think we're going to come up with a solution to a problem like this country probably has never seen before. But it's an honor to be your president. We're doing a great job. These people are doing an incredible job. The people right here, I want to thank you all. Total professionals. Great men, great women. Thank you all very much. Please.

Dr. Moncef Slaoui: (16:36)

Thank you, Mr. President. Good afternoon, everyone. It's a great honor and a privilege for me to have the opportunity to serve our country and the world in this remarkable endeavor. Extraordinary endeavor. Helping them and supported them do it. The Operation Warp Speed objectives are very clear. The president has described them, and I believe they are very credible. I also believe they are extremely challenging. However, I am really confident that our team across the many governmental agencies that are involved in these efforts, NIH, the CDC, the FDA, Esper, and of course with the support of the army and our partners in the private sector, we'll be able and we'll do the utmost to deliver these objectives. In fact, Mr. President, I have very recently seen early data from a clinical trial with a coronavirus vaccine, and this data made me feel even more confident that we will be able to deliver a few hundred million doses of vaccine by the end of 2020. And we will do the best we can, the best we can to do that. Thank you.

Dr. Moncef Slaoui: (17:59)
We will of course also focus on progressing and-

Dr. Moncef Slaoui: (18:03)
… Of course also focus on progressing and accelerating development of medicines for those who unfortunately already caught the virus, as well as optimize the diagnostic tests. This will be our focus 24/7 over the next many months. Thank you.

Donald Trump: (18:17)
Thank you.

General Gustave Perna: (18:22)
Good afternoon. Mr. President. Thank you. Thank you for this great honor for allowing me to be a part of this team. I'm very excited about this team. It will be historic as we execute the mission that's been given to us. I also feel very confident that the team will be able to provide the results as directed. It is going to be a Herculean task. But the combination of the two main partners between Health and Human Services and the Department of Defense, their combined strengths partnered with the other teammates will ensure our success.

General Gustave Perna: (18:58)
One of the great advantages that we have as a military is our ability to do logistical and sustainment operations afar. We're just going to apply those capabilities to this mission. This mission is about defeating the enemy. We will defeat the enemy. Why? Because winning matters. And I'm excited to be a part of this team. And Mr. President, thank you.

Donald Trump: (19:22)
Thank you very much. I appreciate it.

Speaker 2: (19:28)
Well, thank you, Mr. President, for your leadership of this historic effort. Your vision for Operation Warp Speed, setting a goal of a vaccine by January 2021 will be one of the great scientific and humanitarian accomplishments in human history. Today you're announcing the team that can get it done. Dr. Slaoui is arguably the world's most experienced and successful vaccine developer, responsible for some of the major recent breakthroughs in vaccines. General Perna oversees one of the world's largest logistics and supply chain operations, the one that keeps the Army running. Three highly accomplished career HHS scientists will oversee each area of Operation Warp Speed. Dr. Peter Marks of FDA for vaccines, Dr. Janet Woodcock of FDA for therapeutics, and Dr. Bruce Stromberg of NIH for diagnostics. This is truly a dream team.

Speaker 2: (20:26)
We started work on each of these areas in January, and Congress has provided nearly $ 10 billion explicitly for this kind of research and development effort. Operation Warp Speed will integrate existing efforts that are coordinating vaccine, therapeutic and countermeasure development, including NIH's ACTIV and RADx initiatives. This week, HHS and DOD already announced new contracts to manufacture hundreds of millions of needles and syringes here in America for distributing an eventual vaccine.

Speaker 2: (20:59)
Finally, the president's efforts will ensure not only that we get vaccines, therapeutics and diagnostics faster, but that we get large donations of the

eventual product so they're affordable for the American people. Thank you, Mr. President, and thank you to all of the American scientists and inventors at HHS, at DOD and elsewhere who are hard at work already. And I really want to express my personal appreciation to Secretary Esper and the Department of Defense because this partnership is what's going to make this truly an historic endeavor. Thank you.

Mark Esper: (21:36)
Well, thank you, Mr. President, for your leadership of this bold and historic initiative. The Department of Defense is very excited and committed to working closely with our partners at HHS, across the government and in the private sector, to accomplish the mission we have been given. Winning matters, and we will deliver by the end of this year a vaccine at scale to treat the American people and our partners abroad.

Mark Esper: (22:01)
The Department of Defense has been in this fight since day one, going back to January. We stayed ahead of the curve every step of the way. And today, on America's streets, across the nation, over 60,000 service members from all branches of the service are still out there. Whether it's doctors and nurses in hospitals, whether it's the National Guard on the streets of America or the Corps of Engineers who continue to build out capacity in America's hospitals, we are there and we will be there, Mr. President. And we look forward to this next greatest phase of this fight against the Coronavirus.

Mark Esper: (22:33)
We are all in then, we are all in now and we will be all in in the future. And we will deliver on time, to bear the full weight of the Department of Defense, all of our first class, world-class researchers and scientists, our

ability to manage logistics at scale and our great distributional capabilities. We will deliver. We will win this fight. And Mr. President, thank you again for all that you've done. We will get the job done.

Donald Trump: (23:01)
I know you will. I know you will. Any questions please? Yeah, go ahead.

Speaker 4: (23:07)
Mr. President, when you said, "Vaccine or no vaccine, we're back." What did you mean by that?

Donald Trump: (23:14)
We think we're going to have a vaccine in the pretty near future. And if we do, we're going to really be a big step ahead. And if we don't, we're going to be like so many other cases where you had a problem come in, it'll go away. At some point, it'll go away. It may flare up and it may not flare up, we'll have to see what happens. But if it does flare up, we're going to put out the fire and we'll put it out quickly and efficiently. We've learned a lot. Steve, do you have a question?

Steve: (23:41)
We've heard that the vaccine typically would take 12 to 18 months to develop. How can you do it in a speedier fashion? What makes you think this will work?

Donald Trump: (23:51)
Well, they started… Actually, I guess you heard in early January and they've been on it… I know so many, and private companies have been working on it. The government's been working on it. We've got the time

because we put a very… And they've literally been working 24 hours a day. We've got the time, and we hope to be able to do something by the end of the year or shortly thereafter.

Donald Trump: (24:16)

But again, it's not solely vaccine based. Other things have never had a vaccine and they go away. I don't want people to think that this is all dependent on a vaccine, but a vaccine would be a tremendous thing. And I will tell you, therapeutically or therapeutics, what's going on there is equally as oppressive. We have some things happening. We have the remdesivir from Gilead. We have other things that are very good. I think that a lot is happening therapeutically. I can't say that it's relatively-speaking equal to what's going on with vaccines, but I think it's doing very well, very well. Therapeutics are a big factor. Yeah, please.

Speaker 5: (25:01)

Is there a global competition to develop this vaccine? Like if France develops it first will they share it with us?

Donald Trump: (25:08)

Yeah. We have that very well worked out. Whoever gets it is going to be very proud to give it, and they've developed it. And we'll see what happens. We've got countries that are allies. We have some countries, frankly, that aren't allies, we're working very closely together. We're working together with many different countries. And again, we have no ego. We have no ego. Whoever gets it, we think it's great. We're going to work with them. They're going to work with us. Likewise, if we get it, we're going to be working with them. It's very important. It's very good question actually. Yeah, please.

Speaker 6: (25:41)
Mr. President, what do you say to those business owners and other people who are really questioning the guidance that the CDC put out last night? There was a concern that it would be overly prescriptive. Now, there's a concern it's not prescriptive enough. What are business owners to do?

Donald Trump: (25:54)
Well, I thought the guidance was very good. I've heard very good reviews on the guidance. The media will never be satisfied. If we gave you more description, that would be no good. If we gave you less, that would be no good. But I thought it was very good and I've heard a lot of good things. Go ahead, please, Green.

Speaker 7: (26:11)
Do you have any concerns about the Abbott test given some of the new numbers that have come out about-

Donald Trump: (26:16)
No, Abbott's a great test. It's a very quick test and it can always be very rapidly double-checked. If you're testing positive or negative, it can always be double-checked, but it's a very good test. It's very portable, very quick. Okay.

Speaker 7: (26:29)
What happens if China is the country that develops the vaccine? What happens if it's China? Will the US still have access to that vaccine?

Donald Trump: (26:37)
I would say the answer to that would be yes. I would say the answer would be yes. Yes, go ahead please.

Speaker 8: (26:43)
[inaudible 00:26:43] do you mean fully-approved vaccine for everyone?

Donald Trump: (26:49)
Excuse me, you're going to have to remove it. You can't hear through your…

Speaker 8: (26:50)
Do you mean a full-approved vaccine for the entire general public or a partially-approved vaccine for emergency use?

Speaker 9: (27:00)
Come over here a little bit.

Speaker 8: (27:00)
Oh, sorry. Let me step near the mic. Sorry, let me repeat-

Speaker 11: (27:03)
Sorry, let me repeat that, now I'm closer to the mic. Do you mean a fully approved vaccine for everyone, the full public, or a partially approved vaccine with emergency use?

Donald Trump: (27:12)
No, we're looking for a full vaccine for everyone that wants to get it. Not everybody's going to want to get it, but we're looking at a full vaccine. Is that a correct statement?

Speaker 12: (27:21)
Yeah, we'll-

Donald Trump: (27:22)
Please.

Speaker 12: (27:24)
So the answer is yes, we're working for a fully approved vaccine, but we'll also use the tools we have, for instance, emergency use authorization, as appropriate. We use all of our regulatory tools to bring vaccine available for the entire American population by January.

Speaker 11: (27:40)
Okay. And then Mr. President, can you just clarify, why are some of you wearing a mask and why are some of you not wearing a mask?

Donald Trump: (27:46)
We've all been tested. I've been tested. We've all been tested and we're quite a distance away and we're outdoor. So I told them, I gave them the option. They could wear it or not. So you can blame it on me, but I gave them the option. We could wear it or not. Yeah, please.

Speaker 13: (28:03)
Would a US vaccine be available for the rest of the world at an affordable rate? Like a low cost?

Donald Trump: (28:09)
The last thing anybody's looking for is profit in terms of what we're doing. Every company, they want to get it out. We've had a great experience on [inaudible 00:01:19]. We've had a great experience on everything we've done. People are looking to come up with the answer. They're not looking in … Typically they're saying, "How much am I going to make? How

much?" They really have been, there's been a great spirit on this. They want to get to the bottom of it. And I think we'll be able to do that.

Speaker 13: (28:34)

Mr. President, Indian American communities are appreciating your help in finding the vaccine for coronavirus. What is a message for the 4 million Indian Americans here?

Donald Trump: (28:44)

So, India has been so great. And as you know, your prime minister has been a very good friend of mine. I just got back a short while ago from India recently, and we're working very much with India too. We have a tremendous Indian population in the United States. Many of the people that you're talking about are working on the vaccine too, great scientists and researchers. Yeah. We're working very closely also with India. Correct. And say hello to your prime minister. Yeah, please. Go ahead.

Speaker 14: (29:18)

Thank you, Mr. President. What steps, if any, is your administration taking to ensure that the communities and the states that are hardest hit will have first access to the vaccine? Have these discussions been had, or are there any place-

Donald Trump: (29:30)

Yeah, I think we've done a good job with that. Certain areas have been hit very hard, New York, New Jersey, et cetera, et cetera, working very closely with the governors. We've worked with all of the governors. We've made a lot of people look very good with what we've done on ventilators, with what we've done on testing. We're working with all of the governors. We just sent a big transit package to New Jersey. I just spoke to the governor of New Jersey, who is a terrific person, by the way,

I have to tell you. And I just told him, “A lot of money’s coming way for the transit.” And also I spoke with the governor of New York, Governor Cuomo. We just had a conversation yesterday. We’re sending them a lot of transportation money. So it’s important. But we’ve had a very good relationship working with all of the states, regardless. All of the states. And if we do get fortunate enough, and I think we’re skilled enough, but fortunate enough to have a vaccine, it’ll get out fairly and quickly.

Speaker 14: (30:26)

Do you foresee that states that are hardest hit will have first dibs? So will like New York and New Jersey have-

Donald Trump: (30:31)

I think that makes sense, perhaps. Perhaps it does, but I would say probably, but I think they’re all going to get well distributed. If you remember where we started, we had no ventilators. We had to make them and we became a very major manufacturer of ventilators. Now we’re helping countries all over the world with ventilators. We’re sending them to many countries all over the world. When we started, we didn’t have ventilators. I inherited nothing. I inherited practically nothing from the previous administration, unfortunately. Yeah, go ahead.

Speaker 15: (31:04)

Mr. President, it’s been three months since you signed the China trade deal. Between what’s happened with coronavirus and the lagging agricultural purchases, are you at any point considering reimposing additional tariffs on China or tearing up the deal in any other way?

Donald Trump: (31:18)
Well, I don't want to talk about it. I can say China is buying a lot of our product, but the trade deal, the ink was barely dry when this came in from China. So it's not like we're thrilled. Okay, go ahead. Please.

Speaker 15: (31:30)
Mr. President, can I ask one more?

Donald Trump: (31:31)
Yeah.

Speaker 15: (31:32)
I'm wondering if you're standing by the nomination of Michael Pack to lead Voice of America after news that the DC Attorney General-

Donald Trump: (31:39)
Well, I don't know what happened. I know that Voice of America is run in a terrible manner, terrible. They're not the voice of America, they're the opposite of the voice of America. And we have a man who is very good. I don't know. He's in the nominating process, but I'll have to check that out. Yeah, please.

Speaker 16: (31:58)
Thank you, Mr. President. If public confidence is the main thing of getting people back to work and back to schools and so on, is this even possible without a vaccine? How would it be possible without a vaccine, public confidence?

Donald Trump: (32:10)
Well, I think a very big factor frankly is that very few people are … We read about all of the very sad, very tragic. I've lost friends. Many of us have lost friends. We read about that and we see that, and that's what the news covers, but it's a very small percentage. It's a very, very small percentage. I say it all the time. It's a tiny percentage. The vast majority, many people don't even know they have it. They have it or they have sniffles or they have a very minor sign and they recover. Not only recover, they probably have immunity, whether it's short term, long term, but they have probably immunity. And I think people have to understand that. That's why I think the schools should be back in the fall. I think that lots of things should happen. I don't think that you should have 70 year old teachers back yet. They should wait until everything is gone. I don't think you should have a professor that's 65 and has diabetes, or has a bad heart back necessarily, or somebody that's older than that. But we want to see our schools back.

Donald Trump: (33:14)
We want to see our country start to work again. We created the greatest economy in the history of the world and we're going to do it again. And you're going to see that next year. And it's going to start, you'll start to see it in the fourth quarter, maybe even before that. Yeah.

Speaker 17: (33:31)
Mr. President, are you at all concerned about children or teachers who are in the school bringing it home to their families or their spouses?

Donald Trump: (33:38)
I'm concerned about everything. And I'm also concerned about our country. Our country has to get back. What you're talking is when you are

doing what we did with the shutdown, that causes death also. It causes massive depression. It causes drugs, it causes suicide. It causes a lot of problems also. No, our country has to get back to work again. And you see that just looking and reading everything that's happening are people want to get back. They want to get back. Yeah.

Speaker 17: (34:07)
Sir, do you have a plan to prevent the spread? If you-

Donald Trump: (34:10)
We do. We do. We have a great plan to prevent the spread, but that doesn't mean we're going to close our country for five years. Okay. Not going to happen.

Speaker 17: (34:17)
[inaudible 00:34:17] in the schools is your plan?

Donald Trump: (34:17)
Go ahead.

Speaker 18: (34:20)
The current death toll is about 86,000.

Donald Trump: (34:23)
At current, it's about 86,000. Yes.

Speaker 18: (34:26)
Do you think that's accurate or do you think it's higher than that?

Donald Trump: (34:30)

Or lower than that, I don't know. I don't know. Those are the numbers that are being reported. I assume they're correct. Unlike other countries, I mean, you have some countries, obviously, you have some that are very obviously ridiculous, but our numbers are accurate numbers. We don't do anything with the numbers one way or the other. Whatever it is, that's what we do. We take the numbers as reported. Okay?

Speaker 18: (34:52)

Do you have any indication that they could be lower than that?

Donald Trump: (34:53)

Oh, I don't know. I don't know. If they were, I'd be very happy if they were lower. I'd like to see numbers lower. I'd like to see no death at all. One death is too many. This should have never happened. This came from China. It should have been stopped in China before it got out to the world. We have 186, it's been updated this morning, 186 countries are affected, and each country that's affected is the same thing. Russia now is badly affected. France is badly affected. You look at what each country, and you can say affected, or you can say infected, either way you want to put it, but you look at these countries. Look at Italy and you look at Spain and you look at all of these great countries in many cases, how they've had to fight through this. It's a terrible thing that happened. It could have been stopped at the source. It should have been stopped right at the source, but it wasn't. Thank you all very much. We appreciate it. Thank you. Thank you.

May 28, 2020

United States coronavirus (COVID-19) death toll surpasses 100,000.

June 4, 2020

The U.S. Health and Human Services announce new laboratory date reporting guidance for COVID-19 testing to include demographic data on race, ethnicity, age, and sex.

June 8, 2020

The World Bank states that COVID-19 will plunge the Global Economy into the worst recession since World War II.

June 24, 2020

Three weeks prior, Black Lives Matter protests broke out across the country due to the deaths of George Floyd and Breonna Taylor. Experts worried that it would lead to a spike in cases, but researchers release a report saying that it did not because the protests caused more people to stay home. The protests led to CDC rethinking its pandemic response to include a health equity framework.

June 25, 2020

CDC expands list of people at risk for severe COVID-19 illness by removing the specific age threshold from the older adult classification, noting that risk increases with age. CDC also includes people with chronic

kidney disease, COPD, obesity, immuncompromised from solid organ transplant, serious heart conditions, sickle cell disease, and type 2 diabetes are also at increased risk of severe COVID

June 23, 2020

CDC releases new science-based resources and tolls for school administrators, teachers, parents, guardians, and caregivers for safe school reopening.

August 23, 2020

After CDC studies show that American Indians and Alaska Natives are among the racial and ethnic minority group at higher risk for severe COVID-19 outcomes, CDC provides more that $200 million in COVID-19 funding to Indian Country.

September 23, 2020

United States coronavirus (COVID-19) death toll surpasses 200,000.

October 2, 2020

President Trump tests positive for the coronavirus.

October 5, 2020

White House outbreak continues as several aides and the press secretary test positive for the virus.

October 6, 2020

Food insecurity among Americans will reach 52 million peole due to the coronavirus pandemic, a 17 million increase than prepandemic numbers.

October 7, 2020

New Zealand declares itself virus free.

November 1, 2020

CDC announces the end of the no sail order for cruise ship companies.

November 3, 2020

The U.S. presidential election occurs, with response to the COVID-19 pandemic response being one of the issues most debated.

November 13, 2020

Increased outbreaks are reported across the country due to large gatherings for Halloween.

December 11, 2020

Food and Drug Administration issues an Emergency Use Authorization (EUA) for the first COVID-19 vaccine – the Pfizer-BioNTech COVID-19 vaccine.

December 14, 2020

United States coronavirus (COVID-19) death toll surpasses 300,000.

Sandra Lindsay, a nurse in New York, becomes the first American outside a clinical trial to receive the COVID-19 vaccine.

December 18, 2020

The U.S.Food and Drug Administration issues an Emergency Use Authorization for the second COVID-19 vaccine – the Moderna COVID-19 vaccine.

December 19, 2020

The Advisory Committee on Immunization practices (ACIP) issues an interim recommendation for the use of the Moderna COVID-19 vaccine in persons aged 18 years or older for the prevention of COVID-19.

December 21, 2020

U.S. Congress passes second COVID Relief Act which will now go to President Trump for approval or veto. This act promises $600 per individual.

December 24, 2020

It is estimated that more than 1 million people in the U.S. are vaccinated against COVID-19.

December 30, 2020

First U.S. case of UK variant reported in the U.S.in Colorado.
AstraZenica and University of Oxford's vaccine approved for emergency use in the UK and will begin distribution in the New Year.

December 31, 2020

One year anniversary of first reported case to WHO.

January 7, 2021

One year anniversary of CDC COVID-19 pandemic response.

January 8, 2021

Amid vaccine shortages at Pfizer and Moderna, both companies, along with scientists at NIH, are looking at ways to double their supply to prevent future shortages.

January 18, 2021

U.S COVID-19 death toll surpasses 400,000.

January 20, 2021

One year anniversary of the first reported case of COVID-19 in the U.S. Snohomish County, Washington.

January 25, 2021

First U.S. case of Brazil variant of coronavirus reported in Minnesota.

January 26, 2021

Worldwide COVID-19 cases surpass 100 million.

January 28, 2021

First U.S. case of South African variant of coronavirus reported in South Carolina.

February 1, 2021

At home tests to be put into distribution in the U.S. by Australian company Ellume.

February 16, 2021

Vaccine distribution disrupted in several states, including Texas, Missouri, Alabama, and New Hampshire due to severe winter storms.

February 21, 2021

U.S.COVID-19 death toll surpasses 500,000.

February 27, 2021

FDA approves emergency use authorization for Johnson and Johnson one shot COVID-19 vaccine.

March 8, 2021

CDC announces that fully vaccinated people can gather indoors without masks.

March 11, 2021

President Joseph Biden announces a federal vaccine website where users can find vaccines near them. He also directs all states, tribes, and territories to make all adults eligible for the vaccine by May 1st.

March 13, 2021

U.S. surpasses 100 million vaccinations administered.

March 14, 2021

March 18, 2021

U.S. announces it will send 4 million doses of COVID vaccine to Mexico and Canada.

March 19, 2021

CDC announces kids in school can socially distance from 3 feet instead of 6 feet.

April 2, 2021

CDC announces fully vaccinated individuals can travel safely domestically in the U.S. without a COVID test first.

April 13, 2021

CDC recommends pausing the use of the Johnson and Johnson COVID-19 vaccine because of blood clot complications.

April 21, 2021

U.S. surpasses 200 million vaccinations administered.

April 23, 2021

CDC recommends continued use of Johnson and Johnson vaccine for people 18 and older.

June 1, 2021

The Delta variant, first identified in India in late 2020, becomes the dominant variant in the U.S. The variant kicks off a third wave of infections during the summer of 2021.

June 27, 2021

After a substantial upswing in cases due to the Delta variant, CDC releases updated guidance for everyone in areas with substantial or high transmission to wear a mask while indoors.

June 30, 2021

A MMWR notes a increase in breakthrough infections in Barnstable County, Massachusetts in July 2021. This MMWR becomes the most wildly circulated MMWR in the agency's history.

August 6, 2021

CDC study shows that among people previously infected with COVID-19, reinfection was less than half as likely among those who were vaccinated after their first infection.

August 18, 2021

CDC announces a new center, the Center for Forecasting and Outbreak Analytics, to improve the U.S. government's ability to forecast and model emerging health threats, such as pandemics.

August 30, 2021

ACIP recommends Pfizer-BioNTech's vaccine for people ages 16 years and older.

October 7, 2021

A CDC study published in Pediatrics reveals that more than 140,000 U.S. children under the age of 18 years lost a parent, custodial grandparent, or grandparent caregiver who provided the child's home and basic needs.

October 21, 2021

CDC endorses ACIP recommendation for COVID-19 booster shots for people who are 65 years and older, and people 18 years and older who live in long-term care settings, have underlying medical conditions, and who live or work in high risk settings.

October 29, 2021

New CDC study provides further evidence that COVID-19 vaccines offer higher protection than previous COVID-19 infection.

November 2, 2021

CDC endorses ACIP recommendation that children ages 5 to 11 years be vaccinated against COVID-19 with the Pfizer-BioNTech pediatric vaccine.

November 10, 2021

CDC and the World Health Organization report that more than 22 million infants missed their first dose of measles vaccine in 2020, the largest increase in two decades, due in part to the COVID-19 pandemic.

November 26, 2021

World Health Organization classifies a new variant, Omicron, as a variant of concern after it was first reported by scientists in South Africa. The variant has several mutations in the spike protein that concern scientists around the world.

November 29, 2021

CDC recommends that everyone over 18 years old who received a Pfizer or Moderna vaccine receive a COVID-19 booster shot 6 months after they are fully vaccinated.

WIV - Wuhan Institute of Virology, C.A.S.

Research, Report, Investigation, Examine, Analysed, or Study by Rakhesh Jaghadish L,

10 [Day]– 8 [August] – 2022 [Year],

New Conclusionin SystematicWay

The Bio Weapon Storing and Production Place is the WIV, [WIV] - Wuhan Institute of Virology.

[1] The WIV was founded in 1956 as the Wuhan Microbiology Laboratory under the Chinese Academy of Sciences (C.A.S.). It was established by scientist Gao Shangyin, a graduate of Soochow University (Suzhou).

[2] Wuhan Institute of Virology (WIV) is the only institute specializing in virology, viral pathology, and virus Technology, among 19 other biological and biomedical research institutes in the Chinese Academy of Sciences (C.A.S.).

WIV Contains a Virus Collection Center, China Center for General Viruses Culture Collection (C.C.G.V.C.C.), which the Chinese Government established in 1979 as a professional center for virus collection.

Formation of the WIV in 1956 and Its Founder, Chen Huagui, Gao Shangyin. Its Headquarters Present in Xiaohongshan, Wuchang District, Wuhan, Hubei, China.

WIV Parent Organization is the Chinese Academy of Sciences.

WIV has Many Partners Worldwide, Including the National Institutes of Health (N.I.H.) and the Bill and Melinda Gates foundation.

N.S.F.C. The National Natural Science Foundation of China is under the Ministry of Science and Technology.

[5] The National Natural Science Foundation of China is an organization directly affiliated with China's State Council for the management of the National Natural Science Fund.

N.S.F.C. Also Funding the Coronavirus Related Funding to the Wuhan Institute of Virology (WIV).

[3] N.S.F.C. has developed the flourishing bilateral cooperation mechanism for multilateral cooperation, signing a cooperative agreement for cohorts research funding program with Canada for the first time under the World Health Organization (WHO) framework. N.S.F.C. also cooperated with the non-governmental charity organization **Bill & Melinda Gates Foundation**, attracting financial resources outside governmental funds and broadening the network, raising N.S.F.C.'s international influence through Melinda Gates Foundation's "Grand Challenges.

On January 29, 2016, Vice President S.H.E.N. Yan met with a delegation led by Dr. Steven Buchsbaum, Deputy Director of Discovery & Translational Sciences of the Bill & Melinda Gates Foundation.

Vice President S.H.E.N. Yan meets with Deputy Director of Discovery & Translational Sciences of Bill & Melinda Gates Foundation.

[6] The National Bio-safety Laboratory has strong ties to the Galveston National Laboratory at the University of Texas.

[7] It was registered as a member of the World Federation for Culture Collections (W.F.C.C.) in 1989 and admitted as one of the six national culture collection centers of pathogenic microorganisms and virus strains with human-to-human transmission in 2013 by the National Health and Family Planning Commission of China. The purpose of C.C.G.V.C.C. is to standardize the procedures for virus isolation, collection, preservation, and management, to promote the development and utilization of the virus resource, and to be an essential supporting platform for virology research.WIV also contains a 454 sequencing platform. The related research includes isolation of viruses from fields, maintenance of virus collection, next-generation sequencing, bioinformatics, and database construction and maintenance. WIV has a 454 sequencing platform and a bioinformatics group with genome database experience.

Partnerships with WIV - Wuhan Institute of Virology, C.A.S.

[8] International cooperation is an essential component of science and technology activities and has played a positive role in promoting WIV's science and technology advancement and enhancing the contribution of our research achievements to the local economic growth. International cooperation is instrumental for the research program and management personnel to get timely informed about the material development trend in the world. It also presupposes a decision-making process that defines the primary strategic goals of our research plans.

As the National International Collaboration Center, WIV facilitates medium- and long-term international collaboration with the approach to strengthening science and technology ties with European countries, as well as exploring the model of collaboration with developed countries like the U.S.A and enhancing collaboration and dialog with relevant international organizations. After years of development, we have established International partnerships.

Gain of Function

Gain-of-function research is medical research that genetically alters an organism in a way that may enhance the biological functions of gene products. This may include an altered pathogenesis, transmissibility, or host range, i.e., the types of hosts that a microorganism can infect.

In Simple Words,

Gain of Function's simple definition is Isolating the Virus, Altering, Engineering, Amplifying the Virus Spreading Efficiency and Make the Virus more deadly and Virus into Transmissibility Pathogenesis between human to the human population or species to species. Spreading the virus among the Population and Calculating Mortality and the Efficiency of Transmissibility of the Modified Virus.

Some Research about Coronavirus

A SARS-like cluster of circulating bat coronaviruses shows potential for human emergence, 2015
https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4797993/

[13] This study was carried out in accordance with the recommendations for the care and use of animals by the Office of Laboratory Animal Welfare (O.L.A.W.), N.I.H. The Institutional Animal Care and Use Committee (I.A.C.U.C.) of The University of North Carolina at Chapel Hill (U.N.C., Permit Number A-3410-01) approved the animal study protocol (I.A.C.U.C. #13-033) used in these studies.

Reported studies were initiated after the University of North Carolina Institutional Biosafety Committee approved the experimental protocol (Project Title: Generating infectious clones of bat SARS-like CoVs; Lab Safety Plan ID: 20145741; Schedule G ID: 12279). These studies were initiated before the U.S. Government Deliberative Process Research Funding Pause on Selected Gain-of-Function Research Involving Influenza, MERS, and SARS Viruses http://www.phe.gov/s3/dualuse/Documents/gain-of-function.pdf

This paper has been reviewed by the funding agency, the N.I.H. Continuation of these studies was requested, and this has been approved by the N.I.H.

[12] Gain-of-function studies, or research that improves the ability of a pathogen to cause disease, help define the fundamental nature of human-pathogen interactions, thereby enabling assessment of the pandemic potential of emerging infectious agents, informing public health and preparedness efforts, and furthering medical countermeasure development. Gain-of-function studies may entail biosafety and biosecurity risks; therefore, the risks and benefits of gain-of-function research must be evaluated, both in the context of recent U.S. biosafety incidents and to keep pace with new technological developments, in order to determine which types of studies should go forward and under what conditions.

Isolation and characterization of a bat SARS-like coronavirus that uses the ACE2 receptor Published: October 30, 2013, www.nature.com

White House to Cut Funding for Risky Biological Study

[17] October 10, 2014, Friday temporarily stopped or halted all new funding for experiments that seek to study certain infectious agents by making them more dangerous.

[18] The White House Office of Science and Technology Policy and Department of Health and Human Services today announced that the U.S. Government is launching a deliberative process to assess the potential risks and benefits associated with a subset of life sciences research known as "gain-of-function" studies. With an ultimate goal of better understanding disease pathways, gain-of-function studies aim to increase the ability of infectious agents to cause disease by enhancing its pathogenicity or by increasing its transmissibility 2014.

The N.S.A.B.B. will serve as the official Federal advisory body for providing advice on oversight of this area of dual-use research, in keeping with Federal rules and regulations. The N.S.A.B.B. will meet on October 22, 2014, to debate the issues and begin the process of developing recommendations.

Bill Gates Foundation and NIH Fundings on Coronavirus,

Middle East respiratory syndrome coronavirus: quantification of the extent of the epidemic, surveillance biases, and transmissibility, 2014

Simon Cauchemez, Christophe Fraser, Maria D Van Kerkhove, Christl A Donnelly, Steven Riley, Andrew Rambaut, Vincent Enouf, Sylvie van der Werf, Neil M Ferguson.

The novel Middle East respiratory syndrome coronavirus (MERS-CoV) had, as of August 8, 2013, caused 111 virologically confirmed or probable human cases of infection worldwide. We analyzed epidemiological and genetic data to assess the extent of human infection, the performance of case detection, and the transmission potential of MERS-CoV with and without control measures.

Methods: We assembled a comprehensive database of all confirmed and probable cases from public sources and estimated the incubation period and generation time from case cluster data. Using data on the numbers of visitors to the Middle East and their duration of stay, we estimated the number of symptomatic cases in the Middle East. We did independent analyses, looking at the growth in incident clusters, the growth in the viral population, the reproduction number of cluster index cases, and cluster sizes to characterize the dynamical properties of the epidemic and the transmission scenario.

Findings: The estimated number of symptomatic cases up to August 8, 2013, is 940 (95% CI 290-2200), indicating that at least 62% of human symptomatic cases have not been detected. We find that the case-fatality ratio of primary cases detected via routine surveillance (74%; 95% CI 49-91) is biased upwards because of detection bias; the case-fatality ratio of

secondary cases was 20% (7-42). Detection of milder cases (or clinical management) seemed to have improved in recent months. Analysis of human clusters indicated that chains of transmission were not self-sustaining when infection control was implemented but that R in the absence of controls was in the range 0·8-1·3. Three independent data sources provide evidence that R cannot be much above 1, with an upper bound of 1·2-1·5.

Interpretation: By showing that a slowly growing epidemic is underway either in human beings or in an animal reservoir, quantification of uncertainty in transmissibility estimates, and provision of the first estimates of the scale of the epidemic and extent of case detection biases, we provide valuable information for more informed risk assessment.

Funding: Medical Research Council, Bill & Melinda Gates Foundation, EU FP7, and National Institute of General Medical Sciences [19].

Isolation and Characterization of a Novel Bat Coronavirus Closely Related to the Direct Progenitor of Severe Acute Respiratory Syndrome Coronavirus,

Journal of Virology, 30 Dec 2015, 90(6):3253-3256 DOI: 10.1128/jvi.02582-15 PMID: 26719272 PMCID: PMC4810638

Running title: Novel SARS-like coronavirus

[Yang XL, Hu B, Wang B, Wang MN, Zhang Q, Zhang W, Wu LJ, Ge XY, Zhang YZ, Daszak P, Wang LF, Shi ZL] **Key Laboratory of Special Pathogens and Center for Emerging Infectious Diseases, Wuhan Institute of Virology, Chinese Academy of Sciences, Wuhan, China.**

The isolation and characterization of a novel bat coronavirus which is much closer to the severe acute respiratory syndrome coronavirus (SARS-CoV) in genomic sequence than others previously reported, particularly in its S gene. Cell entry and susceptibility studies indicated that this virus could use ACE2 as a receptor and infect animal and human cell lines. Our results provide further evidence of the bat origin of the SARS-CoV and highlight the likelihood of future bat coronavirus emergence in humans.

NOTE: This File was Created on December 7 at 12:33:45 before the Pandemic Started on December 12, 2019.

Abstract:

As a World Health Organization Research and Development Blueprint priority pathogen, there is a need to better understand the geographic distribution of Middle East Respiratory Syndrome Coronavirus (MERS-CoV) and its potential to infect mammals and humans. This database documents cases of MERS-CoV globally, with specific attention paid to zoonotic transmission. An initial literature search was conducted in PubMed, Web of Science, and Scopus; after screening articles according to the inclusion/ exclusion criteria, a total of 208 sources were selected for extraction and geo-positioning. Each MERS-CoV occurrence was assigned one of the following classifications based upon published contextual information: index, unspecified, secondary, mammal, environmental, or imported. In total, this database is comprised of 861 unique geo-positioned MERS-CoV occurrences. The purpose of this article is to share a collated MERS-CoV database and extraction protocol that can be utilized in future mapping efforts for both MERS-CoV and other infectious diseases. More broadly, it may also provide useful data for the development of targeted MERS-CoV surveillance, which would prove invaluable in preventing future zoonotic spillover.

Acknowledgments

R.E.R., I.D.L., J.C.P.O., S.S., and D.M.P. were supported by a grant from the Bill & Melinda Gates Foundation O.P.P. #1181128, and S.I.H. was supported by OPP1132415.

WIV - CN

WIV - CN

Core Partner, BSL4, Non EU

Wuhan Institute of Virology (WIV) is the only institute specializes in virology, viral pathology and virus technology, among 19 other biological and biomedical research institutes in Chinese Academy of Sciences (CAS). WIV contains a virus collection center--China Center for General Viruses Culture Collection (CCGVCC) which was established by the Chinese government in 1979 as a professional center for virus collection.

It was registered as a member of World Federation for Culture Collections (WFCC) in 1989 and admitted as one of the six national culture collection centers of pathogenic microorganism and virus strain with human-to-human transmission in 2013 by the National Health and Family Planning Commission of China. The purpose of CCGVCC is to standardize the procedures for virus isolation, collection,preservation, and management, to promote the development and utilization of the virus resource, and to be an important supporting platform for virology research.WIV also contains a 454 sequencing platform. The related research include: isolation of virus from fields,maintenance of virus collection, next generation sequencing, bioinformatics and database construction and maintaining.

WIV has a 454 sequencing platform and a bioinformatics group which has experience in genome database.

Partnerships

International cooperation is an important component of science and technology activities and it has played a positive role in promoting WIV's science and technology advancement and enhancing the contribution of our research achievements to the local economic growth. International cooperation is instrumental for research program and management personnel to get timely informed about the material development trend in the world. It also provides support for the decision making process that defines major strategic goals of our research plans.

As the National International Collaboration Center, WIV facilitate medium- and long-term international collaboration with the approach to strengthen science and technology ties with European countries, to extend its collaboration with developing countries, as well as to explore the model of collaboration with developed countries like U.S.A, and to enhance collaboration and dialog with relevant international organizations. After years of development, we have establishes a lot of international partnerships.

EcoHealth Alliance and WIV - Wuhan Institute of Virology, C.A.S.

ECO HEALTH ALLIANCE is a Global and U.S. Based Non-Governmental Organization. This Organization has Linked with the WIV - Wuhan Institute of Virology, C.A.S.

Their Partners are Johnson and Johnson, Reckitt Benckiser, John Hopkins Bloomberg School of Public Health, Center for Disease Control & Prevention, Food and Agriculture Organization of the United Nations (F.A.O.), and Bill and Melinda Gates Foundation.

Dr. Peter Daszak is the President of the EcoHealth Alliance. Peter Daszak is a British Zoologist and public expert on disease ecology, particularly zoonosis.

Dr. Peter Daszak is a National Academy of Medicine member and Chair of the NASEM's Forum on Microbial Threats. He is also a member of the N.R.C. Advisory Committee to the U.S. Global Change Research Program, the Supervisory Board of the One Health Platform, the One Health Commission Council of Advisors, the CEEZAD External Advisory Board, the Cosmos Club, and the Advisory Council of the Bridge Collaborative. He has served on the I.O.M. Committee on global surveillance for emerging zoonoses, the N.R.C. committee on the future of veterinary research, the International Standing Advisory Board of the Australian Biosecurity C.R.C.; and has advised the Director for Medical Preparedness Policy on the White House National Security Staff on global health issues.

Dr. Peter Daszak was awarded the CSIRO Medal in 2000 for collaborative research on the discovery of amphibian chytridiomycosis, is the institutional director of the E.H.A. for USAID-EPT-PREDICT, serves on the editorial boards of Conservation Biology, One Health, GeoHealth, One Health Outlook, Transactions of the Royal Society of Tropical Medicine & Hygiene, and is editor-in-chief of the journal Ecohealth. Dr. Peter Daszak is a regular consultant to WHO on prioritizing pathogens for research and development. He has authored over 300 scientific papers and has been listed as a Web of Science Highly Cited Researcher in 2018. His work has been widely covered in the media, from press articles in The New York Times, The Wall Street Journal, The Economist, The Washington Post, and U.S. News & World Report, to television appearances on 60 Minutes, CNN, A.B.C., NPR's Talk of the Nation, Science Friday, and Fresh Air with Terry Gross.

He is also an Important Person in Coronavirus Research and Pandemic Emergence.

EcoHealth Alliance, N.I.H., NIAID, and Wuhan Virology of Institute Funds.

Understanding the Risk of Bat Coronavirus Emergence

The above Protocol Title **"UNDERSTANDING THE RISK OF BAT CORONAVIRUS EMERGENCE,"** is a Research Study about the ALLERGY AND INFECTIOUS DISEASES RESEARCH Grant Awarded by the Agency called the Department of Health and Human Services (H.H.S.), The Total Funding of the H.S.S. to the E.C.H. is 3.7 Million Dollars ($3,748,715; THREE MILLION SEVEN HUNDRED FORTY-EIGHT THOUSAND SEVEN HUNDRED FIFTEEN) From 2014 to 2026.

The Federal Award Identification Number (FAIN) of the Above Research is R01AI110964.

Awarding Sub Agency is the National Institutes of Health, and Awarding Office is NIH NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES (NIAID); the business Type is a Non-Profit Organization.

The below document shows that the Hummingbird I.R.B. Approved the Research Study for one year, Hummingbird I.R.B. # No: -2014-23, with an Approval Period from November 14 to November 13, 2015. And Also, the below Information Shows that the Study was the Human Subject Intervention. The meaning of the HIS Human Subject Intervention Means, Taking the Human as a Subject and Studying that Subject. Examples of Interventions include assigning subjects to take a particular drug in a clinical trial and Collecting the Data like Efficiency and Efficacy.

Protocol Title:	Understanding the Risk of Bat Coronavirus Emergence
Hummingbird IRB #:	2014-23
Grant Number:	1R01AI110964-01
Sponsor:	EcoHealth Alliance
Approval Period:	November 14, 2014 – November 13, 2015

Dear Dr. Daszak:

At the convened board meeting of November 14, 2014, Hummingbird IRB approved the above referenced study for one year.

The following document was approved:

Protocol Date: May 27, 2014

We wish to acknowledge the approval from Wuhan University's IRB which approved the portion of the study for which there was human subject intervention. Hummingbird IRB's approval extends only to the data analysis which will take place for anonymized data transferred to Dr. Daszak.

Any changes made to the protocol must be submitted to the Hummingbird IRB. Approval from Hummingbird IRB must be secured prior to initiation of the revision(s). You will receive a reminder to renew approval of the study approximately 3 months prior to the end of the approval period.

Attached, you will find a summary of investigator commitments with which the Board requires each investigator to adhere to during the approval period.

Sincerely,

Isaac M. Colbert, Ph.D.
Chairman, Hummingbird IRB

Wuhan University Ethics Approval Board

Research Study US NIAID R01AI110964: Understanding the Risk of Bat Coronavirus Emergence

This multidisciplinary study will include human subjects research. The human subjects research is both qualitative and quantitative. The focus is on the type and frequency of animal contact, as well as the range of wildlife observed. The research provides a framework to gain rapid understanding of human-animal interactions. Alignment of the human subjects research will coincide with animal biological surveillance to maximize the understanding of transmission risk with the potentially zoonotic pathogens identified in animal populations.

Volunteers will be recruited by word of mouth or by referral from key informants or other participants from the two target groups (ie, wildlife value chain participants and those highly exposed to wildlife, particularly bats) in Guangdong, Guangxi, Yunnan, and Fujian provinces in cooperation with local Bureaus of Public Health and CDCs. We will identify three sites in each province for a total of 12 sites representing the range of settings where the target population may be found (eg, bat caves, wet markets; formal and informal wildlife trade posts; animal transport/travel routes and mechanisms including transport storage and exchange centers, and wildlife value chain supporting industries such as guesthouses, restaurants, medicinal/magical/material animal parts and animal by-product preparers, vendors and purchasers). It is anticipated that eight focus groups (two per province) of approximately 8-10 individuals each (ie, a total of 48-80) and 144 ethnographic interviews (12 per site) will be conducted. Therefore, a total of 192 to 224 individuals will participate in qualitative research. With participant permission, qualitative interviews and focus groups will be recorded.

For the behavioral survey, a sampling frame and recruitment materials for this quantitative research will be developed in Year 2. It is anticipated that approximately 2500 individuals will be interviewed and asked to provide blood (no more than 550ml), sputum, and stool samples. We will screen sera for antibodies to SARS-CoV, other alpha & beta coronaviruses including MERS-CoV, and novel bat-CoVs.

Only adults 18 years or older will be invited to participate. At least one of the focus groups and an estimated 35-40% of the interviews and surveys will be conducted with women. Subjects will be enrolled in this study without regard to ethnicity. The primary enrollment criteria are related to occupational exposure to wildlife and residence near wildlife. All participants will sign an informed consent approved by the Wuhan Ethics Approval Board. In recognition of the time and expertise offered by study participants, each person will be offered a small token of practical, emotional or social significance. The token will not

WUHAN UNIVERSITY

299 Bayi Rd., Wuhan 430072, Hubei, P.R. China

cost a lot of money, nor will it be money.

All data, including notes, recordings, questionnaires, and computer files will be will be coded to strictly preserve confidentiality. Paper files will be scanned electronically and then shredded. Biological samples will be coded to maintain anonymity of sample results. Identifying information such as consent forms and test results will be kept under lock and key in a file cabinet. All electronic data will be encrypted. Data access will be limited to investigators conducting analyses; data will have protections with data access codes required. Data collection is cross sectional and master list data will not be required for the analysis of data. Data will be presented in the aggregate. Original data will be stored for five years after the completion of the study. At that time, electronic files will be permanently deleted.

Chuanhua Yu

93.855: ALLERGY AND INFECTIOUS DISEASES RESEARCH

Objectives

To assist public and private nonprofit institutions and individuals to establish, expand and improve biomedical research and research training in infectious diseases and related areas; to conduct developmental research, to produce and test research materials. To assist public, private and commercial institutions to conduct developmental research, to produce and test research materials, to provide research services as required by the agency for programs in infectious diseases, and controlling disease caused by infectious or parasitic agents, allergic and immunologic diseases and related areas. Projects range from studies of microbial physiology and antigenic structure to collaborative trials of experimental drugs and vaccines, mechanisms of resistance to antibiotics as well as research dealing with epidemiological observations in hospitalized patients or community populations and progress in allergic and immunologic diseases. Because of this dual focus, the program encompasses both basic research and clinical research. Small Business Innovation Research (SBIR) program expands and improves private sector participation in biomedical research. The SBIR Program intends to increase and facilitate private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology Transfer (STTR) program stimulates and fosters scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Research Career Development Awards support the development of scientists during the formative stages of their careers. Individual National Research Service Awards (NRSAs) are made directly to approve applicants for research training in specified biomedical shortage areas. In addition, Institutional National Research Service Awards are made to enable institutions to select and make awards to individuals to receive training under the aegis of their institutional program.

Understanding the Risk of Bat Coronavirus Emergence

Daszak, Peter

Ecohealth Alliance, Inc., New York, NY, United States

Abstract

This project will examine the risk of future coronavirus (CoV) emergence from wildlife using in-depth field investigations across the human-wildlife interface in China, molecular characterization of novel CoVs and host receptor binding domain genes, mathematical models of transmission and evolution, and in vitro and in vivo laboratory studies of host range. Zoonotic CoVs are a significant threat to global health, as demonstrated with the emergence of pandemic severe acute respiratory syndrome coronavirus (SARS-CoV) in China in 2002, and the recent and ongoing emergence of Middle East Respiratory Syndrome (MERS-CoV). Bats appear to be the natural reservoir of these viruses, and hundreds of novel bat-CoVs have been discovered in the last two decades. Bats, and other wildlife species, are hunted, traded, butchered and consumed across Asia, creating a large scale human-wildlife interface, and high risk of future emergence of novel CoVs. This project aims to understand what factors increase the risk of the next CoV emerging in people by studying CoV diversity in a critical zoonotic reservoir (bats), at sites of high risk for emergence (wildlife markets) in an emerging disease hotspot (China). The three specific aims of this project are to: 1. Assess CoV spillover potential at high risk human-wildlife interfaces in China. This will include quantifying he nature and frequency of contact people have with bats and other wildlife; serological and molecular screening of people working in wet markets and highly exposed to wildlife; screening wild-caught and market sampled bats from 30+ species for CoVs using molecular assays; and genomic characterization and isolation of novel CoVs. 2. Develop predictive models of bat CoV emergence risk and host range. A combined modeling approach will include phylogenetic analyses of host receptors and novel CoV genes (including functional receptor binding domains); a fused ecological and evolutionary model to predict host-range and viral sharing; and mathematical matrix models to examine evolutionary and transmission dynamics. 3. Test predictions of CoV inter-species transmission. Predictive models of host range (i.e. emergence potential) will be tested experimentally using reverse genetics, pseudovirus and receptor binding assays, and virus infection experiments across a range of cell cultures from different species and humanized mice.

Public Health Relevance

Most emerging human viruses come from wildlife, and these represent a significant threat to global public health and biosecurity - as demonstrated by the SARS coronavirus pandemic of 2002-03 and an ongoing SARS-like epidemic in the Middle East. This project seeks to understand what factors allow animal Coronaviruses to evolve and jump into the human population by studying virus diversity in a critical group of animals (bats), a sites of high risk for emergence (wildlife markets) in an emerging disease hotspot (China).

2. Bat Coronaviruses in China, March 2, 2019

Yi Fan, Kai Zhao, Zheng-Li Shi, Peng Zhou

Abstract

During the past two decades, three zoonotic coronaviruses have been identified as the cause of large-scale disease outbreaks–Severe Acute Respiratory Syndrome (SARS), Middle East Respiratory Syndrome (MERS), and Swine Acute Diarrhea Syndrome (SADS). SARS and MERS emerged in 2003 and 2012, respectively, and caused a worldwide pandemic that claimed thousands of human lives, while SADS struck the swine industry in 2017. They have common characteristics, such as they are all highly pathogenic to humans or livestock, their agents originated from bats, and two of them originated in China. Thus, it is highly likely that future SARS- or MERS-like coronavirus outbreaks will originate from bats, and there is an increased probability that this will occur in China. Therefore, the investigation of bat coronaviruses becomes an urgent issue for the detection of early warning signs, which in turn minimizes the impact of such future outbreaks in China. The purpose of the review is to summarize the current knowledge on viral diversity, reservoir hosts, and the geographical distributions of bat coronaviruses in China, and eventually we aim to predict virus hotspots and their cross-species transmission potential.

Keywords: bat; coronavirus; cross-species; epidemiology; zoonosis.

3. Human-animal interactions and bat coronavirus spillover potential among rural residents in Southern China Published Online: 9 November 2019

Hongying Li, Emma Mendelsohn, Chen Zong, Wei Zhang, Emily Hagan, Ning Wang, Shiyue Li, Hong Yan, Huimin Huang, Guangjian Zhu, Noam Ross, Aleksei Chmura, Philip Terry, Mark Fielder, Maureen Miller, Zhengli Shi zlshi@wh.iov.cn and Peter Daszak

Abstract

Human interaction with animals has been implicated as a primary risk factor for several high impact zoonoses, including many bat-origin viral diseases. However, the animal-to-human spillover events that lead to emerging diseases are rarely observed or clinically examined, and the link between specific interactions and spillover risk is poorly understood. To investigate this phenomenon, we conducted biological-behavioral surveillance among rural residents in Yunnan, Guangxi, and Guangdong districts of Southern China, where we have identified a number of SARS-related coronaviruses in bats. Serum samples were tested for four bat-borne coronaviruses using newly developed enzyme-linked immunosorbent assays (ELISA). Survey data were used to characterize associations between human-animal contact and bat coronavirus spillover risk. A total of 1,596 residents were enrolled in the study from 2015 to 2017. Nine participants (0.6%) tested positive for bat coronaviruses. 265 (17%) participants reported severe acute respiratory infections (SARI) and/or influenza-like illness (ILI) symptoms in the past year, which were associated with poultry, carnivore, rodent/shrew, or bat contact, with variability by family income and district of residence. This study provides serological evidence of bat coronavirus spillover in rural communities in Southern China. The low seroprevalence observed in this study suggests that bat coronavirus spillover is a rare event. Nonetheless, this study

highlights associations between human-animal interaction and zoonotic spillover risk. These findings can be used to support targeted biological behavioral surveillance in high-risk geographic areas in order to reduce the risk of zoonotic disease emergence.

HIGHLIGHTS

Scientific question

What are the behavioral risks in human-animal interactions that could lead to the emergence of bat coronaviruses in human population. Evidence before this study Bat borne coronaviruses have caused several emerging infectious disease outbreaks of global significance, including SARS. Novel SARS-related coronaviruses have been discovered in bat populations in Southern China, some of which have the capacity to infect human cells. Human -animal interactions are thought to be critical for the emergence of bat coronaviruses, however the specific interactions linked to animal-to-human spillover remain unknown.

New findings

This study found serological evidence for bat-borne coronavirus transmission to people. Direct contact with bats was not identified as a risk factor. However, self-reported severe acute respiratory infection (SARI) and/or influenza-like illness (ILI) was linked to human interaction with other wildlife and livestock, suggesting that there may be other zoonotic exposures leading to clinical illness in these populations.
Significance of the study

Findings from this study suggested that an integrated biological and behavioral surveillance in healthy community settings can help identify potential zoonotic disease spillover events or target surveillance to at-risk populations. This approach represents a potential early-warning system that could be used under non-outbreak conditions to identify potential zoonotic emerging diseases prior to largescale outbreaks.

5. DEFUSE - Defusing the Threat of Bat-borne Coronaviruses (2018)

Proposal Title: DEFUSE - Defusing the Threat of Bat-borne Coronaviruses (2018)

Proposal Identifier: HR001118S0017-PREEMPT-FP-019

Amounts Requested by EcoHealth Alliance:

Phase I $8,411,546

Phase II $5,797,699

Total: $14,209,245

This This Proposal Was Rejected by the Defense Advanced Research Projects Agency (DARPA), Below Rejection Letter Shows,

REJECTION OF DEFUSE PROJECT PROPOSAL

Proposal Title:	DEFUSE - Defusing the Threat of Bat-borne Coronaviruses (2018)
Proposal Identifier:	HR001118S0017-PREEMPT-FP-019

Amounts Requested by EcoHealth Alliance:

Phase I	$8,411,546
Phase II	$5,797,699
Total:	**$14,209,245**

RESULT

The DEFUSE proposed project by EHA was **rejected by DARPA**, although *"if funding became available"*, certain components of particular interest could have gone ahead, subject to a clear contractual Dual Use Research of Concern (DURC) risk mitigation plan that *'includes a responsible communications plan'*.

REASONS FOR REJECTION

The Biological Technologies Office of DARPA reviewed the EcoHealth Alliance DEFUSE proposal and the Evaluation Reports and decided it was "**selectable**". In doing so, two out of three reviewers considered the aim of preempting "zoonotic spillover through reduction of viral shedding in the bat caves" as of interest to DARPA. These reviewers assessed the EHA and Collaborators team and concluded that:

- They have plenty of prior experience.
- They have access to Yunnan caves where bats are infected with SARSr viruses.
- They have carried out past surveillance work
- They have developed geo-based risk maps of zoonotic hotspots
- Their proposed experimental work is logical and can validate molecular and evolutionary models.
- Their proposed preemption approaches can rapidly be validated using bat and "batenized" mouse models.

However, the Biological Technologies Office did not recommend it be funded **at that time** because significant weaknesses were identified:

1. The proposal is considered to potentially involve GoF/DURC research because they propose to synthesize spike glycoproteins which bind to human cell receptors and insert them into SARSr-CoV backbones to assess whether they can cause SARS-like disease.

2. However the proposal does not mention or assess potential risks of Gain of Function (GoF) research.

3. Nor does the proposal mention or assess Dual Use Research of Concern (DURC) issues, and thus fails to present a DURC risk mitigation plan.

4. The proposal hardly addresses or discusses ethical, legal, and social issues (ELSI).

5. The proposal fails to discuss problems with the proposed vaccine delivery systems caused by the known issues of variability in vaccine dosage.

6. The proposal did not provide sufficient information about how EHA would use any data obtained and how they would model development or perform any necessary statistical analysis.

7. The proposal did not explain clearly how EHA will take advantage of their previous work, nor how that previous work could be extended.

8. The proposal failed to clearly assess how it would deploy and validate the “TA2 preemption methods” in the wild. This refers to carrying out experiments with effective immune boosting molecules and delivery techniques via FEA aerosolization mechanism at one test and. two control bat cave sites in Yunnan, China (PARC, EHA, WIV).

9. The proposal does not address concerns about these vaccines not being able to protect against the wide variety of coronaviruses in bat caves which are constantly evolving, due to insufficient epitope coverage.

DRASTIC independently assesses that the tone of the proposal (see for instance the ‘<u>our</u> cave complex’) and the deep suggested involvement of some of the WIV parties (Shi Zheng Li employed half-time for 3 years - paid via the grant - and invited to DARPA headquarters at Arlington), may not have helped either - especially in the absence of any DURC risk mitigation program.

It is clear that the proposed DEFUSE project led by Peter Daszak could have put local communities at risk by failing to consider the following issues:

- Gain of Function
- Dual Use Research of Concern
- Vaccine epitope coverage
- Regulatory requirements
- ELSI (ethical, legal, and social issues)
- Data Usage

EVENT 201

THE PLANNED PANDEMIC EXERCISE

Event 201 is the Pandemic Exercise held on October 18, 2019; three days ago, they created the document to host Event 201 on October 15 2019. On Twitter, the Johns Hopkins Center Tweet shows that on August 22, 2019, they tweeted the first tweet about event 201.

Lot's Evidence on the Shows that the Before their Planned Pandemic Starts. The Johns Hopkins Center for Health Security, with their Partners World Economic Forum Founded by the Klaus Schwab and Bill and Melinda Gates Foundation Founded by the Bill Gates and Melinda Gates, hosted Event 201, a High-Level Pandemic Exercise, on October 18, 2019, in New York.

This Planned Pandemic proved that Johns Hopkins Center for Health Security: Bill Gates: World Economic Form Members and its Young Global Leaders Including Justine Trudeau, Joe Biden, and Everyone Involved in this Planned Pandemic.

The Corrupt WEF World Economic Forum Young Global Leaders were linked to this World Unforgivable Genocide of Humanity.

In 2003, Both SARS-CoV and SARS-CoV-2 were first recognized in China. SARS-CoV caused a total of 8422 probable SARS cases, 919 SARS-related deaths (case-fatality rate: 11%), and spread to 32 countries or regions between November 2002 and August 2003.

Reference: https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7126544/

In Every Outbreak, they Played or Hosted an Exercise about the Pandemic, Before the Pandemic started. This Planned Pandemic proves they created a Perfect Intentional Plot by them to Destroy Humanity of this World.

Dark Winter Exercise

The Dark Winter exercise portrayed a fictional scenario depicting a covert smallpox attack on U.S. citizens. The plan is set in 3 successive NSC meetings over two weeks. The practice was held at Andrews Air Force Base, Washington, DC. The Dark Winter script and other event materials are available through the conference web pages. June 22-23, 2001
Reference:http://www.centerforhealthsecurity.org/our-work/events/2001_dark-winter/index.html

This Exercise Happened before the Outbreak in 2003, Both SARS-CoV and SARS-CoV-2

Atlantic Storm

Atlantic Storm was a ministerial table-top exercise convened by the Center for Biosecurity, the Center for Transatlantic Relations of Johns Hopkins University, and the Transatlantic Biosecurity Network. The training used a fictitious scenario designed to mimic a summit of transatlantic leaders forced to respond to a bioterrorist attack. The event website provides a comprehensive.

Atlantic Storm was a ministerial table-top exercise convened on January 14, 2005, by the Center for Biosecurity of the University of Pittsburgh Medical Center, the Center for Transatlantic Relations of the Johns Hopkins University, and the Transatlantic Biosecurity Network. The exercise used a fictitious scenario designed to mimic a summit of transatlantic leaders forced to respond to a bioterrorist

This Exercise Held before the Outbreak, The Pandemic Threat: H5N1 Virus in 2006–2007.

Reference:https://www.centerforhealthsecurity.org/our-work/exercises/2005_atlantic_storm/index.html

Before the Coronavirus, another Fake and Fictional and Planned Pandemic.

Clade X May 15, 2018

The Center hosted a pandemic table-top exercise in Washington, D.C., in May 2018. The goal of this exercise ("Clade X") was to illustrate high-level strategic decisions and policies that the United States and the world will need to pursue to diminish the consequences of a severe pandemic. It addressed a pressing current concern, presented plausible solutions, and was experientially engaging.

Reference:https://www.centerforhealthsecurity.org/our-work/exercises/2018_clade_x_exercise/index.html

Event 201 October 18, 2019

In partnership with the World Economic Forum and the Bill and Melinda Gates Foundation, the Johns Hopkins Centre for Health Security hosted Event 201, a high-level pandemic exercise, on October 18, 2019, in New York, NY. The exercise aimed to illustrate the pandemic preparedness efforts, responsible decisions, and cooperation required from global businesses, governments, and public health leaders that the world will need to diminish the large-scale economic and societal consequences of a severe pandemic.

Note: There are two Exercise Held about the Pandemic and Viruses.

COVID19 is Long Term Pre-Planned Pandemic. Before the COVID-19 Coronavirus Pandemic, They Did the Rehearsal about the Pandemic. In August, they started to Initiate the Pandemic Exercise. In September, they started preparing for the Pandemic Exercise; on October 15, they Created the Pandemic Exercise Documents; in December, they Started Creating Panic among the World population about the Virus.

Before the Bill Gates Funded the High-Tech Media, Traditional Media. Most of the Media is on the Politician's Hand. Some People still trust that Whatever they see in the Traditional Media is True. But in reality, the Media Even Lie to the People, and Some Peoples are still Trusting Those Lies as True.

Below I Have Attached the Screen Shots of the About the Pandemic Exercise.

Below Screen Shots of The Johns Hopkins Center for Health Security Twitter Tweets from August 22, 2019 – July 2, 2020. The Screenshot Page was Reversed from the Old to Latest Tweets.

Scenario

Details about the scenario are available here.

CAPS: THE PATHOGEN AND CLINICAL SYNDROME

Prepared by Amesh Adalja and Lane Warmbrod

The **FICTIONAL** Coronavirus Acute Pulmonary Syndrome (CAPS) is an acute respiratory infection that can progress to pneumonia and acute respiratory distress syndrome. It is caused by a swine-origin coronavirus (CAPS virus).

The CAPS virus is from the same family of viruses as SARS and MERS but is antigenically distinct. The virus has existed in the fruit bat population for many years and has been transmitted to domestic pigs. The virus causes mild disease in pigs.

Like SARS and MERS, a mutation in the CAPS virus enabled human infection, leading to one or more spillover events to pig farmers in South America, but with limited human-to-human spread. Like SARS, a further mutation in the CAPS virus later enabled efficient human-to-human transmission.

The CAPS virus is more transmissible in mild cases than SARS-CoV, and spread by mildly symptomatic individuals is possible. Transmission is via the respiratory route, mostly by respiratory droplets, with some proportion being airborne during aerosol-generating medical procedures.

- Approximately 50% of CAPS cases require hospitalization, many of them in an intensive care unit (ICU).
- The CAPS fatality rate in hospitalized patients is about 14%.
- The overall case fatality rate (CFR) is 7%.
- The average R_0 is 1.74.
- The incubation period ranges from 5 to 7 days.

There is no licensed vaccine for any coronavirus, although some are in development for SARS and MERS. There is no antiviral drug with an indication for coronavirus treatment, although there are several drugs, including anti-HIV drugs, that might be effective. In this scenario, there is one **FICTIONAL** HIV antiviral—extranavir—that may be effective for treatment or prophylaxis of CAPS.

COMMUNICATION IN A PANDEMIC

Prepared by Marc Trotochaud and Divya Hosangadi

Effective communication during public health events can be critical to public health response efforts. Public health messages help inform the public about risks and protective actions and, done correctly, are a critical component of community engagement and the buildup of public trust. Yet, true information about public health concerns is increasingly competing with false messages that can damage public confidence in health interventions and health authorities. These false messages are often defined as misinformation, erroneous information shared through various channels, and disinformation, purposefully spread false or misleading information. The information environment is increasingly made up of a mix of information coming from web sources and other media, in addition to historical sources such as print and TV news media. However, the influence of social media has made the spread of false information even more pernicious.

Over the past 15 years, there has been a global surge in the adoption of social media technologies. In 2019, 6 social media companies had more than 1 billion active monthly users.[1] Although originally designed for virtual engagement with personal networks, social media platforms have grown rapidly to share major roles in the economy and the transfer of information. According to the Pew Research Center, social media officially outpaced print newspaper as a source of news among the entire United States population.[2] Furthermore, across countries, regardless of a nation's socioeconomic status, younger populations rely even more heavily on social media as a news source.[3]

Disinformation campaigns are widely recognized in the political world but have been identified in the public health realm as well. In the fall of 2018, a team of researchers systematically identified a concerted effort to spread disinformation and discord about vaccine safety.[4] Public health response efforts for the currently ongoing Ebola outbreak in the Democratic Republic of the Congo (DRC) have been challenged by disruptive rumors that have occasionally targeted public health responders.[5,6] Misinformation during a public health emergency is a particularly concerning threat, because of the time-dependent nature of outbreak response and the corrosive effect misinformation can have on public trust. Current solutions to the spread of mis- and disinformation are limited. Social media platforms have attempted to change their algorithms to limit the spread of false

information and promote correct information, but the problem of misinformation continues.[7,8] Many misinformation response actions have been developed to be used against political misinformation and disinformation but may be applied in response to an epidemic. More than 50 countries globally have taken different government-led actions that, in theory, aim to combat misinformation.[9] These actions can range from media literacy campaigns and fact-checking websites to more extreme measures, such as jailing users for publishing content deemed to be misinformation. In some cases, authorities have shut down social media sites or the internet entirely.[10-12]

However, censoring social media content and denying a population access to the internet has serious consequences. In addition to ethical considerations, there is mounting evidence to suggest that there are serious economic consequences to shutting down the internet. According to the Indian Council for Research on International Economic relations, the estimated 16,000 hours of international internet shutdown in India resulted in around US$3 billion in economic losses.[12]

Misinformation and disinformation are likely to be serious threats during a public health emergency. Unfortunately, thus far, there are limited ways to control the propagation of misinformation, leading to potentially draconian methods to manage this problem.

EVENT 201 MODEL

Disclaimer: this model was used exclusively for the exercise in October 2019 and does not relate to and cannot be applied to the current 2019-nCoV outbreaks because the epidemiologic inputs in this model differ from what is observed in 2019-nCoV.

Prepared by Caitlin Rivers

Date: October 11, 2019

The Event 201 model simulates an outbreak of a moderately transmissible pathogen in a fully susceptible population. The model is intended to be a realistic representation of how a novel infectious disease could become a pandemic in the absence of adequate control measures.

Model Description

We used an ordinary differential equation approach to simulate the Event 201 pandemic. A graphical depiction of the model structure and a table of the key parameters are available in the Appendix. The model contains six compartments representing different stages of infection. Key features of the model include two compartments for individuals infectious in the community: half develop mild illness (I_M) and half develop severe illness (I_S). Patients with severe infection either die (D) or recover (R) at rate α. Those with a mild infection move to the recovered compartment at rate δ.

Global Spread

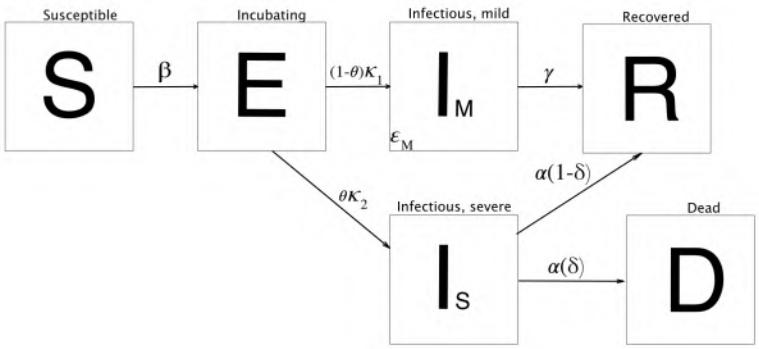

Following the initial spillover event in a large city in South America, 300 of the largest cities in the world were stochastically seeded with infectious cases to represent disease spread through international travel. The rate at which new cities were added to the model accelerates as time progresses, much like the growth of the epidemic itself. The number of imported cases ranged between 1 and 4 for each city.

The model was run for each individual city in turn. To simulate the stochastic nature of outbreaks, parameters for each city were randomly selected from realistic distributions. The force of infection, β, was chosen from a normal distribution calibrated to produce an overall basic reproduction number of 1.7 (the reproduction number of individual cities ranged from 1.1 to 2.6). The case fatality risk (CFR) of hospitalized patients was chosen from a normal distribution with a mean of 14%, reflecting expected variation in the ability of healthcare systems to provide high quality care when faced with large numbers of critically ill patients. Patients with mild illness have a CFR of 0%, for an overall estimate of 7%.

The case counts reported in the exercise represent infections the severe compartment exclusively, under the assumption that mild illnesses in the community are less likely to be captured by surveillance systems. The exercise also reports only on the 300 global and 300 US cities represented in the model. For these reasons, the numbers reported in the scenario are conservative. However, like all models of this type, a core assumption is that the trajectory of the outbreak remains continuous. In real outbreaks, the trajectory is constantly changing in response to a number of factors like collective behavior change, which tend to slow outbreak growth.

Appendix: Key model parameters

β	transmission rate	variable	ε_M	reduced infectiousness	none
κ_1	incubation period, mild	5 days	θ	fraction severe	50%
κ_2	incubation period, severe	5 days	α	days to outcome in hospitalized	10 days
γ	days to recovery	7 days	δ	case fatality risk in hospitalized	variable - 14% on average

FINANCE IN A PANDEMIC

Prepared by Richard Bruns

There are several major sources of money that would become available to help respond to a global catastrophic pandemic.

Pandemic Emergency Financing Facility

The World Bank Group's Pandemic Emergency Financing Facility (PEF) is a system designed to respond to specific types of pandemics. It consists of a cash window and an insurance window.[1] The cash window had about $50 million, all of which has been used to support the response to the ongoing Ebola epidemic in the Democratic Republic of the Congo.

The insurance window is funded by 2 tranches of catastrophe bonds that pay out under specified conditions. A coronavirus pandemic would trigger a payout of the Class B notes after all of the following conditions were met: It kills at least 250 people, lasts at least 12 weeks, has at least 250 new cases in the past 12 weeks, has an increasing average number of new cases over the past 12 weeks, and kills at least 20 people in a second country. The payout is based on the number of deaths and the geographic spread of the disease. A coronavirus pandemic that killed more than 2,500 people would trigger a full payout of the Class B notes, raising $95 million. It would also trigger a 16.67% payout of the Class A notes, raising an additional $37.5 million. A full payout of the Class A notes is triggered only by an influenza pandemic.[2]

World Bank's IDA Crisis Response Window

IDA (International Development Association) is the part of the World Bank that gives loans (called "credits") to poor countries for development. They meet every 3 years to raise money and decide how it will be spent. These are called Replenishment meetings. The last one, the 18th Replenishment, or IDA18, finished in 2016. It raised $75 billion to finance projects from July 1, 2017, to June 30, 2020. The next meeting in this cycle is October 21-22, 2019, in Washington, DC.[3]

Most IDA money is used for long-term development projects, but the Crisis Response Window (CRW) is a special pool of money devoted to helping countries respond to disasters. It spent $420 million to fight the 2014-2016 West Africa Ebola epidemic. The IDA18 replenishment raised $3 billion for crisis response and, as of October 2018, $2.6 billion was still unspent and available for immediate use.[4]

International Monetary Fund

The IMF has about $1 trillion available to lend.[5] However, this is meant to address temporary issues with a country's balance of payments and is not intended to be a form of development aid or response to a health emergency. Lending is usually conditional on economic policy changes, made after a period of negotiation, and will be made only if the IMF is confident that it will be repaid.[6] Without a significant change in policy, many countries would not be willing or able to borrow money from the IMF in order to finance a response to a major pandemic.

National Governments

Total international development aid from governments is about $200 billion per year.[7] Although much of this is allocated to specific uses and could not be redirected, some percentage of it could be made available in a catastrophic pandemic, and/or the total amount might be increased, if there was sufficient global coordination.

Private Charity

Total international giving by US foundations was about $9 billion in 2015.[8] In a severe pandemic, some of this could be redirected to help the pandemic response.
The total endowment of the top 40 wealthiest charitable foundations is currently about $500 billion.[9] Many of these charities have not historically been involved in health, and there are institutional limits on how much of the endowment could be spent, but some percentage of these endowments might be made available to respond to a catastrophic pandemic if enough charities responded to a global call to action.

Numbers in the Scenario

Several financial events and estimates are depicted in the Event 201 exercise. These represent one possible scenario that could happen in a catastrophic pandemic.

Amount of Money Raised

In the scenario, there is a large and successful mobilization of funds. Donor countries are convinced to contribute roughly 40% of their annual aid budgets to CAPS response, for $80 billion, and private charities spend down some of their endowments to contribute an additional $20 billion, for a total of roughly $100 billion in additional financing.

Cost of Supporting Health Systems

About $6 billion was disbursed by donors in response to the 2014-2016 West Africa Ebola epidemic.[10] At the point in the scenario where the $400 billion estimate is made, it is assumed that CAPS would cause case counts and expenses in low- and middle-income countries about 2 orders of magnitude higher than the Ebola epidemic.

CAPS would, in many cases, cause emergency spending that would quickly consume all of countries' annual healthcare budgets. They would then need a bailout to continue normal functioning as well as providing minimal pandemic response. Low- and middle-income countries typically spend about 5% of GDP on health care, and in a crisis situation, everything gets more expensive. The total GDP of low- and middle-income countries (excluding China, India, and Russia) is about $14 trillion. If these countries require a bailout of, on average, slightly more than half of their annual healthcare spending, this would be $400 billion.

MEDICAL COUNTERMEASURES
Status of Supplies and Distribution/Allocation Systems

Prepared by Divya Hosangadi

CAPS Antiviral

- In addition to vaccines, monovalent antibody therapies and antivirals have been investigated for treating coronavirus infections (Table 1).
- In this scenario, **extranavir** is a FICTIONAL antiviral drug.
    - Extranavir is currently used to treat HIV but has been shown to be an effective treatment for CAPS.
    - Extranavir may be an effective prophylactic if given throughout a period of possible exposure to the virus.
    - When used as a therapeutic, extranavir may reduce the severity of disease and length of viral shedding in infected individuals.
    - Extranavir is a generic drug that is manufactured in 5 countries, including the US and China.
    - About 1 million people per day take extranavir to treat HIV.
    - If all extranavir users were switched to a different HIV treatment, current supplies of the antiviral could treat up to 26 million CAPS patients.
    - It may be possible to double production of extranavir by expanding existing manufacturing capacity and by licensing the drug to additional manufacturers. This expansion could allow for 52 million treatment courses per year but would likely require a year to reach that capacity.
    - If extranavir were used broadly as a prophylactic rather than a treatment, a much greater supply of the drug would be needed.

Current Vaccines in Development

- There are no vaccines currently licensed and available for use against any coronavirus. Coronavirus vaccines for SARS and MERS have been technically challenging to develop and have not made it out of clinical trials.[1-3]

- While scientists are researching a vaccine against the FICTIONAL CAPS virus, there is currently no product in development.
- Development of a vaccine against the CAPS virus will likely take years to achieve. The vaccine development process can take more than a decade.[4] In pandemic situations, the timeline for vaccine development could possibly be shortened, but developing and manufacturing a vaccine against CAPS in time to control this pandemic is unlikely.
- Vaccines against SARS or MERS coronaviruses would likely not be protective against CAPS, because coronaviruses are prone to genetic reassortment; therefore, a vaccine against one coronavirus is not cross protective against another coronavirus.[1,5]
- Some experiments have raised the possibility that immunity incurred from certain coronavirus vaccines can be short lived[6,7] and that enhanced disease may result from certain coronavirus vaccines.[6-8] This has prompted some concern that vaccines targeting coronaviruses (eg, MERS, SARS) could lead to adverse events.

Table 1: SARS and MERS Coronavirus Vaccine and Therapy Trials Listed on ClinicalTrials.gov

	Clinical Trial Status	SARS	MERS
Vaccines	Recruiting	0	1[9]
	Active	0	0
	Completed	2[10,11]	0
	Withdrawn or unknown status	2[12,13]	0
Therapies or Treatments	Recruiting	0	1[14]
	Active	0	0
	Completed	0	3[15-17]
	Withdrawn or unknown status	1[18]	1[19]

Current Medical Countermeasure Distribution and Allocation Systems

- Current supply chain mechanisms exist to distribute vaccines and other medical countermeasures (MCMs) on a routine basis. However, a centralized and scalable MCM distribution system for use during pandemics does not exist.
- Multiple systems and stakeholders can facilitate MCM distribution in smaller scale public health emergencies and could be either scaled up or provide lessons for a pandemic context. These include:
    - The International Coordinating Group on Vaccine Provision (ICG),[20] a coordinating group of key global health stakeholders, including the World Health Organization (WHO), UNICEF, Médecins Sans Frontières (MSF), and the International Federation of the Red Cross. The goal of this group is to handle the allocation of particular vaccine stockpiles for specific diseases (cholera, meningococcal meningitis, yellow fever).
    - WHO also has stockpiles for other diseases, including smallpox and pandemic influenza.[21]
    - WHO Contingency Fund for Emergencies[22]
        - Can release initial funds up to $500K in 24 hours
        - Serves as the potential source of funds for initial emergency response if properly funded
    - The US President's Emergency Plan for AIDS Relief (PEPFAR) is a US-funded program to control the HIV/AIDS epidemic and is the largest effort by any one nation to control a disease.[23] PEPFAR funds programs aimed at expanding access to HIV treatments and prevention services in low-income settings.[23,24]
    - Gavi, the Vaccine Alliance, procures vaccines for low-income countries for selected routine and emergency immunization. For example, the organization procured $300 million for Ebola vaccines during the 2014-2016 Ebola outbreak.[25]
- Challenges with ensuring equitable access to and distribution of MCMs have been encountered in the past. Countries have withheld sharing samples in an effort to secure access to MCMs.[26,27]

Medical Countermeasure Development and Manufacturing Is Challenging

- In general, several technical barriers make the rapid scale-up of vaccine manufacturing challenging, including a lack of R&D and manufacturing capacity due to competing interests, the cost of establishing or repurposing manufacturing facilities, regulatory barriers, and the lack of a consistent market.[4,28,29]

China

China, the Origin of the COVID19, At from the Starting China is Hidden and Destroyed the Evidence. After the Starting stage of the Pandemic. By telling the lies with the Help of the United Nations.

Li Wenliang First Coronavirs Whistleblower

The Chinese Government used Li Wenliang to create the illusion that the Virus was Real. Chinese Government Played a Drama on the Li Wenliang Death that he Died from the COVID19.

Is Really Virus Occurred?

The Virus is authentic; the Chinese Laboratory lab made it with the help of the America Fund. Also, From Many Countries Leaders Involved and the Johns Hopkins Center for Health Security, in partnership with the World Economic Forum and the Bill and Melinda Gates Foundation, hosted Event 201, a high-level pandemic exercise, on October 18, 2019, in New York, NY. The practice illustrated areas where public/private partnerships will be necessary to respond to a severe pandemic to diminish large-scale economies. This plan was one of the Agenda of the Dark Mafia.

How is Virus Spreading?

Before, they started this pandemic as an illusion to create panic among the world population. All Deaths that occurred were not occurred by the Virus. After the Mass Vaccination Camp, the More Peoples Died from the Virus and Vaccine Side Effects.

What is China Doing Using the Pandemic in the Name of Pandemic?

Using the useless, Illogical, and Inhuman way of Force Lockdown is Dangerous to Humanity; currently, it was Happened and Happening in China and also in Shangai.

China Killing Cats,

In China, pet dogs and cats are thrown into enormous green garbage bags before being slaughtered. Photograph:(Twitter)

I Already Tagged this to the PETA. But there is no response or any Protection for Pet Animals.

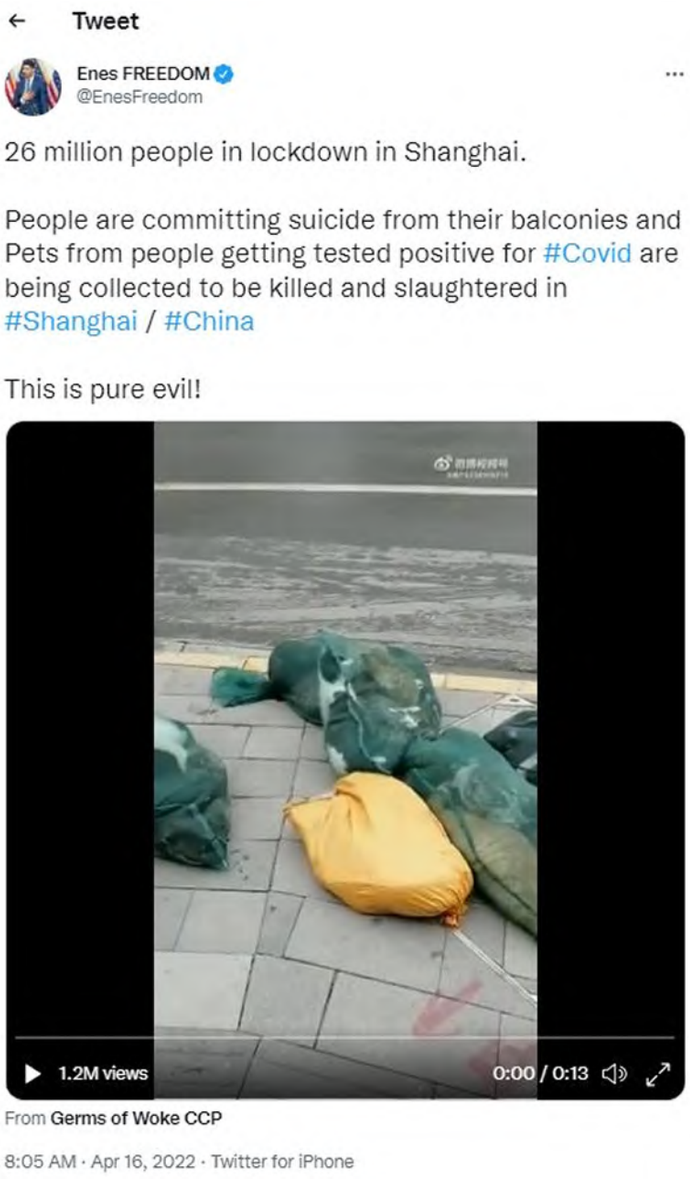

As Chinese officials continue enforcing the world's harshest lockdown, terrifying videos of sizeable green garbage bags loaded with cats and dogs have emerged.

The video was first uploaded on Twitter with the comment, "26 million people in lockdown in Shanghai."

The video was first uploaded on Twitter with the comment, "26 million people in lockdown in Shanghai." 26 million people in lockdown in Shanghai.

Tweet: **People are committing suicide from their balconies and Pets from people getting tested positive for #Covid are being collected to be killed and slaughtered in #Shanghai / #China**

This is pure evil!
-@ EnesFreedom

Reference: Above Tweet:

https://twitter.com/i/status/1515345765035618305

https://archive.org/details/china-killing-cats

Source of Report: https://www.wionews.com/world/watch-bags-full-of-cats-and-dogs-seen-in-china-as-authorities-kill-pets-of-covid-positive-owners-472239

Owner gets a positive PCR test in #shanghai, even though its asymptomatic. Owner gets take away to the metal cage (knows as the quarantine) camp. In #china this spells the death sentence for the pet. I wonder if #FauciLied would approve of this as "science".

- @PDXFato

John McAfee

On 5 October 2020, McAfee was arrested in Spain at the request of the United States Department of Justice for tax evasion. The June indictment, unsealed upon his arrest, alleged he earned millions of dollars from 2014 to 2018 and failed to file income tax returns. On 23 June 2021, the Spanish National Court authorized his extradition to face charges in Tennessee; McAfee was suspected of having committed suicide several hours after the authorization.

McAfee was jailed in Spain and Mysteriously Dead in the Jail like Jeffrey Epstein How Dead, Suicide by hanging himself as per the Report Says by Jail.

Before John McAfee Mysteriously Killed and Covered up as Suicide by hanging himself in Prison, He Tweeted Things about Jeffrey Epstein on Twitter, Including his Dead.

Pandemic has Occurred after the five months of Jeffrey Epstein's Death at Metropolitan Correctional Center, New York, NY; causes of Death is Telling as Suicide by hanging himself in Prison or Jail or Cell, But everybody linked to him died in the same form, for example. Also, Pandemic Rehearsal or Exercise was hosted by Bill and Melinda Gates and the World Economic Forum. Below I Attached the Jhon McAfee Tweets about Jeffrey Epstein.

Epstein's non-elective suicide: the truth and nothing but the truth.

115 372 1,280

John McAfee @officialmcafee · Jan 15, 2020

Release the truth about Government corruption?

OK. You asked for it.

Let's start with **Epstein**'s murder.

The man who strangled him was Nicholas Tartaglione. Charged with mutliple murders.

Had nothing to lose.

Bargara Sampson provided legal closure.

"Suicide it is" she said.

The FBI Has announced a crackdown on Conspiracy Theorists. Waiting for them to shut down that group of conspiracy nuts who are propagating the insane belief that **Epstein** killed himself.

268 791 4,261

John McAfee @officialmcafee · Jul 5, 2020

Nicholas Tartaglione (jailed for murder), was inconceivably chosen as **Epstein**'s cellmate (below).

Yep

Was removed from **Epstein**'s cell at 1 PM Aug 9th (as an alibi). Was let back in at 2 AM Aug 10th, where he strangled **Epstein** and was moved again.

Who is Ghislaine's callmate?

146 374 1,451

John McAfee @officialmcafee · Nov 12, 2019

How did this get started? It's popping up all over the place. I never said Jeffrey **Epstein** was murdered. I said he didn't commit suicide. Not the same. Could be alive. Could have never existed. Maybe murdered. I dunno. I only know he didn't commit suicide.

John McAfee @officialmcafee · Jan 26, 2020

Taking a circuitous rout through France.

Picked up a tail.

Deciding what to do next.

Have a safe house in England,

If we can reach it.

Will publish name of high level official

Who chose Tartaglione as **Epstein**'s cell mate.

When we stop.

Things will get hot

From here on.

209 283 1,866

John McAfee @officialmcafee · Jan 9, 2020

Oops.

Made a mistake.

It's not **epstein** who's dead.

It's some Iranian General

94 92 963

John McAfee @officialmcafee · Jan 16, 2020

I will slowly reveal the **Epstein** Murder plot.

We already found that Nicholas Tartaglioni killed **Epstein**, and Barbara Sampson was complicit.

Next:

I'm offering a free dinner to the first person to correctly name the person who removed Tartaglioni from **Epstein**'s cell.
:)

709 638 2,955

John McAfee @officialmcafee · Jan 15, 2020

The 2 most clever parts of the **Epstein** Murder Plot:

1. Choosing Nicholas Tartaglione as Epsteins cell mate.

- Then moving him hours before the "event"

- Then giving him the key to **Epstein**'s cell.

Any DNA evidence would be from a recent cell mate and therefore inapplicable.

MONKEYPOX and VACCINES “THE PRE-PLANNED PANDEMIC & GENOCIDE”

2022

THE TIMELINES and DATA ANALYSIS of the CHRONOLOGICAL EVENTS

Monkeypox Chronological Events

Before Monekypox Outbreak,

NTI - Nuclear Threat Initiative organization played an essential role in this Monkeypox Pandemic. Before Announced the Monkeypox outbreak, they hosted the same type of simulation or EVENT on March 17, 2021.

Before March 17, 2021, and November 23, 2021, they Prepared All Plans to conduct a tabletop exercise on reducing high consequence Biological on March 17, 2021.

In March 2021, NTI partnered with the Munich Security Conference to conduct a tabletop exercise on reducing high-consequence biological threats.

NTI Co-Chairman and CEO Ernest J. Moniz and Munich Security Conference (MSC) Chairman Ambassador Wolfgang Ischinger convened 19 current and former global leaders and experts for a March 17, 2021 senior leaders tabletop exercise focused on reducing high-consequence biological threats with potentially catastrophic consequences.

“The exercise scenario portrayed a deadly, global pandemic involving an unusual strain of monkeypox virus that emerged in the fictional nation of Brinia and spread globally over 18 months. Ultimately, the exercise scenario revealed that the initial outbreak was caused by a terrorist attack using a pathogen engineered in a laboratory with inadequate biosafety and biosecurity provisions and weak oversight. By the end of the exercise, the fictional pandemic resulted in more than three billion cases and 270 million fatalities worldwide.” **(Page no: - 6, NTI Paper BIO TTX)**

Their Actions are Clearly show that they are using monkeypox to cover up the COVID Vaccines Side Effects and Deaths.

After Monekypox Outbreak,

May 2022

1. A Case of monkey was reported in a British resident who had travelled to Lagos and Delta State in Nigeria, in that areas where monkeypox is considered to be an endemic disease. The Person Developed a rash on 29 April while in Nigeria and flew back to the United Kingdom, arriving on 4th may and presented to hospital on same day. Monkeypox infection was immediately suspected, and patient was hospitalized at Guy's Hospital and Isolated, then tested positive for the virus on 6 may 2022.
2. On 12 May two new cases of monkeypox were confirmed by the UK Health Security Agency (UKHSA).
3. On 18 May, In Spain, there are seven confirmed cases. On the same day, the United States confirmed its first 2022 case of monkeypox while Canada reported 13 suspected cases.
4. On 19 May, Sweden and Belgium reported their first cases of monkeypox. Italy confirmed its first case in a traveler who had arrived from the Canary Islands. A suspected case was reported in France. United States on 19 May placed a $119 million order with Bavarian Nordic with the option to buy $180 million's worth more, for up to 13 million vaccines against smallpox. European country had placed an order for "Imvanex" vaccines in response to the monkeypox outbreak.
5. On 21 May, Belgium became the first country to introduce a mandatory quarantine for people infected with monkeypox (21 days). Close contacts of infected people do not have to self-isolate, but are told to stay vigilant.
6. On 21 May, Switzerland and Israel confirmed their first cases.
7. On 22 May, Austria confirmed its first case.
8. On 23 May, Denmark reported its first case in a man who had returned home from the Canary Islands.
9. On 24 May, the Czech Republic confirmed its first case, a woman who was at a music festival in Belgium at the beginning of May. On the same day, United Arab Emirates reported its first case, detected in a 29-year-old female visitor from West Africa. Also, on that day, Slovenia

confirmed its first case, a man from Canary Islands. Switzerland reported its second case, a woman in the Canton of Geneva.

10. On May 27, some countries began to use smallpox vaccines to protect people exposed to the monkeypox virus. 500 people in Montreal, Quebec, Canada received smallpox vaccinations. "We're vaccinating in a very targeted way. So we vaccinated people that had high-risk exposure in the last 14 days," said Dr. Genevieve Bergeron, Montreal's medical officer responsible for health emergencies and infectious diseases." at the CIUSSS du Centre-Sud-de-l'Île-de-Montréal. 800 Montrealers so far who have lined up at the clinic in the heart of the Gay Village that's been offering the vaccine since May 27.[55][56] On the same day, Finland confirmed its first case.[57] 16 additional cases were reported in England, to a total of 106 UK cases.[58] Argentina reported two cases, in individuals who had both recently arrived from Spain.[59]

11. On 28 May, Ireland reported its first case.[60] The Health Service Executive (HSE) said the case was confirmed in the east of the country and the person had not been hospitalised, while a suspected case was also being investigated.[61] On 30 May, a second case was confirmed in Ireland.[62] On the same day, Malta also confirmed its first case in a 38-year-old male resident who was abroad in a country where the disease had been found. The man has light symptoms and does not require hospitalisation. Mexico also confirmed its first case, in a 50-year-old man in Mexico City, who is a resident in New York City and possibly contracted the illness in the Netherlands, according to the Mexican health authorities.[63]

12. On 31 May, the first case in Norway was confirmed, an individual who had recently been traveling.[64] Hungary also confirmed its first case, a 38-year-old male.[65]

June 2022

1. On 1 and 2 June, four further cases were confirmed in the Republic of Ireland, totaling six.[66]
2. On 2 June, Morocco reported its first case, citing its health ministry.[67]
3. On 3 June, Latvia reported its first case, a patient under age 50 who was infected outside the country.[68]
4. On 8 June, Brazil, Ghana and Greece reported cases of monkeypox. In Brazil, there had been at least 7 suspected cases, but none had been confirmed before this date.[69] Five cases in Ghana were also confirmed by the Ghana Health Service.[70] Greece detected its first case in a traveller, who had travelled to Portugal.[71] On the same day, the total number of monkeypox infections outside of endemic countries reached 1,000.[72]
5. On 10 June, Poland reported its first case of monkeypox; the Polish Ministry of Health stated that the case was imported, and the patient was not a Polish citizen, but did not disclose any further information.[73][74]
6. On 12 June, Venezuela reported its first case of monkeypox. The case was identified to have been imported from Spain.[75]
7. On 13 and 14 June, Romania reported its first cases of monkeypox. The first case, according to epidemiology, may have been imported from elsewhere in Europe.[76]
8. On 15 June, Georgia and Luxembourg reported their first cases of monkeypox. The Georgian case was imported from Europe.[77][78]
9. On 17 June, Chile and Serbia reported their first cases of monkeypox, and both cases were detected in their capitals, imported from western Europe.[79][80]
10. On 22 June, South Korea reported its first monkeypox case.
11. On 23 June, Bulgaria, Colombia, Croatia and South Africa reported their first cases of monkeypox.[81][82][83] The South African case is a 30-year-old male residing in the Gauteng province, which includes the executive capital, Pretoria.[84]
12. On 24 June, three suspected cases of monkeypox were reported in Fiji.[85][86] The Ministry of Health stated that one was a Fijian citizen and the other two were foreign individuals.[87] All three cases returned negative results.[88]
13. On 25 June, the WHO declared that the outbreak was not a global health emergency after considering the label.[89]

July 2022

1. On 2 July, Andorra reported its first case of monkeypox.[90]
2. On 5 July, Panama reported its first case of monkeypox.[91]
3. On 6 July, the Dominican Republic, Ecuador and Jamaica reported their first cases of monkeypox.[92][93][94]
4. On 7 July, Slovakia reported its first case of monkeypox.[95]
5. On 9 July, New Zealand reported its first case of monkeypox.[96]
6. On 12 July, New Zealand reported its second case of monkeypox.[97]
7. On 14 July, India and Saudi Arabia reported their first cases of monkeypox.[98][99]
8. On 21 July, Thailand reported its first monkeypox case.
9. On 23 July, the WHO declared the monkeypox outbreak a Public Health Emergency of International Concern.[100]
10. On 25 July, Japan reported its first monkeypox case.
11. On 28 July, Japan reported its second monkeypox case.
12. On 29 July, Brazil and then Spain reported the first deaths from monkeypox outside of the endemic basin.[101]

August 2022

1. On 2 August, New Zealand reported its third case of monkeypox.[102] On the same day, Turkey reported four more monkeypox cases, one in isolation.[103]
2. On 5 August, Japan reported its third monkeypox case.[*citation needed*]
3. On 10 August, Japan reported its fourth monkeypox case.[*citation needed*]
4. On 11 August, New Zealand reported its fourth monkeypox case.[104]

Show 10

Contribution of WEF World Economic Forum to Genocide Vaccination

European Management Forum is founded by Kalus Schwab, was founded in 1971 by Klaus Schwab, a business professor at the University of Geneva. The name of the European Management Forum was changed to the World Economic Forum in 1987.

The first European Management Symposium was held in Davos, Switzerland, from January 24 to February 7 1971.

The coalition for Epidemic Preparedness Innovations (CEPI) was founded in 2017. CEPI founders are Wellcome Trust, Bill & Melinda Gates Foundation, India, Norway, and the World Economic Forum. They receive donations from public, private, and philanthropic organizations such as Bill Gates and civil society.

Kalus Schwab

Kalus Schwab is one playing an important role in this World Scale Genocide. He is the Most Dangerous Person Forcing and Implementing his Useless and Inhuman agenda on the Independent Public Peoples of this World.

On September 20, 2017, Live Streaming, Title: The 2017 Malcolm H. Wiener Lecture on International Political Economy, Strengthening Collaboration in a Fractured World-Featuring Special Guest Yo-Yo Ma the World Economic Forum Klaus Schwab told in that Live Streaming is,

David Gergen (Moderator) Aksed Question on Live Streaming to the Klaus Schwab:

when you brought the young global leaders program here for executive education and the schwab fellows but there are two countries in the world now in which the young global meet leaders have emerged tell us just a bit about that and in terms of the governance.

Klaus Schwab:

"Yes, um"

"Actually, this notion to integrate young leaders is part of the world economic home since many years, and I Have to Say"

"When I Mention our names like Mrs. Merkel, Even Vladmir Putin and so on they all have been young global leaders of the World Economic Forum. But what we are really very proud of now is that the young generation like prime minister Trudeau, president of for Argentina and so on."

"So we penetrate the cabinets. So yesterday, I was at a reception for prime minister Trudeau, and I know that half of this cabinet or even more half are from our young global leaders of the World Economic Forum."

- **Klaus Schwab**

Klaus Schwab is Controlling the Half of the Countries' Corrupt Leaders and Politicians.

Most Politicians, Celebrities, or Any Familiar People like Wife Murderer and Natural Destroyer Jaggi Vasudev is Member of the WORLD ECONOMIC FORUM and Its Young Global Leaders, the Ukraine President Volodymyr Oleksandrovych Zelenskyy, The Agenda Contributors Like Donald Trump, former president of the United States of America, Indian Prime Minister Narendra Modi, Current President of the United States Joseph Robinette Biden Jr. and Canada Prime Minister Justine Trudeau and So on.

Everyone is playing the same role in implementing Useless laws Against their Country's Peoples, Threatening the Public Peoples using Force, and Implementing Dangerous Agenda Like 2030 and The Great Reset.

Those Corrupt Young Global Leaders are the Reason for this Planned Pandemic and the only reason for the Millions of Peoples Deaths that Occurred from their Poisonous Vaccines.

Most companies, Big Pharma and Big Media, are Controlled by the World Economic Forum Young Global Leaders.

World Economic Forum and United Nations are travelling on the same track. Bill Gates is also the Agenda Contributor of the World Economic Forum.

All United Nations Members are Members of the World Economic Forum.

The Plan of the Yong Global Leaders is to Takeover Control Every Public Space. Including controlling the Digital Environment, Financial and Health.

From the outside, it may look like they are doing something good, but inside they only have the desire to enslave everyone in this World and Take Control of Everything in the Name of Science and Planned Pandemic.

They all Destroy this Nature and Everyone Independent by Creating viruses, Planned pandemics, Digital ID Enslavement, and Monopolizing Everything they want.

And also, they are all against the Farmers too. They plan to destroy the Farmers by Implementing Useless laws against Farmers and Farming.

In Before Few Years, Common people and farmers protest against Government Tyranny.

Every Government Destroyed the Happiness of this World. They are Doing the Genocide of the World Population.

Sub Section 10.5 Connections of Big Pharma and Other Non-Pharma Companies Contribution and Complicity to Genocide.

MODERNA

CRIMES AGAINST HUMANITY and GENOCIDE

Moderna

Moderna, Inc. is an American pharmaceutical and biotechnology company based in Cambridge, Massachusetts, that focuses on RNA therapeutics, specifically mRNA vaccines. These vaccines use a copy of a molecule called messenger RNA to elicit an immune response.

Moderna was founded in September 2010 by Noubar Afeyan, Robert S. Langer, Derrick Rossi and Kenneth R. Chien.

Noubar Afeyan born on July 25, 1962 (age 60 years) is an American-Canadian entrepreneur, inventor and philanthropist of Armenian descent. He is best known as the co-founder of the biotechnology company Moderna, through his venture capital firm Flagship Pioneering, and as a co-founder of humanitarian projects such as the Aurora Prize and The Future Armenian.

Robert Samuel Langer Jr. FREng, born on August 29, 1948 (age 73 years) is an American chemical engineer, scientist, entrepreneur, inventor, and one of the twelve Institute Professors at the Massachusetts Institute of Technology.

Derrick J. Rossi born on February 5, 1966 (age 56 years), is a Canadian stem cell biologist and entrepreneur. He is co-founder of the biotechnology company Moderna.

Kenneth R. Chien born on November 24, 1951 (age 70 years) is an American doctor and medical scientist who has been a research director at Karolinska Institute, in Stockholm, since 2013. Chien has several papers with over 1,000 citations and a h-index of 132. His area of expertise is cardiovascular science.

Moderna is Playing the Main Role in this Pandemic. From the Preparation of an Ineffective Poisonous Vaccine to Causing Deaths to the Innocent World Population by Injecting that Useless and Genocide Vaccine.

Moderna has Partnership with the CEPI, GAVI and The Bill and Melinda Gates Foundation.

Bill Gates Directly Involved in this Genocide of the Large-Scale Population.

Bill Gates Owned Foundation the Bill and Melinda Gates Funded More Amount of Money before the Planned Pandemic Started.

Totally, Bill Gates Funds Granted to the Moderna is ($ 21035987) TWENTY-ONE MILLION THIRTY-FIVE THOUSAND NINE HUNDRED EIGHTY-SEVEN by the Bill and Melinda Gates Foundation.

Detailed,

> In JANUARY 2016 Committed Grants is $1,051,128 to ModernaTX, Inc., the Grant topic is Discovery and Translational Sciences and division of Global Health as per the Bill Gates Committed Grants, Duration of Months is 9, Grantee Location Cambridge, Massachusetts, United States.

> In MARCH 2019 Committed Grants is $19,984,859 to ModernaTX, Inc., the Grant topic is the HIV and division of Global Health as per the Bill Gates Committed Grants, Duration of Months is 96, Grantee Location Cambridge, Massachusetts, United States.

Below I Attached the Screen Shots of the Committed Grants by the Bill Gates Foundation to the ModernaTX, Inc.

Committed grants

Committed grants

This database includes grant commitments made by the Bill & Melinda Gates Foundation and previous foundations of the Gates family (William H. Gates Foundation, Gates Library Foundation, and Gates Learning Foundation) from 1994 onward. The system includes grants only, not direct charitable contracts or Program Related Investments. Please note that this database is a dynamic system that undergoes regular updates. We encourage you to reference the foundation's 990-PFs published on the financials page for the definitive list of all individual grants.

Annual reports

We are committed to providing clear, timely information on our finances and grantmaking efforts. Our annual reports from 1998 to 2019 are

available via links below.

AGREEMENTS BETWEEN CUREVAC AG, ELON MUSK TESLA, CEPI, AND OTHER LINKED COMPANIES and ORGANIZATIONS,

Rakhesh Jaghadish L, 23 08 2022

BIOREACTOR

A bioreactor is a vessel-like device that provides a uniform background for microorganisms to grow and maintains an uninterrupted balance in the biochemical reactions carried out by these microorganisms to produce desired metabolites.

The bioreactor is the heart of biological processes. The biological systems involved include enzymes, microorganisms, animal cells, plant cells, and tissues. To design an appropriate bioreactor for a particular bioprocess, intensive studies of the biological system, such as cell growth, metabolism, genetic manipulation, and expression of proteins or other products, are required to understand the requirements of the cells in their physical and chemical environment.

Tesla Grohmann Automation

Tesla Grohmann Automation is an Engineering Company. The Headquarters location is in Prüm, Germany, this was Founded in 1963, Total Number of employees is 800+ (2017). Now It’s Parent Organization is Tesla, Inc. Owned by the Elon Reeve Musk.

COALITION FOR EPIDEMIC PREPAREDNESS INNOVATIONS (CEPI): INVITING APPLICATIONS FOR 'CALL FOR PROPOSALS FOR PLATFORM TECHNOLOGIES TO ENABLE RAPID VACCINE DEVELOPMENT FOR EPIDEMIC PRONE INFECTIONS'

September 24, 2017 · *by* fundforbangladesh · *in Coalition for Epidemic Preparedness Innovations (CEPI)* · *Leave a comment*

Funding brief: The objective of this Call for Proposals is to identify and fund proposals for vaccine platform technologies that enable rapid vaccine development, fast scale up, and achieve clinical benefit quickly for reactive use in outbreaks of novel or previously unrecognized viruses. Proposals can include new platforms with the potential for rapidly making a vaccine using generally regarded as safe materials (GRAS); or those compressing the time of an existing (proven) platform to make it more responsive in an unknown threat situation.

To demonstrate the versatility of the platform the proposal should include studies on three pathogens from different families, including one from the WHO priority pathogens list and two well-characterized pathogens from Table 1 (see section 2.3 for more details). Proof-of-concept/efficacy should be demonstrated for all three pathogens in relevant animal models and two of the vaccine candidates in the proposal should be evaluated in Phase I clinical trials, with plans for in-depth analyses of immunological mechanisms of actions of the platform. (Note: Data generated prior to this call are acceptable in partial or complete fulfillment of the demonstration requirements for one or more model pathogen).

For reactive use in outbreaks, timing is essential and therefore we are requesting that the proposed projects aspire to meet the time goals below. Proposals should describe the current state of technology and the approach in the proposed project to get closer to fulfilling the following goals:
• Target a 16-week timeframe from identification of antigen to product release for clinical trials
• Target a 6-week timeframe from administration of first dose to achievement of clinical benefit (i.e. immune response likely to result in clinical benefit)
• Produce 100,000 vaccine doses within 8 weeks to impact an emerging outbreak (i.e. from Go decision to scale-up to production, fill, finish, and release)

Donor Name: Coalition for Epidemic Preparedness Innovations (CEPI)
Funding name: Call for proposals for platform technologies to enable rapid vaccine development for epidemic prone infections

Deadline:
• Deadline for submission of step 1 proposals: at 4 p.m. CEST 17th, October, 2017
• February 2018 Deadline for submission of full proposals (Step 2)

Funding details link: http://cepi.net/cfp2

Funding limit: Not found

Special Notes: Please contact with the donor directly for further clarification and understanding.

Project start date: Not found
Project duration: Not found

Eligible organization: As below

Eligibility: This call for proposals is open worldwide to vaccine relevant R&D entities that bring the relevant expertise and experience to address challenges within the scope of this call. Funding beneficiaries must be legal entities, or consortia of at least two legal entities. Applicant organizations or consortia of partnering organizations should have experience in vaccine development, i.e. a track record of bringing vaccine candidates through to human clinical trials in the last ten years. CEPI may conduct due diligence reviews for feasibility verification, legal, business and financial compliance before awards are made.

This call is open for proposals on vaccine platform technologies that can provide data from a vaccine candidate on the proposed platform that demonstrate immunogenicity using a relevant animal model.

On July 24, 2020, CureVac B.V.* Agreement

Existing strategic partnerships for the funding, research, development, and commercialization of our platform and certain of our product candidates, including with Genmab, Arcturus Therapeutics, Inc., or Arcturus, Acuitas Therapeutics Inc., Acuitas, CRISPR Therapeutics, Boehringer Ingelheim, GlaxoSmithKline Biologicals SA, or GSK, the Bill & Melinda Gates Foundation, CEPI, and Tesla Grohmann Automation GmbH, or Tesla Grohmann, among others; if our partners are unsuccessful in their efforts or chose to terminate their agreements with us, our business will be materially harmed;

CureVac files patent lawsuit in Germany against BioNTech over mRNA tech, July 5, 2022

TÜBINGEN, Germany / BOSTON, USA – July 5, 2022

CureVac N.V. (Nasdaq: CVAC), a global biopharmaceutical company developing a new class of transformative medicines based on messenger ribonucleic acid ("mRNA") today announced that it has moved to assert its intellectual property rights, accumulated over more than two decades of pioneering work in mRNA technology, which contributed to COVID-19 vaccine development. CureVac has filed a lawsuit in the German Regional Court in Düsseldorf against BioNTech SE and two of its subsidiaries, seeking fair compensation for infringement of a portfolio of CureVac's intellectual property rights, EP 1 857 122 B1, DE 20 2015 009 961 U1, DE 20 2021 003 575 U1, and DE 20 2015 009 974 U1, utilized in the manufacture and sale of Comirnaty®, BioNTech and Pfizer's mRNA COVID-19 vaccine. CureVac does not seek an injunction nor intend to take legal action that impedes the production, sale or distribution of Comirnaty® by BioNTech and its partner Pfizer.

The CureVac intellectual property portfolio protects multiple inventions that are considered essential to the design and development of BioNTech's SARS CoV-2 mRNA vaccine, among others. These relate to the engineering of mRNA molecules, including sequence modifications to increase stability and enhance protein expression, as well as mRNA vaccine formulations specific to SARS CoV-2 vaccines.

Over the last 22 years, CureVac developed proprietary foundational technology related to mRNA design, delivery and manufacturing that materially contributed to the development of safe and efficacious COVID-19 vaccines. CureVac considers the rapid development of these vaccines a tremendous achievement, with an unprecedented positive impact on global public health. This achievement is based on decades of scientific research and innovation, supported by CureVac as the earliest pioneer in mRNA technology. Accordingly, CureVac's intellectual property rights need to be acknowledged and respected in the form of fair compensation to reinvest into the further advancement of mRNA technology and the ongoing development of new classes of life-saving medicines.

Subsidiaries of CureVac: Frame Therapeutics B.V., CureVac Real Estate, CureVac Inc., CureVac AG

Others will probably pass human trials first, but this machine is pretty special for generalized vaccine production. Was originally intended for rabies, which is a very tricky virus.

Don Wolt @tlowdon · Aug 29, 2020
Stunning new research finds C19 PCR tests are much too sensitive to be useful in assessing spread. "In 3 sets of testing data…compiled by officials in MA, NY & NV, up to 90% of people testing positive carried barely any virus." The implications are huge.

nytimes.com
Your Coronavirus Test Is Positive. Maybe It Shouldn't Be. (Published 2…
The usual diagnostic tests may simply be too sensitive and too slow to contain the spread of the virus.

350 5,388 9,928

Elon Musk @elonmusk · Aug 30, 2020
Some of the tests we initially tried at Tesla were ~50% false positive, including some from major medical device companies. Too many testing methods were approved too quickly. Wouldn't blame the FDA, though. Public was demanding fast test approval.

319 1,408 11.8K

"Mary" @kulpability · Aug 30, 2020
In the time since you have reopened, how many of those employees who tested "positive" have been hospitalized or died?

5 5 120

Elon Musk @elonmusk · Aug 30, 2020
One person at Tesla (out of 60,000) was hospitalized in serious condition (he caught cov2 at home, not work), no deaths. I called his wife & Hayward hospital to make sure he was getting the right treatment, but which he was.

57 273 2,298

Pranay Pathole @PPathole · Aug 30, 2020
Btw is Tesla is working on building the RNA factories with CureVac? What's the progress on that?

Sam @SamTwits · Nov 9, 2020

The vaccine that @tesla are working on takes a similar approach to Pfizer and although slower to human trials, may be easier to scale, optimising the nucleic acid rather than chemical modification of the RNA. Any updates on this @elonmusk?

LOCKDOWN AND CRIMES AGAINST HUMANITY

Lockdowns and Crimes Against Humanity and Psychological War on the Generations, Common Facts

“Experience is the Truth and Experience is the Science”

– Rakhesh Jaghadish L

Introduction to Lockdown

Lockdown creates suffering, and massive damage, and unstabilizes to every Human on this earth, Lockdown causes a severe impact and problems psychologically and physically.

Mainly, Lockdown is a Prison Policy that restricts the Natural Behaviors of Human Beings. It’s a Restriction Policy for the Group of Community of Peoples to stay where they are, the term “stay-at-home” or “shelter-in-place” is often used for lockdowns that affect an area, rather than specific locations.

Danger of Lockdown

Lockdown is a Big Threat to human beings or any living beings. Because Lockdown causes torn deaths and neurological damage.

We are all Born as Independent Living Beings. In the Name of Pandemic.

Lockdown Isolation and Loneliness Inducements to Suicide

Humans are social creatures. Humans can't live without others helps them survive and thrive. Every Human is connected to each other to survive. That's the Nature of the Science.

Science Says, the Basic Nature of Social Isolation causes higher risks to physical and mental conditions. Those risks are Increasing Heart Diseases, depression, a low immune system, anxiety, cognitive decline, and even death.

Loneliness is the Major Cause of Suicides.

Lockdown Psychological Damages

Living for days or weeks or months or years or decades in an isolation can lead to severe psychological damage, the brain under full depression, and also physical damage to the body which affects the health.

Lockdown Causing Neurological Damages

As Studies, The Lockdown leads to neurological damage to the brain. Lockdown leads to an increase in paralysis, confusion, and Headaches. Including Nerve damage leads to blood clots. Isolation causes a High Level of Anxiety, it’s linked to Blood Clots, and intense fear and panic attacks are induced to make the blood clot and increase the risk of thrombosis or heart attack.

Basically, Lockdown creates Conflicts among the mates or other mates.

Lockdown is Purely the Dangerous to Freedom of the Movement and Survive.

Lockdown is Illogical in Nature.

China Lockdown and Crimes

Using the Pandemic and Lockdown, In China, the Chinese Communist Party are taking More personal gain to Damage the Chinese Peoples' livelihoods and their Freedom by implementing their Agenda. This is Pure tyranny and Crimes Against Humanity and Freedom.

Currently, Chinese People are Treated as Slaves and like Robots.

Globalists' Agenda to Make the Public Peoples Slaves by Implementing the Surveillance, and the Restrictions and Causing Destruction to their Livelihoods.

Pets and Murders

Using the Lockdown and Pandemic the Chinese Communist Party is Killing the Pets using the health care workers, and Killing the People too by creating depression among them.

China's CCP is using the COVID 19 Coronavirus to use it to put high pressure on its people, and also killed street dogs, pets, and cats brutally. Those all spread all over the social media platforms worldwide and create a heavy impact on world people. Even Some Television Media did not say this to the People, shut and buried them.

Pets Killed in Australia

In Australia, A rural local government in the state of New South Wales in Australia has put down 15 impounded dogs in a seemingly extreme attempt to keep workers safe from the coronavirus.

Emma Hurst, a state lawmaker from the Animal Justice Party, said that the council had killed the dogs instead of letting volunteers from an animal shelter in another town come and collect them.

Among the dogs killed were a mother and her puppies. "It just seems like such a drastic action to take," Ms. Hurst said.

Shanghai Lockdown and Man-Made Starvation and Man-Made Food Famine

Shanghai's inhuman "zero-COVID" lockdown leaves residents desperate for food and medicines.

Authorities now say they will ease restrictions after another mass test in China's most populous city.

Evidence of Shanghai Peoples' Sufferance

Evidence 1

Shanghai one of the richest cities in Asia with 25M after 7 days of insanely tough lockdown by China's CP created a food shortage with people starving and screaming in protest from their apartment buildings as not allowed out to buy food & supply chain derailed.

Tweet by @ Galantias1

https://twitter.com/i/status/1559869203825545217

Evidence 2

Shanghai, China CN, Lockdown:

Shanghai residents protest over days of isolation, lack of food, removal to quarantine camps, children separated from parents, and pets being destroyed.

But apparently, it's "for their health."

Tweet by James Melville @JamesMelville

https://twitter.com/i/status/1513558475770576900

Evidence 3

BREAKING—China’s grip on BA2. At least 23 cities in China are on full or partial lockdown—cities with over 193 million residents. Food shortages throughout even Shanghai. Doctors and nurses were also exhausted—this doctor collapsed, and was carried off by patients at an isolation center.

Tweet by Eric Feigl-Ding @DrEricDing

https://twitter.com/i/status/1512680426015449091

Evidence 4

Panic buying!

Shanghai residents scrambling to stock up on foodstuffs (half pigs again) before another imminent lockdown.

All food in many supermarkets is sold out.

2022-06-10

Tweet by Songpinganq @songpinganq

https://twitter.com/i/status/1535514171176935426

Evidence 5

Tweet by Aaron @mydryWAP Apr 10

Shanghai Covid Quarantine facility. They are treating people like cattle. I'm living in lockdown. Little to no access to food or medical care. This is just wrong! End this lockdown!

https://twitter.com/i/status/1513120174659948545

Evidence 6

COVID-19 LOCKDOWN - SHANGHAI: The quarantined Shanghai People are starving, but all food is wasted in the Logistics warehouse, a man-made disaster.

Tweet by Himalaya News Voices 🕵 @himalayavoices

https://twitter.com/i/status/1512557762961543171

Evidence 7

People are crying, dying of starvation, and wanting food in brutal lockdown.

Tweet by Songpinganq @songpinganq Jun 11

https://twitter.com/i/status/1535846351866454016

Evidence 8

Shanghai with 26 million people is under CVID lockdown.

Reports of millions struggling to feed themselves, elderly unable to access medicine, and riots are breaking.

Tweet by 8 loveworld @LoveWorld_Peopl Apr 10

https://twitter.com/i/status/1513248292607565825

Evidence 9

Another lockdown day for Shanghai, another issue angering people online. Today, more videos are circulating on Douyin & Wechat of vegetables and other food going to waste because the logistics are apparently failing.

Tweet by Manya Koetse @manyapan Apr 5

https://twitter.com/i/status/1511237580343418881

Evidence 10

Massive police deployment from Shandong to Shanghai after people collectively chanted the demands for affordable food supplies in endless totalitarian lockdown.

"Support their police, enforce the law strictly!" - their chants against HK democracy movements didn't age well.

Tweet by Northrop Gundam ∀ @GundamNorthrop Mar 31

https://twitter.com/i/status/1509693075391614983

Evidence 11

Listen! People beat pots and shouted together for food. #Shanghai #lockdown

Tweet by A Shanghainese @fahayek_ Apr 29

https://twitter.com/i/status/1520090733201399808

Evidence 12

Shanghai amidst the Famine Lockdown, residents discovered their Neighborhood Committee was secretly storing up massive amounts of food supplies (rice, fruits, veggies & milk & beverages) but didn't distribute to the hungry residents they were supposed to help.

Tweet by Northrop Gundam ∀ @GundamNorthrop Apr 2

https://twitter.com/i/status/1519429043178729473

Evidence 13

Fishing from the Top Building

Tweet by Nate @570mph Apr 18

https://twitter.com/i/status/1516170607884480513

Evidence 14

Police in Shanghai are destroying the grown vegetables of local residents. Lockdown, shortage of food. On Their Garden.

Tweet by Isthisreal @1sthisr34l May 4

https://twitter.com/i/status/1521931250017214464

Evidence 15

Some residents of Shanghai, China protest about the lack of food during the citywide lockdown.

Tweet by Alex Tiffin @RespectIsVital Apr 9

https://twitter.com/i/status/1512891292732297223

Evidence 16

This is no way to treat your citizens! These are people, not sheep. The vast majority are asymptomatic Covid patients sent here to rot for ten days with limited running water, unsanitary bathrooms and unhealthy food. End this lockdown and stop the madness! #Shanghai #lockdown

Tweet by Aaron @mydryWAP Apr 10

https://twitter.com/i/status/1513121103673131011

Evidence 17

From March 31st, a video from #Shanghai showing how the Chinese are enforcing the most recent COVID-19 lockdown. There is talk of chaos and inability to have food/toiletries delivered.

Tweet by Doge @IntelDoge Apr 4

https://twitter.com/i/status/1511213805472296963

Evidence 18

Things are getting real in Beijing. again. After rumors popped up that the capital would be in a Shanghai-like lockdown starting tomorrow, people are lining up to stock up on food.

Tweet by Dana Heide @Dana_Heide May 12

https://twitter.com/i/status/1524695099107680257

Evidence 19

Shanghai (In lockdown more than 2 months)

Hungry people, protesting for food, getting beaten up and arrested & intimidated, by police.

2022-05-16

Happened many times before.

Tweet by Songpinganq @songpinganq May 16

https://twitter.com/i/status/1526151549596028928

Evidence 20

It takes 2 people to jump off the buildings at virtually the same time for the resident committee to give residents some food during #lockdown in #Shanghai. Once every 5 thousand years?

两人跳楼死，居委会才发了点物资.....

#COVID #COVID19 #CCPVirus #CCP #中共病毒 #CCPChina

Tweet by Jennifer Zeng 曾錚 @jenniferatntd Apr 29

https://twitter.com/i/status/1520062277688377346

Evidence 21

Lockdown continues for more than a month, hungry locals searching for food in the garbage.

Tweet by Sam @hazy_sam Apr 29

https://twitter.com/i/status/1519978569111330816

Evidence 22

Many Shanghai residents are committing suicide in desperation during the present lockdown.

Tweet by Dipak @dlk7146 Apr 20

https://twitter.com/i/status/1516822747732537344

Evidence 23

Police in Shanghai arresting a 17-year-old man who organized a Pot Strike on Internet, claiming that he disrupted public order. Pot Strike is the act that people under covid lockdown without enough food and daily essentials strike pots to protest.

Tweet by 中国文字狱事件盘点 @SpeechFreedomCN May 5

https://twitter.com/i/status/1522410321100554240

Evidence 24

Lockdown in Shanghai is becoming absolute chaos, there were minor conflicts in a residential area, and people are screaming: “We’re starved to death!” They’re not allowed to go out of the community to get food and essentials.

Tweet by Nikki 🍪u@nikki_miumiu Apr 6

https://twitter.com/i/status/1511868628274089988

Evidence 25

In Shanghai, the most massive lockdown in the last two years is being introduced. Residents will not be able to leave their homes. All offices, shops and restaurants are closed.

In the video, crowds of Chinese are stocking up on food for the lockdown.

Tweet by BRAVE SPIRIT @Brave_spirit81 Mar 28

https://twitter.com/i/status/1508392006971764737

Evidence 26

Shanghai's lockdown is a total chaos.

Residents are on their own, without food and supplies.

Hospital won't take this patient, but there's no going back for them coz their own community won't let infected patients go thru the gate.

Tweet by Nikki 🍑 @nikki_miumiu Apr 9

https://twitter.com/i/status/1512880437965721600

Evidence 27

A few notes on food conditions in Shanghai more than two weeks into the lockdown

https://twitter.com/i/status/1514922415863697409

Evidence 28

After 6 wks lockdown in #Shanghai, 1 pp per family was allowed to go out with time restrictions to buy food. My friends said they could not handle long hrs because they feel weak. Look at this line, how awful. Don’t let it comes here. #lily4congress ⁦LRI⁩

@iansmithfitness

Tweet by Lily Tang Williams @Lily4Liberty May 5

https://twitter.com/i/status/1522317720594915328

Like the Above Evidence, there are Trillions of Evidence of Billions of People. Here I Attached the Links Above.

Reference

https://www.npr.org/2021/11/15/1055831581/health-workers-in-china-are-killing-pets-while-their-owners-are-in-quarantine

Those who see the public as a mere number are never loyal to the general public. Because in the end, a corrupt elected person and a representative will commit genocide of innocent public peoples. That is the nature of corruption and genocide. We are all looking at it and realizing it right now.

Biological Threat Reduction Program

This project was initiated in 2005 when Senator Lugar and Senator Obama witness the signing of the Agreement between the Ministry of Health of Ukraine and the U.S. Department of Defense. Since that time, the State Veterinary and Phytosanitary Service and Academy of Agrarian Sciences were added as executive agents to the Agreement.

The three pillars of the Biological Threat Reduction Program in Ukraine are:

- Enhanced disease surveillance
- Consolidation of Especially Dangerous Pathogens into state-of-the art Bio-Safety Level III facilities (one BSL-III lab for human pathogens and one BSL-III lab for animal pathogens)
- Cooperative Biological Research Projects

As of January 2013, the U.S. Government has upgraded Ministry of Health and Veterinary laboratories in Lviv, Odesa, Uzhgorod, Ternopil, Kharkiv, Simferopol, Kyiv, Dnepropetrovsk, and Luhansk.

- Upgraded Veterinary Lab in Lviv
- New Veterinary Training Lab in Kyiv, Ukraine
- New Diagnostic Lab at Zakarpattya Oblast SES, Uzhgorod, Ukraine
- New Diagnostic Laboratory in Ternopil, Ukraine

This technical assistance project is registered with the Ministry of Economic Development and Trade.

Biological Threat Reduction Program

Home | Embassy | U.S. Embassy Kyiv | Sections & Offices | Defense Threat Reduction Office | Biological Threat Reduction Program

The U.S. Department of Defense's Biological Threat Reduction Program collaborates with partner countries to counter the threat of outbreaks (deliberate, accidental, or natural) of the world's most dangerous infectious diseases. The program accomplishes its bio-threat reduction mission through development of a bio-risk management culture; international research partnerships; and partner capacity for enhanced bio-security, bio-safety, and bio-surveillance measures. The Biological Threat Reduction Program's priorities in Ukraine are to consolidate and secure pathogens and toxins of security concern and to continue to ensure Ukraine can detect and report outbreaks caused by dangerous pathogens before they pose security or stability threats.

Current executive agents of the Biological Threat Reduction Program in Ukraine are the Ministry of Health, the State Service of Ukraine for Food Safety and Consumer Protection, the National Academy of Agrarian Sciences, and the Ministry of Defense.

Ministry of Defense (MOD) COVID-19 Response Assistance

Sanitary-Epidemiological Department (SED) of the Medical Command of the Ukrainian Ministry of Defense received four mobile laboratories from DTRA with the goal of reinforcing the system of epidemiological surveillance in the Armed Forces of Ukraine. The Ukrainian Ministry of Defense received an official Order from the Cabinet of Ministers of Ukraine concerning the deployment of the mobile labs to the regions of Kyiv, Lviv and Eastern Ukraine to help with the COVID-19 response.

On April 11, 2020, President Zelenskyy visited the SED unit in Pokrovskoye City, Donetsk Oblast, and familiarized himself with the capabilities of the mobile laboratories to help military and civilian people during the COVID-19 epidemic. (News article)

Laboratory Construction

BTRP has upgraded many laboratories for the Ministry of Health and the State Food Safety and Consumer Protection Service of Ukraine, reaching Biosafety Level 2. In 2019, BTRP constructed two laboratories for the latter, one in Kyiv and one in Odesa.

Science Writing Mentorship Program (www.SWMProgramUA.com)

The Science Writing Mentorship Program (SWMP) was initiated at the beginning of 2016. The overall focus of SWMP is to advance One Health initiatives and disease risk mitigation in Ukraine through effective dissemination of scientific findings at BTRP-supported laboratories. The program seeks to improve the science writing skills of participants to afford them the opportunity for publishing and obtaining grants for projects.

In addition, there is an annual Ukraine Regional One Health Research Symposium that features participants of SWMP and many others. In 2019, the Symposium had a total

Active Research Projects

BTRP supports many collaborative research projects through which Ukrainian and American scientists work together. A few recent examples are:

- "Risk Assessment of Selected Avian EDPs Potentially Carried by Migratory Birds over Ukraine"
- "Prevalence of Crimean Congo hemorrhagic fever virus and hantaviruses in Ukraine and the potential requirement for differential diagnosis of suspect leptospirosis patients"
- "The Spread of African Swine Fever Virus (ASFV) in Domestic Pigs and Wild Boars in Ukraine – Building Capacityfor Insight into the Transmission of ASFV through Characterization of Virus Isolates by Genome Sequencing and Phylogenetic Analysis"
- "ASFBiosurveillanceand ASF Regional Risk Assessment: A Field to Plate Survey"

Conferences

BTRP invites Ukrainian scientists to participate in scientific conferences worldwide where they have the opportunity to present their work and integrate into the international science community.

Biosurveillance Network of the Silk Road (BNSR)

In 2016 the Ministry of Health of Ukraine and the State Service of Ukraine on Food Safety and Consumer Protection signed a memorandum on joining a multi-national working group with the goal to strengthen global health security and create well-functioning disease surveillance networks in the Eastern European region that includes Azerbaijan, Georgia, Kazakhstan, and Ukraine.

Dnipropetrovsk State Regional Diagnostic Veterinary Laboratory
(Dnipropetrovsk RDVL)
48, Kirova ave., Dnipropetrovsk

Information Summary

Technical Assistance Plan - Memorandum for technical assistance to designated recipients of the State Committee of Veterinary Medicine of Ukraine and the National Academy of Agrarian Sciences of Ukraine. Registration Card # 2225-04 on 21.05.2012.

Donor – the United States Defense Threat Reduction Agency (DTRA)

Beneficiary/Executive Agent - State Committee of Veterinary Medicine of Ukraine (currently - State Veterinary and Phytosanitary Service of Ukraine)

Recipient – Dnipropetrovsk State Regional Laboratory of Veterinary Medicine; 48, Kirova ave., Dnipropetrovsk. Malimon Oleksandr Grygorovych, Director

Contractor Team - Integrating Contractor: Black & Veatch Special Projects Corp. Ukrainian Subcontractors: Project Technical Center (Designer) & Mediamax (Construction & Equipment Supplier**).**

Design Oversight –Project Technical Center, Sergey Volodymyrovych Mutilin

Construction Oversight – Georgii Petrovych Granich

Design-project Expert Assessment - Draft project was approved by the Central Regime Committee of the Ministry of Health of Ukraine on March27, 2012. Working design-project was approved by the Decree of the Director of Dnipropetrovsk SRLVM on June 21, 2013

Construction permit – Declaration for construction works was signed by the Director of Dnipropetrovsk Regional State Veterinary Laboratory (Oleksandr Malimon) and registered in the State Architectural Construction Inspection in the Dnipropetrovsk region on July 19, 2012.

Operational readiness - Declaration of facility operational readiness was provided to the Director of the Dnipropetrovsk State Regional Veterinary Laboratory to sign and submit to the State Construction Inspection. Veterinary Working Group inspected the facility on May 23, 2013. The Black & Veatch has received the comments and sent the answer on July 7, 2013.

Transfer of Custody (Acceptance Act) and Memorandum of Understanding – The TOC was signed on April 17, 2013

EDPs Permit – The obtaining of the Permit for working with pathogens is in process.

Certification of Attestation / Accreditation - Certification of Attestation / Accreditation process will be started after obtaining Permit for working with Pathogens.

USG Investment - Total cost of laboratory: **$1, 810, 547 USD** ($1,298,805,19 for Design & Construction; $511,742 for lab equipment and furniture)

Institute of Veterinary Medicine of the National Academy of Agrarian Sciences

Fact Sheet

Technical Assistance Project – Memorandum on technical assistance for project recipients of the State Committee of Veterinary Medicine of Ukraine and National Academy of Agrarian Sciences of Ukraine. Registration card #2225-04, dated 05.21.2012

Donor – The Department of Defense of the United States of America (DoD)

Beneficiary/Executive Agent - The State Committee of Veterinary Medicine of Ukraine (now the State Veterinary and Phytosanitary Service of Ukraine)

Recipient – Institute of Veterinary Medicine of the National Academy of Agrarian Science
Address: 30, Donetska street, Kiev, Ukraine
POC: Dr. Serhiy Nychyk, Director

Contractor Team - Integrating Contractor: Black & Veatch. Ukrainian Subcontractors: Project Technichniy Center (Designer) & Mediamax (Construction & Equipment supply).

Design Oversight (Avtornadzor) – Mutilin Sergey Volodimirovich

Construction Oversight (Technadzor) - Ziryanov Dmitro Vicktorovich

Expert Examination of Design Approval – The Conceptual Design was approved by the MoH Central Regime Commission on July 11, 2012. The Working Design was approved by Dr. Nychyk, Director of IVM on August 29, 2012.

Construction permit – The Declaration for the beginning of construction was signed by Dr. Nychyk, Director of IVM and registered by GASK (State Architectural Construction Inspection in Kiev oblast) on September 07, 2012.

State Acceptance - "Construction Ready for Operation Declaration" was signed by Dr. Nychyk, Director of IVM on April 08, 2013 and applied for registration by GASK (State Architectural Construction Inspection in Kiev oblast) on April 15, 2013.

Transfer of Custody and Sustainment Memorandum of Understanding - Transfer of Custody is in process.

EDPs Permit - Permit for working with Pathogens is in process.

USG Investment - Total cost of laboratory: **$2,109,375.23 USD** ($1,217,164 for design and construction and $762,134 for equipment and furniture)

PATHOGEN ASSET CONTROL SYSTEM

The Pathogen Asset Control System (PACS) is an electronic system for accounting, management and control of biological agents. The application is designed to monitor the reception, transfer, movement and destruction of agents, as well as other actions performed with biological materials. The system allows tracking materials of any kind. Each item in the repository is marked with an unique barcode label. The barcode technology using a barcode scanner allows fast and error-free data input and provides an extra level of pathogen asset tracking security. With the help of barcode technology, the repository process is fast, convenient and secure. PACS offers configurable access rights and user management system. Also it allows users to produce a variety of custom reports.

PACS is a highly customizable tool which can be configured to meet local needs and regulations, simplify the data entry process and optimally organize data. Extensive search and reporting capabilities allow users to output necessary data set in appropriate formats.

PACS was first installed in Ukraine in test mode in November 2009 at the Interim Central Reference Laboratory of the Especially Dangerous Pathogens (ICRL), located at the Ukrainian Research Anti-Plague Institute in Odessa (URAPI). All program interfaces and database information were translated and localized for Ukraine.

PACS is a turn-key solution. Implementation includes deployment, personnel training and support. The training program includes basic computer training for users with limited computer skills and an in-depth PACS training. PACS is supported by a multilayer technical support team including a Help Desk hot line and support specialists based in Kyiv and Moscow.

The Beneficiary of the Technical Assistance Project is the Ministry of Health of Ukraine. The main objective of the program is an inventory support of the especially dangerous pathogens' consolidation within ICRL.

BTRP Regulatory Fact Sheet

I. Agreement Between the United States of America and Ukraine Concerning Assistance to Ukraine in the Elimination of Strategic Nuclear Arms and the Prevention of Proliferation of Weapons of Mass Destruction dated 25 October 1993, as amended August 27, 2002 and September 18, 2003 and extended till December 31, 2013

II. Agreement between the United States of America and Ministry of Health of Ukraine Concerning Cooperation in the Area of Prevention of Proliferation of Technology, Pathogens and Expertise that could be Used in the Development of Biological Weapons dated August 29, 2005

III. Implementing Arrangements for the Conduct of Audits and Examinations of United States Assistance to Ukraine in Connection with the Agreement Between the United States and Ukraine of October 25, 1993, dated March 5, 1996.

IV. Paragraph III of the Law of Ukraine "Concerning International Agreements of Ukraine" № 1906-IV dated June 29, 2004.

Article 19. Effect of International Treaties/Agreements of Ukraine across the Territory of Ukraine (http://zakon2.rada.gov.ua/laws/show/1906-15/parao142#o142)

1. International treaties of Ukraine ratified by the Verkhovna Rada of Ukraine shall be part of the national law and shall apply in the same manner as the rules of the national law.

2. If an international treaty of Ukraine, which has duly entered into force, sets forth other rules than those provided for by the relevant act of the Ukrainian law, the rules of the international treaty shall apply.

Articles 15, 16, 17, 18 provide that international agreements and treaties must be duly followed and implemented by all Ukrainian agencies and that the Foreign Ministry monitors the implementation and may request the President or the Cabinet of Ministers to take steps to prevent non-compliance with an international treaty.

and UKRAINE

Signed at Kiev August 29, 2005

NOTE BY THE DEPARTMENT OF STATE

Pursuant to Public Law 89—497, approved July 8, 1966 (80 Stat. 271; 1 U.S.C. 113)—

". . .the Treaties and Other International Acts Series issued under the authority of the Secretary of State shall be competent evidence . . . of the treaties, international agreements other than treaties, and proclamations by the President of such treaties and international agreements other than treaties, as the case may be, therein contained, in all the courts of law and equity and of maritime jurisdiction, and in all the tribunals and public offices of the United States, and of the several States, without any further proof or authentication thereof."

UKRAINE

Weapons: Proliferation

Agreement signed at Kiev August 29, 2005;
Entered into force August 29, 2005.

AGREEMENT

between the Department of Defense of the United States of America and the Ministry of Health of Ukraine Concerning Cooperation in the Area of Prevention of Proliferation of Technology, Pathogens and Expertise that could be Used in the Development of Biological Weapons

The Department of Defense of the United States of America ("U.S. Department of Defense") and the Ministry of Health of Ukraine, hereinafter referred to jointly as the Parties,

desiring to implement the Agreement between the United States of America and Ukraine Concerning Assistance to Ukraine in the Elimination of Strategic Nuclear Arms, and the Prevention of Proliferation of Weapons of Mass Destruction, signed October 25, 1993, as extended and amended (hereinafter the Umbrella Agreement), as it pertains to the prevention of proliferation of technology, pathogens and expertise that could be used in the development of biological weapons,

recognizing the existing cooperation between the Science and Technology Center Ukraine and the Lviv Scientific Research Institute of Epidemiology and Hygiene, and

noting that pursuant to Article II of the Umbrella Agreement, the Ministry of Health of Ukraine has been designated by the Government of Ukraine (Cabinet of Ministers) as the executive agent to implement this Agreement,

HAVE AGREED AS FOLLOWS:

Article I

1. In order to assist Ukraine in preventing the proliferation of technology, pathogens, and expertise that are located at the Scientific Research Institute of Epidemiology and Hygiene (Lviv), the Ukrainian Scientific Research Anti-Plague Institute (Odessa), the Central Sanitary Epidemiological Station (Kyiv), and other facilities in Ukraine identified by the Ministry of Health of Ukraine, and that could be used in the development of biological weapons, the U.S. Department of Defense shall provide assistance to the Ministry of Health of Ukraine at no cost, subject to

the availability of funds appropriated for this purpose, in accordance with the terms of this Agreement.

2. The Ministry of Health of Ukraine shall use all material (including equipment, instruments, and other supplies), training of personnel and services provided in accordance with this Agreement exclusively for the purpose of preventing the proliferation of technology, pathogens and expertise that are located at facilities in Ukraine and that could be used in the development of biological weapons.

3. This Agreement and all activities undertaken in accordance with this Agreement shall be subject to the provisions of the Umbrella Agreement. In the event of any discrepancies between this Agreement and the Umbrella Agreement, the provisions of the Umbrella Agreement shall prevail.

4. The Ministry of Health of Ukraine shall provide to the U.S. Department of Defense a list of facilities in Ukraine that may receive assistance under this Agreement, establishing the Ministry of Health of Ukraine's order of priority for such assistance.

Article II

1. Each party to this Agreement shall have the right, following written notification to the other party, to delegate responsibilities for the implementation of this Agreement to other organizations, departments, agencies, or units of their respective governments in accordance with the national laws of that party.

2. To coordinate activities under this Agreement, each party to this Agreement shall have the right, following written notification to the other party, to designate technical representatives for material, training and services provided pursuant to this Agreement.

Article III

1. The total cost to the U.S. Department of Defense of all material, training and services provided pursuant to this Agreement and the associated expenses shall be up to fifteen (15) million U.S. dollars.

2. Assistance provided by the U.S. Department of Defense to the Ministry of Health of Ukraine under Article I, Paragraph 1 may include, but is not limited to, cooperative biological research, biological threat agent detection and response, and

assistance for improving biological material protection, control and accountability in order to reduce the risk of theft or unauthorized use of dangerous pathogens located at the facilities in Ukraine referred to in Article I, Paragraph 1.

3. Pursuant to the terms of this Agreement, the U.S. Department of Defense may, at its discretion, provide the Ministry of Health of Ukraine with other types of assistance subject to the written agreement of the Parties.

Article IV

1. The Ministry of Health of Ukraine shall assist the U.S. Department of Defense during the implementation of this Agreement.

2. The Ministry of Health of Ukraine shall coordinate with appropriate Ukrainian ministries and other government agencies and organizations in order to ensure that:

(a) material provided under this Agreement is afforded priority processing to allow prompt delivery to its ultimate destination within Ukraine; and

(b) appropriate security measures are provided for the U.S. Department of Defense representatives, contractors, and equipment at those facilities associated with activities under this Agreement.

3. The Ministry of Health of Ukraine shall facilitate the examination by the appropriate Ukrainian ministries and other government agencies and organizations of all material received pursuant to this Agreement and provide confirmation of the acceptability of such material to the U.S. Department of Defense within ten days of receipt of the results of such examinations. Material failing to conform to agreed specifications shall be returned, at the expense of the U.S. Department of Defense, to the U.S. Department of Defense through the Embassy of the United States of America in Kyiv within thirty days of receipt for replacement.

4. The Ministry of Health of Ukraine or its designated agent shall consolidate and store all dangerous pathogens at secure centralized laboratories designated in writing by the Parties that have received or are receiving the U.S. Department of Defense assistance under this Agreement (hereinafter centralized laboratories). The U.S. Department of Defense may provide molecular diagnostics capabilities, improved electronic communications, and equipment for the safe and timely transport of field pathogen samples to the centralized laboratories.

5. In order to support the joint efforts of the Parties to prevent the proliferation of dangerous pathogens and related expertise and to minimize potential

biological threats, the Ministry of Health of Ukraine shall transfer to the U.S. Department of Defense requested copies of dangerous pathogen strains collected in Ukraine for cooperative biological research in the centralized laboratories in Ukraine and in U.S. Department of Defense-designated laboratories in the United States for prophylactic, protective or other peaceful purposes. Details of such cooperation shall be defined in annual Joint Requirements and Implementation Plans developed in accordance with paragraph 7 of Article IV of this Agreement or in an implementing arrangement in accordance with Article VI of this Agreement. The Ministry of Health of Ukraine shall share with the U.S. Department of Defense data generated by the infectious disease surveillance network of the Ministry of Health of Ukraine or its designated agents in order for the Parties to better detect, diagnose and monitor disease outbreaks in Ukraine.

6. Dangerous pathogens placed in centralized laboratories shall remain in those laboratories for the duration of the Umbrella Agreement. The Ministry of Health of Ukraine shall immediately notify the U.S. Department of Defense in writing about the temporary removal of dangerous pathogens from centralized laboratories due to emergency situations. The Ministry of Health of Ukraine shall return all pathogens removed from a centralized laboratory to that centralized laboratory or another centralized laboratory as soon as possible.

7. The Ministry of Health of Ukraine or its designated agent shall cooperate with the U.S. Department of Defense to develop annual Joint Requirements and Implementation Plans describing the underlying assumptions, requirements and responsibilities for implementation of this Agreement, and the Parties or their designated implementing agents shall sign these plans.

Article V

1. In accordance with Article X of the Umbrella Agreement, the U.S. Department of Defense has the right to audit and examine material, training of personnel, and services provided in accordance with this Agreement to facilities in Ukraine for the duration of the Umbrella Agreement. Such audits and examinations may be conducted consistent with the Implementing Arrangements for the Conduct of Audits and Examinations of United States Assistance to Ukraine in Connection with the Agreement between the United States and Ukraine of October 25, 1993.

2. In addition to the rights provided by Article X of the Umbrella Agreement, the U.S. Department of Defense representatives shall also have the right to participate in all aspects of implementation of contracts and related activities at facilities in Ukraine pursuant to the terms of this Agreement.

Article VI

As appropriate, the Parties may enter into additional implementing arrangements or agreements to carry out the provisions of this Agreement. In the case of any inconsistency between this Agreement and any such arrangements or agreements, the provisions of this Agreement shall prevail.

Article VII

In order to facilitate the provision of assistance in accordance with the terms of this Agreement, and without prejudice to the U.S. Department of Defense's right to conduct audits and examinations in accordance with Article V of this Agreement:

1. The information transmitted under this Agreement or developed as a result of its implementation and considered by the U.S. Department of Defense as "sensitive" or by the Ministry of Health of Ukraine as "restricted information" (in Ukrainian: "конфіденційна інформація") must be clearly designated and marked as such.

2. "Sensitive" information or "restricted information" shall be protected in accordance with the laws of the state of the party receiving the information.

A) According to the laws and regulations of the United States of America, such information shall be treated as "sensitive information of a foreign government", and shall be withheld from public disclosure to the extent permitted by the laws and regulations of the United States of America. Any such information transmitted by the Ministry of Health of Ukraine to the U.S. Department of Defense must be accompanied by a written declaration from the Government of Ukraine which states that it is withholding such information from public disclosure and that the information is provided to the Government of the United States of America on the condition that it not be released to the public without the approval of the Government of Ukraine. In this written declaration, the Government of Ukraine shall specify the date until which the information provided should be withheld from public disclosure by the Government of the United States of America. That date may be extended by the U.S. Department of Defense, to the extent permitted by the laws and regulations of the United States of America, in accordance with a request by the Government of Ukraine.

B) Information marked or designated by the U.S. Department of Defense as "sensitive" should be withheld from public disclosure by the Government of Ukraine.

3. The Parties shall minimize the number of persons who have access to information that is designated "sensitive" or "restricted information" in accordance with Paragraph 2 of this article.

4. During implementation of this Agreement, access to certain information and technology considered "state secret of Ukraine" may be provided to the U.S. Department of Defense in accordance with the provisions of the "Law of Ukraine on State Secret."

Article VIII

This Agreement shall enter into force upon signature and shall remain in force for the duration of the Umbrella Agreement. This Agreement may be amended by the written agreement of the Parties and may be terminated by either party upon written notification to the other party ninety days prior to its intention to do so, provided that the provisions of Article IV, Paragraph 6 shall continue in force for the duration of the Umbrella Agreement.

IN WITNESS WHEREOF, the undersigned, being duly authorized by their respective governments, have signed this Agreement.

DONE AT Kyiv, this 29 day of August, 2005, in duplicate, each in the English and Ukrainian languages, both texts being equally authentic.

For the Department of Defense of the United States of America

For the Ministry of Health of Ukraine

УГОДА

між Міністерством оборони Сполучених Штатів Америки та Міністерством охорони здоров'я України стосовно співробітництва у галузі запобігання розповсюдженню технологій, патогенів та знань, які можуть бути використані в ході розробки біологічної зброї

Міністерство оборони Сполучених Штатів Америки (далі – Міністерство оборони США) та Міністерство охорони здоров'я України, які спільно називаються Сторони,

прагнучи виконати Угоду між Сполученими Штатами Америки та Україною щодо надання допомоги Україні в ліквідації стратегічної ядерної зброї, а також запобігання розповсюдженню зброї масового знищення, підписану 25 жовтня 1993 року з подальшими змінами та доповненнями (далі – «Рамкова Угода») у частині, що стосується запобігання розповсюдженню технологій, патогенів та знань, які можуть бути використані в ході розробки біологічної зброї,

визнаючи існуюче співробітництво між Науково-технологічним центром в Україні та Львівським науково-дослідним інститутом епідеміології та гігієни,

та відзначаючи, що відповідно до Статті II Рамкової Угоди Міністерство охорони здоров'я України визначене Урядом України (Кабінетом Міністрів) як виконавчий орган для виконання цієї Угоди,

домовилися про таке:

Стаття I

1. З метою надання допомоги Україні в запобіганні розповсюдженню технологій, патогенів та знань, що знаходяться в НДІ епідеміології та гігієни (м. Львів), Українському науково-дослідному протичумному інституті (м. Одеса) та Центральній санітарно-епідеміологічній станції (м. Київ), а також інших об'єктах в Україні, визначених Міністерством охорони здоров'я України, які можуть бути використані в ході розробки біологічної зброї, відповідно до положень цієї Угоди Міністерство оборони США надає Міністерству охорони здоров'я України безоплатну допомогу в обсязі наявних коштів, асигнованих для досягнення цієї мети.

2. Міністерство охорони здоров'я України використовує всі матеріали (в тому числі устаткування, інструменти й інші поставки), підготовку фахівців та послуги, надані відповідно до цієї Угоди, виключно для запобігання розповсюдженню технологій, патогенів та знань, що знаходяться на об'єктах в Україні, і які можуть бути використані в ході розробки біологічної зброї.

3. Ця Угода та всі заходи, яких уживають відповідно до цієї Угоди, повинні відповідати положенням Рамкової Угоди. У випадку будь-яких розбіжностей між цією Угодою та Рамковою Угодою перевагу мають положення Рамкової Угоди.

4. Міністерство охорони здоров'я України передає Міністерству оборони США перелік об'єктів в Україні, яким може надаватися допомога згідно із цією Угодою, в якому Міністерство охорони здоров`я України визначає порядок черговості надання такої допомоги.

Стаття II

1. Кожна Сторона цієї Угоди має право, після надсилання письмового повідомлення іншій Стороні, делегувати відповідальність за виконання цієї Угоди іншим організаціям, міністерствам, відомствам чи підрозділам їхніх відповідних Урядів відповідно до національного законодавства цієї Сторони.

2. Для координації заходів згідно із цією Угодою кожна Сторона цієї Угоди має право, після надсилання письмового повідомлення іншій Стороні, призначати технічних представників, які будуть відповідати за матеріали, підготовку фахівців та послуги, надані відповідно до цієї Угоди.

Стаття III

1. Загальні витрати Міністерства оборони США на всі матеріали, підготовку та послуги, надані згідно із цією Угодою, а також пов'язані витрати, сягатимуть до 15 (п'ятнадцяти) мільйонів доларів США.

2. Допомога, яку надає Міністерство оборони США Міністерству охорони здоров'я України згідно з пунктом 1 Статті I, може включати, але цим не обмежуватися, допомогу на спільні дослідження в галузі біології, виявлення небезпечних біологічних агентів та реагування, поліпшення захисту біологічних матеріалів, контролю та звітності стосовно них, щоб зменшити ризик викрадення або несанкціонованого використання небезпечних патогенів, що знаходяться на об'єктах України, визначених у пункті 1 Статті I.

3. Відповідно до положень цієї Угоди Міністерство оборони США може, на власний розсуд, надавати Міністерству охорони здоров'я України інші види допомоги згідно з письмовою угодою між обома Сторонами.

Стаття IV

1. Міністерство охорони здоров'я України допомагає Міністерству оборони США під час виконання цієї Угоди.

2. Міністерство охорони здоров'я України координує свою діяльність з відповідними міністерствами та іншими державними установами й організаціями України з метою забезпечення:

a) першочергового розгляду матеріалів, наданих відповідно до цієї Угоди, щоб у найкоротший термін доставити їх до місця кінцевого призначення в Україні;

b) вжиття відповідних заходів безпеки стосовно представників, підрядників та устаткування Міністерства оборони США на об'єктах, пов`язаних з діяльністю, передбаченою з цією Угодою.

3. Міністерство охорони здоров'я України сприяє перевірці відповідними міністерствами та іншими державними установами й організаціями України всіх матеріалів, отриманих відповідно до цієї Угоди, та надає Міністерству оборони США підтвердження їхньої прийнятності протягом 10 днів з моменту отримання результатів таких перевірок. Матеріали, які не відповідають погодженим вимогам, повертаються за рахунок Міністерства оборони США до Міністерства оборони США через Посольство Сполучених Штатів Америки в Києві протягом 30 днів з моменту їхнього отримання для заміни.

4. Міністерство охорони здоров'я України або визначена ним установа збирає та зберігає усі небезпечні патогени в документально визначених сторонами надійних централізованих лабораторіях, які отримали або отримують допомогу Міністерства оборони США згідно із цією Угодою (далі – централізовані лабораторії). Міністерство оборони США може надавати потужності для проведення молекулярної діагностики, удосконалене телекомунікаційне устаткування та обладнання для безпечного та своєчасного транспортування відібраних на місці штамів патогенів до централізованих лабораторій.

5. З метою підтримання спільних зусиль Сторін, спрямованих на запобігання розповсюдженню небезпечних патогенів та відповідних знань, а також зведення до мінімуму потенційних біологічних загроз, Міністерство охорони здоров'я України передає Міністерству оборони

США копії тих штамів небезпечних патогенів, відносно яких Міністерством оборони США зроблено запит, і які було зібрано в Україні, для здійснення спільних біологічних досліджень в профілактичних, захисних та мирних цілях в централізованих лабораторіях в Україні та в лабораторіях, визначених Міністерством оборони США на території Сполучених Штатів Америки. Подробиці такої співпраці визначаються щорічними Планами спільних вимог та виконання, розробленими відповідно до пункту 7 Статті IV цієї Угоди, або імплементаційними домовленостями відповідно до Статті VI цієї Угоди. Міністерство охорони здоров'я України надає Міністерству оборони США інформацію, одержану з мережі спостереження за інфекційними захворюваннями Міністерства охорони здоров'я України або визначених ним установ, щоб Сторони могли ліпше виявляти, проводити діагностику та відслідковувати спалахи захворювань в Україні.

6. Небезпечні патогени, які зберігаються в централізованих лабораторіях, залишаються в цих лабораторіях протягом чинності Рамкової Угоди. Міністерство охорони здоров'я України негайно повідомляє в письмовій формі Міністерству оборони США про тимчасове вивезення небезпечних патогенів з централізованих лабораторій через виникнення надзвичайних ситуацій. Міністерство охорони здоров'я України якомога швидше повертатиме всі патогени, вивезені з централізованих лабораторій, в ці або інші централізовані лабораторії.

7. Міністерство охорони здоров'я України або визначена ним установа співпрацює з Міністерством оборони США з метою розробки щорічних Планів спільних вимог та виконання з визначенням основних зобов'язань, вимог та кола відповідальності за кожним із проектів, що реалізуються згідно із цією Угодою; при цьому Сторони або визначені ними імплементаційні органи підписують ці плани.

Стаття V

1. Міністерство оборони США, згідно з Статтею X Рамкової Угоди, має право ревізувати й перевіряти матеріали, підготовку фахівців та послуги, надані згідно із цією Угодою на об'єктах на території України протягом чинності Рамкової Угоди. Проведення таких ревізій та перевірок може здійснюватися згідно з положенням Імплементаційної домовленості щодо проведення ревізій та перевірок допомоги Сполучених Штатів Америки Україні у зв'язку з Угодою між Україною та Сполученими Штатами Америки від 25 жовтня 1993 року.

2. На додаток до прав, передбачених Статтею X Рамкової Угоди, представники Міністерства оборони США мають право брати участь у всіх

аспектах виконання контрактів і діяльності, пов'язаної з їх виконанням на об'єктах в Україні, згідно з умовами цієї Угоди.

Стаття VI

У разі необхідності Сторони можуть укладати додаткові імплементаційні домовленості чи угоди для виконання положень цієї Угоди. У випадку розбіжностей між цією Угодою та будь-якими такими домовленостями чи угодами положення цієї Угоди мають переважну силу.

Стаття VII

З метою сприяння наданню допомоги згідно з положеннями цієї Угоди, і не обмежуючи права Міністерства оборони США проводити ревізії та перевірки згідно зі Статтею V цієї Угоди:

1. Інформація, яка передається згідно із цією Угодою або яка розробляється в результаті реалізації положень цієї Угоди та яка визначається як «чутлива» ("sensitive") інформація Міністерством оборони США та «конфіденційна інформація» ("restricted information") Міністерством охорони здоров'я України, повинна бути чітко визначена й відповідним чином позначена.

2. «Чутлива» інформація або «конфіденційна інформація» захищається згідно із чинним законодавством держави Сторони, яка одержує таку інформацію.

А) Згідно із законами та нормативними актами Сполучених Штатів Америки така інформація вважається «чутливою інформацією іноземного уряду» і не оприлюднюється в рамках, передбачених чинним законодавством та нормативними актами Сполучених Штатів Америки. Будь-яка така інформація, передана Міністерством охорони здоров'я України до Міністерства оборони США, повинна супроводжуватися письмовим повідомленням Уряду України, в якому зазначено, що Уряд України не оприлюднюватиме такої інформації та що ця інформація надається Урядові Сполучених Штатів Америки за умови, що вона не буде оприлюднюватися без дозволу Уряду України. У цьому письмовому повідомленні Урядом України також визначається дата, до якої надана інформація має зберігатися не оприлюдненою Урядом Сполучених Штатів Америки. Ця дата може бути змінена на більш пізній строк Міністерством оборони США в рамках, передбачених чинним законодавством та нормативними актами Сполучених Штатів Америки згідно з проханням Уряду України.

В) Уряд України має не оприлюднювати інформацію, яку Міністерство оборони США визначило як «чутливу».

3. Сторони обмежують число осіб, які мають доступ до інформації, яка визначається як «чутлива» або «конфіденційна інформація» згідно з пунктом 2 цієї статті.

4. Впродовж виконання положень цієї Угоди доступ до певної інформації й технологій, які вважаються державною таємницею України, може надаватися Міністерству оборони США відповідно до вимог Закону України «Про державну таємницю».

Стаття VIII

Ця Угода набуває чинності з дати підписання та залишається чинною протягом дії Рамкової Угоди. Ця Угода може бути змінена за письмовою згодою Сторін, і її дія може бути припинена будь-якою зі Сторін після письмового повідомлення іншій Стороні за 90 днів до її наміру зробити так, при цьому положення пункту 6 Статті IV залишаються чинними протягом дії Рамкової Угоди.

На посвідчення чого, ті, що підписалися нижче, будучи належним чином уповноваженими своїми Урядами, підписали цю Угоду.

Учинено в м. Києві « 29 » серпня 2005 року у двох примірниках, кожний англійською та українською мовами, при цьому обидва тексти є автентичними.

Open Statement — Voice of the World Scale Peoples

2019 December 12

The world was happy until the entry of the coronavirus pandemic on Dec. 12, 2019. World People did not expect the world will be submerged in the darkness. Lots of Peoples Lost their Lives. Every People all over the world Lost Peace. World Economics Crumbled and Lost the Stability. Illusions, panics, and fears flooded the minds of the people with death knells. Everyone lost the Nature of Life. The children were paralyzed within four walls. Their school life and college life were seen as losing art. A lot of mysteries came in procession. The Software businessman and philanthropist were called a health expert. The Truth Speakers are called Conspiracy Theorists. The truth was labeled as Disinformation / Misinformation. Doctors and Scientists were Labeled as False Information Spreaders. Doctors' and Scientists' necks were strangled by Big Pharma, Mainstream Media, and Big Tech Media Hands. The voices of doctors and scientists were buried, repressed, oppressed, and Squished by the mainstream and Big Tech Media. People were treated with slavery, especially in China, and Canada. There 1s a lot of corruption and money laundering in the name of COVID Care Funds. Taxpayers' Money is Used for the Destroying the Humanity. Lockdown has made Everyone into the Depression. People all over the world are dying due to Ineffective Imposed Injecting Vaccination. Their Rights, Freedom, and Peace are being Robbed. The Endless Tyranny, Sin is ongoing. Please End those and Save Humanity.

— Rakhesh Jaghadish

23 — 05 - 2022

To the Independent Courts.

Political Terrorism / Violence / Organized Crimes / Mafia State Operations

The Courts, The Judges, need to be the Politically Independent. Their Verdicts Never be Desire of the Politicians. Verdicts must be the Court Should be a bulwark, and a pillar to protect the innocent public people when the Governments Representatives are Elected by the Country people. Those Governments are Representative of Genocide against the public, and Killing the Public. In the Past Decades, there is a lack of justice and a lack of trust in the District Courts, High Courts, and Supreme Courts by the Public Peoples. Here there in this world, there are Increasing in Political Mercenaries Murders, Political Terrorism, Lock Deaths, Unrest, Triggering or Instigating Riots by Corrupt Politicians when the Public people on the Peaceful Protest for Basic Rights, Corruption, Money Laundering, White Collar Crimes, Profit Over Pain, Torture, Abuse of Powers, Organized Crimes, Terrorism, Conflicts, Bio-wars, Bio Weapons, Artificial Natural Destruction, Man Made Shortages in Foods, Politicians Continuous Spies on Public Peoples, Defenders, and Truth Speaking Peoples, Including Doctors, Scientists, Activist, and Journalists. If their Tyranny continues, it will lead to the great destruction of worldwide humankind. No Humans Will Exist.

NGOs, and NPO Non-Profit Organization, and Crimes Against Humanity,

Nowadays Politicians Spend More time on Cameras, Instead of Spending their time on Public people. They Forgot the Public Service. They all made Politics into Business and prostitution. Intentional Personal Gain Politics are the Real Cancer to this World and Humanity. After they elected by the Peoples they were Forgot the Public Peoples and Public Service. Greedy Politicians are all a Real threat to Humanity. Every politician has his own foundation and NGO to loot public Money in the name of donation. Using the tax Exemption, they all doing the Money Laundering, and Converting the Black Money into White Money. Using these pre-planned epidemics, NGOs and intergovernmental organizations have made themselves complicit in genocide. Those Intergovernmental Organizations like United Nations, International Criminal Court, and the NGOs like the Bill and Melinda Gates, CEPI and Everyone Involved in the Genocide of the World Population in the name of Pandemic and by Using the Vaccination.

Introduction,

Nonprofit Organizations - Non-Governmental Organization (NGO)

A non-governmental organization (NGO) is an organization that is usually established independently of the government. Most of them are non-profit organizations, and most are active in the humanities and social sciences.

Surveys Indicate That NGOs Have a High Degree of Public Trust

Surveys demonstrate a high level of public trust in NGOs, making them useful agents for the benefit of society and stakeholders. However, NGOs can be corporate lobby groups, such as the **World Economic Forum, Bill and Melinda Gates Foundation, and ISHA Foundation**.

Non-Governmental Organizations

The term Non-governmental organizations (NGO) was first named in Article 71 of the newly enacted Charter of the United Nations in 1945.

There is no fixed or official definition of an NGO, but it is generally defined as a non-profit organization that is not influenced by the government (which may receive government funding).

The Difference Between Nonprofit Organizations and NGOs

As you can see from the basic definition above, there is little difference between a non-profit organization (NGO) and an NGO. However, the term "NGO" does not generally apply to non-profit organizations based in the United States. The label NGO is usually given to organizations that act at the international level, but some countries classify civil society organizations as NGOs.

NGO Activities

NGO activities include, but are not limited to, environmental, social, advocacy, humanitarian work, and human rights activities. They can work to promote social or political change on a large scale or at a local level. NGOs play an important role in community development, community improvement and promoting civic engagement.

Non-Governmental Organizations - The Handbook NGO Handbook (PDF)

By definition: “NGOs are non-governmental organizations that are independent from both government and business. Their mission is to promote and serve the public interest, not to make a profit or advance the interests of a few. Promotion. Their independence allows them to monitor government performance and advocate for improvements.”

What is an NGO?

According to the United Nations Department of Global Communications, NGOs are "non-profit voluntary groups of citizens organized at the local, national or international level to solve problems that serve the public interest". The term NGO is used inconsistently and is sometimes used as a synonym for civil society organizations (CSOs), associations formed by citizens.

In some countries, NGOs are considered non-profit organizations, and political parties and trade unions are considered NGOs.

What Is the Difference Between an NGO and a Nonprofit Organization? In also Other Words,

Non-governmental organizations – NGO and non-profit organizations (NGOs) have more similarities than differences. Both types of organizations generally work for the good of society and the welfare of people or the betterment of the world. In general, the difference between NCOs and NCOs is usually a matter of scale.

NGOs in India,

There were an estimated 2 million NGOs in India in 2009 (about 1 in 600 Indians). This is much more than the number of primary schools and health centers in India.

Jaggi Vasudev and the Isha Foundation

Among them, the Isha Foundation is a non-profit spiritual organization founded in 1992 by Jaggi Vasudev near Coimbatore, Tamil Nadu, India. Jaggi Vasudev is supported by international organizations like United Nations, and World Economic Forum of WEF. And also Jaggi Vasudev is a murderer, conman and cheated people. Jaggi Vasudev killed an elephant with a donation scam, illegal deforestation in Tamil Nadu and an electric fence.

As Jaggi Vasudev has international support and he is backed by a corrupt government, and also law enforcement officials remain silent about his crimes.

World NGO Day 2010

World NGO Day, held annually on 27 February, is a day designated by 12 countries of the 9th Baltic States Forum at the 8th Baltic States Summit held on 17 April 2010 in Vilnius, Lithuania.

Types of NGOs,

There are Only Two Types of NGOs,

1. The first type of NGO is Politically Influenced, Getting Both Public Donation, and Private Donation. There are Some Good NGOs Present here. But Some NGOs are Politically Corrupted.

2. The Second Type of NGOs is Politically Distinct and Independent from the Political Influence, Governments, and Politicians. This type of NGO is Non-Partisan, that means they not biased or Biased Partisan, Particularly, they are Politically Independent, and uninfluenced by any Politics, and also, they unaffected and uncorrupted.

Classification of NGO,

1. BINGO – Big International NGO

    IDS - Institute of Development Studies work with a number of international non-governmental organizations (NGOs) to study topics related to power and communication, including Action Aid, Plan International and Oxfam Australia.

In 2004-05, IDS collaborated with Learning by Design to conduct a key assessment of the country's civil society engagement with support from Cordaid, Hivos, Novib and Plan Nederland. IDS was also invited to work with BONDs (British Offshore Development NGOs) to explore ways to make NGOs more accountable to key stakeholders or beneficiaries.

2. CSO – Civil Society Organization, The UN's Civil Society Unit

What is a Civil Society Organisation?

A civil society organization (CSO) or non-governmental organization (NGO) is any voluntary, non-profit civic group organized at the local, national or international level. Led by people of common interest, mission-oriented, civil society organizations (CSOs) perform a variety of services and humanitarian functions to communicate citizens' concerns to governments, monitor policies and encourage political participation at the community level.

The Civil Society Division is part of the Services Division of the Department of Global Communications (DGC) of the United Nations. Responsible for supporting the department's efforts to connect DGC organizations and civil society organizations (CSOs) and to disseminate information about the work and role of the United Nations.

3. BINGO - Business and Industry NGO

A non-governmental organization formed by a company or industry group to represent the collective interest in other forums or interactions with other stakeholders.

4. DONGO - Donor Organized NGO

   An NGO established by a charitable organization to undertake a specific activity. These NGOs are usually limited to certain countries. For example, a European charity in the Philippines can set up a Dongo to represent its interests there. These packages are different from country offices, which may be located in the same country.

5. TNGO - Transnational NGO

   "Transnational NGO". The term emerged in the 1970s as environmental and economic problems grew in global society. NGOs are not limited to a single country, but include non-governmental organizations operating in several countries.
   There More Types of NGO is Here.

Corporation and Organization,

Corporation

1. A legal entity is a large corporation or group of companies authorized by law to act as a single legal entity. An organization can be part of a company.

Organization

1. An organization is a group of people organized for a specific purpose, such as a company or government agency.

How NGOs Formed in this World - Forming a Group of Individuals,

1. In general, any group of people can form an informal organization to discuss common ideas or interests collectively without government intervention or permission. If the group seeks certain legal benefits, such as federal and state tax exemptions;

Non-Profit Organizations (NPO)

1. Organizations organized for non-profit purposes.
2. A non-profit is a group organized for a non-profit purpose and no part of the organization's income is distributed to its members, directors or officers.
3. These can be in the form of corporations, sole proprietorships (Example individual charitable giving), unincorporated associations, partnerships or foundations (distinguished by gifts from founders in the form of trusts). or condominiums (owners share ownership of a common area). individual contiguous units covered by state consortium laws). A non-profit organization must be classified as a non-profit organization at the time of its formation and may pursue only the purposes permitted by law for the non-profit organization.
4. Non-profit organizations include churches, temples, public schools, public charities, community clinics and hospitals, political organizations, legal aid organizations, voluntary organizations, unions, professional associations, research institutions, museums, and some government agencies.

The Real Purpose of NGO and Needs,

1. Real Purpose of NGO must to work for the public and the Social Welfare Goals.
2. They should be politically independent.
3. They should be never act for personal gains.
4. They should be transparent.
5. They should never Impose their Personal Agenda on the Public Peoples.
6. They need to be Good Minded Persons.
7. They need to Respect the Human Rights and Follow the Human Rights.
8. They Should never use the Fund against the Public Peoples that funds get from the Public.
9. They Should Corporately Independent.
10. They Should be behaved Genuine.

Tax Exemption: Section 501(c)(3)

1. Organizations that are organized and operated for religious, philanthropic, scientific, public safety assessment, literary, educational, or other specific purposes and that meet certain other requirements are exempt from tax under Section 501(c)(3) of the Code internal fiscal.

2. Organizations that meet certain requirements may be exempt from subsections other than 501(c)(3). These include welfare organizations, civic federations, fraternities, labor organizations and business federations.

501(c)(3) Private Foundations

3. Organizations eligible for tax exemption under Section 501(c)(3) are classified as private foundations unless they meet one of the exceptions provided in Section 509(a). Private foundations usually have a single primary source of funding (donations from a single family or business rather than multiple sources), and most of their primary function is to make grants to other organizations of charities and individuals rather than running charitable programs directly.
4. Tax Exemption or Deduction: Organizations that qualify as public charities under 501(c)(3) of the Internal Revenue Code may be exempt from federal income tax. After this exemption, nonprofits are generally exempt from similar state and local taxes. If an organization is 501(c)(3) exempt, charitable contributions made by an individual or company to that organization are tax deductible.
5. Many foundations and government agencies limit grants to public charities. Nonprofits can offer tax credits to individuals or businesses that make charitable donations.

Crimes of NGOs, and NPO Non-Profit Organization, and Crimes Against Humanity

1. Using the Tax Exemption, Anyone Can Create the Non-Profit Non-Governmental Organization. But Really How They Serving is the Need.

2. Using the Tax Exemption, Money Laundering is Possible.

3. In this Pre Planned Pandemic, The Many Non-Profit and Non-Governmental Organizations were Profit Earned in the Name of Donation over the Pains of the Public Peoples.

The Prime Minister's Citizen Assistance and Relief in Emergency Situations Fund (PM CARES Fund) was created on 27 March 2020, following the COVID-19 pandemic in India.

Modi Govt Fake Data on Ventilators, ICU Beds & Oxygen and Murders.

1. During the Pre – Planned Pandemic and Genocide, The More Peoples were Died, but they were killed the Public Peoples in the Name of Pandemic, and the Lack of Oxygen Cylinder in India.

First COVID 19 in India,

2. On January 30, 2020, The First Coronavirus in India Reported, was in the district of Thrissur, though the person had arrived at the Cochin International airport.

May 1, 2021 India Active Cases of Coronavirus is 37.23 lakh

May 8, 2021, COVID CRIMES

India's Number of Patients in ICU and on Ventilator, Union health minister Dr Harshvardhan, May 8, 2021

Over 9 million oxygen patients and 1.7 million ventilators across India: Harsh Vardhan

1. On May 8, 2021 Allied Health Minister Dr. Harshvardhan said that across the india (Country), the number of patients in **ICU beds is 4,88,861** while **1,70,841 patients were on ventilators** and **9,02,291 patients were on oxygen support**.

Numbers of Hospitals (both in public and private sectors), are estimated values

2. But NPH (National Health Profile 2019, 14th Issue) Data Published on **Jul 11, 2019** CENTRAL BUREAU OF HEALTH INTELLIGENCE, and CDDEP – The Center for Disease Dynamics, Economics and Policy Published on April, 20, 2020 Data Says, that Hospitals in States/UTs (Union Territories) are (Number of hospitals in public sector is 25778 + Number of hospitals in Private sector is 43487) = **Total number of hospitals (public + private) in India is 69265.**

Numbers of Hospital beds (both in public and private sectors), are estimated values

3. Number of hospital beds in public sector is 713986 and Number of hospital beds in private sector is 1185242**, Total number of hospital beds (public + private) in India is 1899228.**

Numbers of ICU beds (both in public and private sectors), are estimated values

4. Number of ICU (Intensive Care Unit) beds in public sector is 35699 and Number of ICU (Intensive Care Unit) beds in private sector is

59262, **Total number of ICU (Intensive Care Unit) beds (public + private) in India is 94961.**

Numbers of ventilators (both in public and private sectors), are estimated values

5. Number of ventilators in public sector is 17850 and Number of ICU (Intensive Care Unit) beds in private sector is 29631, **Total number of ventilators (public + private) in India is 94961.**

6. Health Minister of India Dr. Harshvardhan said on May 8, 2021, that there is 488861 (4.8 Lakhs) of patients are in Intensive care Bed. But total ICU – Intensive Care Unit beds in India is only 94961. How the (393900) 3.9 Lakhs of Patients is in the 94961 ICU Beds?

7. Health Minister of India Dr. Harshvardhan said on May 8, 2021, that there is (170841) 1.7 Lakhs of COVID 19 Patients are on Ventilators. But total Ventilators In India is only (47481) Forty Seven Thousand Four Hundred Eighty One. Then How the (123360) ONE HUNDRED TWENTY-THREE THOUSAND THREE HUNDRED SIXTY Patients in the FORTY-SEVEN THOUSAND FOUR HUNDRED EIGHTY-ONE Ventilators.

8. So Totally in the Name of Pandemics they Played the Dangerous Actions with Public Health.

9. In the Name of PM CARE Funds, they Looted the Lots of Money from the Public Peoples in the Name of Donation.

10. Dr. Harshvardhan Said, Over 9 lakh (902291) patients on oxygen support across India. How its Possible? Because the Government Always Tell Lies, Because the All Officials Lied Constantly. The Total Oxygen Cylinder in the Hospital

Approximately low in India. The Millions of Peoples of India Were Murdered by the RSS BJP World Economic Form Members in the Name of Pandemic.

On May 5, 2021, India Running Out of Oxygen, the More Patients were killed in the name of lack of oxygen. They Created the Artificial Pandemic to Kill the Peoples.

11. His mother is one of 140 patients with Covid-19 at Saroj Hospital, one of the best-equipped hospitals in India's capital, New Delhi. He was in intensive care on a ventilator. Gupta and the rest of the family were later told at the hospital that they had run out of oxygen. So, they had to go and find oxygen tanks to bring their loved ones to the hospital to survive.

Gupta: "We Are Not Getting Full Cylinders, So We Are Trying to Find Empty Cylinders"

12. "We are not getting full cylinders, so we are trying to find empty cylinders because we can still fill them," Gupta explained to local media outside the hospital last month. We are in contact with NGOs, hopefully have tanks that can fill the cylinders! We use any pressure and any contact. We are disappointed."

People wait to refill empty oxygen cylinders in New Delhi on May 3. Facing oxygen shortages, some hospitals are telling family members of patients to get their own oxygen. Amal KS/Hindustan

Credit: Hindustan Times / Contributor / Getty Images

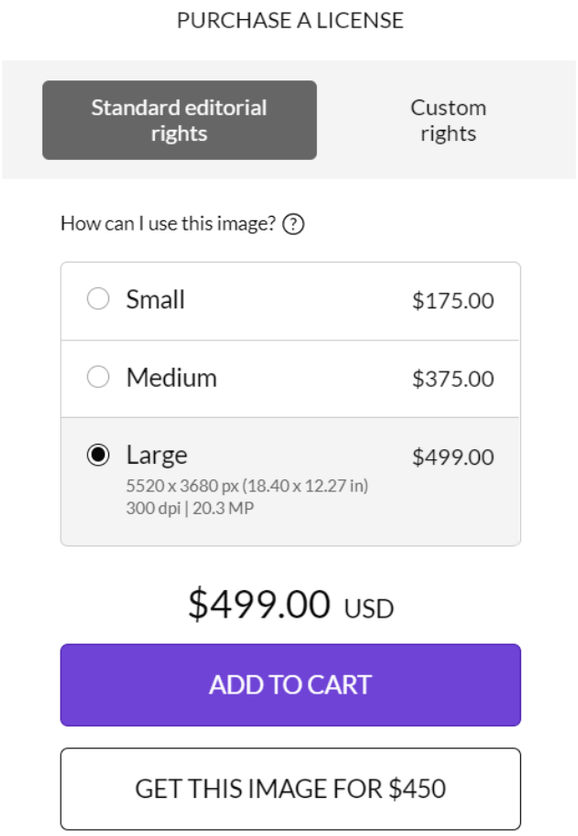

13. “What's wrong with the government? Why don't we have oxygen? Gupta exclaimed. "Why? Why is this happening?

14. In the Name of Pandemic Everyone Earned the Profit from the Innocent Peoples Pain, Except the Innocent Peoples who felt the Pain. For Real Example, The Above Image Taken by the Hindustan Times Member. People wait to refill empty oxygen cylinders in New Delhi on May 3. Facing oxygen shortages, some hospitals are telling family members of patients to get their own oxygen. This Photo Sales in the Getty Images is $39688.21. So, I Gave the Credit for the Hindustan Times.

Because they all working for the Credits and Courtesy of their work. Their Work, Their Credits, I'm Not Criticizing and Blaming. Here Some Greedy Media Never be Loyal to the Public. The Public Common Peoples on the Above Photo not Earned anything. They only earned and Earning Pain.

The people above in the photo didn't earn anything, the person who took the photo would have earned from the pain of those people. Companies that sell that photo will earn.

I Here Requesting the Pictures took anyone on this Pre Planned Pandemic should not used for the Commercial, that Images should be in public Domain.

15. India had 3.7 million active cases as of May 8, 2021 and 14,521 patients on ventilators, data provided by the Ministry of Health, regardless of whether this number includes those who could not access intensive care beds due to access to therapy units intensive.

16. The Supreme Court in Allahabad, northern India, on Tuesday ruled that deaths in hospitals from lack of oxygen constituted "genocide".

17. The Allahabad High Court on Tuesday said the death of a Covid-19 patient due to lack of oxygen in a hospital was a crime and nothing more than genocide. The power spread across social media. 4 May, 2021, www.barandbench.com

18. No deaths from lack of oxygen during second wave of COVID-19: U.P. governor, www.thehindu.com

The government said the death certificate did not mention "deaths from lack of oxygen" among the 22,915 patients who died from the pandemic.

The Pandemic is Pre Planned and Genocide. They are Justifying the Deaths Occurred by them as Pandemic. They are Blaming the Pandemic and Not Accepting their Crimes.

COVID-19 and Leak in Medical Oxygen Tank, APRIL 21, 2021

19. At least 24 COVID-19 patients died Wednesday after a doctor's oxygen tank leaked and cut off Dr. Liner's gas. Zakir Hussein Hospital in Nasik, Maharashtra.

Health Minister Rajesh Tov said the leak was due to a faulty valve and said a high-level inquiry had been ordered to determine whether negligence was the cause of the tragedy.

Mr. Thorpe said 61 of the 157 patients at the hospital were in a critical condition and needed oxygen.

Maharashtra Chief Minister Uddhav Thackeray expressed regret over the incident and announced that a thorough investigation would be conducted. "The family of the deceased will receive Rs. ₹5 lakh in compensation. I urge people not to get involved in any kind of politics," he said.

'No deaths due to oxygen shortage': BJP defends statement

20. On Wednesday, opposition parties stepped up the attack on the center over its statement that no deaths from oxygen deprivation were reported by states and UTs during the second wave of COVID -19.

Opposition parties escalated their attack on the Center on Wednesday for their claim that no oxygen deprivation deaths were reported by states and UT during the second wave of COVID-19, claiming they tried to hide their mistakes. " lying, "but the BJP accused them of being politicians on the matter, pointing out that their own governments in the states have not reported such victims.

In the midst of the quarrel, Congress-holding Maharashtra, Shiv Sena and NCP, and BJP-ruled Madhya Pradesh and Gujarat, said there were no oxygen-deprived deaths in these states, while the minister Delhi health officer and AAP leader Satyendar Jain said there have been many of these casualties in the national capital and other parts of the country.

It is completely wrong and wrong to say that no one has died from lack of oxygen. The center rubs salt on the wounds of those who have lost loved ones. Tomorrow they will say that there have been no deaths from COVID-19, "Jain said. www.business-standard.com

Joe Biden, Hunter Biden, and Their Family Crimes, Underage Girl to 18+ and Child Abuse

.

Hunter’s Biden Laptop, The Daily Beast has apologized to a Delaware computer repairman who bought Hunter Biden's laptop after falsely claiming the computer was "stolen" in an earlier article.

Mark Zuckerberg: Facebook Restricting a Story About Joe Biden's Son During the 2020 Election

Mark Zuckerberg said Facebook's restrictions on talking about Joe Biden's son during the 2020 presidential election were based on a misinformation warning from the FBI.

The New York Post reported that an email from Hunter Biden's laptop showed the then-vice president's son helped with business in Ukraine. Facebook and Twitter restricted sharing of the articles before withdrawing protests over accusations of censorship.

Both Joe Biden and Hunter Biden Pedophiles, they behave Inappropriate Physically with Underage Children’s.

His Laptop is Full of the Child Pornography

Zuckerberg said making the wrong decision is "stupid." "It's the worst when we take what we don't need," Zuckerberg said in a rare extended media interview on the Joe Rogan podcast.

Proud Hunter Biden’s Presidents Son laptop was full of images featuring the president’s son.

Hunter Biden uploads his sex video

Hunter Biden filmed a cheap homemade porn video of himself and uploaded it online, which was recently exposed and could embarrass his father.

Biden's Pornhub Account - The Latest Revelations

Dozens of videos found on a laptop left by the president's son show him having sex with a prostitute and posting them on Pornhub. Biden has tried to keep a low profile, but the recent laptop revelations will further embarrass the White House and add to the list of scandals, including investigations into his taxes and foreign business dealings.

Hunter's search history reveals his obsession with pornography and sexual fantasies, including "18 Years Old," "Lonely Widow," and "MILF Cocaine Porn Abuse."

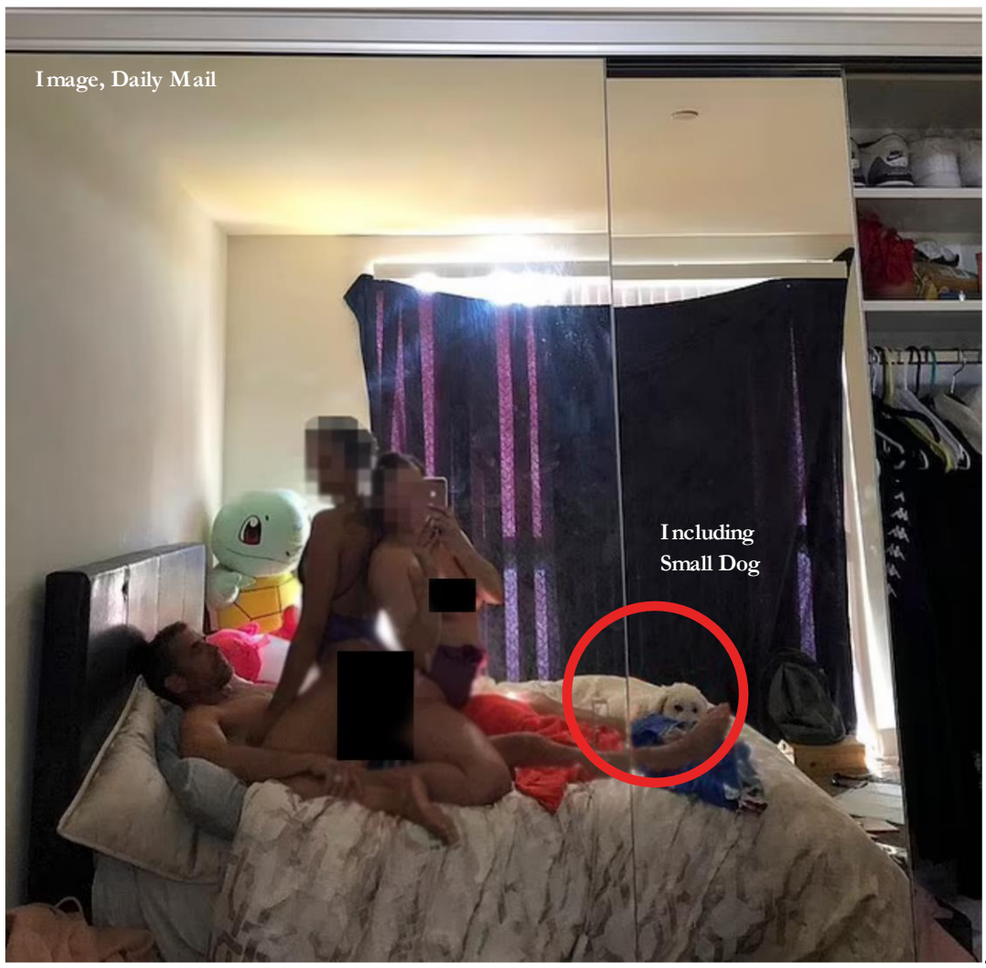

The history of Hunter Biden's web search is advantageous with pornography to have sex with prostitutes since March 2019. The president son has been looking for Pornhub several times with his son Hailie, "Single widows" and 18 -year -old girls. 98 pornography, 98 out of 281 websites for 6 days. 52 -year -old 52 -year -old "rest" entrusted history,

but 52 people who took care of paid pornography performed pornography paid He is also a regular user of a sexual room on the regity.com website. SMS messages are also on October 22, 2018, including a contact book on his contact book in his contact card. As part of his search history -Ashley Biden and Google's search sister, Biden, as well as the History of Arrest., Daily Mail

Fox News came out in an editor's note on Wednesday along with a December 2020 report that John Paul McIsaac's apology was plagiarized by the Daily Beast. May 27, 2022, NEW YORK POST

Both Hunter Biden and Joe Biden was Psychopaths and Child Abusers.

According to iMessage records, on October 22, 2018, Hunter sent a Pornhub link to a phone number he had saved as "Dad" in his address book. However, other texts indicate that she and former Vice President Joe Biden used different phone numbers, so it's unclear if the then-president used that number.

His account's profile photo shows two young adult women (pictured) sitting on a bed in an untidy room, with a white dog on the bed in the background.

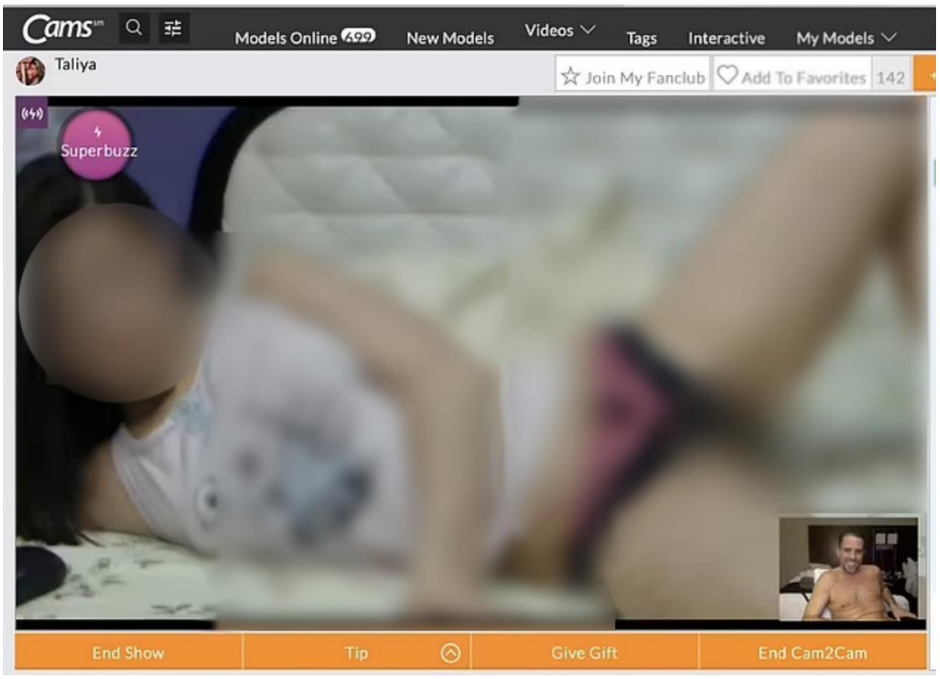

Hunter Biden’s search history reveals his obsession with porn, Bradford BetzJune 1, 2022

Source: wstpost.com

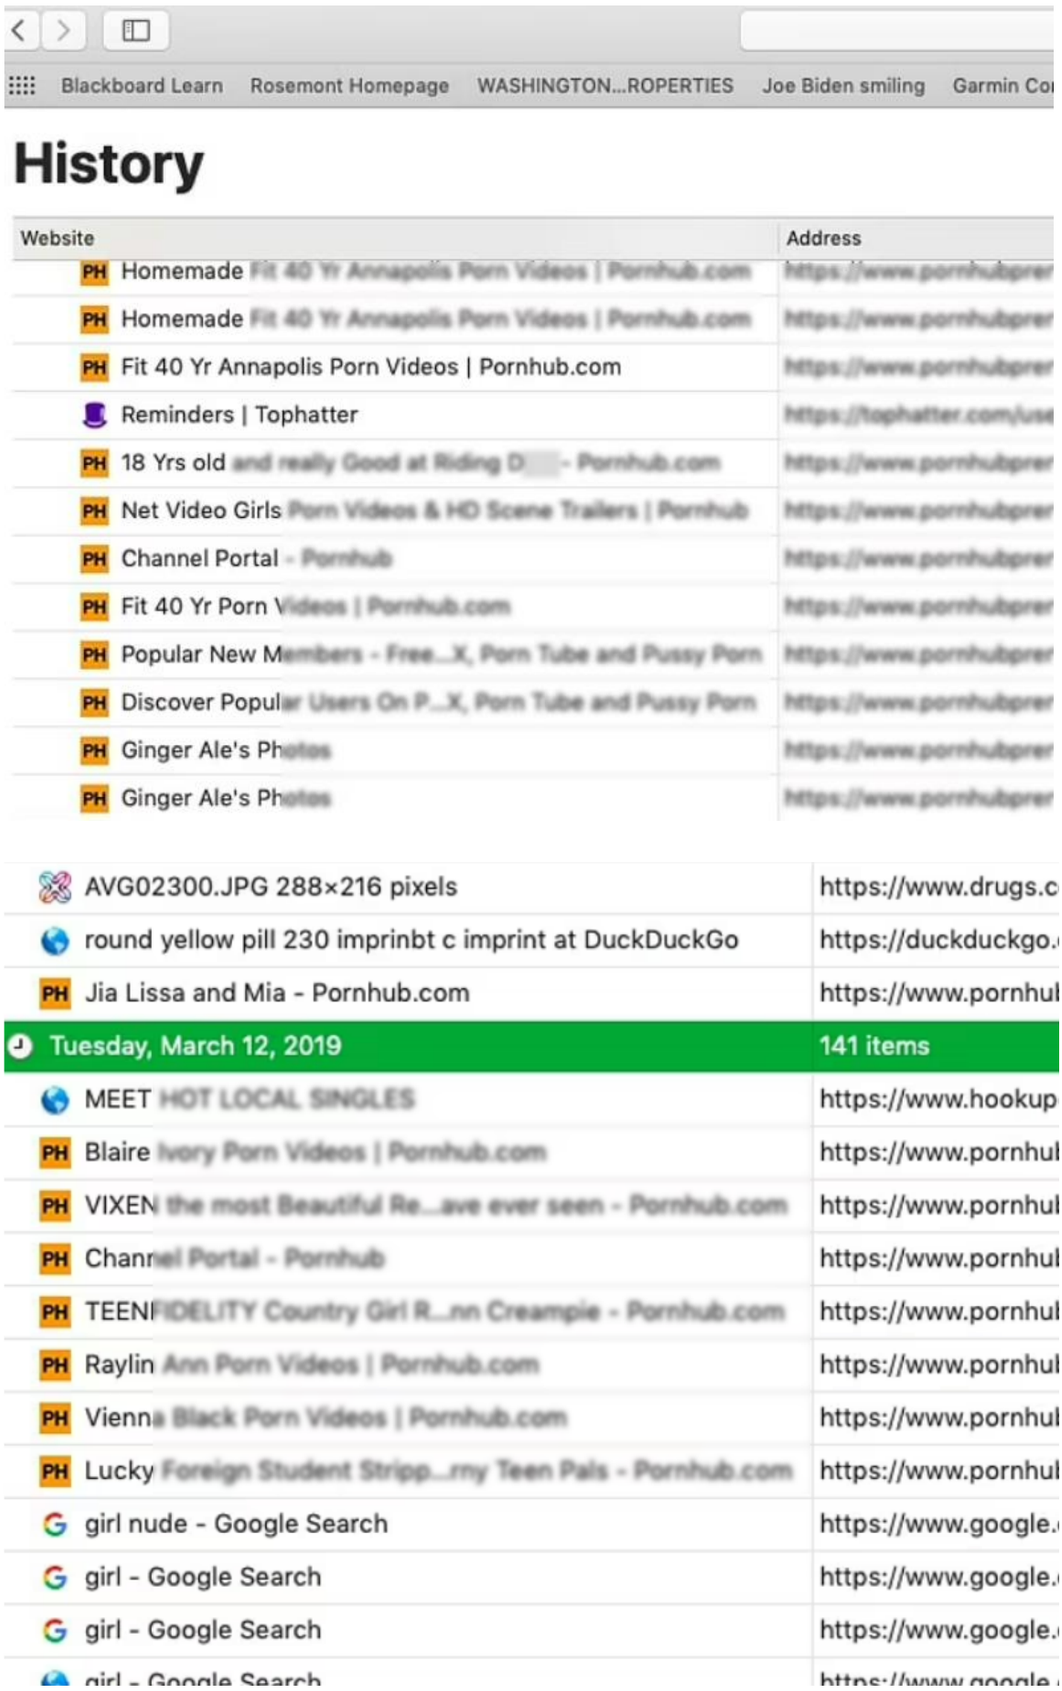

Hunter Biden's abandoned laptop reveals his hidden porn addiction and penchant for making amateur sex videos. Google search histories showed Hunter regularly visited porn sites and did other Google searches before crashing the laptop and taking it to a store in Delaware.

The President’s Son Was a Constant Visitor of Porn Sites

The Hunter Biden president's son frequented porn sites, including the adult site Glasscams.com, where he often took screenshots of himself (below right) interacting with live young adult women.

The search list visited 281 websites in just 6 days in March 2019, of which 98 were pornography.

According to her search history on March 12, 2019, she spent time on Pornhub and searched for "nude girl" on Google.

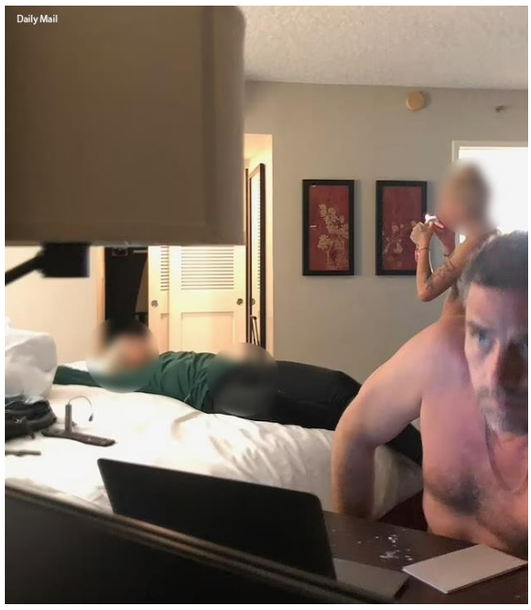

Over a six-day period, 98 of the 281 websites recorded in his browsing history were pornographic.

To his surprise, on October 22, 2018, Hunter referred to the Pornhub page and sent an SMS to a phone number he had saved as "Dad" in his address book. However, other texts show that she and Joe Biden used each other's phone numbers at different times, so it's unclear whether the president used those numbers at the time.

Hunter, who became controversial with his brother's widow, repeatedly searched pornhub for widow videos such as "home widow porn", "lone widow porn" and "lone widow porn". Biden's son, then 49, searched for teen porn based on his browsing history.

Among the videos she visited are "A Ride Really Good At 18"**, "TEENFIDELITY Country Girl Raylin Ann C****pie" and "Lucky Foreign Student Stripped & F***ed by Horny Teen Pals ". Also searched for "Washington DC Milf Crack Cocaine" 7 times a week.

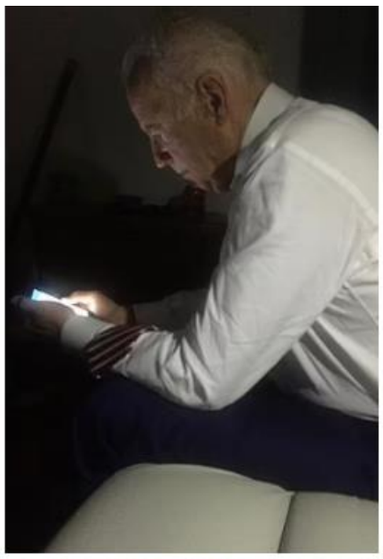

The Honorable President Joe Biden Son Ordered prostitutes and Making Porn Videos by them.

Texts, photos and videos from the laptop showed the president's son ordering prostitutes around and making pornographic videos of them, which he posted online on his Pornhub account.

The screenshot above is from a live webcam interaction he did with Camgirl. Among his pornography searches are notes from a 2009 New York Post article by Hunter about her history of partying, arrests and marijuana use while she and her sister Ashley Biden were studying in New Orleans. It was also searched multiple times using DuckDuckGo, a smarter alternative to Google, between March 12 and 17, 2019. Laptop texts and videos show the president's son booking a prostitute in a hotel room in California and Connecticut, discussing buying and using crack, filming a pornographic video and posting it online to his Pornhub account. His account profile photo shows two women sitting on a bed in a messy room, with a small white dog on the bed in the background. One video Hunter recorded on his laptop included a woman using her feet during sex. In another video, Hunter puts a hand on a woman's throat during sex. Another video screenshot of Hunter shows a woman tied to a bed with red stockings on her head as she goes out to buy pastries.

Photos found on the device included selfies and candid shots with his father, President Joe Biden

Hunter Biden's iPhone videos and photos show cocaine use, cheating and nude selfies. Western Standard, By Amanda Brown Jul 12, 2022

Hunter Biden naked in a pool

The curtain on another Hunter Biden job ended when the contents of his personal iPhone were revealed after his iCloud account was hacked and leaked via the website 4Chan.

Hunter Biden's iPhone Data - Pedo Peter

However, some of the iPhone data was copied, but it is said to be different from the data found on Hunter's laptop.

4chan users shared a screenshot of her father, President Joe Biden's contact list, called "Pedo Peter."

The video shows a naked soldier pointing a gun. Hunter, who was once seen with a prostitute, also pointed a .38 caliber handgun at the camera. The video was shot in October 2018, Radar Online reported.

Ashley Biden’s Leaked Diary

Ashley Biden's diary, which tells the story of former Vice President Joe Biden's and Present President inappropriate shower with her (Ashley Biden’s) as a child, has been confirmed.

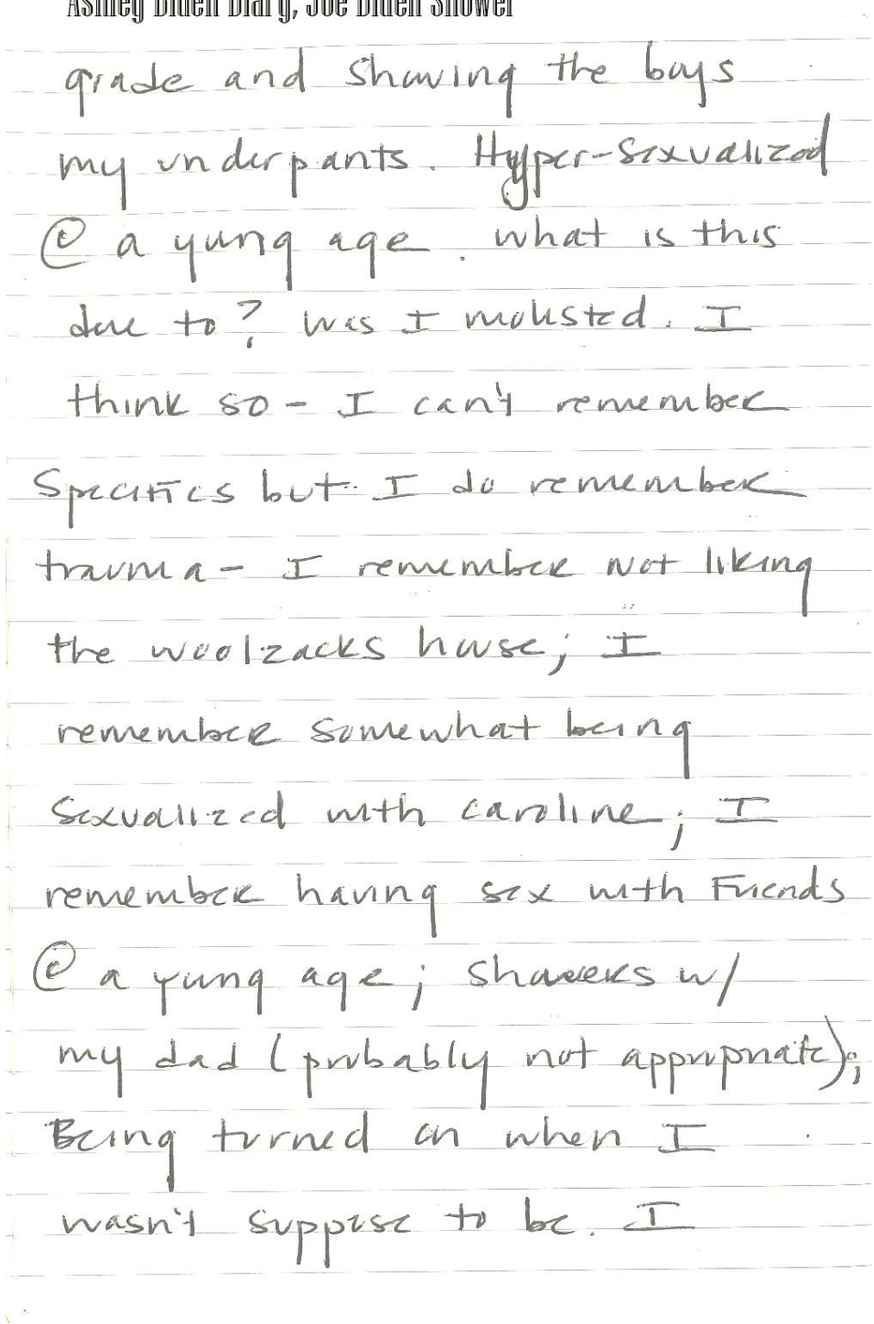

Ashley Biden Told in that Diary, She Was Molested by Many Times.

Ashley Biden's Diary and Hunter Biden's laptop from Hell, Both are Showing the Crimes of their Families.

Sex Addiction - The President’s Daughter’s Ashley-Biden-Diary

In the diary, the president's daughter said that showering (perhaps inappropriately) with her father (Joe Biden) may have contributed to her addiction to adult sex and that she was "hypersexualized at a young age" and that someone else was involved in writing that it was Relatives from childhood, according to the British Daily Mail.

Ashley Biden Diary, Joe Biden Shower

grade and showing the boys
my underpants. Hyper-sexualized
@ a yung age. what is this
due to? was I molested. I
think so - I can't remember
specifics but I do remember
trauma - I remember not liking
the woolzacks house; I
remember somewhat being
sexualized with caroline; I

We Lied to Get Biden Elected

Easily Verifiable Data from Hunter's Laptop: not "Russian Disinformation" After All

By Katie S. Schmidt, Pogel Kenneth and Michael Benner

Source The New York Times

The Washington Post and The New York Times 'Fessed Up', April 1, 2022, Post Editorial Board New York POST.

The Washington Post changed its tune this week, admitting that the Hunter Biden laptop is the real deal, and The New York Times admitted last month that reality forced their hand.

Both papers 18 months ago, Is that right? Mottos said that democracy dies in darkness and that all the news is fit to print. The highest-quality performance must be prioritized over all else. Joined in the drive to suppress The Posts reporting off the laptop, playing up bogus, clearly partisan claims that it was somehow "Russian disinformation".

It didn't matter that we had already authenticated the information and produced confirming sources, like former Hunter business partner Tony Bobulinski. Nor did it matter that we had openly reported how we got the information, unlike both the other papers' endless, anonymously sourced reporting on the Trump Russia "scandal," which eventually proved to be utterly fake, the product of Clinton campaign disinformation.

Biden's Son Joins Ukrainian Gas Company, May 14, 2014 at 11:50 am, www.zeit.de

Biden's son joined a gas company.

US Vice President Joe Biden's Son Joins the Board of Directors of Ukraine's Largest Private Gas Company

Joe Biden, the US vice president's son, has joined the board of directors of Ukraine's largest private gas company. According to a statement from Burisma Holding, Hunter Biden takes over the group's legal department and represents the company in dealings with international organizations.

Hunter Biden Joins Ukrainian Gas Company with Devon Archer

Biden is a commercial attorney at the New York law firm Boies, Schiller & Flexner, one of two sons of the US Vice President. A close friend of John Kerry's stepson is one of the people he joined the Ukrainian company with, The Wall Street Journal reports. The gas company should be helped by the two Americans.

"Hunter Biden is a private individual and an attorney who is free to act," the White House and Vice President Biden's office said in a statement. A company that his father does not support is Burisma.

Burisma Holding - Ukraine's Largest Private Producer

Burisma Holding is reportedly controlled by Ukrainian businessman and politician Nikolai Zlochevsky, who was last Minister of Energy in the government of ousted President Viktor Yanukovych. His company received a lot of licenses for gas production.

According to Burisma, it was the country's largest private producer in the first quarter. Burisma primarily sells its products within Ukraine. The significance of the company is likely to increase, since Russia has made its gas exports to Ukraine more expensive. As a result, Ukraine is now more dependent on its own sources.

This Joe Biden and Hunter Biden Section Was Taken from the News Media, Joe Biden and Hunter Biden only Responsible. This Document is Documentation of the COVID 19 Pre Planned Pandemic.

There is No Words. Please Be Human

Vladimir Putin

There is Nothing to say that the Putin was not complicit to this Pre Planned Pandemic.

Because Every Corrupt World Leaders, Politicians, and Business Man’s are Involved in this Pre Planned Pandemic and Creating the Poisonous Vaccines to killing the innocent public peoples who have done no wrong. The Pure genocide Done in the Name of Pandemic and by Implementing the Useless Agenda.

Criticizers of Vladimir Putin are being Mysteriously Killed and Died.

1. Gretta Vedler 23-year-Old a Model Who Called Putin a Psychopath on January 2021 Found Dead Inside suitcase in February 2021. The body of a Russian model named Gretta Vedler was found in a suitcase after she was declared missing more than a year ago.

2. Alexander Litvinenko, he advised British intelligence and coined the term "mafia state". On 3 November 2006, Litvinenko (under the pseudonym of Edwin Carter) was admitted to Barnet Hospital in north London, where he was initially treated for gastroenteritis. Mr. Litvinenko, a former KGB officer who later became a British citizen and an outspoken critic of Russian President Vladimir Putin, was poisoned with a radioactive substance at a London hotel. He had met with the two men earlier that day.

3. Dmitry Kovtun was one of two men UK authorities say fatally poisoned Mr Litvinenko in London in 2006. Mr Litvinenko accused President Putin of ordering his killing. He Was died due to the Pre Planned Pandemic of the COVID19. This is Pure Murder. One of the main suspects in the Alexander Litvinenko murder has died due to COVID19.

4. Lukoil chairman who criticized invasion of Ukraine dies. Another Russian oil and gas oligarch have died under mysterious circumstances. The Lukoil company came out against the Russian invasion of Ukraine back in March.

Nemtsov's Murder

5. During the 1990s, Nemtsov was a political star of the post-Soviet Russia's 'young reformers.' He became the deputy prime minister and was once seen as possible presidential material, but it was Putin who succeeded former president Boris Yeltsin in 2000. Nemtsov publicly supported Putin's choice, but he grew increasingly critical as Putin rolled back civil liberties. Eventually, he was pushed to the margins of Russian political life. Nemstov was known for leading massive street rallies in protest of the 2011 parliamentary election results and for writing reports on official corruption. He was also arrested several times when the Kremlin crackdown on opposition rallies. Nemtsov was shot four times in the back by an unknown assailant within view of the Kremlin only hours after urging the public to join a march against Russia's military involvement in Ukraine. Although Putin took "personal control" of the investigation, the killer is still at large.

Berezovsky's Fall Out With Putin

6. Berezovsky was a self-made tycoon who became a fixture in Yeltsin's inner circle in the late 1990s. He is believed to have been instrumental in Putin's rise to power. Is that right? The media campaign smeared Nemtsov. Is that correct? Please find the attached file. However, Berezovsky was not able to exert the influence under the new president that he had hoped for. His falling-out with Putin led.

Stanislav Markelov and Anastasia Baburova, 2009

7. Chechen civilians were represented by Markelov in human rights cases. He also represented journalists who found themselves in legal trouble after writing articles critical of Putin, including Novaya Gazeta reporter Anna Politkovskaya, who was murdered in 2006. Markelov was shot by a masked gunman near the Moscow Kremlin. Novaya Gazeta journalist Baburova was fatally shot while trying to help him. Two members of a neo-Nazi group were sentenced to death for their roles in the killings.
8. More Peoples are Killed for Criticizing.

Vladimir Putin was the World Economic Forum Member

1. He also Involved and Complicit to the genocide of the World Population of the Public Peoples.
2. Every Leaders are Involved in this Pre Planned Pandemic.

Even in Future I will also Killed by them for Speaking, Criticizing, Exposing, and Releasing the evidence Against them.

In their Hand they have everything, Lots of Corrupted Money, Lots of Mobs, Lots of Mercenaries, and Lots of Judges. Every World Economic Forum Members thinking they all God. They all above the Law. And They all Precious than Others.

But in Reality, They all Criminals, They all Genociders, and They all Unforgivable Heartless Monsters.

They Damaged the Present Generation, and Future Generation.

Conclusion:

1. Every War From the 1900s to Present is Pre Planned, World War I and World War II is Pre Planned by the John D Rockefeller. Present Wars are Pre Planned by the World Economic Forum Members Including Joe Biden, Bill Gates, All Foundations linked to them, Klaus Schwab, and Every Young Global Leaders.
2. Now they Using the Bio Weapons to Kill the Peoples. Every Young Global Leaders (Joe Biden, Putin, Justin Trudeau, Boris Johnson, Donald Trump, and Everyone is in the Same Track).
3. Here They all using the Powers they Destroyed the Half of the Generation.
4. They all Destroying our DNA by Injecting the Vaccine.
5. Vaccines are the Biggest Scandal, Scam, and humbug.
6. There is nothing vaccine.
7. From the 1950s they started the Mass Vaccination, after the Vaccination the New Diseased were Developed. The Vaccination Never Prevent the Disease, But Vaccination Will Create Disease and Deaths. Drugs never Cure the Disease, But the Drugs create the Disease and Deaths. Starvation are the Man Made. There is no Food Shortages in this World or Earth. But they Create the Man-Made Food Shortages to Kill the Peoples.
8. They All Controlled by the Freemason or Illuminati or Eugenics.
9. Hitler also one of the Drama Player of the World War II Created by the John D Rockefeller.
10. Vaccines are the Genocides. All those who have died so far have been dead with the vaccine.

Solution:

1. First, they need to Resign from the Position or Their position should be taken away that killed the innocent Public Peoples.
2. The all Military Heads need to Be Resign or position should be taken away that killed the innocent Public Peoples.
3. The Group of Public Peoples Soldiers or Army need to Take over them.
4. The Army should conduct independent investigations in public and Every trial and investigation should be broadcasted live to the people of the world.
5. We need to Change the Election System.
6. There is no need for anyone to rule the country for 4 to 5 years anymore.
7. If we allow these types of Psychopaths and Murderers to Rule the Country. There is no More Humankind will Exist in Future. They Will Destroy the Humanity totally from this Earth.
8. 8 months is enough to lead the country. In the 7th month the humanities exam is conducted and the people to lead the country can be selected.
9. No educational qualification is required for this exam. It is enough to be a human being, it is enough to have a conscience, it is enough to have an uncorrupted mind and heart to take the country on a good path.
10. We need to Change the Politics and Political System.
11. We Need to Remove the Politics. We need to Create the Public Service to Serve the Public Peoples.
12. We need to Change the Law. Law need to be Equal, Simple, and Efficient. Law Should be Understandable to Every Human Beings in this Earth. Law should be Protect Everyone. Law need to Protect Victims.
13. Judiciary and law should never intimidate the public.

14. Everyone Have Rights to Speak the Law. If any judge violates human rights and conscience. Those corrupt judges should be severely punished.
15. Judges don't have Rights to Snatch the Public Peoples Rights or No one have Rights to Snatch the Individual Rights for Any Reason.
16. World Economic Forum and United Nations Linked Persons or Organization Should be Banned and Labeled as Terrorists and Terrorist Organization for the Large-Scale Genocide of the World Innocent Public Peoples.

Accusation:

On Behalf of Peoples my Accusation, I Accuse, Everyone Who Permitted this Pre-Preplanned Pandemic.

1. I Accuse the Politically Influenced and Corrupt Judges, those who allowed this Pre Planned Pandemic.
2. I Accuse the Corrupt Army of an Each Country for Allowing the Corrupt Leaders to Implement Their Genocide Agenda and Also, I Accuse that for Allowing the Bioterrorism.
3. I Accuse the Corrupt Police of the Each Country. In this Pre Planned Pandemic they Threatened the Public Peoples and Beaten the Public Peoples.
4. I Accuse the Corrupt Rich Persons Who Created and Plotted this Planned Pandemic.
5. I Accuse the Corrupt Big Pharma, Health Institutions, Health Officials, Doctors, Physicians, and Everyone Complicit to this Pandemic.
6. I Accuse the Corrupt Justice System.
7. I Accuse the Vaccination, and Drugs that Causing Diseases and Deaths.

8. 8. I Accuse Each and Every Corrupt and Heartless Media for the Complicit to this Pre-Planned Pandemic and Vaccine Genocide. And Also, I Accuse the Big Tech Media for Censoring the Public Peoples those Who Speaking Truth of the Vaccines Side Effects, and Government Tyranny.
9. I Accuse Everyone Earned Profit from the Public Donations and Public Peoples Tax Money.
10. I Accuse that they earned Millions of Profit over Pain of the Innocent Public Peoples and their Deaths.
11. I Accuse the Corrupt Government and Judiciary System.
12. Those Above Accused are Complicit to the Genocide, and Murderers of the World Population and Innocent Public Peoples.
13. I Accuse the Conscience Heartless Person those who Complicit in this Genocide.
14. I Accuse Monarchy of the Britain.

Past Request to International Criminal Court

1. **On July 25, 2022,** I Emailed the International Criminal Court and CID Army of the United States Via Mail to Take Independent Investigation. But no Reply from the International Criminal Court. Because in Past International Criminal Court is Only Supporting the Corrupt United Nations.

Behavior of International Criminal Court

2. It seems to me that the International Criminal Court is just an eyewash and Puppet of the United Nations.
3. If the International Criminal Court is Distinct from the United Nations or Independence Court then Why does the International Criminal Court behave as if it were a member of the United Nations?
4. Those Who All are Involved in this Genocide need to be Get Death Penalty as per their Nations Law.

5. **The United Nations and the International Criminal Court**, **partners of shared values**, commemorate the Day of International Criminal Justice at an event hosted by Italy, 2014

There is no Till Peace

1. Since the founding of the United Nations, there has been much war, and Pre Planned Pandemic were Occurred.
2. The United Nations, World Economic Forum, Rockefeller Foundation, and The Bill and Melinda Gates Foundation, and Other Intermeshed Corrupt NGO and NPO Organizations are threat to the Present Generation, Future Generation, and Peace.

Past Bombing by NATO and Justification for the Bombing

1. Part of NATO's justification for the bombing was to end the humanitarian crisis caused by the escape of Albanian refugees from Kosovo by Yugoslav forces.
2. NATO is the Reason for Every War, So NATO Should be Banned from this World.

U.S Democrats and Demons

More War After the World War II

1. No one Can Justify the War, if they Try to Justify the War, they are the Heartless War Criminals

The U.S.'s Weapons Sales with Iraq, Iran–Iraq War

2. The United States Democrats are the Most Warmongers.
3. They train terrorists, finance terrorists, and create war themselves and then sell weapons and kill innocent public peoples, and destroy their Infrastructure and make money from it. They will create many excuses and myths to justify the war.
4. Even those Excuses and Myths are Inscrutable, and Untrustable.

PRIME MINISTER CARE – PM CARE FUND SCAM, SCANDAL, AND VENTILATOR SCAM AND FRAUD, PRIME MINISTER'S CITIZEN ASSISTANCE AND RELIEF IN EMERGENCY SITUATIONS FUND, MAY 13, 2020

On March 27, 2020,

1. PM CARE FUND is Prime Minister’s Citizen Assistance and Relief in Emergency Situations Fund, Formed on **27 March 2020**. Members of the PM CARE FUNDS is Amit Shah (Minister of Home Affairs), Nirmala Sitharaman (Minister of Finance), Rajnath Singh (Minister of Defense), and Prime Minister Narendra Modi.
2. Prime Minister's National Relief Fund (PMRG), The PMNRF was initially administered by a committee consisting of the Prime Minister and his Deputy Ministers, the Finance Minister, the Speaker of Parliament, representatives of the Tata Trustee and industry representatives. However, in 1985 the Commission handed over the entire management of the funds to the Prime Minister, who now has the authority to use the funds as he sees fit. The Deputy Minister of the PMO (Prime Minister Office) administers the fund with honor.
3. As of December 2019, the PMNRF had an unspent balance of ₹3,800 crore in its corpus.
4. Opposition leaders have questioned the need for a new PM CARES fund as the PMNRF has similar objectives. They appealed for donations, noting that states also have similar Prime Minister's relief funds and that states have the biggest responsibility to roll out the COVID-19 relief efforts.

Reference

Is the PM-CARES Fund Set Up for Covid a Private or Government Trust?

Is the PM-CARES Covid Fund private or a government trust? It is defined as a government trust for business donations but is excluded from RTI investigations under the terms of the trust document and is referred to as a private entity. PM-CARES Trust is registered with Delhi IRS with Prime Minister as Chairman and Senior Minister as Trustee. However, the deed of trust recently posted on the foundation's website does not list it as a state trust. Section 5.3 of the trust deed provides: the work of faith in a way".

PM-CARES, or the Prime Minister's Citizens' Relief Fund, was set up in March by Prime Minister Narendra Modi "to deal with emergencies or emergencies like the coronavirus pandemic." The trust was registered on March 27. The next day, March 28, the Ministry of Business issued an official letter designating PM-CARES as a Corporate Social Responsibility (CSR) initiative to receive corporate donations. The Corporate Law defines corporate donations as: "Contributions to the Prime Minister's National Relief Fund or other funds established by the central or provincial governments for socio-economic development, socio-economic development, socio-economic development and socio-economic development, lack of designation and other disadvantaged classes, minorities and women'.

According to documents accessed through an RTI request by activist Anjali Bhardwaj, the Ministry of Corporate Affairs issued an official letter dated March 28, defining PM-CARES as "a fund set up by the central government".

However, the trust deed filed the day before showed that the government did not work, so PM-CARES was not subject to corporate philanthropy. After about two months of controversy, on May 26, the Ministry of Corporate Affairs retroactively added the PM-CARES fund to the March 28 Company Law.

On June 21, 2020,

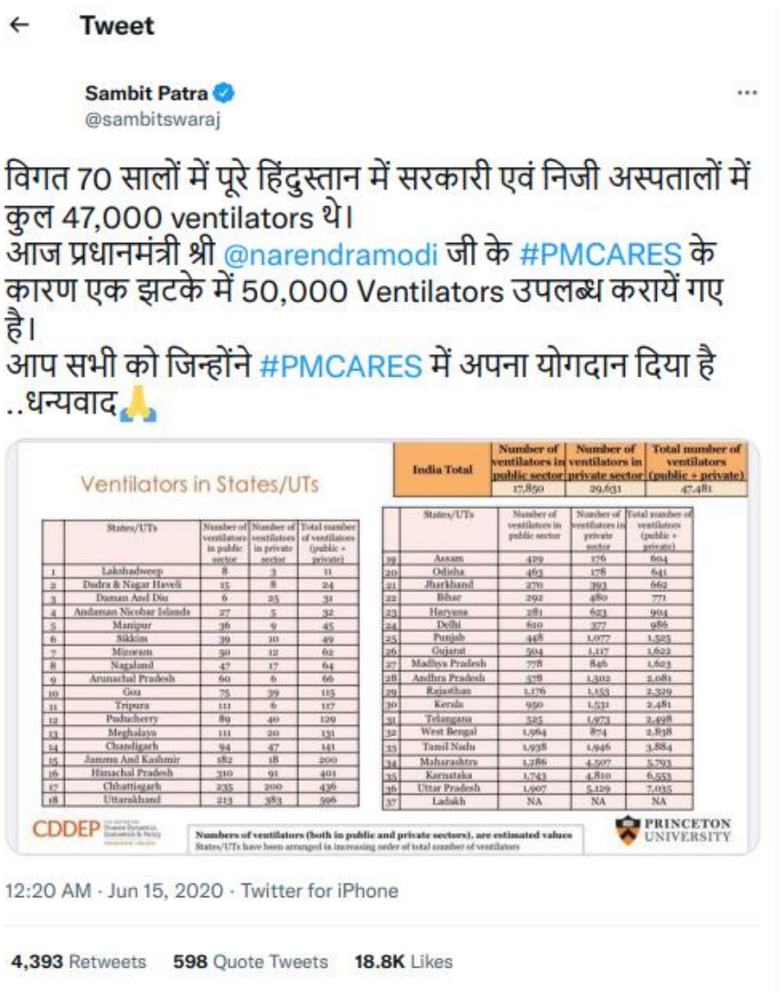

After Two Months, later on June 21, 2020. Bharatiya Janata Party (BJP) president JP Nadda has announced to provide **60,000 ventilators by the end of June through the PM-CARES fund**. The BJP RSS Terrorist Trained Peoples speaking, one person of BJP RSS Speaking the 60,000 Ventilators, and another one speaking the 50000 ventilators. There are lots of contradiction in their Speeches.

On **June 15, 2020, Before the Ventilator Delivered Jayant Sinha Tweeted on June 14, 2020 with Sticker in the Ventilator as PM CARES. This is Cheap Politics.**

On **June 15, 2020**, Before the Ventilator Deliver the BJP Politicians and Propagandists Started the False Campaign on twitter that the Narendra Modi Government Made the Ventilators and Available in All Hospital. This Pure cheap Politics by them.

विगत 70 सालों में पूरे हिंदुस्तान में सरकारी एवं निजी अस्पतालों में कुल 47,000 ventilators थे। आज प्रधानमंत्री श्री @narendramodi जी के #PMCARES के कारण एक झटके में 50,000 Ventilators उपलब्ध करायें गए है। आप सभी को जिन्होंने #PMCARES में अपना योगदान दिया है ..धन्यवाद

Translation of Above Tweet,

In the last 70 years, there were a total of 47,000 ventilators in government and private hospitals across India. Today Prime Minister Mr. @narendramodi Due to G's #PMCARES, 50,000

Ventilators have been made available in one stroke. To all of you who have contributed in #PMCARES. Thank you

12. According to an official announcement by the Prime Minister's Office, the Prime Minister's Citizen Relief and Relief Fund, known as PM CARES, will provide Rs 3100 crore or Million Dollar 31000 or 31 Billion for COVID-19 assistance, including funds for ventilators, migrant workers and development of vaccines. The evening of **May 13, 2020**. [The Hindu News]

13. On **May 13, 2020** PM CARES announced to pay Rs 2,000 crore to 50,000 Ventilators. According to the RTI reply, this includes all BEL fans and 20,000 Ventilators purchased from HLL.,
    a. The Wire [Dot] IN [**July 07, 2021** Article Published] [Accessed on **30 August 2022** – This Documentation].

Ventilator Purchases and Quality Concerns

6% of the Ventilators Ordered by the Fund Have Been Made

14. On 24 June 2020, the Government of India announced that 6% of the ventilators ordered by the fund, or 2,923 out of 50,000, had been manufactured and distributed to states and allied territories facing various situations, such as Maharashtra. (275), Delhi (275), Gujarat (175), Bihar (100), Karnataka (90), Rajasthan (75).

15. Using the PM Cares Funds the Modi Governments Said, In Last 70 Years Only 47481 Ventilators are in India. But PM CARES Ordered 50000 Ventilators. But Including here also Corruption. Only 34000 Ventilators only Delivered, Most of the Ventilators Not Worked. Even If Addition the 48000 Ventilators with 34000 Delivered Ventilators, The Total Ventilators will be the 820000 Ventilators. [June 15, 2020].

16. They All telling the Lies Constantly. In the Name of Pandemic, They Created this Pandemic and In the Name of Donation they all sucking the Bloods of the Innocent Poor Peoples.

17. Kannur Medical College hospital, the non-availability of required ventilator tubing has kept about 8 ventilators idle.

18. The Opened Ventilators from the Delivered by the PM Care Funds. They Did not Even Gave the Training how to use those Ventilators. There is No Proper Data Given by the Modi Government about the PM Care Funds and Ventilators.

19. The Most of the Ventilators Ordered through the PM Care Fund Even not Worked Well.

20. Sambit Patra, BJP Spoke Person and Propagandist, June 15, 2020, He tweeted that, In Past 70 years the India has 47000 ventilators, In one Second, Through the Narendra Modi PM Care Fund, the 50000 Ventilators Delivered. But Only 30000 Ventilators are Delivered and Most of the Delivered Ventilators not Even Work Properly.

PM CARE Ventilator SCAM by NARENDRA MODI GOVERNMENT, NATIONAL HERALD INDIA

After August 2022, The Official Website of PM CARE Scandal Was Not Worked.

1. On 27 March 2020 the Prime Minister's Citizen Assistance and Relief in Emergency Situations Fund was formed by the

   Amit Shah (Minister of Home Affairs),
   Nirmala Sitharaman (Minister of Finance),
   Rajnath Singh (Minister of Defence),
   Chairman (PM) Narendra Modi (ex-officio chairman)

   After they started asking the Public Peoples to Donate. They Told they Will Stop the COVID by using that Fund.
2. The PM CARE FUND WAS FULLY FRAUD.
3. The High Court or Supreme Court Both are Working for the Politicians. Judges not Working for the Public and Public Welfare.
4. The Most of the Ventilators Delivered to the PM CARE Funds are Not Worked.

PM CARES Fund - 100% Tax Deduction

1. Government has allowed 100% tax credit under Section 80G for contributions to PM CARES Foundation. Taxpayers can claim the deduction for the 2019-20 fiscal year if they donated between April 1, 2020 and June 30, 2020.
2. In the name of Coronavirus, pandemic and vaccine production, there has been a lot of fraud.
3. Millions of Money Donated to PM CARES, Those Money were all are Not Well.

Example Real Incident How the Common Peoples Get the Justice? How the Rich Peoples Get Justice:

One School Student was Mysteriously Murdered on the School Campus. After the Dead, They Not Even show the Dead Body of that Student to their Parents. And Not Even show the Place where she dead. There is no Chalk Outline of that Crime Place. No Proper respect to their Parent from the Police as well as Judiciary. After they Gone to the Hospital. And they told to that parent, Take Your Children Body and Do the Further Funeral. After this Incidence Happened there is Nothing Came Outside to the Public. No Media Talks About this Mysterious Murder Happened in that School Campus. Because that School Owner has a Big Political Influence. He is Rich. And also He has Support of the Current Regime on the Central. The FIR First Information Report was Manipulated by the Police Officials. Their Parent's Accusation is that their Child was Raped and Murdered. Before their Daughter Murdered, the Criminals / Murderers was started to destroy the Evidence. The Protest Happened. People's protest was going on peacefully. But to disturb the peaceful protest, the anti-social elements with political connections turned the peaceful protest into a field of violence and tried to distract from the matter of the child's death. But Nobodies Helped Them, the issue is monstrous internationally after I Tagged the International Criminal Court. Then After Media Try to Focus and speak about the Childs Death. After at the Same day the CB CID Investigation Started. Before this Issue, the Police try to Coverup that issues as Death as Love Failure and Suicide. But their Parent Accusation Truth is She was Rapped and Murdered by School Owner Sons. Their Parents Asked the Third Re Postmortem, But Supreme Court Does not Give the Permission to that Parents. The Judge asked that Parent that, “You Don’t Have Trust on this Judiciary and Me”. The Supreme Court has refused to grant an interim stay on the re-postmortem. After now the Truth is Coming Out. I Don’t like to Mention Her Name Here, Because She Will Never Come Back. In that School from

2005 already 7 More deaths Happened like Mysteriously, but everything the Police is Covered Up the Truth and Buried. Police Man is Helped to School Authorities, not the Mysteriously Murdered Child.

Because they all Politically Slaves. For Example, Jaggi Vasudev he Murdered his Wife on January 23, 1997, till there is no Justice for his Wife. He is Freely Roaming World Wide. He Bribed the Police and He has Connection with the Politicians and also at International Level.

If there is No Social Media to Speak out that School children death and also about this type of the Murders never come out. Police Covered Up the Murder as Suicide, and they close the case.

Here Matter is,

1. Incidence Occurred, Murder.
2. Police try to Coverup the Issues as Depression, Suicide, and Love Failures. Police Department is in the Hand of the Corrupt Peoples.
3. Police Manipulated the FIR First Information Report.
4. Police Did Not Investigation Properly.
5. Police and Politicians is Creating the Riots in the Peaceful Protest.
6. Money Greed and Money Plays.
7. Money and Political Influence on Judiciary.
8. There is Always no Proper Justice for the Poor and Common Peoples.
9. Partiality by the Justice Departments.

"Justice delayed is justice denied"

Request to the International Criminal Court to Take Independent Investigation on Crime Against Humanity and Genocide of the World Scale Population using in the Pandemic and Injecting the Poisonous Vaccine on Entire Population

New York, NY, 10017

USA

212-486-1346/47/62

I’m reporting this On Behalf of Innocent public peoples of this World Public people, Human Beings who all died and Suffered and still Suffering from the ineffective vaccine, and the News Media Promoting those Ineffective vaccines to Young people’s and Kids, The Big Pharmaceutical companies Pfizer, Moderna, CureVac, AstraZeneca, and More Vaccines Companies that Causing Dangerous Incurable Diseases and Genociding to the World Innocent Public Peoples at large scale for the Greedy Profit and Useless Agenda Called “Agenda 2030” and the Useless Great Reset by the WEF World Economic Forum and It’s Members. Please We all Request, **International Criminal Court to take a suo moto cognizance**,

The ICC can start an investigation in three ways:
(a) a state party brings a case to the Court;
(b) the Court takes a suo moto cognizance;
(c) The United Nations Security Council (UNSC) refers a case to the Court. Lots of People Died and Dying by Vaccines.

COVID 19 is the Political Retaliation on the Entire Population at the World Scale. It's Pure Crime Against Humanity. They have planned the pandemic for a long time to genocide the population. But they are now Executing those Plans Without any Interruption. The Bill Gates is Just the Front Face of the Pandemic.

There are More Faces of Individual High-Profile Persons Involved in this Pandemic Genocide behind the Bill Gates. Each Government Official and Persons Elected by the Public people are Directly Involved and Doing the Genocide without any hesitation. Because the Big Dark Deep State is behind them.

The Lot of Corruption is Playing Behind. They Falsified the documents, manipulated, and Brainwashed the people to get the poisonous vaccines through the fake mainstream media narratives. People were prevented from speaking the truth, ruthlessly forced to inject poison vaccine into their bodies beyond their natural will and without their consent. Through the Blackmail, they forced the poisonous vaccine. Their Blackmails is, "If You did not get the jab / Vaccine, Your Job Will Be Snatched".

This Coronavirus COVID19 Pandemic is Fully Hoax, Fake and Planned. There is Lots of Evidence of Roaming in the Public Domain. The virus itself is a vaccine. A vaccine is not a vaccine either. Vaccine Itself a Virus. The Vaccine Spreading the Virus. This is the Inevitable Truth. Those who all are speaking against their Crimes against humanity on social media get jobs fired, censored, and oppressed. Each individual government official is involved in this Genocide, including those who are in the World Economic Forum. Those who all speak against them are being politically retaliated and Killed Mysteriously.

This COVID19 is the full face of the Corruption and Agenda of the Globalists. The WEF, WHO, and UN are Involved in this Genocide in the name of "Agenda 2030". Their agenda is about the enslavement of the entire world population by reducing the population by implementing abortions, murdering half of the population by giving poisonous vaccines, Creating War, Creating Planned Food Shortages, Creating Riots, and also Dividing the Public People’s in the name of Religion, Race, and Gender.

Present Ukraine Conflicts also not the War, It's Diversionary Proxy War, to Coverup the COVID19 Vaccine Side Effects. They are even planning to create World War 3. Whatever they profited from the millions of deaths and injuries from the vaccines. Those Profits are directly money laundered to Ukraine in the name of aid. The lockdown is also not controlling the spread of the virus.

It's Used to control the people. The Lockdown is causing dangerous psychological and physical damage to human beings. The Lockdown is Prison Policy. There is no science that the virus spread can be controlled by the lockdown. Lots of Scientific research papers are manipulated and released as the narrative to implement the Draconian Protocols in the name of the pandemic. There are lots of fundraising scams in the name of the pandemic. In the Name of COVID19 Care Funds, Covid President Care Funds, and PM Care Funds. Their Inhuman activities are a direct threat to future generations. The Vaccine Causing the Virus, Not the Virus Causing the Virus.

They are finding a way to cover up the deadly vaccine side effects in the name of polio, monkey-pox, and Sudden adult death syndrome. The Vaccine Side Effects are 100 % more deadly than natural deaths. Who all suffer from the vaccine's side effects are painful, they are really on the brink of death. There are no words to explain their pain. Because their profitable poisonous vaccine sales have damaged their entire life. Lots of parents have lost their children. Lots of Children have lost their parents. No amount of compensation can compensate for their suffering and pain. The vaccine causes lots of side effects, including deadly heart attacks, paralysis, neurological damage, Blood Clots, and more at the Young Age and Everyone.

There is no Protection, Security, and Safety for the World's Public People. There is no Protection for the World Public People. Public Peoples are Electing the Persons of Country, Those Elected Persons unleashing the police force, Beating the public people, torturing the public people, and Killing the Public Peoples. Those who all are getting the salary from the public people's tax money.

Those who are speaking against them, their tyranny, or Political Crimes are being surveillance, Mysteriously Killed, Oppressed, and Suppressed.

Everyone who speaks out against them is deliberately censored by the big tech social media. Including speaking out against their tyranny, Financial or Political Crimes being surveillance, Mysteriously Killed / Murdered, Oppressed, Suppressed, Politically Retaliated, Black Mailed, and Psychologically Tortured.

Kindly Ban the Biological Weapons, Gain of Function, and Deadly Dangerous Poisonous Vaccine. The Vaccine Causing Virus.

Acknowledgment,

The Above Statements, Information, or Comments are the Truth of my Occurrence in Real Life.

Final Comment: If the ICC / CID Investigated those individuals Independently the Future Generation will be Saved, World War 3 Will be Prevented, and There is no Future Bio War / Biological Warfare.

From the Start of the Document, I Shared the Lot's of Proof, Facts, Truth, or Evidence that Occurred Facts.

Thank You!

Yours Faithfully,

Rakhesh Jaghadish L
lrakheshjaghadish@gmail.com

Incident 1

Criminal Bribing of 14 Day Quarantine: And Increasing Count of COVID19 in Illegal Ways.

Location: India: In the Past, The COVID Quarantine has Happened and is Also Till Happening in China like Dictator Country.

The results came that many people were affected by COVID19 Coronavirus. I Heard that One of the Quarantine persons is telling me that, they were bribed by giving money to attend the Quarantine for just an Increasing.

They not even have COVID19 Coronavirus at all. So Totally is Proved that they Creating Panic, and Fear among the World Population for the greedy profits and their agenda.

They Told us that Three times Food is given we are happy. Quarantine Person: "There is Nothing the Problem." They are just increasing the count of COVID 19 Cases to create panic among the Public People's.

Information analyzed and taken by me to Report the alleged and Intentional Crime Against Humanity and Genocide, including I, attached all facts, and evidence of the Incident that Occurred.
All laws protect the corrupt, be it the inhumane politicians involved in the current world genocide, the greedy drug companies, the heartless media complicit in genocide, the governments that suck the people's blood, the bureaucrats who are paid off the people's tax money. All laws that protect corrupt should be broken.

Request, The International Court of Justice should conduct a free and fair investigation / trial against the perpetrators of genocider's of the Pre Planned Pandemic and be open to the public.

Final Declaration of This Document,

07-08-2022

Claims, and Proofs,

"We all the Evidence, Everyone is the Evidence of this Preplanned Pandemic"

Rakhesh Jaghadish L

The information in this Document is Truth of the Occurrence in this Real World. The Above or Below Information are Fact, Proof, and Unbreakable Evidence. This War is Planned, Plotted and Conspiracy to Cover-up the Pandemic Side Effects and They Used this War to Destroy the Evidence of the Bio Labs in Ukraine, Already China Destroyed the Evidence on 31, 12 2019. Now they are playing the Blaming Game by Blaming Each other to divert the Common Peoples / Human Beings.

All Global Leaders As well as Known as World Government Leaders, Politicians, and Big Pharma are Currently Using Blaming Strategy also called the confusing Strategy to Divert the Scenario That Happened in the Past 2 Years by Blaming Each Other.

First Blame is Started After Ukraine Vs Russia. They all Blaming Each other to Hide the Truth.
